MONDAY MAGIC

—GUARANTEED!

DON'T call your Meadows a dealer unless you are ready for surprises.

If you have any notions about what a washing machine may be expected to do, please forget them before you phone him.

For the new Meadows is guaranteed to produce Monday Magic . . . to wash more clothes in less time . . . with smaller effort on your part . . . than you believe possible.

The slippery, smooth, glossy Rubelite inspector in the new Meadows does truly amazing work. While it protects the clothes while washing, it does it so gently as you could by hand.

Call your Meadows dealer without delay.

These statements will be proved before your eyes. While the Meadows is priced no higher than the average Rubelite machine, none other has the Rubelite magic impeller, the big oversize tub, or comes with the largest washing capacity in the world. Attachments, if desired, make it a complete home utility unit to keep it dent-proof.

While the Meadows may be purchased on easy terms, still you won't be asked to buy. If this wonder washer delights you . . . this suggests to your dealer terms you would like to keep it.

pastor of the Thief River Falls Swedish Mission church since 1918, has served a congregation here the longest of any of the local pastors. Mr. Lundell was graduated from the Chicago Theological Seminary since when he has served parishes at Hallock and Jupiter, Stillwater, Warren and Viking, Bellingham, Wash, Ogden, Iowa, and finally in this city. He was treasurer and secretary and has been for 14 years, president of the Northern Red River Valley Scandinavian Mission association, of which he was also elected superintendent four years ago. He devotes half of his time to the district. Prior to his being superintendent, he served St. Hilaire and Lengby together with Thief River Falls. The veteran pastor was recently elected president of the local Protestant Ministerial association. When the Swedish-American 300th Anniversary movement was started last summer, Rev. Lundell was named chairman for this district.

Duluth man routs rheumatism. Recovers former rugged health. Thanks Tanlac for aid

Mr. Frank Wilkins, respected resident of Duluth, Minn., lives at 1801 W. Superior St. For nearly years he suffered acutely from rheumatism. He tells this straightforward story: "I was so sick with rheumatism at times that I could hardly leave my bed. I tried electric treatments and various remedies, but none gave me relief.

"The first real help I got was from Tanlac. After taking four bottles of Tanlac I was very much improved and could get about quite without any trouble whatever. My appetite which was very poor, improved greatly and I was able to eat anything I cared for. Tanlac drove the rheumatism from my system entirely. It fixed me up in short order. I always recommend Tanlac, and always will, for it was a great help to me.

"I give Tanlac full credit for helping me win my fight for health, and for the wonderful comeback I've made. I'm strong for it."

Tanlac is nature's own remedy, made from herbs, roots and barks, according to the famous Tanlac formula. Over a hundred thousand letters from grateful folks are on file, telling how Tanlac brought them back to sound health. Benefit from the experience of these people. Get Tanlac from your druggist today. Over $2,000,000 bottles sold.

BROBERG SUCCUMBS FROM STROKE SEVEN YEARS AGO

Christian Pederson Broberg, aged 66, died Monday night at his home in Kratka township, 12 miles east of this city. The end came rather suddenly after a long period of suffering, following a stroke seven years ago. He had been confined to bed and helpless the last three years. A large circle of friends mourn his passing.

Funeral services will be held tomorrow, Friday, afternoon at 1 o'clock at the home and at 2 o'clock at the Tabernacken Lutheran church, Rev. E. O. Sabo officiating.

Born at Grum, Hadeland, Norway, April 9, 1860, Mr. Broberg came to the United States at the age of 21. For 19 years he resided at Mayville, N. Dak., where he was united in marriage to Anna Berg, March 8, 1885. They came

The approach of spring—some call it spring—brings with it thoughts—and visions—of gardens.

Everyone realizes that, in most instances, it will be able to raise a good deal of ground carefully laid out with the proper hoist, "that is my opinion."

Gardening pays from whatever angle it is considered. The necessity of home grown vegetables was demonstrated in the days of the war when many people then got the garden bug and to such an extent that they now regard it as a part of their life routine.

The value of vegetables as food, especially for children, has proved an incentive to a greater effort to increase the interest of many people in growing much of their own foodstuffs.

The benefits are not alone in food produced, but in the exercise gained for the gardener is stimulated in both body and mind, in handling the ground and working it, preparing the seed beds and sowing and planting—provide a form of exercise that is most helpful and diversified.

STATE-WIDE FARM CONFER
RENCE CALLED FOR MAY 6

Representative agriculturalists from every county in Minnesota are invited to attend a conference to be held at St. Paul, May 6, at which will be discussed means for continuing and maintaining the campaign to place agriculture as nearly with the protected industries of the country.

This decision was reached at a meeting of the Minnesota Council of Agriculture, held Oct. 31, St. Paul last week. At this meeting resolutions were adopted condemning the action of President Coolidge in doing to the McNary-Haugen bill and expressing the determination of the Council of Agriculture to carry on its work with greater energy than ever, with a view to repassing the farm relief bill by a majority so large the President will not dare another veto. The council also voted to appeal to the legislature of the state for an appropriation to aid in completing the farm relief campaign.

The meeting was addressed by J. F. Reed, president and J. R. Jones, secretary of the Minnesota Farm Bureau Federation; Thomas Cashman, Owatonna, president of the Council; J. E. Wiggins, Lawrence; J. E. Martin, Minneapolis and M. J. Holmberg, head of the Minnesota department of agriculture. Present was Attorney G. Halvorson of this city. Pennington county chairman of the Council. Mr. Halvorson is also spending this week in the twin cities looking after business matters.

Schall Hearings Attended by Interested Throng

A. M. Archer, Traverse County, Tells All That was Claimed for Il-la Advance of the Investigation—Schall Prosecution Action Ultimate Financial Consideration—Indictments Will be Above $40,000,000 Limit of Governor.

By Martin W. Odland

St. Paul, Minn.—It looks as if the biggest grist of sensational legislation in the history of the Minnesota legislature is in process of formation as the end of the session draws near. Hundreds of bills are on general file, there are a few days of the two houses and the number will increase rapidly from day to day. Most of them are of little importance, but there are a few in the lot that ought to receive final consideration and which could have been acted upon if the lawmakers had taken their jobs more seriously, and had wasted less time on non-essentials.

The Schall investigation began Wednesday night, with Senator Blakemore of Anoka, president pro tem, attorneys, including the redoubtable Tom Davis, representing the blind senator; with another representing Maurice Johnson; with still another on hand to protect the interests of A. N. Jacobs, the chief witness, and with a sixth retained as the personal representative of Senator Victor E. Lawson, author of the investigation resolution. So, if the number of attorneys is a criterion, the investigation is to be a serious affair. Also, if the size of the crowd of spectators counts for much, it ought to be a most successful venture.

Now, interest attaches to the appearance of Tom Davis in the case. It may be that he appears just because he was offered a good fee; again, it may be that there is political significance attached to his connection with the hearing. He is very active in the Republican field in general and has come to make A. N. Jacobs realize that his present situation is not an enviable one.

So far Jacobs has been the only witness. Questioned by M. Kinkead, the Lawson attorney, he has told in detail of his relations with Senator Schall since 1914, how he became Schall in his "Minnesota Harpoon" while the Senator was in congress; how he was the senator's chief worker and lieutenant in the special senatorial primary of 1922, when Schall was picked for the Republican nomination for senator; how he took the leading part in the campaign of 1924, both in the primaries and at the general election; how he established headquarters in the Ryan hotel and paid expenses by money received from various individuals, mostly Minneapolis grocers, and others who had trouble with the federal government in connection with the sale of intoxicants; how he told Schall about certain persons willing to give to their campaign, if they "Dutch Rose" how Schall contributed $50 to the campaign fund and promised to see that it was not used improperly, that the money was used properly, that the money was used properly, that the money was used proper

MRS. QUAMME GIVES INSPIRING TALKS

Duties of Parenthood Stressed by Former Minnesota P. T. A. President

The history and success of Parent-Teachers associations were most delightfully reviewed in a talk before the Pennington meeting by Mrs. E. G. Quamme of St. Paul, executive secretary and the organizer of the Association for Crippled Children and Disabled Veterans, in the high school auditorium one evening last week. Mrs. Quamme was one of the most inspiring of the speakers who have been heard and enjoyed by the 100 persons in attendance, who realized to their fullest extent a deeper appreciation of the responsibilities and duties of parenthood.

Mrs. Quamme, who for five years served as president of the Minnesota Congress of Parent-Teachers' associations, and who is known throughout the state, which she visited annually, and in a talk at the Commercial club luncheon explained the need of more activity in behalf of crippled children. While in the city she visited in the Dr. H. W. Freadrich home, going from this city to Bemidji where she fulfilled another engagement.

A juvenile delinquency is on the decline, according to Mrs. Quamme's statement. She challenged reports to the contrary, which are making it seem that the youth of today is much worse than that of a generation ago.

Parenthood is the biggest job in the world, said Mrs. Quamme, and it is then unfortunately it is a job for which people have had no training and are the least prepared, she explained. Instead of the average child from its birth until it is 18 years old spending only one-twenty-sixth of its time in the school, he uses the rest of the time for the supervision by the parents. The parents, she said, have more than that is charged to the school for aid.

The most important thing in parenthood is to understand the child, Mrs. Quamme said, and to realize that the time when they are the most influential is undoubtedly not and the most performance in between the ages of 12 and 16 years, inclusive as well as girls are individually different.

Parents were urged to co-operate with their children in their studies.

A very pleasing feature of the program was the singing of solo by Irene Hanson, third place winner in the recent Chautauqua music memory contest in Minneapolis, which was open to members of the Junior High school. She also rendered a solo which, it was remarked by many present, were much enjoyed.

All the business matters of a vital nature to the time of the annual meeting in November in May, give the officers opportunity, it was stated, to an active year's program of the association. The annual election of officers will be held next May.

The next meeting of the association will be held April 4, when Miss Bertha Heide, dean of the extension division of the North Dakota agricultural college, Fargo, will be the principal speaker. She delivered the address.

"Five years the Minnesota Conference for the Disabled has been meeting annually to discuss ways and means of improving the service for the state's crippled children," said Mrs. Quamme, "and the children are finally receiving it."

Much interest in the turkey raising industry was aroused by the agricultural extension division of the university, as outlined here by Dr. W. A. Billings, poultry specialist, is reported by County Agent J. McCann who is enrolling Penniston farmers. He has already 18 have signified their willingness to co-operate with the university division in raising turkeys on the semi-farmers plan.

A large number of farmers in this territory are planning to raise turkeys this year, according to the county agent, and dealers who anticipate a favorable season.

BIG ALFALFA ACREAGE GAIN IS INDICATED

Reports to County Agent Assure Planting of Many New Acres in Pennington

ACREAGE CONTEST IS STIMULATING INTEREST

County's Leadership in Alfalfa Acreage Per Farm Certified by State Leader

Questionnaires sent to 1200 Pennington farmers in connection with the alfalfa planting contest sponsored by the local alfalfa committee and agricultural extension service, are being returned to County Agent J. J. McCann, and judging by early returns there will be a big increase in the alfalfa acreage of this county during 1927.

A large number of the farmers who have signified their intention to put in alfalfa this season in proportion to the size of the farm. Details of the contest, which is open to every farmer in Pennington county, will be distributed were announced in The Times last week.

Each mail brings additional returns, Mr. McCann reports, urging farmers to fill out the blanks as soon as possible. Assistance will be given in securing data.

Information as to the alfalfa acreage winter killed, the acreage of sweet clover, and expected acreage of potatoes is also included in the questionnaire.

F. E. Balmer of St. Paul, Minnesota county agent leader, in a letter to Mr. McCann says: "I have received and read with interest your alfalfa acreage circular letter of March 21. You people certainly are to be congratulated on the progress you have made in increasing alfalfa acreages in Pennington county.

"When you receive the April 1 issue of the Minnesota Extension Service News, you will be very much interested in a timely statement on the long main alfalfa development in Pennington county, according to Manager A. J. Hansen. Needed supplies and facilities will be provided the Red Out by the change.

DELEGATE TO ROTARY MEET

T. H. Herrick, ex-officio Tuesday elected Dr. Ben Dean the local club to the Ninth district Rotary convention to be held in St. Cloud May 2-4. H. L. Nelson was named alternate. Many other local members plan to attend, expecting to make the trip by car.

Boys and Girls Attending Short Course at Crookston

About 15 Pennington county boys and girls are this week attending the 16th annual junior short course which opened at the Northwest school at Crookston, Monday. More than 200 from all parts of the valley are enrolled in the course, which includes practical instruction for farm boys and girls.

Much attention is given to club work and girls' club work, a special conference for county agents and local leaders being held today, and Miss Ruth Bacon, for 4-H Club Programs for 1927, as the local county agent. Erick Erickson of St. Paul, state club leader, and H. A. Pflughoft of Crookston, district leader, are assisting members of the Northwest School staff in conducting the course.

The Northwest School senior class play, "Anniversary," which Miss Vivian Olson of Thief River Falls is a member of the cast, was presented Monday for the benefit of short course visitors. Last night it was presented at Euclid.

Eight Grygla and five Goodridge juniors were in the city Monday on their way to Crookston.

Large Crew at Work Excavating for Dam Project

Excavation for the new power house in connection with the city dam improvements was started this week by the McKenzie-Hlavac company of Minneapolis. A large derrick is used, the boom of which was in the air for here some years ago and has been stationed near the Soo freight depot since. The dirt is being dumped into the old mill race.

A crew of more than a dozen men are already employed on the project, under the supervision of Mr. Hlavac of Moore of St. Paul, and about 10 more will be added when the work gets fully underway. The only out-of-town men employed are M. Jacobson of Minneapolis, timekeeper; B. A. Moore and Gonnerd Fost of St. Paul; Frank Schmider, St. Paul, foreman; and Leo Weitzel, also of St. Paul, blasting engineer. Local men employed are: Clarence Benston, Nels Syverson, J. A. Burrell, C. J. Bagger, Chas. Hovejeh, John M. Olsen, Christ Windevec, and Alfred Bugge. Numerous requests for jobs have been received.

The office and shop have been erected on the grounds. Many visitors watch the excavating each day.

NEW RED OWL STORE QUARTERS WILL BE FIXED UP

The Morgan Variety stock is this week being closed out by Stephen Bieger of Erskine, who employed eight clerks at the opening of the sale Tuesday. The sale closes Saturday, so that the quarters may be vacated by April 5 when the building will be taken over by the Red Owl Grocery company. The interior will be entirely remodeled, and fixtures for the building will be installed, and the display windows will be remodeled by the Red Owl company, according to Manager A. J. Hansen. Needed supplies and facilities will be provided the Red Out by the change.

Greenbush Man Joins Burstad; Leasing Aga Garage

A partnership was formed this week by E. B. Burstad, well known auto repair man of this city, and Andrew Nelson of Greenbush, motor, expert repairer and expert welder who was here Tuesday. They have leased the Aga shop on Second street, formerly known as St. Bernard's school. Mr. Burstad is moving into the new quarters this week and will start auto repairing, but Mr. Nelson will not move to this city with his family until the last of May. They will operate a general machine, auto repairing and welding shop.

Mr. Burstad has been engaged in auto repairing work in this city for nine years. During the last winter he has operated his home on Tydolph avenue south.

STEREOPTICAN LECTURE ON THE PHILIPPINE ISLANDS

It may be surprising to know that there are 900,000 Mahammedans under the American flag in the Philippine Islands. This forms an important part of the problems connected with governing these possessions, of course. It is a duty as citizens to know more about these islands that our humanity is given through a stereopticon lecture given at the Presbyterian church Sunday evening at 7:30 P. M. which shows the conditions as they exist and the effort one denomination is making to solve these problems. The public is cordially invited.

LOCAL BOYS ENTERED CLUB TO ATTEND A. C. SHORT COURSE

A number of Pennington county boys and girls are planning to attend the 16th annual junior short course at the Northwest School, Crookston, to be held from the last part of March to March 23-April 1. Members of the Northwest School faculty and other instructors will be there to help and supervise the instruction in matters pertaining to the home and farm together with an interesting recreation program. This course will be represented in previous years, club workers being especially interested in making this attractive at the beginning of the season.

CONSIDER FREIGHT RATES

F. H. Herriot, Main Ravsen, Sr., and A. M. Olson were in Bemidji Monday to attend a conference of representatives of Minnesota shippers with Farge representatives. The Pennington group refused to accept the responsibility for the increased and discriminatory freight rates and refused to negotiate in order to adjust matters. The meeting merely resulted in their remaining against Fargo.

"IT'S LIKE TAKING A VACATION," SAYS JUDGE

Pennington County and Thief River Falls officers are benefiting and pay their bills on the spot, says K. W. Tvinnereim

Pennington county and Thief River Falls officers are benefiting financially by the speedy court here in the matter of fees, K. W. Tvinnereim, county judge, declared this week. Up to march 30 there had been only five criminal cases in his court, while but four cases had been entered on the civil docket for the year.

This is an unusual record and does not indicate that much should be done, Tvinnereim asserted, but it does indicate that the county pays for what it gets.

There were no civil suits filed in municipal court in January, two in February, and two during the first half of March, all for small amounts. The criminal cases included two for transporting liquor, one drunk, one violation of the pure food laws and one assault.

The police reports only three arrests, including one for drunkenness and a first violation here for the Marshall county authorities.

It was easy to make a living from court fees in the early days, stated Judge Tvinnereim, but now a judge is merely a fee-collecting machine, which is not such an attractive position for starvation for the judge. As will be noted, the act of 1927 recently carried a summary of the number of cases handled in municipal court annually prior to the time of prohibition, showing that the judge was more a busy man.

COUNTY TO RECEIVE BIDS ON ROAD JOBS

Commissioners Convene Next Thursday for Letting; To Bemidji Next Wednesday

Members of the Pennington county board of commissioners will meet in this city next Thursday when they will receive bids on three state aid roads, according to a statement of The Times. Indications are that there will be a good number of bidders on the projects, which total 11 miles of construction slated by Highway Engineer R. F. Hilstad to cost an estimated $90,000. It is expected that bids will be received on the work estimate as in former years.

Wednesday, April 6, members of the county board, Engineer Hilstad, and Auditor T. E. Jacobson will go to Bemidji to attend a meeting of the Beltrami county board at which time bids will be received and opened in connection with the road to Red Lake marked for the 1927 construction season. The commissioners are the speaking of two miles of road in Beltrami county, one mile each on the north and south sides of the road, one mile west from the narrows, and a 10-mile stretch directly on the Indian reservation about 33 miles east of Thief River Falls to provide drainage for the road which runs up into the Red Lake road.

The Red Lake road proposition was discussed at last Friday's Commercial club luncheon and a committee composed of Ole Hatzler, chairman of the good roads committee; Ralph Barnes, Jr., and Carl Ostwick was named to attend the Bemidji meeting on the 6th. They intend to go Tuesday, accompanied by L. B. Johnston.

PAVING JOB GIVEN GRAND FORKS FIRM

Council Awards Contract for Four Blocks Concrete Paving at $23,498.

PROJECT TO BE FINISHED BY JUNE 15

Cost of 18-foot Strip to be Reimbursed by State for Part of Highway

Nearly four blocks of pavement will be added in Thief River Falls this summer, the city council Monday afternoon awarding the contract for the paving on Main and Riverside streets south from the Great Northern tracks, to the Northern Construction company of Grand Forks, N. D., at its bid of $23,498.38. Work on the project will be started at once, the contract calling for completion by June 15.

The new pavement will be of 7¼ inch reinforced concrete, 80 feet wide, according to specifications approved by the state highway department.

The pavement will be laid on a strip of trunk highway No. 32, the state highway department will reimburse the city for the cost of 18 feet of the 24 feet, the balance being assessed to adjoining property except for the intersections, which is charged against the city. The new pavement will connect with the six-block stretch on Main avenue from the Great Northern to Ninth street, and with the state aid road to the 15-mile strip. The legislative bill providing for reimbursements on paving projects was signed by the governor.

Bids for the paving were opened March 22 and meetings were held the 23rd and 24th before a decision was reached on the contract. Members of the council in the matter will be found elsewhere in this paper.

The Grand Forks firm's bid was on the basis of 6.65¢ per square foot. The next lowest bid was $24,000, followed $25,000 with a five bond up to $30,000 the highest. The engineer's estimate was $25,000. The successful bidder is required to furnish a $2,500 bond.

It is understood that the Grand Forks firm has the gravel for the job on hand, and will not have to haul the figure would be much lower. The successful bidder is handed into the old tail-race below the Model Steam laundry.

Pennington Assessors to Meet in T. R. F. April 28

Assessors of Minnesota are giving school, meeting assessors and reviewing instructions from members of the state tax commission in an effort to bring uniformity in the values placed on personal property when the assessors start their statewide canvass May 1.

Assessors were appointed in more than 12 county seats last week and they will continue in other localities this week and next, in order to secure a clear understanding of the law on the part of those valuations. The schedule for meetings includes a session in Pennington county assessors' district—April 28—in this city. The Red Lake county assessors will meet on the 22nd and the Marshall county assessors on the 27th.

The schools are conducted by three commissioners, J. G. Arneson, chairman; C. B. Bjornson and J. H. McNiven, together with N. A. Nelson, secretary of the tax commission, and H. B. Bacon, members of the office staff. It has not been announced who will appear here.

Instruction in an attempt to obtain uniform taxation in all parts of the state and to avoid work on the part of reviewing boards in making adjustments for individual taxpayers is the aim.

Assessors will begin the annual job of personal property valuation May 1 and the first June 1 report must be complete. Then they go to the county villages and city boards of review where differences between individual valuations are adjusted.

With this complete the county boards of commissioners, sitting as boards of equalization, make such adjustments as relates to the difference between political units under its jurisdiction. Finally, in September, the tax commission revises the reports. The commission makes adjustment in theory on the basis of the relation of county to county.

BIG HEN TO HATCH FIRST CHICKS HERE NEXT WEEK

The last of the 16 compartments of the 6,400-egg incubator of the Thief River Falls Poultry Co-op was filled today and the first hatching is scheduled next Tuesday, according to Manager Gunstenson. Orders for day-old chicks are coming in very satisfactorily, he says, urging that orders be placed early to insure delivery when desired.

The incubator, which is stationed in the co-op building, cost about $1,500. It is supplied with heat by means of a piping system and a hard coal burner and a mechanism controlled by turning a crank is used in turning the eggs. After next week Mr. Gunstenson expects to have two hatches a week.

TRUDEAU FURNISHES BAIL

Joe Trudeau, proprietor of the soft drink parlor on the corner of LaPres ton avenue and Main avenue, put up $500 bond fixed by Judge N. W. Tarnum in municipal court for his appearance in the next term of district court to answer to a charge of transporting intoxicating liquor for sale. The bond was signed by Ole Liberty. It was said Dr. H. E. Lowell, Trudeau was arrested by Sheriff O. L. Ihle on February 19 and given a hearing in municipal court on the 17th, but did not furnish bail for his liberty until last week.

PT.A. WILL HEAR GR. FORKS WOMAN

M. Beatrice Johnstone of U. of N. D. to Address Meeting Monday, April 4

An interesting and worthwhile message is assured for next Monday's meeting of the Parent-Teacher association when M. Beatrice Johnstone of the extension division of the North Dakota university will deliver an address on "Parent Education" in the high school auditorium, commencing at 8 p. m.

Miss Johnstone, who was formerly superintendent of the Grand Forks county schools, is an excellent speaker and addresses gatherings of this kind frequent the northwest. She delivered the commencement address at the high school graduation here last June and was well received.

The program will also include musical selections by the Junior High Girls' blue club and other numbers, the details of which will be the usual social hour and lunch.

OPEN BARGAIN BASEMENT

Large numbers visited the bargain basement of the Fair Store store at the opening of the big sale Friday morning and it will remain a permanent part of the business, says Percy Fossett, proprietor. He offers notice to feature special bargains in this department each week.

LIGHTER PROGRAM FOR BAND CONCERT

Group of Snappy Selections Arranged for Tonight; Tuesday Sign up for Year

As a contrast to the other concerts, the municipal band will present a lighter program than usual in its concert tonight at 8 o'clock at the auditorium. Nearly all of the numbers have been selected from the following: Semper Fidelis, Sousa; "Princess of India," King; "Wedding of the Rose," Jessel; "Slim Trombone," Fillmore; "Cupid's Garden," Eugene; "Thunder and Blazes," Fucik-Laurendeau; "Songs, Selected, by Quartet"; "Light Cavalry, Overture," Suppe; "Popular For Trots"; "Barcelona"; "Idolizing"; "Great Lakes to the Sea," Klemdenne; "Star Spangled Banner."

As a result of the band's activities in the city last night, the membership has been increased to 30 members, according to Director Ole Hatzler, and it is expected that the number will be increased to 40 by the end of the month. Tuesday evening the band will sign up members for the year, Director Hatzler announced. The membership campaign will be conducted by Bandsmen Ralph Barnes, Jr., and Carl Ostwick.

The band has been practicing for the past two months, and has made rapid progress, Director Hatzler declares. Practices are held every Monday and Thursday evening at the city hall.

APPEAL HEARD THURSDAY

An appeal for an amended order or a new trial in the case of Pennington county against Ole Hatzler, et al, dated School District No. 8 of Goodridge vs. Nick Sundhoved and the Federal Surety Co., was heard in district court before Judge Andrew Quinlivan at Warren Thursday. The court had ordered a verdict for the school district following a trial in February and the appeal was entered by the surety company.

JUNIOR CLUBS BEING FORMED IN PENNINGTON

Boys and Girls Enroll for Club Work to Get Early Start in Their Projects

PFLUGHOEFT, DISTRICT LEADER, VISITS COUNTY

Thirty Memberships Signed up at Goodridge Sitters in Poultry Club Here

Boys' and girls' club work for the 1927 season got under way in earnest in Pennington county during the last week, and judging by the early enrollments by County Agent J. J. McCann, this year will show with another county agent in charge a much greater accomplishments than in the past.

H. A. Pflughoeft of the Northwest school at Crookston, district club leader, accompanied by Miss Mildred Hanson, state extension worker, was in the city Monday and met with Mr. McCann regarding plans for the year.

They addressed a meeting at the Goodridge Schoolhouse Monday evening, following which 30 memberships were signed up in the various clubs, by Erick Erickson, Oscar R. Smith, Dr. G. E. Bye, who while there helped in getting everything here done to make 30 memberships, and Middle River county with something of interest to every-

The county has been organized into the following clubs: Poultry, Sewing, Cooking, Calf club, Pig club, Garden, Potato, Corn, Canning, Room Improvement, Birth Methods, and Community Improvement. Assistant leaders in charge of the various clubs are: Clara Gjerde, Esther Halvorson, Alice and Gladys Mortenson, Hazel Lovaas, Ruth Lovaas, Ruth Lovaas, Ruth Lovaas, Warren Sully, Vaughan Wiest Hall, Sylvia Peterson and Helen Lovaas.

In addition to these, Mr. McCann reports 28 enrollments in his office up to yesterday. The poultry club with 30 members signed up at Goodridge last night is the largest club in the county, he says. "The hay produced from the average acre of alfalfa in Wisconsin has as much feed value for dairy purposes as three tons of timothy," is the opinion of L. Grant Middleton, specialist in the Wisconsin College of Agriculture.

"What the chiropractor has against the value of alfalfa is evident by the heavy increase in acreage devoted to alfalfa. In 1924 there were 1,500,000 farmers raised 150,000 acres. The 1924 acreage had increased to 977,000 acres and the new seedings brought the acreage to about 400,000 for the 1927 season.

"The high lime and protein content of alfalfa has by itself makes it valuable as a food, as these nutrients are found in small amounts in most feeds and must be supplied by purchasing expensive concentrates.

"In tests conducted by experiment stations, it has been found that where alfalfa has been substituted for bran the latter has taken a slight increase in milk flow has resulted.

It will call the account closed. Good-bye."

A live newspaper is a big asset to a town, provided it has the best interests of the town at heart. The home paper can do more to boost than advertise a city than any other single item. To do this effectively, the co-operation of all business and professional men and the citizens in general is necessary. If you think of anything that will help to improve the paper of the town, tell the editor in a friendly way. It will be appreciated.

Senate Finance Committee Defies State Administration

Legislative Appropriations
Governor Vetoes Bill, Enjoins Session of Legislature
Recall Investigation May be Continued
Called to Page Four 362.

By Martin W. Odland.

St. Paul, Minn., March 22.—The controversy between the finance committee of the state senate and the state administration took a decided turn here Tuesday, when by the decisive vote of 12 to 6 the senate committee defeated the governor-Eidelen bill decided to frame the educational appropriation bill in such a manner that Governor Christianson must either accept or veto the bill in its entirety. All the items are lumped together in one sum, and it will be impossible for the governor to take his scissors blade and cut out one allowances here and another there. Of course, the grand total was not reached by guess work by the solons. That total was obtained by adding together a multitude of carefully determined sums or items. The total is something like $4,800,000 larger than that of the educational appropriation bill prepared by the "Big Three" and approved by the governor. The deficit in the state aid for schools, which has been accumulating the past two years, because of governor's veto of two years ago and the stinginess of the last legislature, is made up in the senate committee's bill and enough is allowed for the coming biennium to forestall future deficits.

The vote in the senate committee on this proposition was as follows:

Ayes—Senators Child, Johnson, Putnam, Rosenmeier, Seviine, J. D. Sullivan, Twing, Widell, Zaeske, Rocke.

Nays—Senators Carley, Donahe, Lilygren, Long, MacKenzie, Orr, Rivestad.

Absent—Carley, Donahe.

It is quite certain that the bill as reported to the senate by next day will command a majority in the body. Senator Christianson was in the city and will be taken up by the appropriations committee at that body. Governor Christianson was for eight years the chairman and which is controlled by his friends, it is said. That committee will, in all probability, amend the bill by striking out everything after the title and substituting a bill of its own, which the house, also controlled by the governor's friends, will pass. Then it will go back to the senate for concurrence in the amendment. That body will, of course, refuse to concur, and the fight between the two branches will be taken up by a conference committee. The battle lines of will be staged, no doubt, with Eschne as the chief spokesman for the senate.

If the senate wins the fight, Governor Christianson will be up against a stiff problem. If he approves the bill he will have to acknowledge defeat—the first in his career as governor. If he vetoes the bill, in extra session will be necessary, for it will be impossible at this session to pass a new bill satisfactory to the governor.

As amended, the senate educational appropriations bill carries $14,769,324 for school aid, or $3,769,325 more than the budget recommended, while new items of $200,000 for a building at the St. Cloud Teachers College and $160,000 for one at Moorhead, also new buildings at the Crookston and Morris branch schools of agriculture.

Minnesota as a state would help finance the fight for the McNary-Haugen bill if the legislature approves a joint resolution offered in the senate Tuesday. It creates an "agricultural Equality Commission," and a companion bill provides $20,000 to pay its expenses for the coming two years. A similar resolution was to be presented to the house late today.

The Schall investigation by the senate committee bids fair to outlast the remainder of the session. Only one witness has been heard as yet, A. N. Jacobs, and it is certain that he will occupy many more days before he has answered all the questions put to him by the various attorneys. So far, the questions have all come from Mr. Rinkead, representing Mr. Lawson, author of the investigation resolution, and Senator Chrley, a member of the committee, who put on a big investigation of his own into the campaign expenses of the Republican four years ago, and is therefore an old hand at the investigation game.

TW Yeterday all of the hearings have been held in the evenings. Beginning on Thursday, however, the hearings will be held in the afternoon, with every seat available open to the general public.

Tom Davis and Senator Schall are the interesting figures at the hearings. Davis is apparently at the fight heart and soul, and he does not show his contempt for the man that he considers responsible for his defeat and is apparently the cause of this new rumpus. Once he referred to Schall as "that" and when questioned against using disrespectful language, he explained by saying that he owed an apologies to the committee but not to the "that." Schall evened it up somewhat at the hearing Wednesday afternoon by showing with intense feeling that he is a gentleman. Davis, however, also declared that he had read his Mogens Johnson story, but "that is Schall, who approved it and answered them to publish it in the little publication, "Sendaut" in 1925. That was the story which led to Jacoby's conviction of criminal libel and for which he served a term in the Hennepin county jail. Since it developed that the "Magnus Johnson who stepped out"—that is, got drunk in Minneapolis and was lodged in jail—was not the former senator, but a farmer of the Albert Lea parentage.

The senate's "small loans" bill sponsored by Senator Russell Rage-Fondelier, which was mentioned frequently in these letters during the session, was killed in the senate by the committee's report of two days ago and the almightness of the last legislature, is made up in the senate committee's bill and enough is allowed for the coming biennium to forestall future defeats.

The vote in the senate committee on this proposition was as follows:

Ayes—Senators Child, Johnson, Putnam, Rosenmeier, Seviine, J. D. Sullivan, Twing, Widell, Zaeske, Rocke.

GIVEN PROMOTION

Allison R. Sills, son of Mr. and Mrs. J. L. Sills, 901 LaBree Ave. N., has been selected by The Dewey Trees Seed Co. of Lodi, Ohio, La Crosse, Wis., in charge of one of their new machines now in the field this year to do cavity drilling in tree surgery work. These machines operate by air, the compressor being mounted on a Ford truck. Mr. Sills graduated from Lincoln high school with the class of 1923 and has been with the Dewey Co. for two years attending the summer schools in the winter and has been doing field work in the New Jersey district the last two years, acting as foreman last year, and expects to be located at Orange, N. J., this year.

ISO-VIS MOTOR OIL

Proves a "Lubricant Marvel"

—Men are amazed at the results they get from the new motor oil, Iso = Vis. Thousands of letters, like the one below, voluntarily written to the Standard Oil Company (Indiana), praise this new product.

"Tolerton and Warfield Co.
Wholesale Grocers
Sioux City, Iowa.

"Standard Oil Company,
Sioux City, Iowa.
Gentlemen:

"I have been so profoundly impressed with the superior qualities of Iso = Vis as a cold weather lubricant that I am pleased to drop you a few lines in commendation of the new lubricant marvel. Have been using Iso = Vis throughout my Buick 48 and at 12 below zero had not the slightest difficulty with the lubricated parts of my car.

"I certainly hope that your success with Iso = Vis is 100%, as it has served me 100% and fulfilled a long-needed want.

Sincerely yours,
(Jan. 8, 1927) J. E. Packer"

Iso-Vis "fulfills a long-needed want" by solving the old problem of dilution. It maintains constant viscosity—never thins out—*always* lubricates efficiently! Try Iso-Vis—and you'll praise it, too! 30 cents per quart is a trifle higher price than for ordinary oil—but the cost per mile is a whole lot lower!

Iso-Vis "F" for Fords.

LOCAL STUDENTS AT A. C. GIVEN AWARDS

Scholarships and Honors Won by Pennington Youths; Selvig Honored by Class

Events of commencement week at the Northwest School of Agriculture at Crookston were ended last Thursday night when diplomas to 79 graduates, including eight from Pennington county, were presented by Congressman-elect C. R. Selvig, retiring superintendent of the institution. The commencement address was given by Dr. Lloyd H. Risting, St. Paul. Other numbers included the class address by *Arnold Aakre of Thief River Falls.* After presenting the diplomas Mr. Selvig announced the awards and scholarships for the year. These were given in scholarship to Jahnsal of Fleming, Kennedy, and Sandal Swanson, Gary of the senior class; George Nelson, Angus, and Alla Merrell, Fertile Valley, of the junior class and Laurits Mikkelsen, Hawley, and Emma Letnes, Thief River Falls, of the freshman class.

In the awards for the best home projects, Carl Widseth, Gonvick and Vivian Olson, Thief River Falls, won the honors, Awards in music went to Doris Olson, Fertile; Lillian Rakness, Erskine and Oscar Nordon, Clearbrook. The winners of the domestic arts awards were Doris Olson, Fertile; Elida Erickson, Clearbrook; Wesley Sheldrew, Oregon City, Oregon; Genevieve Bagley, Ada; and Joseph Sletteth, Twin Valley. In debating the prizes went to Elmer Arneson, Clearbrook; Carl Wilseth, Fertile; Ida Haugen, Thief River Falls; Loren Parker, Euclid; Mabel Fletcher, Bagley and Melvin Hale, Stephen.

Among those in attendance at the graduation exercises were Elmer Aakre, father of Arnold Aakre; Mr. and Mrs. Lawrence G. Olson; and Mr. and Mrs. Evenson of this community.

The majority of Pennington county students returned from Crookston today.

Over the unveiling of an oil portrait of Mr. Selvig took place at the Northwest School last week as an impressive matter, which was another evidence of the high esteem in which the retiring superintendent is held by the students of the institution. The portrait is the work of the class of 1926 and was been painted by Arne Berger, noted Minneapolis artist. The unveiling ceremony was held in the school during hall, with T. M. McCall acting as chairman. The picture was accepted by Miss Agnes Lee of Middle River.

After paying tribute to the work of Mr. Selvig during his 17 years of service at the school, Mr. McCall introduced R. B. Dunham, who as class advisor for the class of 1926, presented the picture.

Mr. Dunham reviewed the progress of the Northwest School from the time Mr. Selvig became superintendent. At that time, he said, there were only two buildings and the institution was considered almost a failure. The growth since 1910 has been so phenomenal that Mr. Selvig's retirement can never cover his relation with the institution. Mr. Dunham then spoke of the personal contacts Mr. Selvig has maintained with students, faculty and the people of the Northwest. In this connection, Mr. Dunham, the memorial should be considered a diploma, marking the completion of one era in the history of the school and its former superintendent. In conclusion, Mr. Dunham said that he hoped the picture would inspire future students in the same manner as Mr. Selvig in person has inspired the students during his period at the school.

In his response Mr. Selvig said that the memorial should be considered as an institutional honor rather than personal, and spoke on expression of approval and loyalty that have come through co-operation from many sources. Mr. Selvig then presented the future ideals of the institution. These, he said, should be a student body having a vision for high ideals of conduct, service, truth, tolerance and service. It should also have the ideal to train for service in the building of character and a right outlook on life. There should be an ideal faculty and Mr. Selvig said he would be living manifestations of the ideals of the school. Finally, said Mr. Selvig, there should continue co-operation between the school and the community.

In conclusion, Mr. Selvig spoke of the community's part in democracy and the creation of right leadership. The community's interests from the school and its students he said, the spirit of unselfish service, loyalty, goodness of heart, charity, unselfishness and the desire to exalt the good and shun the wrong. Decisions will be made by the students of the community themselves, said Mr. Selvig in championing the economic affairs of the farmer. Only then can he bring out within the lands of your youth as your guide through life.

Highway Commissioner Babcock has issued a plea to motorists to keep heavy motor busses and trucks off the paved highways at this time when the frost is drawing and the ruts made by the heavy vehicles cut up the road badly and make it impossible for even the lighter cars.

J. C. Penney Co. Celebrating Its 25th Year

The Company's Local Store Uniquely Decorated for the Occasion.

Instead of the usual red, white and blue banking employed for celebrations at the time of sales and anniversary celebrations, the local store of the J. C. Penney company is recognition of reaching the 25th or silver year in the history of that Nationwide institution is showing a decorative idea on the *front of the store* and the interior of its show windows, distinctly different from anything heretofore attempted in town. The color scheme being silver-finish basic in keeping with the company's silver anniversary.

Large shields finished in silver, gold, blue and black are used prominently. These links are disposed across the shield and within the center link is a picture of the Company's first store in 1902, the center link has a picture of one of its modern stores of today and in the lower link is a picture of the company's mammoth 16-story steel and concrete warehouse and office building in New York.

From these shields three strands of yellow roping are fastened to two large shields, one of which is inscribed "1902" and the other "1927," twenty-five years since the company was established.

A similar arrangement also is used in the interior of the show windows on a background of dazzling silver tinsel cloth. The effect obtained is decidedly striking.

April 1 to be a gala time in all of the 778 stores of the company, which are scattered throughout the country.

Following its well-established custom, local store is not to hold a sale nor in any other way depart from its usual business, but is adhering to, but in conjunction with the other stores in the organization, it has assembled attractive stocks of spic and span new merchandise, prominent among which are many numbers representing stupendous purchases specially for the company's celebration.

For a memento-offering, the company has made ready to distribute and selecting a beautiful pattern in a sterling silver electro silverplate tableware. This is befitting the occasion, being silverware for a silver event.

Manager Nelson said yesterday that the executives of the J. C. Penney company had been planning for the celebration for more than a year. "But," he added, "after all, the celebration is to be more a recognition of the generous response that has come to our efforts and an expression of our thankfulness and appreciation to the public, than a mere scramble for business.

"In turning this milepost in the history of our company," he continued, "we are planning for the future where greater responsibility will rest upon us for it must be admitted that as our rapid growth and expansion we must make our service better and better or suffer a re-action which will undo much of our accomplishments of the past.

"No business can stand still. It must go forward or fall behind. Naturally we shall work hard to push forward. My home is here. My financial interests are here. There is no place that I can think of in which I shall rather live than here. The people here have given me every encouragement by serving them better day by day in every way. I expect that the local store of the J. C. Penney company will not only push forward in the confidence of the public but will take its place side by side with every interest that has local betterment at stake."

In Marshall county the births totaled 435 in 1926, as compared to 146 deaths.

ST. HILAIRE

Funeral services were held Monday afternoon from the Norwegian Lutheran church for the late Mrs. Johannes Nyr, Facebook local pastor, officiating. Interment was made in the Fosston cemetery.

Mrs. Joseph Johnson is one of the old pioneer residents of this section of Minnesota. She was born Feb. 2, 1840, in Halfgaard, Norway, in 1848 she came to America and settled in Wisconsin, with her parents. From there they moved to Worth County, Iowa, where they resided for many years, and in '82 moved to Wells County, N. D. In '91 she moved to Mrs. Langseth county, where she and Hansel until two years ago when they moved into St. Hilaire. She leaves to mourn her death her husband and three children. Decent of the children are, Mrs. O. Johnson of Great Falls, Mont., and Mrs. Lena Sanderson of Minden, Sask., Canada.

EARLY ST. HILAIRE PIONEER MRS. LEWIS CALLED TO REST

Word was received this week by County Commissioner Chas. T. Thompson of Goodridge that his sister, Mrs. P. G. Lewis, one of the early resident of this county died in a Chicago hospital following an operation for cancer. Funeral services were held Tuesday at Sheldon, St. Paul. Mr. Thompson leaving Monday to attend.

Mrs. Tilda Lewis was born in Norway 63 years ago, coming to this country in 1881, locating in Evansville, moving to Sanders township the year following. She was married to P. G. Lewis of St. Hilaire, one of the early pioneers of this vicinity, who, it is said, erected the first frame building at St. Hilaire. Moving from St. Hilaire, Mr. and Mrs. Lewis made their home for a number of years at Milton, S. D., until death overtaking Mr.—Lewis—three, eight years ago. Since that time Mrs. Lewis has made her home with her daughter in Chicago. She is survived by three children, Arthur and Eleanor of Chicago, and Mrs. Thorfin Gleim, of Glenwood. Her mother, Mrs. A. Thompson of Minneapolis, is alone. Mr. E. Anderson of Minneapolis and Mrs. Alexander of Georgia, of Orlando, Calif.; Guest of Arthaer; and Charles, of Goodridge.

LUTHER LEAGUES SIGN UP RECORD MEMBERSHIPS

The "Oldenaalle Optimists," captained by Elaine Evenson, won the membership contest staged by the Trinity Seminary Luther League, having signed up 153 members when the contest closed at the Tuesday evening meeting. The "Pulpit Pessimists," headed by Morris Owen, took "off for behind, finishing with 131 members, thus losing a record membership for the league, the honor will certainly be the winners' next meeting, April 21.

Dr. A. E. Sexsmith addressed the league on Tuesday, discussing "Every Luther Leaguers Should." Observed Lent," declaring that it should be a season of devotional Bible study and prayer. Violin duets were played by Everett Overland and Junior Lervick.

The Foster Luther League also lost closed a membership contest, the teams headed by Lucy Oden winning with 54, as compared with 37 credited to Harriet Mickelson's group. The victors will be entertained by the losers next Thursday, April 7.

Don't take our word for it. Ask the man experienced in building—and he will tell you that the best materials are always cheapest in the end. Why? Because good materials resist both age and weather. Wherein so many fall, is the reasoning that the best always cost the most. This is not true—because in lumber often more waste will be saved from seconds than the saving hoped for—as compared to first grade material. Our yard is now completely stocked with first grade lumber in all woods. We want to serve you.

Lumber of all kinds and in all grades for special construction of any nature. Also brick, concrete, lime, roofing, shingles, lath, door and window frames, doors and windows, paints, builders hardware, etc.

Whether you plan a complete new structure or only alterations or repairs we can supply just the materials you want. We have plan books for every conceivable job—from shelf to mansion—and they are for your use, without charge of any kind. Come in and let us assist you.

TO ADVERTISE J-H AND MIDDLE WEST

Jefferson Highway Association to Launch Publicity Campaign to Promote Traffic

With virtually the entire route of the Jefferson Highway, from New Orleans to Winnipeg, improved, the Jefferson Highway Association decided at its annual meeting last Thursday in St. Paul to continue vigorously with its work, changing the emphasis to publicity and promotion of the traffic on the long north-and-south thoroughfare.

Thief River Falls was represented at the meeting by Mayor A. W. Prichard, Jr., and W. E. Dahlquist, the mayor returning Saturday evening, while Mr. Dahlquist made a trip to Masterton from there to return Monday. Others from this section attending the meeting were Mayor Theo. Christianson and L. H. Healy of Red Lake Falls and O. S. Nerdine and C. J. Forsberg of Karlstad.

The following officers were elected:

George E. Mefulloch, St. Joseph, Mo., president; Lee S. Hafford, St. Paul, vice president; L. S. Stubbs, St. Joseph, Mo., treasurer, and Alex Hislop, secretary-manager of the Greater Des Moines committee, secretary.

Colonel Ralph H. Webb, mayor of Winnipeg and retiring president of the association, and John W. Reid, mayor of Shreveport, La., were elected to act in the capacity of directors-at-large. Colonel Webb presided at the meeting.

The advisory committee was authorized to raise funds and proceed with publicity campaign for the highway.

Fergus H. Harper of Duluth, president of the Arrowhead association, pledged the support of that organization to the Jefferson highway. It realizes the benefits of the highway, not only to its members, but to the entire Mississippi valley and the country as a whole.

Fred Lee, secretary of the Fargo-Moorhead Commercial club, was elected secretary of the Ten Thousand Lakes Association at the meeting, and says his opinion on the early mail bid has been received at the office of the association asking for information concerning various routes in Minnesota. The early season inquiries received, of other years, and come from 18 states and 17 foreign countries.

LOANS TO VETERANS

The regional office of the United States Veterans Bureau at Minneapolis has additional authority from the director of the Bureau at Washington, D. C., to make loans to veterans on their adjusted service certificates. This service will commence on April 1, 1927. In granting this authority the director of the Veterans Bureau emphasized the fact that the Bureau's function in the matter is specifically supplementary to that of the banks of the country, which have now reported loans aggregating approximately twenty-seven millions of dollars, and in that the veterans most needing this service may be accommodated without delay, the director hope that only those veterans who have failed to negotiate any loans with banks, will apply to the Bureau for this service. In other words, this authority has been given the Bureau to cover emergency in veteran's relief. Applications should be made by mail.

RED LAKE CO. COURT

Red Lake county district court is scheduled to go into session April 11, a special term was held last Thursday by Judge Waite to act on the applications for citizenship of Rev. P. P. Pecoils of Oklee, Solomon and Hilma Pitkalla of Plummer. H. R. Poe of Duluth conducted the examinations.

Greater Production Per Acre to be Encouraged

Anyone who can grow over three hundred bushels of potatoes this year will find it very profitable, in many ways that, according to Assistant State Director Hagen, who was here from Leonard, Cramer & Riley, Minneapolis, Minn., on business, and registered this agency.

This potato first is organizing a unit will be called a "Three Hundred Bushel Club" among potato growers. Anyone who actually grows three hundred bushels, or more, of potatoes per acre on at least a two-acre field, will be awarded a certificate at the end of the season, as well as at least $100 in cash.

The cash prizes to be awarded are as follows: $100.00 for the highest yield over three hundred bushels; $50.00 for the second highest yield over three hundred bushels, and $25.00 to everyone who grows at least three hundred bushels per acre. There are no charges for membership in this club; the offer is open to any farmer in the Red River Valley, in both Minnesota and North Dakota. Those who expect to participate in this contest must get a membership application blank from Leonard, Cramer & Riley, fill it out and return it to them on July 1.

Mr. Knowles, manager of Leonard, Cramer & Riley of Minneapolis, explained that there are no charges or over obligations of any kind to the grower in this contest. The truck is not obligated to deal with this company in any way. The only thing attached to membership in the contest is that it will be necessary to spend for snow plowing.

The past winter we had more snow throughout the state than we had in 7 years," he said. "Many highways were kept better than 30 days, and the average was about 15 days. Without the work done by the snow fence on the trunk highways and by many individuals on their farms, much motoring would have been practically at a standstill except in the larger cities. Since the middle of November to the middle of March. With the motor vehicles and highways we have in this state it would be out of question to think of this investment to be unused during a third of the year."

The snow fence will be of the same type or formerly used, the same stake four feet high, tied together by galvanized wire with a barbed wire on top posts. This type of fence was little used except for corn cribs until two or three years ago when it was discovered that the fence was the cheapest and most-practical for use as a snow protection—where it is necessary to take down the fence every summer. The new use for the fence created so large a demand that those who did not contract for their supply early, as the highway department

MORE SNOW FENCE FOR TRUNK ROADS

State Highway Department Prepares for Next Winter—To Buy Million Feet

Trunk highways in Pennington county are promised better protection against snow blockades in an announcement made by Commissioner C. M. Babcock that the state highway department is planning to buy 1,000,000 feet of snow fence to use next winter. Bids on the snow fence will be opened April 12.

The department during the last two years has bought 1,500,000 feet of snow fence, and the total mileage installed last fall will give the department a total of 475 miles of snow protection, the fence will be distributed through all the maintenance districts so that every county will have additional protection.

But advertising for the fence so early in the season, and buying in large quantities, the department is able to obtain the fence prices and to be sure that the fence contracted for will be delivered in ample time so that it can be put up before the weather conditions permit in the fall. "We have found that the best time for placing in this climate will guarantee the fence will be kept open every day in the winter," says Commissioner Babcock. "But we propose to try to come as close to that ideal as is humanly possible. The additional fence will be placed in the form of deep drifts and we have will the interest of money in that it will be necessary to spend for snow plowing.

The past winter we had more snow throughout the state than we had in 7 years," he said. "Many highways were kept better than 30 days, and the average was about 15 days. Without the work done by the snow fence on the trunk highways and by many individuals on their farms, much motoring would have been practically at a standstill except in the larger cities. HIGH YIELDING GRAINS LISTED IN NEW FOLDER

Improved varieties of farm crops recommended for the state for the 1927 season in Minnesota, also other varieties not recommended, are listed in a folder issued by the agricultural college of the University of Minnesota. The folder is free to Minnesota farmers and can be obtained of county agents.

COST OF BUTTERFAT PRODUCTION VARIES

How widely the cost of producing butterfat varies is seen in a statement, based on investigation carried on last year, just issued by George A. Pond of the United States Agricultural Department station.

According to the statement, on 23 farms where 378 cows were reported the cost of producing a pound of butterfat varied all the way from 21.1 cents to 71.8 cents.

"Poor cows were with cows which did not yield liberally. 'An important factor in economy of production and in profit," says Mr. Pond, "is the reduction per cow. The decrease in costs and increase in profits with increasing production is quite striking. It takes practically as much time to feed, care for, and milk a poor cow as a good one. The poor cow takes as much space in the barn, as much equipment, and in general, as much other expense. She requires as much feed to maintain her body. The more butterfat she produces, therefore, the less will be the cost per pound, since the overhead is distributed over a large number of pounds.

In the Askov territory, 4-e net return over feed cost of $68.30. On the average the net return per cow was $14.09.

FARMERS URGED TO TAKE FARM ACCOUNTING COURSE

That Pennington county farmers should take advantage of the farm management and accounting course of instruction offered by the extension division of the university, is urged in a statement by County Agent J. J. Rockne. He points out that in Clearwater county one has enrolled here, namely Maurits Hagen of Thief River Falls. Five local farmers completed the course last year and are highly pleased with the practical training given.

$10 FOR STRIKING NEIGHBOR DURING HEATED ARGUMENT

Casper Iverson of Goodridge was fined $10 and costs when pleed guilty in municipal court to a charge of assault and battery was imposed. A $10 fine was also imposed on Peter Iverson, brother of Casper, on a charge preferred by Mathew Mickelson, a neighbor, who said he was struck by Iverson during an argument in Goodridge on March 19. The argument is said to have been over the school house in the school bus used by Iverson, Mr. Mickelson being a member of the school board.

ORGANIZING BALL TEAM

Former Thief River Falls baseball fans are interested in the organization of the Middle River baseball team. According to The Record, Frank Gross, former baseball star, is manager, and Supt. E. O. Tandberg, whose parental home is in this city, is coach. The baseball team is available for an excellent date and with plenty of practice and by co-operating with the management, Middle River should develop a splendid team," says The Record. A series of benefit dances will be given, first of which was held Saturday.

LAND MOVEMENT IS ON IN MINNESOTA

Many Farms in State Have Been Purchased Since Jan. 1, Reports Commissioner

The land movement in Minnesota is on.

This is the word from the office of Oscar H. Smith, state commissioner of immigration, at the state capitol.

With the announcement that scores of Minnesota farms have been sold since the first of the year at prices approaching some of the peak levels of six or seven years ago, Mr. Smith said:

"We are simply swamped this spring with inquiries about Minnesota farm land. We have had between 8,000 and 9,000 inquiries since the first of the year, more than twice as many as we have for years in a similar period.

"I hope it isn't a boom. We don't want that. But the land movement is definitely and unmistakably on in Minnesota. Buyers have been piling up for the last five or six years and have reached the decision that the bottom is a long time touched. As I figure it out, the situation is following its traditional trend. The land is being purchased on a constantly rising market."

As an example of the trend in farm values, Mr. Smith cited a recent sale

Mason-Yeager

The following item of interest to local readers is taken from the Minneapolis Journal:

"A wedding of interest to many residents of Cass lake and vicinity was that of Edwin Yeager and Miss Mae Elizabeth Mason, which took place at the home of the bride's parents, Mr. and Mrs. J. Mason, on the shore of Cass lake, Wednesday afternoon, March 23, at 2 o'clock. The bride was attended by her sister, Miss Ruth Mason, as bridesmaid, and Mr. Yeager had his brother, Ralph Yeager, as best man. Following the ceremony, which was performed by Rev. Mr. Hall, pastor of the Methodist church of Bemidji, and Mrs. Hall, a reception was held for the immediate relatives and friends. At present the couple are residing on the shore of Cass lake, but will make their home at Middle River for the present.

Legion Meeting

Legionnaires from Newfolden and Karlstad will oppose the local Legionnaires in a bridge-bridge contest at a regular meeting of the Elmer J. Ekstrand post in the Legion club rooms tomorrow night at 8 o'clock. Other interesting features will appear on the evening's program, including musical numbers by the band, and the Legion quartette. Lunch will be served following the meeting.

Pearl Weeks is Recital

Miss Pearl Weeks, daughter of Mr. and Mrs. J. J. Weeks, and a member of the local high school in 1922, was presented in a senior piano recital Tuesday evening at the Gilbert school, which institution she has been attending the past four years, and from which she graduates in June, having majored in music. Her selections were compositions from Bach, Beethoven, Brahms, Greig, Chopin, Liszt—and Rachelle; the first movement of the concerto in G Minor by Mendelssohn with her instructor, Miss Constant Hinsey, at the second piano. The entire recital showed splendid technique and a rich tone quality with a remarkable interpretation thereof. Miss Weeks studied in this city under Mrs. Doris Halvorson Pope.

LOCAL ELKS CONFER WITH COMMITTEES IN WINNIPEG

L. E. Johnson and W. E. Dahlquist returned Sunday from Winnipeg where they had been in conference in connection with the Minnesota Elks convention to be held in that city and which will be held August 24-27. They made the trip by motor and report the road in good condition all the way. About 50 miles south from Winnipeg they met a stretch of bad road near Warren. They were accompanied by Elden Dahlen of Grand Forks, representative of the Peoples Oil Co. The local men report wholehearted co-operation in convention plans at the part of the Winnipeg committees, which are making the matter a possible toward making the convention a success. The next meeting on an unusually large attendance.

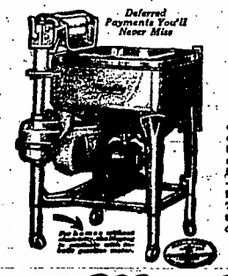
for Cleaning HOUSE MAYTAG Aluminum Washer



TRY the Maytag at housecleaning time. See how easy it is to wash your heavy blankets, thick quilts, draperies, curtains, fluffy rugs—all of the hard-to-wash things that you want thoroughly cleaned before you pack them away.

Remember the Maytag's cast-aluminum tub is all clothes space. The tub has a larger capacity than ordinary washers owing to its unusual shape and because it is "machinery-free."

The tub is heat-retaining—water stays hot for an entire washing, and the tub drains and cleans itself in 30 seconds after the washing is done.

The Maytag is unmatched for speed and thoroughness. Nowhere else will you find so many exclusive comfort-giving features that make washday easier and shorter.

Deferred Payments You'll Never Miss

1 Phone

Try the Maytag next washday. Do a whole washing without obligation or expense. Wash big tubfuls of clothes in 3 to 7 minutes—finish a whole washing in one hour. Wash everything—even collars, cuffs and wristbands—without hand-rubbing. Then—judge for yourself. If the Maytag doesn't sell itself, don't keep it.

Many Nutrition Project Units Formed In County

Organization of local units of the nutrition project being conducted by the extension division of the Minnesota university is being perfected this week, according to reports received in the office of County Agent J. J. McCann. Each unit is to have two leaders, but in some instances the leaders have not been chosen because local conditions have prevented meeting group meetings. Unit leaders will meet the last of the month with a nutrition expert from the university to receive the first lesson, they in turn to give the information to the project members.

Following is the membership of the clubs reported to Mr. McCann and the leaders where selected:

"GOOD IDEA"

"Some member of the legislature, resenting what he considered too small a portion of butter at a capitol cafeteria, has introduced a bill regulating the size of butter served," says the Mahnomen Pioneer. "Good idea. Something should also be done about the strength of the coffee served for the people, also. The 'Ought-to-pass-four' club should also receive several more earfuls."

The proposed bill, however, was not even reported out of committee, as the Representative Green of Stephen declared that "anything that we can do to increase the production of butter in this state is worthwhile."

The bill has received many suggestions for similar measures, among them being a bill regulating the size of the hole in the doughnut. But the legislature has really gone to work, and many important matters will likely occupy their attention the rest of the session.

"Modern girls are much less affected than were their mothers were they were young," remarked an old-timer at the style show in the auditorium Friday night. "Neither by much less than they put them the girls used to."

Commercial Club Passes Legislative Resolutions

Believing that H. F. No. 1198, better known as the Minnesota Plan for Reviewing Public Expenditures, would be infringe on home rule, the Thief River Falls Commercial club last Thursday passed a resolution urged the senate and representatives from this district to vote against it. The bill, as proposed, provides that the state tax commission also serve as a board of review in case of appeals upon the petition of one per cent of the voters. The proposal is reported by the Minnesota Taxpayers' league of which C. F. Haid is head.

The club also passed a resolution urging passage of a bill, H. F. No. 918, amending the Chisholm Act so as to enlarge the powers of the state railroad and warehouse commission in readjusting freight rates within the state.

Under the present form of the act, only one schedule of rates can be applied in the state, by the state commission, but this body is powerless in preventing the interstate commerce from establishing its schedule of rates which may result in serious discrimination.

General Merchants Notice!

Responsible merchants dealing with farmers should investigate the proposition of the FARMERS & RANCHMENS STOCK SALT COMPANY of Omaha, Nebraska: Additional profits of from 2 to 3 thousand dollars annually should be made without the use of sub-agents and like amount for each sub-agent employed and the same time not interfere with their regular line of business. 9-10c-apa

Seed Corn Shortage

If you are going to plant any field or flint corn, buy your seed immediately regardless of whether you buy from us or someone else. It is probably early to be thinking about seed corn but there is a very serious shortage of good seed corn and we are already sold out on several varieties, that cannot be replaced. The man who waits will have to use southern grown seed. Will you be one of them?

House Refuses to Extend Schall Investigation Beyond Session

Senate Committee Will Therefore Work Overtime to Complete Hearings Before April 21—Two Senators at Legislature Over Several Questions Which May Tie Up Legislation—All Seek Generally Stated Ends, but Bills for Stricter Regulation of Banks will Probably Pass.

By Martin W. Odland.

St. Paul, Minn., April 5.—"Our way back and all over," said the Minnesota house of representatives to the Minnesota senate, when the latter asked the house to join with it in empowering the Schall investigation committee to complete its hearings after the legislature has adjourned. The hearings have dragged to such an extent that the committee came to the conclusion that they would not be able to hear all of the witnesses and make their report prior to adjournment, April 21, as they must be, by the senate and asked for authority to complete the hearings after the session is over. The request was referred to the secretary of state. After an extended debate the senate granted the request by passing joint resolution to that effect, but the house had to swear in such a proceeding and when the resolution reached the house it was referred it over by a vote of 84 to 24. Representative Norton, the house leader, who is chairman of the house rules committee, to which the resolution was referred, reported it back Thursday with the recommendation that it be indefinitely postponed.

The resolution was up on the house roster and did not provide for a "special committee." It would join the house in the investigation without giving the house any representation on the committee. There are but two and one half weeks left. The senate committee says it needs the time and the house committee says it needs the time to complete the investigation.

Representative Spindler of Buffalo took issue with Norton and urged the passage of the senate resolution. Said he:

"Senator Schall was named he'd be given a chance to defend himself. I have heard it intimated that he is through. I have this investigation started now, so he can go to and defend himself speedily, saying he has not been given an opportunity to testify. He will not be able to take it the entire case was presented to us."

"Yes," interrupted Representative Nelson of Wheaton, "but don't you think he can come on through within the next three weeks?"

"I don't think so," replied Mr. Spindler, "I don't think the committee says it cannot."

Mr. Spindler, of course, is a democrat and is not known as a supporter of the administration.

Representative Nelson, of Minneapolis, Nesman of Wheaton, Dahle of Spring Grove and others opposing it vigorously. Most of the 24 who supported the resolution are Farmer-Laborites.

At a result of this action, the senate investigation committee will now not get full repeal and attempt to complete the hearing before the adjournment of the legislature. There are many matters of the committee and the majority will have power to continue the hearings, which will henceforth be held at all hours of the day in room committee rooms. It is said that the Schall side has subpoenaed some of the members and the opposition some 25. It is probable, however, that the testimony of most of the witnesses will be brief—something like that of S. W. Jamison, who has been down here several days ever since the hearings began except Thursday night, when Frank Cornelius gave his testimony. Jamison said he was the man who brought the bootleggers and blindpiggers to Hendrum at the Schall headquarters in the West hotel during the campaign of 1924 when they turned over some of money, varying from small amounts to $2,000 on the strength of Cornelius' promise to use his influence with federal authorities to put them out of trouble with Uncle Sam. Jamison says that a list of the generous contributors was prepared and is now in the hands of the committee. The list follows, the first column showing the amount of the contribution, the second what went to Jacobs and the third what Cornelius was allowed to keep as his "commission":

Chas. Means why the house was so ready to turn down the senate resolution—was its feeling of bitterness against the senate because of a number of things that have happened lately. One of these is a disposition on the part of the senate to skip on the calendar house bills, putting them off-till later. The house was retaliating by skipping senate bills. The result of this will be, if it continues, the failure of much legislation. It may be taken for granted, however, that the two houses will cease this sort of childishness.

On Thursday the senate killed the Nebraska bank guaranty bill, sponsored by several Farmer-Labor senators. Senator James A. Carley, who was one of a special committee that went to Nebraska to get information, led the fight against the plan. He stated the bankers in Nebraska had advised against the enactment of a similar plan in Minnesota. The vote on the bill follows:

Those who voted in favor of the bill were:

Ahern, Bridgeman, Christgau, Day, Frost, Haussler, Johnson, Lansby, Larson, Lawson, Lee, Lynn, Mattson, A. Lund, L. P. Lund, Madigan, Tom Manger, Morin, Naplin, Nordlie, Putnley, Romberg, Schmeltzel, Solberg, Swenson.

Those who voted to postpone the bill indefinitely were:

Adams, Anderson, Benestie, Blakelman, Bonnell, Brentzell, Brooks, Cannon, Carley, Child, Dunkle, Hanson, Hougen, Johnston, Larson, Liggren, Long, McKenzie, McLean, McCubrey, Miller, Nelson, Olsen, Orr, Peterson, Putnam, Ribenack, Richardson, Rockne, Rosing, Sexton, Sharp, Stiger, Strand, G. Sullivan, J. P. Sullivan, Thwing, Traxler, Turnham, Wiehl, and Zimbaugh.

All other bank guaranty bills—of which there were at least half a dozen—have also been killed, and it is now certain that the only changes in the present banking laws will not be along the lines of guaranteeing or insuring depositors against loss, but along other lines, such as giving the state more control and holding the officers and directors of state banks to greater care in handling the money in their hands.

A move to avert the impending war between the senate and the administration over the educational appropriations bill was launched late last week when a group of sixteen senators, half of whom belong to the administration camp and the others to the ranks of Independents, held an informal meeting for the purpose of working out a tentative program by which to restore harmony.

Attending the meeting were eight senators of a group which has insisted that the state appropriate all deficiencies and funds to pay up a deficit of $1,238,436 incurred in 1922-1924, as well as make a 100 per cent appropriation for the coming biennium.

Getting around a table and discussing the matter from both angles, the senators ended by working out a tentative procedure which they felt would give the schools necessary state aid without over-running the $40,000,000 budget limit set by the governor.

The plan which gained considerable favor among both groups is to issue certificates of indebtedness to pay up the state's deficiency, saying he has not been given an opportunity to testify. He will not be able to do so if the entire case was presented to us."

"Yes," interrupted Representative Nesman of Wheaton, "but don't you think he can come on through within the next three weeks?"

TAXES

Dear Editor:

As taxes is a very common topic of conversation, I am interested. I want to know, is taxes, allow me to just hit a few of the high spots on paying the taxes. Say, if I am assessed around Thief River Falls, and personal is not big enough to pay my taxes, I have to pay additional taxes, or why are so many delinquent taxes, or why are so many of the good farmers have moved out. Farmers are not refusing to pay taxes but I know of a number that are with, as expected by my neighbors, the are all in the same boat.

I moved here 14 years ago the 8th of March. When I left I owned 320 acres, every acre paid for, as the saying does, and I had the first year my real estate tax on 160 acres which was not less than a quarter section, was $400.00. The last years tax on the same tract of land is $413.36. This enormous increase is the reason I am in the city school district, but we had school 14 years ago and good teachers and also had dials taxes to pay 14 years ago.

The question is, can these taxes on this land ever come down to lowered? Is there any way to sell this land with a heavy tax on it, or can a man afford it under the present conditions? I would just have anyone think I am a knocker, for no one is a bigger booster for Pennington county than I am, but I do know that no man can pay over $2000.00 excess plus interest on his investment, on a quarter section of land annually and expect to prosper. I know $125.00 is enough taxes for any quarter section of land, and if not, they are expensive. I have come in-and-buy-this land in smaller tracts and sell it to settlers. Do you target to fix a place up, and the taxes are so high that you can't afford to keep it up under the present conditions.

Just a few figures might be of interest: On a quarter section of land with $413.36 taxation now, and the taxes increased on taxes, pick your tax, at the end of twenty years you would have paid $8,267.20 in taxes. Is there enough to buy the best quarter section of land in the county. Do you wonder why this land is not selling and why the Thief River Falls, the best town in the northwest, and in a county in which few can grow anything, is not growing? It is a deplorable place to live, but when you take your little trip down in the country, it makes you feel like you are in heaven.

Is it right? Is it just?

Resolution

At a regular adjourned meeting of the City Council held March 29th, 1927, Alderman Brunsell introduced the following resolution, and moved its adoption:

BE IT RESOLVED, by the City Council of the City of Thief River Falls, Minnesota, that the following bills be and the same are hereby allowed and ordered paid out of the Municipal Auditorium Fund No. 2:

Northern Construction Co., Grand Forks, N. D., general contractor for the Municipal Auditorium, the lowest and best bid submitted in connection therewith, certified copy of contract to be filed with the City Clerk, $50,000.00.

Aldo-Chalmers Electric Co., Grand Forks, N. D., for electric wiring in the Municipal Auditorium, the lowest and best bid submitted in connection therewith, certified copy of contract to be filed with the City Clerk, $1,000.00.

Seconded by Alderman Hall and upon roll call all members present voted aye and the motion was declared carried.

Passed by the following vote:

ROLL CALL:

Aldermen voting Yes: Messrs. Brendeland, Christofferson, Grindeland, Hall, Lee, Nelson, Nordlie, Peterson, Rydell, Sandvik, Thompson and Wiehl.

Resolution declared passed.

ALFRED BREDESON,
President of the Council.

Attest: P. G. PEDERSON,
City Clerk.

GRINDELAND TO PRESIDE

Judge Andrew Grindeland of Warren will preside over and preside over district court sessions in Roseau county. Attorneys in Warren county objected to the arrangement whereby they must pass thru Crookston to Warren on special cases to be taken before the district judge, and so an arrangement has been made whereby Judge Wm. Watts of Crookston will preside in Warren county and Judge Grindeland in Roseau. Mr. Grindeland announces that during the coming months of August and September he will preside over the district court here. Judge Grindeland will be remembered by many Thief River Falls men as he was also in charge of the district court here during the absence of Judge Watts.

Attorneys in Norman county objected to the arrangement whereby they must pass thru Crookston to Warren on special cases to be taken before the district judge, and so an arrangement has been made whereby Judge Wm. Watts of Crookston will preside in Norman county and Judge Grindeland in Roseau. Mr. Grindeland announces that during the coming months of August and September he will preside over the district court here. Judge Grindeland will be remembered by many Thief River Falls men as he was also in charge of the district court here during the absence of Judge Watts.

A Big Task

To fuel and lubricate the millions of motor vehicles of the Middle West is the big task undertaken by this company.

An increase in two years of more than a million motor vehicles indicates that this is a task of rapidly growing proportions, a solution of which requires foresight and adjustability.

The total number of cars and trucks registered in the ten states of the Middle West, served by the Standard Oil Company (Indiana), was 5,508,570 in 1924 and 6,729,749 in 1926.

This means that within two years the number of motor vehicles in the Middle West increased by 1,221,179.

Finding crude petroleum and converting it into fuel and lubricants for more than six and one-half million motor vehicles is only a part of the work of the Standard Oil Company (Indiana).

The Standard Oil Company (Indiana) not only produces petroleum products of superior quality, but it distributes them to every corner of the territory it serves.

On all the highways that weave an intricate pattern over the ten great Middle Western States, the service stations of the Standard Oil Company (Indiana) are found supplying fuel and oil to the cars and trucks that pass.

Nor does the service of the Standard Oil Company (Indiana) stop with its own service stations.

Thousands of garages, privately owned filling stations and curb pumps selling Standard Oil Company (Indiana) products dot the landscape of the Middle West. The company's own trucks and tank wagons carry its gasoline, lubricating oil and kerosene to the motorist and to the farmer —even to the tractor in the field when required.

Employees of the Standard Oil Company (Indiana) are anxious to be helpful. They are enthusiastic about their work. They do every job as if it were the only one they had to do. They take a personal pride in maintaining the reputation of the company of which they are a part.

29,573 men and women working with this spirit perform a task which is of tremendous importance in the lives of thirty million people in the Middle West.

GOODRIDGE

Oklee Wins

The Goodridge high school basketball team was treated to an April Fool's Day joke Friday night by the Oklee high school team on the Oklee floor. The previous Friday the Goodridge boys had very nicely trimmed the Oklee boys, but Friday the Goodridge boys were beaten by the narrow margin, 26-19, after having to play an overtime period of five minutes.

Student vacation for the Goodridge people will begin on Saturday, April 9, extending through Monday, April 18. School will open at 9 o'clock a. m. Tuesday the 19th.

Gangrene in Leftover

Joe Gangrene, former bullcreeker here, returned Tuesday from Agar, Sask., where he has been working in which he and Harold Olsen, formerly of Thief River Falls, have rented a 6th Monterey building, which they expect to be in is being built now. They expect to start the sawmill May 15, but will buy farm produce in the near future. Mr. and Mrs. Gangrene and Leotard will leave this week for the new home.

White Party

Mrs. V. C. McLeod and Mrs. R. H. McDonald entertained Saturday night at the home of the latter in honor of Mr. and Mrs. Joe Gangrene.

Mr. and Mrs. Carl Christianson entertained a few friends Thursday evening at their home.

Guy H. Porter of Wisconsin Rapids, Wis., was a visitor in town Monday. He formerly was located in Goodridge, and at Malcolm, where he operated a drug store many years ago.

Mrs. Elmer Zimmerman returned home Monday from Thief River Falls where she has been in a hospital.

Stuart McLeod left Monday for Crookston to attend to business matters.

L. Geerling of Goodridge has rented the Albert Haugland farm near Grygla and will move there soon.

Pupils who cannot be accommodated in the above schools may write the examinations in the court rooms of the county seats in this city.

The examination program will be announced later.

The requirements for graduation or admission to high school in rural schools, as given by the state high school supervisor, are as follows:

At least a pass plus mark, 75%, in each of the following subjects: Arithmetic, United States history, composition, geography, and citizenship. Three years' work in reading, spelling, writing and penmanship. All other subjects in which examinations are given must be passed. The examinations are given in the eighth grade. Pupils who are conditioned for the high school may be conditioned for the next year. They may, however, graduate from the common school course. The only safe and sane way for a pupil to insure his or her self for admission to the county's high schools, is to hold creditable grades in all of the high school subjects are, therefore, conditioned for the next year's work in the high school.

Pupils who successfully complete the common school course will receive their diplomas with grades to any or all of the county high schools.

MRS. OSCAR SCHENKEY

Funeral services were held Wednesday, March 30, at the First Lutheran church at Middle River for Mrs. Oscar Schenkey, 39, of that place, who died March 26 at the Oakland Park sanatorium here. She was admitted into the sanatorium Feb. 19. Her case of tuberculosis was too far advanced to be checked at that late stage. She had been ill several months.

Mrs. Schenkey, whose maiden name was Lillian Thirilla Seiber, was born in Thief River Falls February 15, 1888, and grew up with her parents, Mr. and Mrs. B. O. Seiber, to Middle River in 1905. She was united in marriage to Oscar Schenkey in November, 1917. To this union a daughter was born.

Beside her husband and daughter, Donna, she leaves to mourn her passing, two step-children, Leona and Lawrence, her parents, three sisters and four brothers, Mrs. F. E. McMaster of Thief River Falls, Mrs. Thos. Fenlong and Mrs. Olga McMahon of Havre, Mont., John Seiber, Jr., of Thief River Falls, Harry Seiber of Havre, Mont., and Oscar at Amarillo, Texas.

Interment services were conducted by Rev. A. Sherrown.

OWATONNA HAS PLANNING

Preliminary plans for the organization of a golf team to take part with the three and local boys serve in the same state golf association in this city, were made at a recent meeting of the Owatonna lodge, which will be well represented here August 7th and 8th. Other features in connection with the Thief River Falls open convention and especially with the parade which will be its biggest feature were discussed, says The Journal-Chronicle.

Where Is the Order Clerk of Grandmother's Day?

The grocer's order clerk used to call at grandmother's door to find out what provisions were needed.

Today, the grocer, baker, butcher, doctor and plumber are all at the instant beck and call of the housewife over the telephone.

Today the Freshman class is being initiated into the mysteries of editing the "High School Progress" for the first time. We do not intend to make this a literary masterpiece, but we will say with Scott, "A man can but do his best."

We have had no previous journalistic experience and we are observing our course by "good reckoning." We are, however, supplied with charts and navigating instruments by the regular Progress staff. Therefore, though we are sailing through unknown seas with the advice and warnings of the experienced we expect to hit no reefs.

When we reach port we hope that we will be received as fair welcome by our kindly, but critical readers.

Girls' Athletics

Should the girls athletics be as enthusiastically supported as that of the school as boys' activities? Surely, aren't girls as privileged to have the support and interest of their fellow-classmen in all their activities as boys? Perhaps the following: New York City, Atlantic Ocean, North Pole, Siberia, Asia, Europe, Africa.

Articles are continually being written by scientists, doctors, and educators telling of the value of athletics to the school and to the individual in regality, in learning habits of health, in fair play, and co-operation with others. They also add that football, basketball, and all other athletics contributed many keen, competent business men and furthermore, has made that man or men all around good fellows.

If this is the case with boys, why don't it do with girls? Why won't it make them destiny fit for their life work? Girls value the chance to show the school they are striving for it, and to show what they can do, also to have it acknowledged that they are accomplishing something. A normal, healthy, American girls does not? Furthermore, she would appreciate the same interest and support on the part of the boys that she shows in their games.

In all ages of history, the world over, men have believed that women are the weaker sex. But we, the Freshmen girls, have now proved to our Freshmen boys that we have attained the same level as they. Here is how we prove our equality.

We have played on an equal number of times in the preliminary basketball games and lost only one. We also played in the "World Series" both boys' and girls' teams bowed down to our superior dexterity in reaching second place. In the preliminary games in Freshmen basketball were subdued only by the victorious Seniors, and the Freshmen boys were defeated only by the Juniors' fast squad. In the final games we both met our Waterloo. The Freshmen girls were defeated again by the Seniors, and the boys by the Juniors.

How about it, boys, aren't the Freshmen girls equal now?

NEW SECRETARIES FOR R. R. MEN

The coveted railroad position of "Secretary to the Superintendent" with its advantages of travel, confidential relations, etc., was recently awarded to two students of Moorhead State Teachers College, Fargo. J. M. Eichmiller (just graduated) and Roland Buckley were engaged respectively by Byron Hackenberg and A. Brastrup of the Northern Pacific.

The best offers are open to Dakotans because of ACTUAL BUSINESS training (copyrighted—unobtainable elsewhere). "Follow the Successful." Write L. L. Wehing, Pres., 305 Front St., Fargo. Learn advantage of enrolling May 2-9.

Shakers

In every country, town, or school there is certain minority who are not willing to do their share. They may be lazy, selfish, or just indifferent, but whatever is the matter with them, they will not take their share of burden. These are the "shakers." They have no class or school spirit, and are often the ones to cause trouble.

If you do not care to see and help your team win, if you will not support a worthy enterprise if you shirk your share of responsibility, then you are a shaker. My definition of a shaker is: A person whose no use (Hon.

The shaker's motto is: "I do what you want me to do."

Washington Notes

Alfred Troland enrolled in the third grade last week and his sister, Esther Troland, in the fourth grade. They have been living in the state of Washington in the country before coming to the Washington school.

Miss Ione Wald, who has been previously attending school in Red Lake Falls, entered the first grade this week.

Teacher Training Department

Miss Alice Stapleton, head of the teacher training department returned to school Friday after a four-day absence.

Olga Hegrenes, student who has been ill for several days, will resume her studies Monday.

RETURNS FROM FLORIDA

Knute Hegtvedt arrived last Thursday from Miami, Florida, where he has been employed for the last 14 months and continued to Goodridge where his parents reside. The trip from Miami to Minneapolis was made by car. He may return to Florida in a couple of months. Mr. Hegtvedt was employed in railroad construction between Miami and Palm Beach, but reports that building activities are now practically at a standstill and with few opportunities for employment. Mr. Hegtvedt reports a narrow escape in the recent hurricane last fall. The building in Miami which he occupied together with other members of his crew was entirely wrecked a few minutes after they had left it to seek shelter in some locomotives stationed nearby.

LOCAL INTERCLASS GRADE CHAMPS WIN CROOKSTON TUSSLE

Seventh Graders Lose to Visitors in Close Contest; Return Game Tomorrow

The Juniors, Lincoln High interclass champs, defeated Crookston fast and purred 17 to 11 Friday. The ball started the scoring in the second quarter on a seal play through the Crookston defense. His basket brought the score up to 6-3. Dostal soon added another for the Juniors while Tinsley found the basket for the Crookston champs. The half ended 8-5 for the Juniors. Rosenblatt, Stanisle forward, started the third period with a scoring attack that brought the score to 14-5. Every shot Cline up to 12-5.

Just before the quarter ended Lindall sunk two free throws to raise the score 12-7. The Crookston team put up a dogged fight during the final period to overcome the five point lead. It brought results for they added two field goals in rapid succession which raised the score 17-11. This was the only time they ever threatened the Juniors brilliant attack.

A few throw, and field goal by Emil and another goal by Larson brought the score 17-11, each team making five points during the final period.

Winston starred for the visitors, while Dostal was the outstanding player for the Juniors.

The line-up:

Crookston	T. R. F.	Thief
Winston	f	Dostal
Hugsay	c	Rosenblatt
Burg	g	Larson
Lindall	g	Wengeler

Substitutions: Gibson for Larson, Erickson for Wengeler.

Local 8th Graders Win

The eighth grade girls of Crookston journeyed over to Crookston in a fast and exciting game which they threw 19-16 in their favor by the end of the quarter 8-6. At the second quarter started neither team showed any better defense or offense, each team making two points. On free throws, while the eighth grade girls of Crookston succeed in sinking a field goal. The Dicken-Gulseth scoring combination soon brought the score up-to 8-8. In the final the eighth grade made 3 points to Crookston's two, the game ending 11-8. The Thief River Falls players, though small compared to the Crookston quint, outclassed them in shooting and teamwork.

Dicken was the Junior High champs best man, while Lindall starred for Crookston.

The line-up:

8th, Crookston		8th T. R. F.
Tigwen	f	Dicker
White	f	Eide
Lindall	c	Gulseth
O'Boyle	c	Offerdahl
	g	Boeren

Seventh Graders Fall Victim

The seventh graders lost to the Crookston grade school 10 to 11. They went into the game with the determination of winning because of the defeat they met last in the grade school tournament. Crookston's rangy center, set forward, Bert and Llewellyn, worked together with the ball until they finally had an open shot. In the last minute of play Crookston had four points. Blake started the scoring for the locals with a field goal, followed by another by Myron. The quarter ended 5-3, the half 9-7.

Myron sank another basket when the quarter opened to tie the score. With a few minutes left to play Myron put his team in the lead by one point. While the crowd was frantic at this critical moment, Lindquist of Crookston scored a field goal which placed his team in the lead one point 10-11. Myron starred for T. R. F. while Lindquist was the outstanding Crookston player.

The line-up:

Crookston 7th		T. R. F. 7th
Lindquist	f	Dale
Hess	f	Myron
Casey	c	Jarunson
Braden	g	Powell

Substitutions: Amstad for Jarunson, Jarunson for Powell.

The local teams will go to Crookston tomorrow. Friday, to play return games. They will be accompanied by their coaches, L. A. Trume of the high school and John W. Horne of the Central.

SPEAKER REVIEWS CENTURY QUARTER

Miss Johnstone Delivers Instructive Address at Parent-Teacher Meeting.

"The Parent-Teachers organization represents the greatest movement outside the church," declared Miss Beatrice Johnstone of Grand Forks, director of the extension division of the North Dakota university, in a most interesting address at Monday night's meeting of the local Parent-Teachers association at the high school. Miss Johnstone, who has attended hundreds of communities in the northwest as corresponding secretary of the North Dakota Parent-Teachers Congress, told of the many worthwhile things that are being done to bring about greater co-operation of home and school.

The principal part of Miss Johnstone's talk was an instructive review of the first quarter of the 20th century, pointing out the tremendous changes which have taken place and the unprecedented progress in science and other lines. Practically every phase of human endeavor was touched upon briefly and to the attending the various nations discussed. Tribute was paid to the Scandinavian countries, which she declared rank the highest among European nations in worthy achievements.

The audience was loud in its applause for the Junior High School girls' chorus of 33 members from the 7th and 8th grade, which sang "Gypsy," "Boots of Mine," "Shades of Red," and "Amaryllis," under the direction of Maude La Jeunesse.

Lunch was served to over 150 persons, with Mesdames H. Rhodes, C. H. Hermanson, Roy Dahlen and Carl Christofferson in charge.

Election of officers and the question of increased membership dues are slated for the next meeting, May 2.

Miss Johnstone also spoke to the high school assembly Monday, special high school assembly Monday, after remarks were highly appreciated by the students, being replete with apt illustrations. She emphasized the importance of having a definite aim and of training the mind.

A feature of her talk was a recital of which she was the originator. She offered a prize to the student sending her the best composition to the recitation in her speech.

Placed on All-Star Teams Girl Basketball Players

A girls' all school basketball team was chosen Friday at an election among the players. All girls who played at least one quarter in the recent interclass tournament were eligible to votes. The results are as follows:

First Team: Forwards: Margaret Pelton, (Sr.); Jolonie Dahler (Frosh); and Lucille Rayson (Soph); guards: Marguerite Johnson (Soph); and Ruth Gunderson (Sr.), and Gladys Clemen (Sr.).

Second Team: Forwards: Margaret Bjorkman (Junior); Margaret Barron (Junior) and Gladys Bowers (Frosh); guards: Astrith Swenson (Soph); Harriet Hellquist (Frosh) and Millicent Arnold (Frosh).

Fair and Warmer

The Poet was enraptured.

"Ahh!" he exclaimed," the pretty little flowers, the birds, the sweet perfumes, the forests and meadows, the fields and the streams; they are all so dewy, fresh, and fairy-like.

"Pish," said the Pessimist.

"The buds are so tender and young and inviting," continued the Poet, not heeding the heathen, the flowers, and the grasses they are shooting forth."

The Pessimist grumbled.

The Poet raved on.

"The sun, giver of all life, has never been excelled. The King Solomon could not surpass the glory of spring."

"Applesauce!" the Pessimist shouted. "Stop your croaking and get down to work."

And while the Poet sang and the Pessimist balked, the weather man smiled a little and turned on the heat.

PEPPY INN SCHOOL NOTES
Dist. No. 60, Anna Wedul Teacher

Sewing Club

Our girls' sewing club held its last meeting at the H Cooper home Wednesday evening, March 30. Miss Anna Wedul is giving instructions. The girls are planning to bring their work to the fair, and everyone is looking forward to a prize. Wish us good luck.

Pale Work

All the children are getting their work ready for the fair. They are busy cutting out pictures for their booklets and are very anxious to spell in penmanship so as to display good work in that subject. Some of the boys are making bird houses, lawn-rollers, while the girls do embroidery work.

Luella Kleve, 4th Grade.

Club Work

The "Win Awake" club was organized in our school last year and we have continued it this year too. We take up a penny collection every time some one has a birthday. We used the first group of collections for a Thanksgiving party. The second group we sent to the Near East Relief fund, and now we are saving up for garden seeds, and maybe we'll have a marshmallow roast. We have had several club programs this year, the last being given on Washington's birthday.

Martin Wedul, 4th Grade.

TEN-DAY SPRING VACATION STARTS FRI

Teachers, Students Going Home for Easter; Local Educators to "U" Meetings.

Tomorrow, Friday, will mark the beginning of another brief respite from studies for the pupils in the Thief River Falls schools, the annual spring or Easter vacation being scheduled to run 9 to 19, according to announcement by Superintendent Morris Bye.

Most of the out-of-town teachers and non-resident students will leave today (Thursday) or Saturday for their respective parental homes to enjoy the Easter holidays. A number of local young people who are teaching elsewhere in rural and urban schools or attending universities and colleges are expected to return here for the vacation period to make up for the exodus of the other group.

Supt. Bye, H. C. Hand, high school principal, and Miss E. M. Gunderson, county superintendent of schools, plan to attend sessions of Education's Week at the University of Minneapolis, commencing next Monday and continuing thru the week. The events include the annual short course for school superintendents and the Minnesota school systems, together with a host of other meetings of educational bodies. Mr. Bye will attend the Saturday night banquet of the High School Athletic association, as chairman of district No. 7.

Mr. Hand will complete arrangements for speakers for the convention of music supervisors which are here next October while at the university.

Supt. Henry Halvorson of Goodridge also expects to attend the meetings.

Commercial Students Win Increased Month Records

Results of the official typewriting tests for March, given last week, show a decided increase of award winners among the beginners. The following was certificates for proficiency, the number after some of the names signify that more than one test was made: Alexander, Lucy Amon (3), Ames Asgeil (3), Fletcher Gulrud, Lucille Bergeson, Esther Hetland, Martha Jelle, Margaret Johnson, Florence Johnson, Leonard Knadle, Frances Knutson (3), Alvine Koglin, Raymond Larson, Mabel Lundeen, Arthur Lee, Bertha Nase, Agnes Quindley, Louise Roth, Wesley Roth, Jerome Sathre, Ruth Swenson, Frederick Wengeler (2), Kathinka Wick (2), Harold Will (2), Rita Fitzman, Harriet Fuller, and Alvina Koglin were also awarded bronze pins for typing at the rate of forty words per minute, and Harriet Fuller and Fatima Gunderson each won a silver and gold pin respectively.

During the Easter vacation those who will represent Thief River Falls in the district commercial contest to be held in Crookston during the early part of May will probably be working up their speed, although the names of these people have not yet been announced.

RHEUMATISM

While in France with the American Army, I obtained a French prescription for the treatment of Rheumatism and Neuritis. I have given this to thousands with wonderful results. The prescription cost me nothing. I have nothing for it. I will mail it if you will send me your address. Please write today. Herbert E. Lobay, PAUL CASE, Dept. C-433, Brockley, Mass.

All Contestants Entered District I Music Contest

All entries for the district high school music contest, which will be held April 30 in the city auditorium, have been made, according to Miss Blanche L. Fitzhenry, music supervisor of the Thief River Falls public schools and member of the district committee.

The following schools have entered: Class B—Warren, Thief River Falls; class C—Argyle, Bemidji, Beltrami, Clearbrook, Erskine, Mahnomen, Mentor, and Mcleish. There are seven solo contestants in said numbers, both vocal and instrumental. The local boys' and girls' glee club are working earnestly preparing for the contest, which promises to a banner one.

The contest is being looked forward to by many in this city, both in and out of school, and the public is cordially invited to attend the sessions and give the out-of-town visitors a proper welcome.

ASSESSORS TO ASK MUCH INFORMATION

Farmers Must Give 1927 Crop Data for Agricultural Statistics Compiled by Gov't.

Assessors who check farm assessments this year are required under terms of the new law to secure more detail, and supply quite a variety of classification and information in regard to the agricultural products of farms.

The purpose of this information, which is to be compiled by the State Department of Agriculture, is to give the authorities accurate information about actual farm product conditions. There have been many variations of statistics in regard to farm products that we possess, the government has now decided to compile a few statistics of its own. Anyway, here is information which each farmer, whether owner or tenant, must be prepared to give the assessor, in the figures relating to the 1927 season:

Number acres in corn; acres in oats (in grain); acres in barley; acres in spring wheat; acres in flaxseed; acres in winter wheat; acres in buckwheat; acres in flax; acres in potatoes; acres in clover; tons of alfalfa hay; acres in sweet clover; acres in other forage to cut for hay; acres of wild hay; acres in field beans; acres in sugar beets; acres in cotton; acres in cabbage; acres in onions; acres of plow land used as pasture; acres of idle farm land; acres of clover cut for seed in 1926; acres of timothy cut for seed in 1926; number of chickens; number of turkeys; number of sheep; number of cattle; number of tractors; number of autotrucks.

MUST HAVE 77 PLATES

The last day on which license can be obtained for the use of 1926 automobiles was March 31; autoists without license plates after that date being subject to arrest, according to Secretary of State Mike Holm. His wife attended court Saturday that 1927 plates have been sent to all systematic dealers, and that they have been distributed on account of personal checks. Mr. Holm, according to a statement by Secretary Holm last week, now has 80,431 motor vehicles, an increase of 48,756 over the number registered in 1926. The receipts from registrations this year are in excess of $700,000 over last year.

Traveler, Composer, Author Visits Son in Thief Rriver Falls

Edmund S. Lorenz, Secret Music Publisher of Dayton, Ohio, Addresses Local Audiences

Edmund S. Lorenz of Dayton, Ohio, arrived in this city Tuesday to remain until Friday of next week at the home of his son and daughter-in-law, Rev. and Mrs. E. L. Lorenz. His wife arrived two weeks ago.

He is an author, musical editor, composer, world traveller, and secretary.

Mr. Lorenz has traveled extensively, having toured thruout Europe on three occasions; he has been in Mexico and Cuba, and last fall completed an 18 months trip around the world. While in this city he addressed the Rotary club, last night he spoke to the salvation patients and today he will address the Commercial club lunch on. He is also on the program of the meeting of Adams Presbytery to be held in Crookston next Tuesday and Wednesday.

Members of the Women's Missionary society and the Westminster Guild were entertained at the Presbyterian manse last night, when Mrs. Lorenz spoke interestingly of her observations in the mission fields of Japan, China, Korea, Philippine Islands, India, Egypt, and Palestine, having toured the world with her husband.

Mr. Lorenz's musical talent was indicated at an early age, his parents having to watch him to see that he spent his nights actually in bed and not secretly practicing on the piano. At the age of 16 he was principal of a public school in Salem, Ohio, and he was ambitious. He put himself thru a college, theological seminary, and a year's study at the University of Leipsic by editing several Sunday school papers. His first work of this time was to be a preacher or teacher. The book, however, that he wrote in that period were "Getting Ready for a Revival" and "The Gospel Workers' Treasury."

After editing several pastorates he was called to the presidency of Lebanon Valley College at Annville, Pennsylvania, but after serving only two years he had a complete nervous breakdown and nearly ended his public work. His music, which up to this time was simply provided the money to acquire an education, had to become his life work.

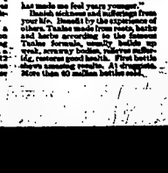
The Lorenz Publishing company, established even before his full recovery, began in a very small beginning, but has grown to the extent that it now the largest sacred music publishing house in America. A great deal of its success has come from the personal touch of their Journals of which he is editor.

Although a child of German parents, 73 years ago, he took a very determined stand that materialistic Germany should not be allowed to keep Japan sufficiently tempted him to make a series of lectures in the army camps in this country on "What's Wrong With Germany," but a breakdown of his former nervous ailment compelled him to curtail the schedule.

After years and Mr. Lorenz is now enjoying the best health he has had in many years, and is very optimistic over the future of the country. He is a firm believer in prohibition, and says that the 18th amendment is not a failure, but that the people have failed to enforce it.

SPRING UNHERED IN SUNDAY BY LOCAL AUTOISTS

Altho spring is said to have arrived March 21 according to the calendar, it did not officially open until Monday as far as members of the Thief River Falls Motor club are concerned.



Seven members of the local club, Mr. and Mrs. Ben Barnard, Mr. and Mrs. F. Dolan, Miss Marion MacMillan, Miss Lauretta Hall, Dr. Chemmie and J. F. Curtis tried out their skill on the links Sunday afternoon, reporting the course to be in good condition. The rain this week, however, delayed the opening of the grounds, altho it is expected that playing will be general in a few days.

President Curtis and Mr. Chemmie were especially ambitious and played 27 holes each. Chemmie made a 52 for one circuit of nine holes, while Mr. Curtis came a close second with 53.

The Farmers State bank and the Citizens State bank of Fertile have perfected a consolidation and are now operating as the Farmers & Citizens State bank in the former's bank building. The new institution opens with a capital stock of $35,000 and a surplus of $7,000.

Well-Known Mason Restored to Good Health

Victim of Dizziness, Indigestion, Loss of Strength, Retired Former Restored to Health by Tanlac.
Gains 12 Pounds

Brawn, muscle and splendid health that nature gives to us cannot withstand the terrible harass and strain of modern living. But health can be regained and protected against attack. Andrew Loucks, a well-known business man of Minneapolis, citizen, a member of the Pleasant Grove Lodge of Masons, says: "Tanlac has made me feel as fine as I could go out on the farm and do a day's work.

"I was greatly troubled with my stomach and at times indigestion would be so bad that I would have vomiting spells followed by cramps. I was nervous and my condition about ruined my nerves. At night I would toss and turn waiting for sleep that I never came. Often I was so dizzy I could not keep my balance. I was getting weaker every day when I decided to take Tanlac.

"After the first bottle I noticed a great deal of improvement. I ate as my fifth bottle now and am enjoying good health. I eat everything with a ravenous appetite. I have gained 12 pounds, am strong as an ox and sleep like a baby." Tanlac is sold in Thief River Falls by Ideal Drug Co., and in Goodridge by Goodridge Drug Co. Advertisement.

PREPARING FOR BIG CONVENTION FOR CLUB WOMEN

(Continued from Page 1)

Mrs. George Swanson, Mrs. G. W. Sayres, Mrs. J. N. Nesse, Mrs. C. B. Holmes, and Miss Ethel Wilson.

Comprehensive writeups about plans for the convention have been appeared in twin city newspapers, last week the Minneapolis Journal featuring pictures of Mesdames Reep, Froehlich, Arnold, Erickson, Richards, Gerrard, Bolling, Reep and Reynolds, and Misses Boyer, Dixon, and Halvorson.

Special meeting of press department next week. Mrs. Davis is not a candidate for state president and Mrs. Boyle is the only candidate in the field so far.

Surety Company's Motion for New Trial is Denied

The Federal Surety company is decided its motion for an order amending the findings of fact and conclusions of law previously made by the district court and a motion for a new trial in the case of Ole Hanson, Polk district court and the surety company by Conciliation Commissioner Wm. Lemke, according to an order by Judge Andrew Grindeland at Warren filed with the clerk of court Friday last week.

The defendant's motion asked that the findings of fact and conclusion at law in the case of the court ordered in favor of the company the school district of Goodridge in the amount of $1,000 be amended by the court to find that the Goodridge State bank was duly designated by the board of School District No. 108 as depository of funds in its treasurer, as a depository of funds of the said school district. The court also held that the school board had not designated the bank as a depository.

The surety company claims that in September, 1925 the school board elected to the position of the bank, which had been designated as the depository of the school district, but this statement was false and affected the trial which the court erred in finding after the bond covering the treasurer. Sundhoud. The defendant company further claims that the bank should be charged from liability under the bond by the fact that the bank received possession of the plaintiff on which it relied.

ORGANIST OLSON RETURNS

Mr. and Mrs. Ole Olson and two children arrived last week from Minneapolis and will reside for the present in the Alfred A. Johnson apartment, 61 109 LaFave avenue south, Mr. Olson is employed by Hanson Brothers, and plans to remain several months at Grand Forks. Mrs. Olson is well known here as organist at the Lyceum theatre, which he relinquished last August.

YOUNG MAN PAYS $18 FOR SATURDAY NIGHT SPREE

Clifford Thompson, aged 19, of this city was brought before Judge N. W. Nelson, municipal court, Monday morning on a charge of being drunk and disorderly. The judge assessed a fine of $18, which was paid.

The arrest was made Saturday night by Patrolman Wm. Sheard and R. H. Burrell, special officer at the Hamilton dance hall. Young Thompson related being put out by Burrell when he came into the hall. Patrolman Sheard, who was also interested, and was promptly given lodging in the jail for the night.

Did you find the liquor in an alley or in a garage?" asked the municipal son. Another young lad arrested on a similar charge a short time ago told the police that story.

But Thompson didn't remember where he got the "stuff." "You can get it anywhere around town the," he added.

ATTORNEY HALVORSON COMMENTS ON FARM CONFERENCE

Attorney G. Halvorson has just returned from several days stay in the twin cities and during that time attended the regular meeting of the Minnesota Council of Agriculture at the St. Paul hotel on March 31. The meeting was attended by members from all parts of the state and there was not the slightest sign of any disposition to lay down in the fight for agricultural equality along the lines of the McNary-Haugen bill, he says.

A committee was appointed to draft and introduce a bill in the state legislature asking for an appropriation to defray the expenses necessarily incurred by the state after this legislation has been put before the members of congress and when the committee presented the bill all the members of both the house and senate were more than willing to sponsor it, based it looks as the it will pass.

It is said that several prominent business men—from Minneapolis attended and expressed their disapproval of the proposal sent to congress by over two hundred men in that city and informed the meeting that a great majority of the people in Minneapolis were in favor of this legislation, but that the Minneapolis papers were controlled by the Board of Trade, the grain exchange, milling and banking interests so that the common people had no way of expressing their sentiments.

"These men stated that from seventy-five to ninety per cent of the people in Minneapolis were with us," Mr. Halvorson says, "but this I think is too strong for there are many well meaning men on the other side of the question. He is also on the program of the meeting of Adams Presbytery to be held in Crookston next Tuesday and Wednesday.

Spring Building

Don't take our word for it. Ask the man experienced in building—and he will tell you that the best materials are always cheapest in the end. Why? Because good materials resist both age and weather. Wherein so many fail, is the reason that the best always cost the most. This is not true—because in lumber often more waste will be sawed from seconds than the saving hoped for—as compared to first grade material. Our yard is now completely stocked with first grade lumber in all woods. We want to serve you.

Lumber of all kinds and in all grades for special construction of any nature. Also brick, concrete lime, roofing, shingles, lath, door and window frames, doors and windows, paints, builders hardware, etc.

Whether you plan a complete new structure or only alterations or repairs we can supply just the materials you want. We have plan books for every conceivable job—from shelf to mansion—and they are for your use, without charge of any kind. Come in and let us assist you.

MUSIC CONTEST WILL ATTRACT MANY TO CITY

Give Clubs and Soloists from Other Towns Entered in District H. S. Event

TWO PROGRAMS IN AUDITORIUM ON APRIL 30TH

Prof. Jones of U. of M. Critic Judge; Miss Johnson in Charge of Arrangements

Arrangements are now nearly complete for the annual 10th district Minnesota State High School Music League contest to be held in the auditorium in this city Saturday, April 30; according to Maude L. Johnson, local music supervisor and member of the district board of arrangements.

Judging by entries now at hand, indications are that more than 200 boys and girls of northwestern Minnesota will participate in the various events, providing a musical treat to the citizens of this community.

Winners in the contest here, which is one of 12 being held thruout Minnesota, will compete in the state contest at the University of Minnesota May 6 to 14.

High schools in division C, having an enrollment of less than 200, have entered girls' glee clubs from Argyle, Baudette, Beltrami, Clearbrook, Fosston, Mentor, Nashwauk, Melrose, and Red Lake Falls. These glee clubs will be judged on the basis of not less than eight nor more than 16 members.

Eight high schools are competing in division B, schools with enrollments from 200 to 500, namely Thief River Falls and Warren. These schools will compete in three events — girls and boys glee clubs and mixed chorus. These glee clubs must have memberships of not less than 30 nor more than 50 members, while the ensemble may include from 16 to 40 members.

Other entries include:

Piano soloists—Thief River Falls, Bemidji, Crookston.

Soprano soloists — Baudette and Bemidji.

Violin soloists—Erskine, Baudette, Crookston and Melrose.

Boys' unbroken instrument soloist—Mentor.

Vocalia soloist—Thief River Falls.

The local high school may also have a tenor soloist.

Boys' and girls' sight music memory contest, Thief River Falls being the only entrant.

Crookston is not entering any contests, but will be represented by a chorus and a band at Crookston last spring.

The entire judge has been engaged — Prof. Irving W. Jones of the University of Minnesota.

The required selections are as follows: Mixed chorus — Schubert's "Bailid Thee More Stately Mansions," willing to spare thee to sorrow, sweet spirit, hear my prayer," by Candish; soprano solo, "Song of Miriam," by Gilbert; alto, "Twilight," by Nevin; tenor, "Spirit and Flower," by Campbell-Tipton; violin, Concerto," Rafter; piano, "Waltz (A Flat) Op. 64, No. 1," Chopin; festival selection for all divisions of girls' glee clubs, "June Rhapsody," Daniels.

The contest will include two full days of session and evening programs. A small admission charge will be made to defray expenses connected with the contest, such as judges' salaries and rentals, and entertaining the contestants.

Miss Johnson is in charge of local arrangements. The other members of the district board of arrangements are Supt. McArthur of Baudette, chairman, and Supt. E. F. Lee of Mentor.

E. Larson to Inspect Dam and Paving Jobs for City

With a view of protecting the city's interests in the reconstruction of the dam and the paving of Main and Riverside avenues, the city council at its regular meeting Monday night decided that it should have a city inspector on the job, in addition to the inspectors of the contractors, and that of the state on the paving work; also ordered that Mr. Larson, Light committee of the council to approve all estimates of contractors hereafter before they are allowed by the council.

Elling Larson, local contractor and builder, was named as inspector, which the council voted to have approximate cost of $1,000, all of whom were present. The applicants were Elling Larson, L. H. McAdams and Roy Belcher, all local men, a resolution was adopted authorizing a contract with Mr. Larson, who will receive 75 cents per hour for each day that he is employed on the various jobs, until the contract is cancelled by the council.

The first estimate for material and labor was received from the Minneapolis Hague Co., showing they were entitled to $11,416, the same having been approved by the engineering firm, Toltz, King Co., as required by the contract with the last named firm. Mr. Toltz's preliminary material is now on hand, including sheet piling, etc., reported Harry H. O. Chemmie advised the council that he would be safeguarding the city's interests if the council would, after as all contracts had a consultation with the estimates with the engineers of the contractors, and also check the material. Councilman Hall, water and light committee of the council was asked to do this at the same time before the warrant is signed, and hereafter before the estimates are presented to the council.

KITTSON FARM TRANSFERS

"Farm land sales are again quite general occurrance in Kittson county," says the Hallock Enterprise. Six hundred deals have been consummated in the vicinity of Kennedy within the last few weeks, and there seems to be many dollars demand for Red River farms.

Provencher to Aid in Advertising Minnesota

Alvin Provencher, Evelyn boat proprietor and president of the Pennington County Auto club, yesterday received word from Governor Theodore Christianson appointing him Thief River Falls chairman of the Ten Thousand Lakes Association advertising campaign for 1927. The governor is honary chairman for the association's campaign, which is the most extensive ever attempted.

As a result of the splendid advertising campaign of this organization during 1926, which was made possible only by the co-operation and financial support which the communities of our state gave it, Fred Minnesota has benefitted vastly", writes Governor Christianson. "The 1926 advertising campaign was the most successful ever conducted in Minnesota, according to the report of the state tourist association, and resulted in $71,073,200 being spent by visitors in Minnesota. Furthermore, a great benefits came to agriculture and industry in all parts of the state as a result of the new and unusual attractions, particularly the Paul Bunyan and Babe the Blue Ox statues at Bemidji and the Iron Lake."

Mr. Provencher is an enthusiastic booster for Minnesota and its many fine attractions, particularly the Red lakes.

RAINS DELAYING SPRING SEEDING

Work in Fields Starts on Ridges This Week; Roads Suffer From Spring Breakup

Altho spring seemingly arrived some time ago, spring work in the fields has been delayed by the rains of the past week, and it is quite likely that it will be general in this vicinity not late next week. Some farmers on the ridges are reported having started preparing their fields for seeding, and quite a number have so out by the end of the week. With the exception of the land around the Lakes" Marsh. The city council has appropriated $250 for carrying out the exercises. Details of the program are now being worked out.

Another important decision made at Friday's meeting, was to make the annual spring clean-up campaign an event sponsored by the Legion. A committee from the members of the post will have charge of the campaign, which is one of many places throughout the state where automobile traffic has been at low ebb during the winter, and the accompanied trips by car have often had to be pulled out.

The Legion hall was filled to capacity Friday night at one of the most enthusiastic meetings ever held by the post, and plans for the year's program were discussed, and ideas entertained.

Martin Nye, representing the city council, was present briefly in behalf of the band and asked that the Legion cooperate in providing funds for its maintenance, if possible.

FIND BODY OF K. BOLSTAD IN LAKE

International Falls Man, Formerly of This City, Disappeared Oct. 24, 1926.

The body of Knute Bolstad, 50-year old International Falls man, formerly a former Thief River Falls citizen, who disappeared October 24, 1926, was found in Rainy River by Arthur Arbuckle, 17-year old son of Mr. and Mrs. Arbuckle, who resided at the dock at Rainy River, according to word received here by O. C. Dahl, 606 Arnold street, Monday. Mr. Bolstad was in International Falls, where interment was made.

The lifeless body was found Coroner Cantwell and Undertaker Green were called to the scene for investigation, it was decided no inquest would be necessary as it was quite evident that the body was that of Mr. Bolstad, and it was further identified by the stub of a pay check issued by the International Lumber company by whom he was employed, together with the dry lumber platform of the mill.

Sunday afternoon, October 24, Mr. Bolstad and some companions went over to Rainier in a car, intending to spend the evening at the International Falls Press. "Later the old gentleman left the other members of the party and as they supposed went to the car to wait until they were ready to return to International Falls. When the party broke up, Bolstad could not be found and they went over to International Falls and the next day notified relatives of his disappearance. A systematic search immediately began by the county officials was made for several days and there were several rumors current that Bolstad had been seen alive by anyone. Finally the body was found and identified as mentioned above.

Deceased is survived by his wife and a son, John, who operates a store in International Falls.

The Bolstads moved from this city to International Falls about eight years ago, after residing here for several years. Mrs. Bolstad was the former Stella Swenson. Mr. Bolstad was employed by the Red Lake Trading company for several years, and later worked in the local box yards.

Plan Ball Team

Members of the Modern Woodmen of America lodge last night decided to sponsor a baseball team and prospective players will practice in Tuesday park next Sunday. Chas. Dodd is the temporary manager. The Modern Woodmen will give an Easter dance in the I. O. O. F. hall Monday night, April 18.

Pennington 4-H Club to Meet in T. R. F. April 23

Boys and girls of the county are invited to attend a meeting of the 4-H club to be held in the Commercial club rooms in this city Saturday, April 23, according to a statement by Clyde Dahlen, county agent. All boys are interested in any of the various projects of the county are urged to attend the meeting.

It is announced that local merchants are being asked for samples and a full line of uniforms for members of the band, which it is hoped to obtain in time for the Memorial Day parade. It is also contemplated to put the regulation blue uniform with gold braid.

A Kiddy-Kar polo contest between teams captained by Chas. Eckert and N. C. Kvarne, readings by Kem Olson and P. G. Pederson, and singing with Hilda Lokensgard at the piano, are also now included in the evening's entertainment.

Auto Show to Be Made Annual Event; Band Plays at Meeting Friday Nite

Thief River Falls will have an oldtime Fourth of July celebration this year.

It was decided at a meeting of the Elmer J. Eklund Legion post Friday night, when a committee composed of the following was named to outline plans for the event: W. L. Nash, chairman; James Caldis, Walter Thompson, and Oscar H. Smith. Each committee expects to meet shortly and go right ahead with arrangements.

The fourth has not been celebrated in this city in late years, this having been left to the smaller towns in the territory. However, it is felt that there is a demand for a big day of entertainment and it is believed that if a worthwhile program is provided, the people will turn out in force to help celebrate the nation's birthday in a gala event.

Among the ideas considered plans for the proper observance of Memorial Day, a committee of arrangements being named, consisting of C. J. Hermanson, chairman; Alvin Holstrom, H. H. Jensen, and Ole Lahoe" Marusha. The city council has appropriated $250 for carrying out the exercises. Details of the program are now being worked out.

FREDERICK RESIGNS FROM WHEAT ASS'N

Manager of Minnesota Pool Gives up Office; Elde to World Wheat Conference

W. H. Frederick, formerly of Thief River Falls, who has been active in the management of the Minnesota Wheat Growers' Marketing association since its formation two years ago, resigned his position at a meeting of the directors of the association at that time.

Mr. Frederick will remain with the company until June 1, according to Fergus Falls, local farmer, who is a member of the board of directors of the association.

It is also planned to continue the co-operation with other wheat pools in the northwest, and for this purpose Mr. Elde, Harry Beckwith of Crookston, and other directors of the association group will attend an international wheat pool conference in Kansas City May 4, 5, and 6. Among those who will participate in the meeting and Secretary of Agriculture Jardine, several Canadian premiers, governors of many states, college heads, and representatives of pools in Australia and Argentina.

Ralf P. Jacobsen, son of O. P. B. Jacobsen, state railroad and warehouse commissioner, has been engaged as counsel for the Minnesota Wheat Growers' association.

ROAD BIDS TURNED DOWN BY CO BOARD

Proposals for Three Projects Rejected at Meeting Last Thursday

The county board in session last Thursday rejected all bids for the three proposed state aid road grading jobs in this county, which were considered a very favorable bid. However, after considering the bids, they decided to establish a minimum price, which was $11,000, asked to be given an extension of time to allow the contractors to bid before announcing definite decision.

Among those who will return here to spend the summer months are those taught in this city for some years, including those that they are entertained with the usual dances, bridge parties and other social events. Mrs. Ole Hanson, who has been a resident of this city for many years, is one of the members of the present faculty were born in 1870-80.

Miss Ruth Lee, one of the principals in the city's live schools, has been employed to teach in the Thief River Falls schools for the coming year.

Miss Lee is a graduate of the Thief River Falls high school principal, and Geo. H. Gunderson, county superintendent of schools, are also attending the university—meetings, leaving Monday night, expecting to return Sunday. Mr. Lee will be accompanied by his wife.

The Thief River Falls schools closed Friday for Easter vacation, the school to be reopened Monday morning, the 18th. Most of the non-resident teachers are expected to return to their homes for the vacation, as are the out-of-town pupils attending high school.

The school board at the brief session Monday night, at which all members were present, decided to hold a meeting in the near future for the purpose of discussing with the teachers the matter of consolidation with high school. A bid of $50 for the two sand submitted by Ole Thatland was accepted. The board deciding to use the shed during the summer.

EASTER CANTATA IS PLEASING PROGRAM

Chorus Accompanied by Orchestra Well Received in Trinity Church Sunday

Despite the inclement weather Palm Sunday night, the Trinity Lutheran church was nearly filled for the presentation of the impressive Easter cantata, "The Seven Last Words of Christ," by the Trinity choir, assisted by singers and musicians from the choirs of the city and some from neighboring towns. The cantata was so large that it was a grand interpretation of the theme, and the choir effectively brought out by the accompaniment of a 25-piece orchestra.

Most of the choir of 45 singers in the chorus had partaken in the various renditions at the cantatas but the greater familiarity with the numbers was evidenced in Sunday evening's program. Mrs. Ole Hanson, Mrs. Dr. F. L. Vistaunet, leader of both the choir and the orchestra, and Miss Ruth Lee, pianist, were in charge of drawing of music parts for the program, which is the outstanding musical event of the year in this city.

Mrs. O. F. Melby and Mrs. G. W. Sayres, soprano and alto soloists, respectively, rendered their parts in splendid manner, and Mrs. Dr. L. Vistaunet, who has been heard to good advantage in solo and duet numbers in the past, was heard to splendid advantage in the duet with Mrs. Melby, "Jesus, Lover of My Soul."

Mrs. Ole Hanson, Mrs. Ralph Hanson, Mrs. Ramus Larson, and Mrs. Ole Lahoe were soloists with the chorus, and their solo parts were rendered in splendid manner. Mr. Ramus Larson, accordionist, also contributed a number, thereby enjoyed by the audience. Mrs. Melby, who has been ill for the past week, was accompanied at the piano, was accompanied by Miss Ruth Lee.

BIG WAREHOUSE FOR POTATOES ASSURED CITY

Leonard, Cresset & Riley Decide to Establish 150 Carload Plant in T. R. F.

PLAN BUILDING ACROSS FROM SOO FREIGHT DEPOT

To Be Ready to Care for 1927 Crop; Many Farmers Plan Increased Acreages

A large potato warehouse with a capacity of about 150 carloads will be constructed in Thief River Falls this summer by Leonard, Cresset & Riley, Cincinnati potato firm, according to Theo. Hust of Red Lake Falls, local representative of the firm, who was visiting from Ada where he conferred with J. T. Ivell, who was here last week in connection with the matter.

Mr. Lysell operates a line of potato warehouses in this section for the state for the Cincinnati concern.

It is planned to erect a building, possibly 200 by 40 feet, on the Soo tracks across from the Soo depot, Mr. Hust reports.

Sites were inspected here by Mr. Lysell and W. G. Knowles of Moorhead, manager of the western branch of Leonard, Cresset & Riley. Having been favorably impressed with the interest the potato growers here have shown, they decided to establish a warehouse at this point, a central market.

The building will be of the most modern construction, designed to give the quickest possible service in unloading and loading cars, it is stated. It is pointed out that this plant will establish Thief River Falls as a potato market not only for the immediate territory but for a wide territory.

The company announces that quotations will be published regularly on the shares basis if desired. A special effort will be made to get a large number of farmers here to exhibit potatoes, for which prizes of several returns. Orders for seed are being received by Mr. Hust and H. R. Johnson of the First National bank. Quality and quantity yields of Minnesota varieties, preferably Early Ohios, Cobblers, and Triumphs will be featured. Use of a special kind of phosphate advocated.

A machine for treating potato seed with formaldehyde will be placed at next week, Mr. Hust says.

Many farmers in potato acreage in this community is assured with enlarged production. Quotations are being received regularly agreed to.

PENNINGTON TURKEY MAKES RUSH TRIP TO CALIFORNIA

Knowing the excellence of Pennington county bronzes, R. O. Mogensen, former Thief Rivertie and now a resident of Pasadena, Calif., wired here Saturday for a bird to be used for some special occasion there tomorrow. The request of Sheriff J. Company immediately set out to find a suitable bird to represent Minnesota in California, to-wit: a 30-pound tom, which was promptly shipped by Mr. Mogensen.

It seems evident that Mr. Mogensen has not forgotten Pennington county even tho he has transferred his boiling to California!

SHERIFF COLLECTS $2,566

A total of $2,566.75 of delinquent 1923-personal property taxes in Pennington county were collected during 1926 by Sheriff O. L. Ihle. Ihle will have much less to collect this year.

Cream Receipts Increase At Co-operative Creamery

The usual spring increase in milk production is noted in the community, according to Manager Jos C. Holm of the local creamery who reports that cream receipts this week are the largest so far this season. A substantial increase in the creamery's volume for the first three months of this year over the corresponding period of 1926 is also reported by Mr. Holm.

That the farmers of this community are taking proper care of their cream is reflected in the quality which brings a higher returns to the producers.

Delivery of buttermilk from the Holt creamery to the creamery here is to begin this week, according to Mr. Holm. It is still again be exceptionally favorable conditions for the distribution of the product from the Holt plant will likely be decided at a meeting of the St. Hilaire creamery board next week.

Among those who will return here to spend the summer months are those taught in this city for some years, including those that they are entertained with the usual dances, bridge parties and other social events. Mrs. Ole Hanson, who has been a resident of this city for many years, is one of the members of the present faculty were born in 1870-80.

Miss Ruth Lee, one of the principals in the city's live schools, has been employed to teach in the Thief River Falls schools for the coming term.

EASTER

Easter comes at a different season of the year. The festival itself is both commemorative of the resurrection of Christ and—as a memorial to the atonement wrought by the death of the Master upon the cross.

It is hailed with great acclaim in all the Christian churches of the world. In Greek and Latin and in the languages derived from them, Easter was known as "Paskha," "Pask," "Pasque," "Pentecost," etc., from the Chaldee word "Pascha," the equivalent of the Hebrew "Pesach." The "Destroying Angel's" act is recalled by the last name in "passing over" the households of the Hebrews when he smote the Egyptians, as disclosed in the twelfth chapter of Exodus.

This year Easter will fall on April 17. The way by which Easter is determined is that of the first Sunday after the paschal full moon—the fourteenth day of the calendar moon, or the full moon which happens upon or next after March 21; and if the full moon happens on a Sunday, then Easter day is the first Sunday following.

As usual, Thief River Falls churches will observe Easter with elaborate programs. It is an event that the children and the grown-ups have learned to look forward to with much pleasurable anticipation. It is an event all should remember with some beautiful thought for the day.

Announcement

We wish to announce that we have leased the Aga machine shop, west of the interlocking, and will conduct a complete and fully equipped machine shop in Thief River Falls. Special attention will be given to lathe work, welding and repairing and battery service. We are now ready for business in auto repair work, etc., and our machine shop department will be open about May 1, when Andrew Solem of Greenbush an expert in the rear and welder, who will have charge of this work will arrive.

Schall Investigation Still Holds Interest of Public

Hope Passes Bill Raising Pay of Legislators to $1,500 per Session, Senate Will Follow Suit—Investigation of Irregularities in State Services and State Treasury Aberration Under Consideration.

By Marvin W. Odland

St. Paul, Minn. April 12.—The Schall investigation committee is putting in long hours every day in an effort to complete its hearings before the adjournment by the legislature, April 21. The hearings took a more serious turn for the blind senator, Thursday, when A. C. Townsend, state prohibition chief for the Northwest, testified that Mr. Schall on two occasions asked him about the disposition of liquor cases and that on a third occasion he was present when A. W. Jacobs spoke about another case. In cross examining him, Tom Davis tried to make Mr. Townsend admit that he was unfriendly to the senator and that the reports made were such as to subvert justice, or cause Mr. Townsend to violate his oath of office.

Public interest in the Schall investigation continues without abatement and will probably rise to a still higher pitch when men of prominence like Senator William F. Brooks, Republican national committeeman, for Minnesota, Lieutenant Governor Lee Nolan, E. W. Backus, the lumberman, and others take the witness stand. What the result of the investigation will be nobody can say at this time. Few or none believe that the hearings in St. Paul will cause the United States senate to reverse its former action and unseat the blind senator, but the general feeling down here seems to be that Mr. Schall's political future will not be brighter on account of the testimony offered. There is a belief, quite generally expressed, that the people of the state will consider that many of the senator's state activities have been overdone in 1924 prior to that time were not men of the highest type of citizenship.

It looks as if it will be more profitable hereafter to be member of the Minnesota legislature, for the house has already passed the senate bill and will doubtless follow suit this week—a bill increasing the salary of the legislators from $1000 to $1500 per session. The vote in the house was very close, 66 votes for the bill and 64 against. Many who voted against the bill were merely hoping it would pass, but lacked the courage to go on record for it, because of their belief that their constituents would condemn their action.

At every session in recent years efforts have been made to increase the salaries of the legislators, but a majority of the members have been afraid to take the step. The argument always used by supporters of an increase is that abler men would offer their services as legislators if the salary is enough to cover campaign expenses and provide reasonable compensation for the time spent at St. Paul.

The house passed the bill early last week and when it reached the senate, Thursday, that body voted unanimously to advance it to the calendar for consideration early this week. The action indicates that the senators favor the bill.

Seven bills embodying the main portion of the tax program during the present session, were passed by the house Thursday. One was the Three bills provided changes in the state inheritance tax; two referred to interest rates on delinquent and state lands, and a sixth provided that personal property, when it is moved beyond the tax district, shall become immediately taxable.

The bill filled provided that exemption from inheritance taxes be granted in addition to present exemptions to lands used for agricultural purposes up to 640 acres. An amendment was submitted to make the maximum value of this property $50,000, but the bill fell after brief debate.

After a lot of talk and rumors about a serious shortage in the state treasurer's office, an investigation of the office was finally been taken up for serious consideration by the legislature. A joint committee of the house and senate is hearing witnesses with a view to determining whether an audit of the treasurer's accounts ought to be made. M. E. Shipton, former comptroller of St. Paul, who was employed in the treasurer's office two years ago, declared the shortage caused by Walter C. Martin's embezzlement of funds, and George Olson, formerly a deputy public examiner and now a cashier in the treasurer's office, both declared that the system of bookkeeping in the treasurer's office is faulty and should be revised, with the cooperation of the state auditor's office.

In a later letter there may be something definite to write about in regard to this investigation. At present nothing of importance has been revealed.

It looks as if there will be an amicable settlement of the controversy between the state auditing and the state administration over the school aid fund of the educational institutions bill. Governor Christianson and Senator C. C. Rodsmith, chairman of the senate finances committee, have been in conference a number of conferences the past week, and expect to "get together." Meetings have been held, week after week, for long hours by a group of legislators and members of the governor and others from the state capitol. It seems that each side is willing to meet the other and that in order to keep the appropriations down to $40,000,000 or thereabouts the expedient of issuing certificates of indebtedness for a couple of million dollars, or so, will be resorted to.

An investigation of irregularities in state commodities will be made by the Ramsey county attorney, if a resolution recently introduced in the state senate is adopted. That resolution was prepared and submitted by the senate committee which is as follows, in part:

The committee on rules heard the testimony of a large number of witnesses bearing on the activities of the former commissioner of securities and the department of commerce, with respect to the issuance of licenses or permits to sell stock in corporations, and the refusal by Lewis Hermes for the same, but more particularly in regard to the license to sell stock in the Gold Hard Stone Brick Company of Duluth, and the said Hard Stone Brick Company of Duluth, Inc.

"That from such testimony this committee finds that Lewis Hermes, the regularities former commissioner of securities which in the opinion of this committee are direct violation of Section 8070, general statutes of Minnesota, 1923, pertaining to malfeasance in office. That outstanding against the said Hermes is the commission instigated and done by the former commissioner of securities in his an apparent fraudulent intent and in the interest of certain persons who were vitally interested in and benefited by such change in the official records of said department.

"The committee does not feel that it is proper at this time that an investigation committee of such acts or activities of said official should be appointed, but feels, nevertheless, that such acts or activities should be investigated by the proper authorities constituted by law for such purpose.

"The committee recommends that the aforesaid resolution be indefinitely postponed, but that such information as now is in possession of this committee be turned over and made available to the attorney general of this state by him to be submitted to the county attorney of Ramsey county for such action in the premises as such said officials shall deem proper, and the committee earnestly urges that speedy and effective action be taken."

By a vote of 111 to 7, the house Friday passed the basic science bill without a change from that as approved by the senate. The bill requires an examination in basic sciences—anatomy, physiology, pathology, bacteriology, hygiene, and after 1931, chemistry—of all persons who wish to practice healing. It covers doctors of medicine, osteopaths, chiropractors, and a few other healing groups, but exempts Christian Scientists, mental and spiritual healers and masseurs as long as they confine their work to the ordinary practice of these groups.

The senate Friday passed a bill increasing the salaries of district judges from $4,500 to $6,000 a year, the vote being 50 to 16. The measure also passed the house.

A $4,000,000 program to make Minnesota dairy-herds free from tuberculosis was approved by the house Saturday, when a measure was passed providing for a tax levy to yield $2,000,000 a year for the next five years, in addition it permits issuance of certificates of indebtedness up to $3,000,000 to pay indemnities and to provide for costs of re-tests of cattle.

The senate last week passed a bill requiring the state to pay taxes on land held by the rural credits board.

The salary increases for county auditors and county attorneys voted in the senate and house last week do not apply to Pennington county, but to 19 other Minnesota counties where the salaries were lowered by the valuation drop in recent years. The governor Friday returned the bill to the house unsigned, saying that this "was not an appropriate time to increase the salaries of public officials."

GOODRIDGE MILLING MACHINE SOLD TO CANADIAN CONCERN

The Farmers' Elevator & Milling company of Goodridge has sold its milling machinery to Mank Bros. of Manville, Alberta, Can., to where it was shipped this week. H. Mark was in the city Tuesday on his return to Manville. He was accompanied home by A. R. Mandt, manager of the Goodridge concern which has operated an elevator and flour mill since 1919. The decline in wheat production has made it an unprofitable part of the business, and it has been decided to change the 24x60 foot basement of the mill building into a potato warehouse. The two years of operation of the mill and elevator handled about 85,000 bushels of wheat, which now the output is practically negligible.

NEW GRADUATE IS OFFICE MANAGER

Real executive ability is acquired by the ACTUAL BUSINESS routines (copyrighted—unobtainable elsewhere) received at Dakota Business College, Fargo. How else could C. R. Bystrom go straight to a position as office manager for the King-Bruns Auto Co., Cooperstown, the very day he graduated?

Why else did the Kraer Dairy Co. recently choose M. S. Paulson and the National Biscuit Co. (Fargo branch) engage John Severson as their office manager?

Penney Company Celebrates 25th Anniversary

No. 1—J. C. Penney, who founded the J. C. Penney Co., in Kemmerer, Wyo., 25 years ago. No. 2—The original J. C. Penney Store which Mr. Penney started with a capital investment of $500. No. 3—The Penney Co. Building, Executive and Buying Head-quarters in New York City. This entire building is occupied by its offices and warehouse facilities. No. 4—Store No. 500, opened in Mr. Penney's home town at Hamilton, Missouri—a typical J. C. Penney Co. Store of today.

By George Bruce

"Success is entirely a matter of moral fibre. The opportunity for achievement is greater today than ever before".

When asked to comment on the celebration of the 25th anniversary of the founding of the Penney stores, Mr. Penney made this remark. Upon this firm belief is the truth of it rests the foundation of the system of department stores, bearing his name, which now cover the entire country.

These stores are not chain stores in the ordinary acceptance of the name. They are a closely knit group of individual community stores, contributing to the welfare of the community in the same manner as other local stores but with the added advantage afforded by co-operation with other Penney stores.

They have all been developed on the theory and practice of partnership. They have all contributed in a purely local manner to the development of the towns where they are located. The strength of the group has been used to serve the welfare of the local community.

The original J. C. Penney store was established in Kemmerer, Wyoming, on April 14th, 1902. Today there are 672 J. C. Penney stores and plans are already under way to increase this Penney investment.

A still greater difference is shown in the fact that today, J. C. Penney has more than 1,000 partners, each one of whom has started in exactly the same manner as he started, with the same future ahead and the same factors to contend with and to turn into personal success.

The success of J. C. Penney Company has been founded on the structure of moral fibre and the stern stuff which turns opportunity into achievement. It has been maintained through the spirit of co-operation and the desire to help men profit in proportion to their willingness to work for a profit.

"Look at Edison, Ford, Rockefeller! Study the history of the senior Morgan," Mr. Penney said, "they are examples of the will to work once a basis of business morals has been established.

He might well have said, "Look at the men in the Penney organization," more than two score of whom have grown from stocks to an affluence which places their present financial rating in excess of a half million of dollars.

The Penney investment has been men and the Penney policy has been to teach these men how to turn their investment of time, energy, personal interest and earnings into a greater profits for themselves through the application of service to the people of the community where they are located.

The only way in which ownership of stock in the J. C. Penney Company can be acquired is through work. There is no limit to the amount that any working individual can acquire. It is made entirely a matter of personal application.

Today, in the 672 stores which operate under the Penney name, and in the home organization, the 1200 partners are doing exactly what J. C. Penney did and still does and each one has the same potential ahead of him that the founder had.

At the start, 25 years, Penney owned a third interest in the original store in Kemmerer. He acquired the balance through earnings made by that store.

When Penney decided to start a second store he gave E. C. Sams an opportunity to acquire an interest in the new place of business. Penney had started a group with the Kemmerer store as the foundation. Sams soon started a group with the second store as a foundation.

Each trained manager for stores to follow. This was the birth of the Penney system.

Sams, like Penney, was entirely dependent upon what he earned out of the stores and what he made the stores earn for him, through his own efforts, for any accumulation for the future.

Now, Mr. Sams is president of the J. C. Penney Company, and Mr. Penney is chairman of the board of directors.

The system which started 25 years ago has brought other men along with it. Today there is a new Penney or a new Sams for new any one of the many who have stepped up through the organization, starting a new store in some section of the country. This store and others like it will be moulded along these same lines as the original store at Kemmerer.

The following episode is illustrative of the manner in which Mr. Penney has kept his original idea intact.—In April 1924 he opened his 500th store. It was located in Hamilton, Missouri, his birth place. On that day, he attended to the customers in the Penney store in the same manner in which he did at the original Kemmerer store. He has never lost sight of the original merchandising instinct.

In the training which he personally gave to men who have since become his partners, and in the manner in which they have passed on to others who have also grown to ownership, the quality of local activities have steadily been emphasized. It is freely stated in store circles all over the country that the establishment of a J. C. Penney store in the community is a good thing for all business.

Managers of J. C. Penney stores, and these are his active partners, are men who are active in local affairs. They are members of local organizations, contributing to local charities and movements to develop local interests. As through the Penney plan, they have extended their business relations to other cities and towns, they have increased their personal activities until they have become men who are serving the states in which they operate.

Speaking of local activities, Mr. Penney said, "The measure of a man's value to himself is, in a general way, a measure of his value to his community. We once were considering a location—a real investment—a location we asked a local merchant in the same general line that we handled, what he thought of the chance for making a go of a new store. He replied that he had been in business in that town for years and that he could barely make a living.

"Further investigation showed that he barely ever made a net profit in excess of a thousand dollars or so. But the town looked good. We started a J. C. Penney store. It was pronounced a success. The man who became manager applied himself wholeheartedly to a study of local conditions. He worked among local men with interest and with a genuine local desire to make himself of value to the community. The man who had barely made a living subsequently failed. He failed because he was unawake to the knowledge that success awaited in that town.

It took from 1902 until 1909 to build the J. C. Penney system up to 6 units. In the next six years there were 71 stores. In 1920 there were 312 and the volume of yearly business had grown to $12,500,000.

The original J. C. Penney store was built upon the spirit of service and upon the policy of reducing prices by a constant build up on the rate turnover. The substance of the present operations of all stores is that of the original one.

Definite policies have been established and adhered to nationally. These policies have been the outgrowth of the quickness and experiences of the steadily increasing group of store managers. There are never any bargain sales or "cent" days. There are never any purchases of "seconds" or inferior merchandise. When goods are marked down they are reprized at what has been determined to be their lowest price based on the market of the day.

The business by quantity buying are exemplified by a recent order for 100,000 tin of table silver to be used in connection with the Silver Anniversary activities of the organization. This was the largest individual order ever placed for table silver.

A single order for 300,000 pairs of hosiery, recently placed, totalled $4,000,000. The largest individual hosiery order ever placed. Other items are bought in the same manner and the manufacturers are glad to ship their products at times when heavy orders help business much in them in savings in overhead. In this manner, the J. C. Penney stores are able to buy at a great saving. This method of buying helps the manufacturer. These stores have in mind always the place where they are located. They have a still greater objective in road to partnership with J. C. Penney and new economies. They are always about to add to the purchasing of the personal dollar of the great American family.

The J. C. Penney store is a factor in American domestic economy. In its 25th year it stands as the greatest co-partnership organization in the world and with a record for increase of original capital—which is without parallel.

Now J. C. Penney is devoting a portion of its energy to the study of ways for agriculture, a co-operative partnership arrangements by which the grower of its products may be placed along lines traveled by those who have become managers in J. C. Penney stores.

He is planning to educate the farmer in diversified crop raising; in better stock breeding, co-operative marketing and to spread the doctrines of more profitable farming methods throughout the country.

The Zion Lutheran congregation held its quarterly business meeting Friday evening. Several items of routine business were taken care of. The treasurer's report showed a balance in the treasury. A. Pesonen was elected trustee to fill the unexpired term of Ole Senstad. Committees to have charge of interior improvements in the church was named. The yearly "indaemiller" for schools had reached the goal. The few remaining subscriptions will be cashed in this month.

Clean, Smooth Streets
OF LASTING BEAUTY

WHAT impression does your town make on visitors—on you?

Consider your streets. Are they crumbling under motor traffic which must pick its way around ruts and holes? Or are they smoothly paved—clean and attractive—a good investment?

Portland cement concrete is the ideal pavement for this motor age—in towns and cities of all sizes. It is economical to build and maintain, permanently beautiful and—the safest pavement wet or dry.

The Portland Cement Association maintains a corps of engineers to assist in the use of concrete. Consult with them without obligation.

Farmer Resler Speaks From Experience

Well known Minnesota man now fully recovered. Tells friends that Tanlac put him on his feet when all else failed

Anton J. Resler, R. F. D. 2, Owatonna, is well known among Minnesota farmers. Many of these good friends were concerned about his poor health and amazed at his quick and complete recovery after he had suffered untold agony," he tells them. "The very order of food sickened me and what little I could eat lay like a stone in my stomach.

"Every morning I would rise with that awful pain locked in me, and I had a nervous, sinking feeling at the pit of my stomach. The smallest job was a dreary drudge to me then. I grew thin, weak and suffer, and returned to the house exhausted each evening. I grew discouraged and knew I wouldn't stand it much longer.

"One day I read of what Tanlac had done for other sick folks. I gave Tanlac a trial and can truthfully say it gave me relief from the first. The awful weight and pains in my stomach soon disappeared and my appetite came back. I was able to sleep naturally again and my whole system began to feel strong and well and go through the hardest day's work without fear. Nothing for bothers me now. Tanlac will always have a warm place in my heart."

What Tanlac did for Mr. Resler, it has done for many thousands of others. Over a hundred thousand grateful friends have written to tell of the benefits they have received from Tanlac. Your druggist has it. Over 52 million bottles sold.

Facts are Loud Speakers

The efficiency of an organization may be measured by its wage and tax statistics. Facts are loud speakers.

During the ten years ending Dec. 31, 1926, the Standard Oil Company (Indiana) paid $411,400,000 in wages to its employees.

In addition, the management has provided such agencies as the Stock Purchase Plan, the Death Benefit Plan and the Annuity Plan, all of which have a very definite money value to the individual and entail a corresponding expense on the part of the Company.

Employees of the Standard Oil Company, (Indiana) are contented, well-paid workers. They are able to carry on their work in loyal, whole-hearted fashion because they have been given practical proof that the Company is interested in their welfare and is quick to reward true effort and ability.

A labor bill of more than 444 million dollars for a ten year period is part of the statistical record of the service of the Standard Oil Company (Indiana). It gives some idea of the actual work required of the organization to supply the petroleum needs of the people of the Middle West.

For the same period, taxes paid into the treasuries of the Federal, State, County and Municipal Governments by the Standard Oil Company (Indiana) amounted to more than $122,000,000, or nearly 28% of its total labor bill.

It is apparent that in an industry where labor constitutes as large a percentage of the cost of operation as it does in the oil business, an organization which pays a tax of nearly 28% of its total labor cost is doing full duty as a loyal citizen.

The tax and wage statistics of the Standard Oil Company (Indiana) for the last ten years—over 122 millions in taxes, over 444 millions in wages—proclaim this Company an ably-managed, efficient organization.

During all of these years Oil, management of the Standard Oil Company (Indiana) has held the faith that satisfactory profits are an inevitable reward of essential service honestly rendered. The operation of this business has been, and is, based upon such service.

During all of these years, the Standard Oil Company (Indiana) has waged a consistent war against waste, applying science and common sense to every-day problems, following the principles of fairness, justice and equity to all—to the worker—to the consumer—to the customer.

Today the Standard Oil Company (Indiana) occupies an enviable position in the foremost ranks of America's largest business units of service, and it enjoys the respect and esteem of all with whom it comes in contact.

Flowers—
Fresh from your own garden

A FLOWER garden is the cheapest and most attractive home improvement you can provide and it is also one of the most satisfying. Our catalog will guide to any fairly good soil if in a location where there is sunshine the greater part of the day.

By a little planning of varieties you can have blooms from early summer to late in the fall and be sure to have flowers for cutting, such as cannas, calendulas, zinnias, sweet peas, nasturtiums, phlox, petunias, asters, etc.

Plant seeds which have a good reputation for producing flowers in profusion and true to type. Northrup, King & Co.'s Seeds have been giving satisfaction since 1884 and no better seeds are sold at any price.

EFFORT TO IMPROVE CITY'S APPEARANCE

Council Works on Plans to Assist in Beautification; To Improve Club Rooms

With the near approach of the annual state convention of the ninth district women's clubs here next month, and later conventions, the city councilmen informally discussed the advisability of assisting in the improvement of appearances of some of the downtown property that were especially by the corners of Second and Main and Second and Labree.

According to Alderman H. A. Brunsund *an effort is under way to secure* permission to fill in the hole of the latter place, which has been an eyesore for many years. Then the band stand may be moved down from its present location into the lots and graded, thus bring the concrete more into the business district than is now possible.

The lots on which the old Hicks buildings were located present perhaps a more desirable view, but the alderman believe they can secure the cooperation of the state banking department in the clean-up of these lots.

No action was taken by the council in making a clean-up week, but the aldermen stated they would be willing to cooperate with the Women's club and the board of health in any campaign that may be undertaken to make the city more attractive to delegates to conventions and to tourists while coming summer.

As a starter the aldermen inspected the Commercial club rooms and also the office of the chief of police. A. W. Crown, and the building committee was authorized to repair and paint them both as nothing along these lines had been done for several years and both rooms were in need of it.

The advisability of paving additional streets was also informally discussed, such action materially assisting in the keeping of the paved streets in a cleaner condition, and also making the alleys more easily traveled. In some instances the downtown alleys are now in as bad condition as the streets, several weeks before paving was laid six years ago.

The apparent ease with which it has been possible to secure soft drink licenses in this city for some time came to an abrupt end at the regular council meeting Tuesday night when the council granted one of two applications filed by City Clerk C. H. Peterson, delaying action on the second until a special committee investigates the matter, following advice from City Attorney H. O. Chamberlain.

The application of the Thief River Co-operative Grocery when presented was approved by the regular committee of the, and was unanimously granted, while the application of C. E. Noel, of Bon Line brakeman, did not bear any approval. The committee had no remarks to make in the matter, and Alderman Oscar Paulson moved that the council ballot thereon, this being seconded by Alderman Ed Iverson, and duly carried, the result being unanimous against the same. The city attorney then advised the aldermen that in order to deny the application a good reason must be given, stating that the action should be rescinded, and the application referred to a special investigating committee, a motion to this effect was then made by Mr. Paulson, it being seconded by Alderman Carl Chesterfield and carried unanimously, the president of the council being authorized to make the appointment of the committee, which was immediately done, Mayor W. W. Prichard, Aldermen J. F. Passum, and Oscar Paulson being named.

Mention was made to these columns last week of the desires of the local Izaak Walton chapter to have a fish way installed in the new hydro-electric dam here, and to that end Alf Berry and Geo. Wilson attended the city council meeting Tuesday night, presenting a blue print of satisfactory fishway as planned by engineers, and stated in that matter, together with letters from the head bureau office, and a copy of the federal regulation of fishways, covering the installation of fishways. The matter was looked over by all members of the council, following which it was moved by Lt. A. Ryan, second, seconded by Oscar Paulson, and duly carried that the matter be laid on the table till some future date.

A letter from the League of Minnesota Municipalities announcing the annual meeting of that organization in Minneapolis in the new auditorium there June 9-11 was read by the clerk, bringing to light the fact that this year's large display is to be one of the features of the meeting, each municipality having opportunity to announce in some appropriate manner the various advantages of their cities and a committee composed of Aldermen Ed Iverson, H. A. Brunsund, and Carl Christofferson was named by Mayor Prichard Anderson to see that a fitting exhibit for Thief River Falls is prepared.

GETTING READY TO PRESENT NURSE PLAY FRIDAY, APR. 29

A committee composed of T. H. Kolberg, O. I. Nergaard, and H. A. Anderson was Monday night selected by the local Trondelag to conduct an advance sale of tickets and arrange advertising for the Norwegian play "Ingvald Ingersen," to be presented at the Grand Opera House Friday night, April 29. The proceeds from the play will go to the Trondelag convention fund. Rehearsals have been going on for several weeks under the direction of O. Berry and indications are that the presentation will be thoroly enjoyed by everyone who understands the Norwegian language. Special music will be furnished by a 20-piece orchestra under the direction of Prof. P. L. Vitaluzzi.

CO-OP HAY SHIPMENTS NOW EXCEED 500 TONS

More than 500 carloads of hay have been shipped by the Thief River Valley Co-operative Poultry association this season, reports Manager B. O. Norby, who says that the demand is increasing from many localities which are suffering from a severe shortage. Road conditions the last week have seriously handicapped shipped local farmers from making deliveries.

The co-operative association reports egg shipments of 1 carload a week. A carload contains from 400 to 900 cases.

Supt. E. O. Tandberg of Middle River, after spending the week-end at his home here, left Monday night for Minneapolis to attend the Embalmers' Week sessions at the university. Supt. Henry Halverson of the Goodridge school is also in attendance.

Many Pennington Rural Schools Closing in Apr.

Eight rural schools in Pennington county will have closed their terms at the end of next week, according to records in the office of Geo. Gunderson, superintendent of schools. They are districts No. 54, 49, and 167, which closed before April 6, and districts 185, 42, 57, 14, and 26, closing this week.

Other schools closing this month are districts No. 157, Laura Wold, Thief River Falls, teacher, April 22; No. 41, Josephine Lovejoy, Kratka, April 22; No. 6, Jesse J. Levish, Oklee; No. 29, Mildred Peterson, Thief River Falls; No. 22, Mabel Stefvelstad, Thief River Falls; No. 15, Camilla Warner, Hazel; and No. 3, Lillian E. Engelhart, Thief River Falls, all April 20.

Other schools are scheduled to close in May, according to the superintendent's records, while two, No. 190, Thief River Falls, and No. 182, Kratka No. 2, taught by Hilda Ness, Thief River Falls, do not close until June 3 and 4, respectively.

Glad to get back to Minnesota and Pennington county, Stasie Tvelten, who has just returned from Montana township to Everett, Washington, has secured the Mikel No. 2 school near Kratka township. He has brought his family here and already settled in his new home. One district which we appreciate this section until one tries other places, he has commented cast to-a local citizen upon his return.

JOHN BATTEN, FATHER OF CENTRAL PRINCIPAL, DIES

The many friends of Miss Lyda Batten, Central school teacher, will be grieved to learn of the death of her father, John Batten, of Rosewood, at the Physicians hospital Monday.

Mr. Batten was 72 years of age, and had lived in New Solum township, Marshall county, about 15 years. He was born in Wales, and a year's partial sickness overtaking him suddenly. He was brought to the Physicians hospital just a few days before passing, an obstruction of the bowels causing his death.

A daughter, Mrs. George Walker of Kansas City, Kan., and a son, Walter of Madison, Wis., were here Monday to take the remains to Linden, Wis., his former home, for burial. Three other daughters and a son survive them, Mrs. Lyda Batten, who lives at home, and Miss Lyda, of this city, Mrs. Batten preceded her husband in death in 1917.

CROWDS JAM CHRISTENNON STORE AT CLOSING SALE

Seven clerks waited on 2,000 persons Friday and Saturday, the opening of the closing-out sale of the Christenson Hardware company, according to F. L. Christenson, proprietor. The sale will be continued until the entire stock is sold, and an advertisement giving some of the numerous bargains offered appears elsewhere in this issue of The Times.

Rev. S. Leirfallom, pastor in the Northwestern part of the county, returned yesterday from Everett, Wash., near where he visited his family for a month.

Don't forget our McCormick-Deering Spring Tooth Harrows are from $3.00 to $5.00 cheaper this year than last year, also that we guarantee the teeth against breaking.

Don't forget if you want any Treble Strength Superphosphate this spring, you will have to place your order at once, as we only have a few tons remaining still on hand and will not ship additional supply for this spring.

More than half of our carload of American Zinc Insulated Wire Fencing is now sold, and we only suggest, that if you want early spring delivery of your wire fencing to give us your order now to assure delivery when wanted.

International Harvester Company advise us, there will be a shortage on 10-20 McCormick-Deering Tractors for spring delivery. We have sold eight for spring delivery and have but three left on hand unsold. Therefore if you wish spring delivery we urge that you place order now. We cannot consider trades for these 10-20 Tractors further this spring, but will make trades for a limited time on 15-30 McCormick-Deering Tractors, also take in trade on the 15-30 other makes of tractors.

Twelve New Chrysler and Pontiac Automobiles sold by us this spring—Now another carload of Chryslers on the road, and within a week we shall have on hand the Very Latest New Improved six cylinder Pontiac and they say it's a WONDER. We want a chance to show, and prove what we have to offer in Automobiles. Don't forget Chrysler's sales volume went from 27th place to 4th place in three short years. Why? Because in the Chrysler automobile you get greater value, and a satisfaction in driving that is unexpected.

This modern age discriminates—and smokes Camels
THIS age is the hardest to satisfy—it's the most discriminating age ever known. That's why it goes to Camel for cigarette enjoyment. It takes real tobacco to satisfy modern smokers and Camels are made of the choicest tobaccos grown, scientifically blended. Smokers of today are right (as demanding Camels) no better cigarettes are made, regardless of price.
To seek a real smoke is to find Camel—the choice of the modern world. Camels are a revelation of goodness, always mellowy, smooth and mild. That's the sign shows the way to smoke contentment—"Have a Camel!"

Volume 17. Thief River Falls, Pennington County, Minnesota, Thursday, April 21, 1927 Number 12

CURRENT TAX COLLECTIONS SHOWING GAIN

Pennington Receipts From Nov. to March This Year $13,500 Above Year Ago

$54,777 DISTRIBUTED IN MARCH SETTLEMENT

Nearly $30,000 in Delinquent Collections, County Auditor's Records Show

Altho tax levies have been reduced, payments of current taxes in Pennington county from November 1, 1926, to March 1, 1927, exceed current collections during the corresponding period a year ago by $13,534, indicating a favorable trend in the tax situation. This is revealed to an abstract of the March tax settlement prepared in the county auditor's office.

Of the $54,777 being apportioned among the various governmental units of the county at this time, $29,445, was derived from delinquent payments and $27,332 from current collections, the abstract shows. The March settlement last year amounted to $20,782, of which $43,319 was delinquent and $44,804 current collections. The 1926 March settlement was about $5,000 above the 1925 March distribution. A large amount of delinquent real estate tax money was paid in March with all indications of the state bringing up the 1920 figure.

In addition to the $56,777 of county collections distributed now, is also the sum of $8,484 in apportionment money from the state for the county's proportion of the state's gas tax.

Following is the distribution of the settlement among the various funds, according to the auditor's office:

Modern Woodmen Forming Baseball Team for T. R. F.

Indications are that Thief River Falls will have a baseball team this season, and a good one too, judging by the number who have already been out for practice the last week. A team is being organized by the Modern Woodmen of America lodge, with Frank Hoffman as temporary manager and Chas. Dostal as captain. Going an early start, the locals hope to work into good condition by the time the season opens. Practice by that Ardell Robinson will again serve as pitcher for the Thief River Falls.

Games will be arranged with M. W. A. teams in neighboring towns during the summer.

INFORMAL MEETING

A large gathering of business men can be entertained by Julien Provencher in the Evelyn hotel last evening, for an informal discussion of various conditions in connection with community development. Mayor W. W. Prichard, Jr. presided.

MAN, 34, KILLS SELF BY SHOT THRU HEAD

Body of Hans Wiken Found in Woods on Funnedahl Farm Saturday Eve.

BELIEVED DESPONDENT OVER FAILING HEALTH

Partly Crippled by Infantile Paralysis, But Worked About Farm

Apparently despondent over his crippled condition and ill health, Hans Wiken, 34-year-old son of Andrew Wiken of this city, Saturday afternoon committed suicide by shooting himself thru the head with an army rifle, on the Andreas Funnedahl farm three miles south of this city where he made his home.

The body was found at 7 p. m. by John Funnedahl and a neighbor in the woods half a mile from the house, but it is believed that the shooting took place at about 2 o'clock, at which time a shot had been heard by a neighbor. Dr. H. W. Froshlich, coroner, was called and pronounced suicide as the cause of death.

Mr. Wiken had been working about the farm in the forenoon of the day when the tragedy occurred. After dinner John Funnedahl returned to the field, but Wiken stayed about the house for a while until he took the rifle and left the house, telling members of the household who saw him that he was going to the woods to get the ordinary, thinking that he merely meant to hunt as he was very fond of sport. He had not yet returned to attend to the chores when Funnedahl came back from the field at 5 o'clock, a neighbor was summoned and a search of the woods started, the body was found in a kneeling position with the rifle between the knees, indicating that he had placed the gun on the ground and pointed it to his right temple, the bullet entering the head by the large bullet.

Hans Wiken was born on his parent's homestead in Norden township, but spent the last few years of his life made his home with Mr. and Mrs. Funnedahl, neighbors. In a number of their family, Wiken had suffered an attack of infantile paralysis, the effects of which he never recovered. His legs remained somewhat crippled, so that he was able to walk without the aid of crutches, but he was exceptionally prompt about all his farm duties.

He had been ailing occasionally during the past year and had sought medical aid, one physician stating that he believed tuberculosis. Altho he had shown no noticeable effect on the stability of his mind.

Besides his father, who resides at 428 Knight avenue north, he is survived by four sisters, Mrs. Mrs. Ludwig of Blackduck, who arrived here Monday; Mrs. Ingvald Hansen of Backus, who arrived Tuesday; Mrs. Thos. Murphy of Duluth, and Mrs. Thos. Murphy of Duluth, Iowa. The latter was unable to attend the funeral services in charge of Rev. Nelson at Larson's Undertaking parlors, interment being in Greenwood cemetery. Rev. J. O. Jacobsen officiated at the obsequies.

Paving Costs Presented to Council by Engineer

At the special meeting of the council last night W. B. Stevenson of Farmington, the paving engineer, was present and gave the aldermen the copy of the assessment roll for Main and Riverside avenues, in which the total cost of the 22,736 feet amounted to $24,400.10, or 92 cents per square yard, or per abutting foot to property owners. Of the total cost of the work, the center 18 feet. The highway department's cost was placed at $7,415.92; the city's share at $7,522.72; and property owners at $9,502.49.

The Great Northern railway will be the heaviest taxpayer, being down for $712.52; Gustaf T. Lee comes next with an assessment of $503.50; Dr. Froshlich, $477.50. Five feet is next with $174.80; Mrs. Berzen and W. H. Mulry are the next two each being assessed $174.80. Other heavy and scattered property owners from that section will throw with only 24 feet, frontagers will have to pay $98.90 each for the cost of paving, as approved at the hearing which will come up next Tuesday night.

The matter of sewer and water connections will be discussed next Tuesday night, property owners will confer with the council as to what methods are available. It may be that there will be no compulsory installations at this time, each owner being privileged to connect as he may desire, or waiting for probably five years before he will be permitted to cut into the concrete pavement, after the work is done. The property owners a minimum of $50 for connection, in addition to the improvement cost.

At the meeting of the city council Tuesday night Alderman Oscar Paulson was the only absentee. Little business of importance, aside from changes in the construction of the hydro-electric dam, which will be attract and dead to some lots in Lovers' Addition, was transacted by the city, adjournment was taken following approval of the bond of the Nar-Ver-Ho theatre.

THREE APPENDIX OPERATIONS IN FAMILY IN WEEK

Mrs. H. T. McFarland underwent an operation for appendicitis in the Swedenburg hospital Monday night. It is an unusual coincident that two of her brothers, William and Andrew Knox, residing near this city, have also been operated for appendicitis within the last two weeks.

MRS. BISHOP GOING TO PARIS IN SEPT

Local Woman Will Represent Minnesota Auxiliary at Convention Across Waters

Mrs. J. M. Bishop, president of the Minnesota auxiliary to the American legion has been honored at the recent state convention here, by her election as the executive committee of the organization voted to send her to Paris as a representative of the Gopher Auxiliary at the national convention to be held in the city of the French capital.

Thousands of buddies and their ladies are making arrangements to make the trip, the Bishops will leave on the steamer Montanic, which sails from Montreal September 10. Department officials say that Lindell is France Convention Officer for Minnesota and reports that quite a number of Minnesotans have registered for the journey.

Side by side battlefields of 10 years ago and other points of interest will have been arranged and elaborate arrangements are being made for the entertainment of the American guests by the French veterans' organization, and clubs to present.

It is also reports that the Minnesota department is now ahead of its 1926 membership record, with approximately 17,000 members enrolled, or about 1,000 more than a year ago. The Thief River Falls woman is arousing much interest in the state, and her visits to communities throughout the state. Everywhere she appears she is greeted by a large audience.

Mrs. Bishop and family are the owners of the Bishop Electric Co., and is active in the Commercial club; the Women's Relief Corps; the Ladies of the Warehouse Commission and the local County and State Fairs.

Recently submitted and unanimously adopted this 9th day of March, A. D. 1927.

GUSTAFSONS TO SWEDEN

Chas. Gustafson, local implement dealer, and his brother, G. O. Gustafson, residing southwest of this city, expect to leave next month on a summer trip to Sweden, visiting particularly their birthplace in Vermeland, where a brother and other relatives reside. They intend to travel on the Gripsholm, which leaves New York for Stockholm May 14. Charles came to this country 45 years ago, while his brother arrived about 18 years later.

20-Piece Orchestra Will Appear with Horse Play

Music by a 20-piece orchestra, directed by Dr. P. L. Vistaunet will furnish the musical selections for the Spring Festival play, "Ingvald Ingersen," to be presented by local talent under the auspices of the Trondelag convention here Friday night, April 29, under the auspices of the local Trondelag.

The proceeds of the program will go towards the national Trondelag convention here July 1-6. The orchestra furnished the effective accompaniment for "The Seven Last Words of Christ," Easter cantata given in the Trinity church, and is rehearsing several pleasing selections to precede and follow the play.

A short talk will be given by Rev. S. L. Tungseth, chairman of the convention program committee.

An advance sale of tickets is being conducted by a committee of Trondelags and indications are that headquarters from a wide territory will attend. The play is presented by local talent.

GUERNSEY BREEDERS PREPARE FOR SALE

Committee Soon to Select 100 Animals for 8th Annual Consignment Sale June 9

With an exceptionally large list of entries, 50 grade animals to be sold, pick from, indications are that the eighth annual consignment sale of the Red River Valley Guernsey Breeders association to be held in Thief River Falls June 9 will be a success. Approximately 100 animals from Northwestern Minnesota and possibly Northern North Dakota will be sold at the sale, says Paul Ingstead, president of the association and head of the sale committee which is already receiving entries for the sale.

As in former years only the best stock will be sold and with between 150 and 200 animals to be considered for consignment, a second committee will be appointed to select 100 head from the number. Last year's sale 100 head were drawn from the Pennington county herds, with Polk, Kittson and South Dakota and Ontario, Canada purchasers were made for from 100 head. This year the committee will be selected from the Pennington county herds.

The association has succeeded in establishing the 72 counties which constitute the Red River Valley as the center of the Northwest and the number of breeders from distant points is increasing annually. Having also established a reputation for selling only reputable animals, these annual sales attract buyers from a wide territory.

Members of the sales committee in addition to Mr. Ingstead are F. E. Lundquist, Thief River Falls; Ole Hanson, Goodridge; Ole Hagen, Thief River Falls; Ole Hagen, Thief River Falls; Ole Hagen, Thief River Falls

Lower Grain Rate Rehearing Is Sought

Petitions have been filed with the Interstate Commerce Commission at Washington, asking that body to grant a rehearing on the application of the Minneapolis & St. Louis and Soo Line railroads for permission to put into effect a 6 cents per hundred reduction in grain rates, on grain shipments to the eastern trunk line territory from points in the Northwest, which permission recently was refused by the commission.

The point made in the recent petitions, is the same that was raised by President Reed of the Farm Bureau Federation at a hearing held at Minneapolis by the Interstate Commerce Commission that fall, namely: that the reduction in the freight charges on grain shipments would be reflected in higher prices paid to the producers for their product and directly operate to relieve in a measure the serious economic situation now prevailing among agriculturists—of the grain producing states of the Northwest.

It is also urged that lower rates from Minneapolis would serve to increase competition between that market and the market at Duluth, which also would rebound to the benefit of the growers.

There have been no indications from Washington as to the willingness of the commission to reopen the case, but the farming interests of the Northwest believe such action would only be an act of justice, both to the railroads asking the reduction and to the men who produce the grain which feeds the nation.

Births Increase, Deaths Drop in County in 1926

The annual report of births and deaths for Pennington county, for the year 1926, has been issued by Leland Dean Dr. T. C. Chesley, secretary of the state board of health, showing the total of 144 births and 144 deaths, including the continued increase in births and decrease in deaths which has been noted in the county. The 144 births during 1926 is the largest number in which the 144 deaths in 1926 fell 13 below the 1925 total. Figures by townships and municipalities follow:

Minnesota's birth rate during 1926 was the lowest it has ever been, and has been kept in the state, but the death rate was also the lowest.

National Egg Week Set for May 1 to 7

A National Egg Week, sponsored by the National Poultry Council, has been announced and state committees have been organized in 30 states, every commonwealth of the country, to the end that the period of May 1 to 7 shall be devoted to proper response to the little brown hen which has become so important a factor in the social welfare of farmers and poultry breeders of the nation.

Definite plans for observance of the week are now forming in Minnesota, but are yet in a rudimentary state of development. However, it is planned to follow the ideas of the national committee to a large extent.

Merchants will be urged to feature poultry products, eggs especially, in their advertising and in window displays. Hotels and restaurants will be asked to feature egg dishes on their menus and the public at large asked to use more eggs at the family meals during the period.

New Incident Light Is Formed by Farmers

Incorporation of the Wanke farmers' Co-operative Creamery association was announced in last week's issue of the Gatzke Advocate, preliminary to the creation of a creamery at the Wanke store, north of Gully. The amount of capital stock is placed at $6,000, divided into shares of $25 each, and the association may commence business when 20 per cent of the capital stock has been duly subscribed and paid in. The first board of directors consists of Herman Larson, Ole Norseth, Carl M. Lund, E. K. Strandness, and Andrew E. Bjerkins of Wanke and Adolph Bargarson of Oklee.

Law Held Void

The Minnesota law of 1921, prohibiting discrimination in the purchase of milk, cream or butterfat by the paying of prices higher in one locality than in another, was set aside as void by the supreme court in an appeal by the Fairmont Creamery company, operating at Sioux City, Iowa. The company contended that the statute, passed in 1923, was an unconstitutional restraint on interstate commerce and an unfair discrimination in favor of "farmers' and labor and cooperative creameries to pay any price they wished, but restricted individual creameries by requiring them to pay uniform prices thruout the state.

Leads in Bank Bonus Loans

Minnesota leads the nation in amount of money actually loaned by banks on bonus certificates to war veterans, with $7,000,000, according to the Veterans' Bureau.

Edward Korstad, employed in Arnson's Clothing store until his removal will enter into the general merchandise business at Highlanding where he is erecting a new store building, 24 by 60 feet, across the road from the Mc-Kinnon store. A brother, Karl, formerly operated a store at Highlanding.

State's Crop Outlook Promising, Says Boss

In his discussion of "The Outlook for Agriculture" at the recent banking short course at the University Farm, Andrew Boss, vice director of the Minnesota Experiment station, divided the subject into three parts—international, national, and state. Regarding the latter, Mr. Boss said:

"Conditions for the production of crops the coming year appear to be better than they were a year ago. There is now every indication of a good spring opening to be coming on earlier, both of which are advantages in crop production. Livestock prices are at the present time very satisfactory. The prospects are that they will continue to be satisfactory for beef cattle, dairy cattle, and hogs, the three largest factors in the livestock income.

"It is believed to be a good policy to maintain or reduce slightly the acreage in crops. Corn should be reduced because the United States production is more than the amount needed. The acreage of this crop could be reduced one-fifth, while farmers would be helping the crop production later when the market prices. More legumes should be grown for pasture and hay and the stock production should be increased accordingly. It is better agriculture for the state to have a full supply of feed crops on hand with a moderate production of livestock, than to have an overproduction. Spring Cleaning proves the Maytag
[illegible] AG
More than ever—at housecleaning time—you'll appreciate the labor-saving service of the Maytag Aluminum Washer. You'll appreciate the roominess of its seamless, one-piece aluminum tub that holds more clothes than ordinary washers.
You'll appreciate the speed and thoroughness with which the Maytag washes blankets, rugs, draperies, curtains. It makes them clean as new in a surprisingly short time because the Maytag does an average washing in an hour.
You'll appreciate the convenient, all-metal wringer set close to the washer tub, so that you do not have to lift heavy pieces so high. The wringer automatically adjusts the tension for wringing heavy blankets or fancy rag rugs as well as for a thin handkerchief—and wrings both equally dry.
The sturdy electric motor has abundant power to operate the washer and the wringer at the same time. Try all motor-driven washers for cleaning time. Try it on a week's washing before you decide. There is no obligation or expense.
Deferred Payments You'll Never Miss
Phone for a Maytag
Use it for a whole week's washing FREE. Test it for speed, thoroughness and convenience. Know how clean your clothing is washed without hand rubbing even collar and cuff edges. Then, if it doesn't sell itself, don't keep it.

John B. Schalz

John B. Schalz, aged 67, died Friday night at his home at 307 Duluth avenue south, following a second paralytic stroke Tuesday, since when he had remained unconscious. He had been failing since he suffered a stroke two years ago, before which time he had always enjoyed good health.

Funeral services were held Monday morning at the Larson Undertaking parlors.

Mr. Schalz was born in Germany but came to this country at the age of two with his parents, who settled at Aurora, Ill., where he was reared. In 1903 he was united in marriage to Kathrida Hoffman and resided at Aurora until 1909 when they moved to New Hampton, Iowa. They moved again in 1911 to Wylie, Miss., where they operated a farm three years, and have retired in this city since. The Wylie farm is operated by a son, Nick. Another son, Peter and family have resided with them at 307 Duluth.

Surviving him are his wife, two daughters, Mrs. Arthur Louse and Miss Susie Schalz of this city, and a brother, Frank Schalz of Franklin Park, Ill., and a brother-in-law, Frank Hoffman of Rockford, Ill. Interment will be in Oakwood cemetery.

WHY NOT MORE ALFALFA?

The following editorial from the Minneapolis Journal is of special interest here in connection with the alfalfa campaign being conducted in Pennington county:

"The research department of a large creamery company says that *the annual feed bill of Minnesota* creamery farmers, which it places at nearly six hundred thousand dollars, can be reduced to a mere fraction of that amount by more extensive planting of alfalfa the spring. In like manner, Minnesota's feed bill of more than fourteen and a half millions, can be similarly cut.

"The creamery survey finds that the average Minnesota farm has but a little less than two acres in alfalfa. In recent years, as against eight acres in other forage crops, though the alfalfa has been averaging two tons to the acre, while the other crops have yielded only a shade over one ton.

"But that is only part of the story. We are told that one acre of alfalfa produces as much protein as three acres of clover or nine of timothy.

"The University Farm School men can back up these findings, out of its observation and experience. Alfalfa, the school's experts point out, is virtually as rich in protein as bran, and one ton of it has the feed value of eight or ten tons of hay.

"Furthermore, alfalfa is a great renewer of the soil. One planting, on the average, will suffice for seven years of harvesting before the weeds begin to crowd in and, unless cropped too closely, the alfalfa will not be winter-killed during these seven years, even in regions far north of Minneapolis.

"After the seven years are up, the area that has been invaded by alfalfa will be found rich in nitrogen and ready to produce a plentiful crop of grain, while an equally large field elsewhere on the farm may be needed as a new alfalfa area and its soil correspondingly improved over a seven-year period, during which it will yield a high return in choicest forage.

"From the evidence at hand, it would seem that the farmer with stock to feed is cutting deeply into his own profits when he fails to take full advantage of his alfalfa opportunities."

These are facts to be considered by farmer readers of The Times in arranging their 1927 planting.

Isn't it strange how different people are? One man who finds that you say something in the paper that he does not like comes to you and vents both you and him excited. He tells you that he disagrees with you in such terms and in such a way that you dislike him and he dislikes you. Perhaps you both lose sleep over it afterwards and the matter of difference isn't worth two cents. Another fellow disagrees with you and comes and tells you, but does it in such a way that the two of you become fast friends forever after. You discover thoroughly on that point and perhaps on many other points, but the result is brought to you in such a way that you are almost sorry that you stated your firmest convictions because you did not want to offend him. There should be a school where a person could go and learn how to approach those with whom one disagrees in such a way that friendship could be preserved instead of enmity.—Benwood Herald.

Radio broadcasting for reception is heralded as the beginning of the radio listener's millenium and every radio listener is hopeful for the best. However, only ten per cent of the broadcasting stations licensed by the federal radio commission because there are today, 10,110 radio sending stations, including two for amateur entertainment and information. The new commission will determine who shall have licenses to broadcast, at what time they shall use what power, which will take some time to adjust.

That well patronized co-operative organizations are profitable to the men who sustain their business relations, is again demonstrated in the case of the Oliver Lake creamery, which at its annual meeting declared a dividend of 8 per cent to stockholders. It pays to co-operate.

GOOD CO-OPERATIVE METHOD
(Grand Forks Herald)

Reports of progress in the creamery business in northwestern Minnesota made by creamery managers at the meet at Thief River Falls, as other say indicated that the better features of the co-operative system have been applied with success in that part of the state.

It would appear that two very good principles have been kept in mind by the organization members of the Land O' Lakes association. The association has aimed at establishing a standard of quality for the products of the creameries, and has endeavored to use the psychology of a good trade name.

So well has the standardizing of quality worked out that butter from northern Minnesota is becoming famous in all parts of the United States, and large quantities of butter are being shipped out of the country.

So well has the trade name worked out that "Land O' Lakes" is becoming a household word in many parts of the country and it will become more so as time passes. It might be mentioned in this connection that it is not every trade name that makes the grade that kind of psychological appeal. The name chosen for northern Minnesota creamery products, however, has a freshness about it that ran not help but appeal to the user of butter any place in the country.

It would seem that the creamery men of northwestern Minnesota are on the right track and are laying substantial plans for future prosperity.

PAWNEE BILL TIES

The Pawnee Bill ranch near the Bemidji Pioneer:

Bemidji has had struck Bemidji. The mails Monday were flooded with packages of neckties of a type that could only be matched at any store in Bemidji for less money. Accompanying the ties was a pathetic appeal presumably from a "shirt" man.

According to the letters from cities from other cities where the matter has been investigated, the whole plan is but a scheme of a manufacturer. Many of the local recipients are returning the ties with a C. O. D. charge of 25 cents for "packing." This is declared to be the most effective signal in other cases. Some of the professional men might try the plan of the Austin dealer who received a pre-written, price $1.25, which balanced the account. Persons who receive the ties and send the money will indeed be lucky, for the ties can easily be duplicated at the local stores at less cost.

One newspaper recently suggested a "Tell the Truth Week." Twonine be rather hard for readers of any paper to persuade themselves to the "nothing but the truth" policy; in fact, most editors are following just about the right policy in agreeing with Mark Twain's saying, "Truth is such a precious article, let us all economize in its use."—Minneota Mascot.

FARM COMMISSIONER WARNS BUYERS OF ALFALFA SEED

"The wonderful increased demand for Grimm alfalfa has stimulated a desire among certain sources to supply that demand 'at any cost,' says N. J. Holmberg, state commissioner of agriculture in a warning to farmers who are buying seed. "As a consequence there has been and still is a lot of seed being sold under the guise of Grimm, but it is not and never was Grimm. It takes at least two years after the seed is planted to find out if a field really is or is not Grimm alfalfa."

Minnesota has a seed law that requires the seller of seeds to label the bags or other containers with the following information: "Kind of seed; and if a special variety, the name of that variety," the "state where grown" and "if it is semi-arid," the county in which grown; the "percent and the date of germination," the "per cent of pure seed of the kind being sold," and the "name and address of the dealer." Now, if a farmer buys seed from a dealer or an agent in Minnesota, with the understanding that he is buying a certain variety, or Grimm alfalfa, he should do so. If he buys from the seed dealer that he should see if the tag has the data above noted. If it does not, then he should refuse to take it and demand the money back (if already paid) or refuse to pay if it is c. o. d. Second, if the tag does not give the information as above noted, then the dealer has violated the seed law and the commissioner of agriculture should at once be notified of the circumstances, with full details so the case may be prosecuted.

TO ADVERTISE MINNESOTA

Plans for the national publicity and advertising campaign of the Twin Territorial Lakes association were made public today by H. C. Hotaling, executive secretary, who says that the advantages of Minnesota will be heralded to the world in a more comprehensive manner than ever before. The advertising which has been authorized for the season of 1927 will appear in 31 publications, nine of which are magazines with world wide circulation and 22 metropolitan newspapers located in the central part of the United States.

A GOOD AVERAGE

"One of the 'farm' Gait laid the golden egg is believed to be making a record for the farm of Mr. and Mrs. J. H. Filipi, near Angus, Judging from the reports entered by C. L. Kappel, county agent," says the Crookston Times. "During the month of March, the report indicates, a flock of White Leghorns tended by Mrs. Filipi, numbering 112, produced 1,777 eggs. This is an average of 16 eggs each, considered by Mr. Kappel a good record for a flock of hens in March."

TO OWATONNA MEETING

C. D. Caspers left Monday night for Owatonna to attend a meeting of directors of the Minnesota Implement Dealers association. He will return tomorrow morning. C. Gustafson & Son report a good business in farm machinery and implements this spring with a substantial increase over last year. They have disposed of nine McCormick-Deering tractors.

Nominations Open for Master Farmer Class

Another "class" of Master Farmers will be chosen by The Farmer, St. Paul farm publication, this year and the winners announced as was the 1926 class which was composed of 14 Minnesota farmers and two North Dakotans.

The 1927 Master Farmers will be chosen on the same basis as in 1926—from nominations sent to The Farmer by neighbors, bankers, businessmen, business, county agents, or friends. No farmer will be permitted to nominate himself. Nominations are now in order, and must be made prior to May 1. It is hoped that more Minnesota farmers will be given favorable consideration this year.

Only men actually engaged in the business of farming are eligible, and they will be judged on the following: Co-operation and organization of farm, 250 points; business methods and ability, 250 points; farm appearance and scenery, 75 points; home life and neighborliness, 150 points; total 1,000 points.

"Study of the score card will disclose that the Master Farmer must be more than a good farmer," says the announcement of the 1927 contest in The Farmer. "His skill in farming and his clarity of thought must help toward more satisfactory living conditions in his community. His home must be a home where there must be courage for his wife; he must be a guiding hand in the rearing of his children; he must accept the position of a good neighbor and loyal co-operator for community betterment. The 'teacher,' the disgruntled, the failure, the lonesome husband and father will not measure up to the standards of the score card.

"The purpose of the contest is well known. It has been discussed throughout the winter. For many years we have wished for an opportunity to select those men who, as farmers, as *husbands and fathers, and as citizens* of the community, set an example to farm boys and girls which is worthy of all possible emulation. This opportunity is presented in the Master Farmer contest which also enables us to pass on the farming experiences of those who have succeeded. It has given us an opportunity to point out the good things of farm life."

Special to The Times:

St. Paul, Minn., April 19.—The Schall investigation has been brought to a close, much to the relief of the committee and to the people of the state as a whole. It is now up to the committee to prepare a report of their findings to the state senate. What the findings will be nobody can foretell, but it will make very little difference what the committee decides. Those who heard the testimony, or have read it in the daily papers, have already drawn their own conclusions, to which they will cling in spite of the committee's findings. If the committee takes the position that A. N. Jacobs told the truth, they will respect to the senate that Thomas D. Schall knew about and countenanced the payment of money by bootleggers for the protection of his campaign. If, on the other hand, the committee finds that the man who testified that Senator Schall was in ignorance of Jacobs' receipt of money from the bootleggers and was not aware that Jacobs' activities were of such a sensational nature, they will, no doubt, let the senator down easy or even give him a clean bill of health.

But one thing is certain, as we said last week, the investigation will do Senator Schall no good politically for the people of the state will draw the conclusion that the senator was not in 1924 and before was not the kind they approve of.

* * *

As we predicted last week, the state senate passed the bill providing for the pay of the members of the legislature from $1000 to $1500 per biennium, or two years. The bill went in the governor who kept it a few days and sent it back with a courteous veto message. Among other things, he said:

"Membership in the legislature, like service on the jury, is not intended to furnish income or profit. It is rather the contribution which patriotic citizens as a part of the price of citizenship. It is my conviction that no man is more than human if he is afford to serve the state 90 days for $1,000. If his usual earnings are less he will not complain if it is more. He should not, for he can afford to make the sacrifice.

"A salary increase for members of the legislature at this time would probably be misunderstood, especially if it were made effective during the present term of those who voted to support it. It might bring severe, although undeserved censure upon those responsible for supporting it even wholly honorable and unselfish motives. I am not unmindful of the efforts which are being made to hold down public expenditures, and I cannot furnish an argument to those who may ever opt to challenge the disinterestedness of government.

"It is only reluctance that I set my own judgment against that of the legislative majority who supports this proposal. But I should not be doing my full duty to them and I should not be true to my constitutional obligations if I did not frankly express my disapproval."

As the bill had only a bare majority in the house and only two votes to spare in the senate, no attempt will be made to repass it over the governor's veto, and the boys will have to get along with the $600 and $800 per biennium. (Senators, $1,000; Speaker, $1,500; Chief Justice, $7,500; Associate Justices, $7,000.)

It is probable that before this letter is published, the governor will have one more holding the pay of the judges of the supreme court from $7,500 to $10,000 per year and the pay of the district court judges from $6,000 to $8,000 per year. (The judges' increase was vetoed Monday.)

As a move toward settlement of Minnesota's financial controversy over state school aid and widowed mother's pensions, Senator A. J. Rockne of Zumbrota, chairman of the finance committee of the senate, introduced a bill Tuesday authorizing the issuance and sale of $3,354,758 of state certificates of indebtedness, the proceeds of which would retire the bulk of the state's obligation for the school aid and pensions.

Senator Rockne's move was interpreted as "taking the bull by the horns" in an effort to get the financial tangle cleared up before the 1927 session ends. The problem had its origin in differences between the governor and his backers in the effort to keep appropriations inside the $40,000,000 maximum for the 1927-29 biennium, and the legislative group who want the state to pay off its debts to counties for school aid and mother's pensions.

The $3,386,758 of state certificates, provided in the measure, would bear interest at not more than 5 per cent and would be retired within five years. Of the total, $1,000,000 would be paid off in 1931, $386,758 in 1932 and $1,000,000 in 1933. This arrangement is made possible by the fact that the Minnesota soldier bonus certificates will have been retired in full by 1931 and that the tax levies which retired them can be continued for payment of the new obligations.

The funds created by sale of the certificates would enable the state to pay $1,500,000 of the $1,950,426, which is owing to counties for school aid in 1926 and 1926. The state owes counties $1,000,000 in pensions, which would be liquidated in full.

That the state would be $2,354,758 to its counties on the sum which it owes to these counties is no fix one-third share of their pension payments to municipal authorities. About $2,000,000 would be required to pay the state's obligation to all counties, in full.

The basic sciences bill, spoken of in the press as the medical "Magna Charta" of Minnesota, which is said to be the most important act affecting the medical profession and the public health passed by the legislature in a generation, was ratified by both the house and the senate last week and has received the governor's approval. The bill has been a storm center all during the session. It provides that all doctors of medicine, all osteopaths and chiropractors and all others undertaking to cure human ills by physical means, must come in under one test. Those licensed now to practice may register without examination, but all who seek licenses hereafter must pass the examination in basic sciences first, before beginning the practice of any branch of healing. Violating physicians must pass the basic science board tests as well as tests of the state board of medical examiners. The same will be true of osteopaths and chiropractors.

This bill reaches other cults of healing not now recognized by state law. It covers not only those engaged in the practice of medicine or surgery, osteopathy and chiropractic, but any other who engage in "diagnosis, analysis, treatment, correction or cure of any disease, injury, defect, deformity, infirmity, ailment or affliction of human beings."

Any such practitioner, if not now licensed by some state board, must appear before the basic science board and demonstrate proficient knowledge of anatomy, physiology, pathology, bacteriology and hygiene. If unable to pass in the first grade in each of these subjects, he must take in his hospitals. After 1931 the examinations will include chemistry.

The main purpose of the bill is to raise the standard of medical service to the public with protected knowledge and ability to carry out its requirements. It was fought by the osteopaths and chiropractors, who say the bill is designed to eliminate competition. They say that the real purpose of the bill would be to framed that in future no one without a regular medical course would be able to pass them.

Unable to block the passing of the bill, the objectors conducted an amendment campaign. They succeeded in having a change in the board, originally consisted of three professors, not practitioners. The idea was to avoid recognition of any school of healing. The objectors, however, got the bill changed to provide for a board of five members, two of them to be selected from a list of doctor of medicine, one a doctor of osteopathy, and one a doctor of chiropractic. This gives the dissenters representation on the board.

The bill goes into effect May 1, but practitioners have until October 1 to register or to pass examinations.

Another important problem, with which the legislature has wrestled all during the session, was finally disposed of last week—the problem of reforestation. Six bills, which have carefully worked out and amended by the program of the joint committee of the house and senate, were sent to the governor. They are:

H. F. 1525—Setting aside 90,000 acres of land within the limits of the state of Minnesota National Forest as state forest reserve.

H. F. 1526—Providing that expenses incurred by the state in the care of state forests shall be paid from the proceeds of timber sold from the forests.

H. F. 1527—Creating an interim commission of 18 members to study the question of reforestation, delinquent real estate taxes, and finances of counties and taxing districts in the forest areas of the state, and report recommendations to the next legislature, with an appropriation of $25,000 for its expenses.

H. F. 1528—The measure creating a special class of taxation for state forest land not liable as auxiliary forests, carrying out the purpose of the recent constitutional amendment.

H. F. 1529—Directing the commissioner of forestry to classify land that will afforestation and providing $25,000 for the work.

H. F. 1530—Providing for payment of 5 cents per acre to all counties entitled to help pay expenses of local units of government, and appropriating $60,000 a year for this purpose. (This has been vetoed.)

Two bills introduced in the house by Representative Meiley and Day and others have been enacted to law, they are:

For an act making alfalfa, sweet clover, red clover and other grass seeds free of grading and inspection as now provided by law with respect to the sale of timothy seed, and delegating primary powers to the railroad and warehouse commission to do all things appropriate for carrying out the provisions and accomplishing the purposes of the act; and providing for the collection of fees by, and payment of the expenses of the commission in such connection.

For an act providing for the inspection of meters and other devices used in the measure of electricity and gas or water, furnished to the public and providing for penalties for the violation thereof.

Two bills of interest to automobile owners, particularly those in cities, have passed the legislature. One of these is the bill which limits the weights allowed trucks, and classifications so that the latter hereafter will forbid not only trucks but those used in the business of transporting goods for compensation as contrasted with those used by owners of goods in the state between fixed termini or regular routes." Thus trucks will not have to pay a tax of 10 per cent of the base value, but

Class "A" trucks will continue to pay a tax of 2.4 per cent of the base value, but the law has been amended that they may carry all farm products to market and any necessary farm supplies on the return trip. The right to do this was not clearly stated in the law.

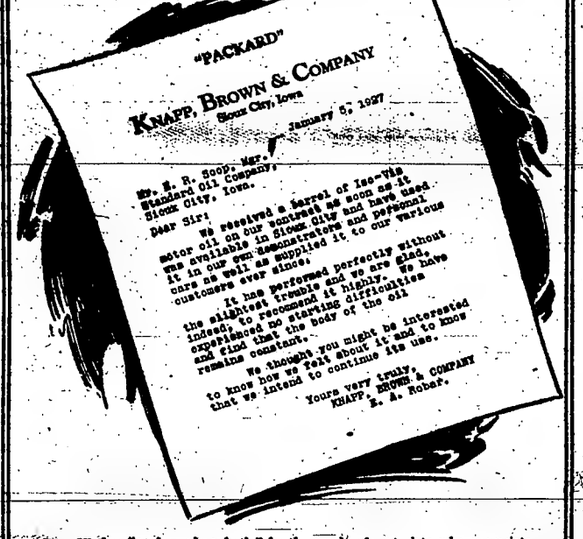
All trucks not coming under the "A" and "B" classes will require "X" licenses, and the rate on these is increased from 3 to 3.6 per cent. The "X" law, however, does not take effect until Jan. 1, 1928.

This law will also require all motor vehicles operating "X" and "B" classes to have a bond of $5,000 conditioned upon the payment of half the tax collected to the state highway department.

The other law is the reciprocity act for vehicles in interstate traffic.

CIVIL SERVICE EXAMINATIONS FOR 2500 PROHIBITION MEN

The United States Civil Service commission last week launched its twenty-second campaign to secure eligibles for the 2500 positions in the Bureau of Prohibition which were classified under the civil service law by the Act of March 3, 1927. The commission announces open competitive examinations for the various positions, announcement and application blanks of which may be secured from the secretary of the local board of civil service examiners at the postoffice in this city or any other city or from the United States Civil Service Commission, Washington, D. C. H. R. Boose, secretary of the board here, expects that there will be a large number of inquiries. The commission states that the examinations will be practical, each kind specially designed to test the qualifications of the applicants to perform the particular branch of work for which that kind of examination is held.



RETURN QUESTIONNAIRES FOR ALFALFA ACREAGES

Returns of the alfalfa questionnaires continue to come in from every section, according to County Agent J. F. McCann, who urges that farmers who have not already sent them in will do so as soon as possible. Nearly 60 per cent of the blanks have been reported state that they will sow at least a few additional acres of alfalfa this spring, while many are planning considerable increases.

The Experience of Knapp, Brown & Company with

ISO-VIS

The motoring world is enthusiastic about this new motor oil. Every day letters of praise come in from people who have used it and are amazed at the remarkable results it gives. A typical letter is reproduced below:

KNAPP, BROWN & COMPANY
Sioux City, Iowa
January 5, 1927

Mr. E. R. Soop, Mgr.
Standard Oil Company,
Sioux City, Iowa.

Dear Sir:

We received a barrel of Iso-Vis motor oil on our contract as soon as it was available in Sioux City and have used it in our own demonstrator and in our various cars as well as supplied it to our various customers ever since.

It has performed perfectly without the slightest trouble and we are glad, indeed, to recommend it highly. We have had no experience of starting difficulties and find that the body of the oil remains constant.

We thought you might be interested to know how we felt about it and to know that we intend to continue its use.

Yours very truly,
KNAPP, BROWN & COMPANY
E. R. Rober.

Iso-Vis has "performed perfectly" for thousands of motorists who appreciate the constant viscosity—constant efficiency—fewer repair bills—greater pleasure—that it means. Why not try it yourself? With the coming of milder weather we recommend Iso-Vis—30c per quart—a little more per quart—less per mile. Consult Chart for Correct Grade for Summer.

Iso-Vis will enable your car to run better and smoother.

At any Standard Oil Service Station and at licensed garages.

Standard Oil Company Thief River Falls, Minn.

Minnesota Co-operatives Prospering, Reports Show

Much has been written regarding the co-operative fruit growers association of California and the immense volume of business it handles each year, but it is probably not aware that of the successful tobacco pool of the South, but Minnesota co-operatives covering a wide diversity of farm products, are doing a business now up to larger than the organizations of most other states, taking into consideration the number of farmers and products handled. In proof of this claim, the following figures are given in the annual reports of the several co-operative for the year 1926, are submitted:

Central Co-operative Commission Association (Apples and Potatoes) $10,000,000; Lake Region Egg and Poultry Association (Eggs and Poultry) $3,775,276.18; Land O' Lakes Creameries, Inc. (Butter and Products, $20,955,000; Minnesota Cheese Producers Pool (Cheese) $901,776.06; Minnesota Wheat Growers (Wheat), $2,000,000; Minnesota Co-operative Wool Marketing Association (Wool) $600,000; Twin City Milk Producers (Milk and Products), $5,875,775,000; making a total of $50,008,826.24.

In addition to the above strictly state institutions, there are operating in a considerable amount, was sold at Chicago thru the Chicago Producers association, 1,000 head of cattle, by breeders in the southwest part of Minnesota ship many cars of cattle, hogs and sheep annually, and at the Sioux City market, the Producers Livestock Co-operative, which sells receipts from the southwestern section of Minnesota.

And better than all other considerations is the fact that the prosperity of these various co-operative organizations, received larger net returns than did those who sold thru independent sources.

Modern taste revels in the goodness of Camel

Epicures of today—the most particular and hardest to please—find their smoking wishes realized in the mellow goodness of Camels. They demand the choicest Turkish and Domestic tobaccos, and find them in Camel gloriously blended. Modern smokers put Camel ahead of all other cigarettes.

You should know the mildness, the mellowness, that brings enjoyment to generations smokers. You'll find it in Camel—every good point that could be looked for in a cigarette.

It's the modern favorite. *"Have a Camel!"*

SUIT AGAINST TWO WHEAT CO-OP MEN

Red Lake County Farmers File Suit Against Officials of Wheat Growers' Ass'n

A suit against two directors of the Minnesota Wheat Growers' Co-operative Marketing association was instituted in the Marshall county district court by two Red Lake county members, Fortuent Dereaux and Ed. Ives of Terrebonne, asking that the directors in the association be enjoined from gambling in wheat with the funds of the association and asking that the court require them to pay to the association $15,000 which it is alleged that they have lost thru mismanagement, says an article in last week's Red Lake Falls Gazette.

The defendants named in the complaint are Edward Hagen of Milan and Harry Selvidge of Argyle. The complaint alleges that in 1926 the board of directors bought 70,000 bushels of wheat on the board of trade for December delivery and that by reason of the drop in wheat the association was forced to sell in December at a loss of approximately 5¼ cents a bushel, or $3,675.00.

The complaint further alleges that the association benefit by reason of the 70,000 bushels of wheat for May delivery and that rather than suffer further loss in wheat the association stands to lose $5,000 on that. It is also alleged that wheat gambling is contrary to the advice and opinion of the state attorney general and that the farmers of the association who are said to have authorized that transaction would be illegal.

It is further alleged in the complaint that in March, 1926, the directors subscribed for $15,000 worth of preferred stock in the Northwestern Co-operative Elevator association and paid down from the funds of the Wheat Growers' association $3,750 cash which the plaintiffs allege has never been recovered and is wholly lost, because the preferred stock in addition is not a going concern, has never furthermore been sold on stock to any other parties. The complaint charges that $5,000 of certificates of deposit aggregating $9,450 was actually received by J. W. Stinton and was by him spent for gasoline.

It is further alleged that wrongful expenses has caused the membership in the association and the grain delivered in the association to fall off.

Chas. F. Boughton, Sr., of Red Lake Falls, attorney for the plaintiffs, says that the Ives-Dereaux suit similar suits will be brought against other directors in the association.

Directors Hagen and Beckwith, from Thief River Falls, and Assistant Supreman of East Grand Forks, R. B. Bowcutt of Ada, George Lemke of Warren, Elmer Anderson of Alberta, Bernard Lien of Fergus Falls and John O'Connor of Fosston.

Potato Growers Advised to Grow Certified Seed

Growing of more certified seed potatoes is urged by Leonard, Cresset & Riley, Cincinatti potato concern which has decided to establish a large warehouse in Thief River Falls. As there is a strong demand for certified seed, growers can greatly increase their returns by certification under the state inspection state department of agriculture, it is pointed out.

Applicants for certification must be made before July 1 on blanks furnished on request by the county agricultural agent, J. J. McCann, who will also give date concerning inspections, etc. Inspections will not be made in any community or county in which there is not sufficient acreage listed for inspection to warrant the expense.

The object of the two field and one grading inspection are to obtain the following information: Stand, general vigor, varietal purity, freedom from disease, freedom from insect injury, and freedom from type. A. G. Tolaas of University Farm, St. Paul, is ex chief inspector.

INTERESTING REPORTS FILED WITH CITY CLERK PEDERSON

Four milk dealers applied for licenses to sell milk in the city at the regular weekly all of them being at the meeting of the city council held Tuesday evening, reports City Clerk P. G. Pederson showed that the city had a balance of $2,023.83 on April 1, the receipts for last month having been $1,670.15 and disbursements $1,181.73. The electric light department was credited with earnings in March of $2,934.74.

The sewer chemistry still continues to be a drawing card even tho the days are getting longer and people are seeking more in the monthly meetings, reports showing 2,542 books having been issued out during March, of which 1,060 were taken by Juveniles and 1,482 by adults. Fiction was the most in demand, 1,742 volumes being withdrawn, while 852 volumes only of non-fiction were sought. Forty-one volumes of foreign books were loaned by the library. It was estimated that the reading room attendance was 4,045 for the month, while 8 new adult borrowers were made patrons of the institution, and 17 juveniles.

The financial report is for March totaled $14.23, according to Judge Tarnasky's report.

HAS BIG DAY

The Red Owl grocery store had an unusually big business Saturday at the opening in the new location, reports Manager A. F. Hansen, who declares that he is well pleased with the response to extensive advertising he has been using. Numerous customers from neighboring communities visited the store during the opening day.

TEN THOUSAND LAKES WEEK BEGINS MAY 1

This City Asked to Raise $500 to Advertise Minnesota to Tourists

According to announcement made by Frank S. Gold, general chairman of the Ten Thousand Lakes Association, Publicity and Advertising campaign, the week beginning May 1, is designated as Ten Thousand Lakes Week and J. Freyenberger has been appointed by Governor Christiansen, as chairman for Thief River Falls.

During the week beginning May 1 communities thruout the state will co-operate with the Ten Thousand Lakes Association in providing a national advertising and publicity fund of $50,000 which will be used to herald to the world the many advantages of this state. The amount for which Thief River Falls has been asked as its share in this campaign is $500.00.

Arthur L. Roberts of Winona, president of the Ten Thousand Lakes association in speaking of the campaign, calls attention to the success of the effort made last year in the same direction and speaking of this phase of development he says: "The expenditure of $50,000 by the Ten Thousand Lakes association in national advertising last year was one of the best investments ever made by the citizens of this state. More than we have ever had before, but it has started people in other states to visit Minnesota. It has put a big influenced magazines thruout the country, and many stories concerning Minnesota and to publish pictures of our many scenic attractions. It has helped to attract people of note to Minnesota who will go back to their home with a good word for our state. It brought us more than 1,500,000 visitors, many of whom came to stay. 1,000,000 here, but to me this is only one of the great benefits that we received.

"In speaking of the tourist business our citizens are often lose sight of the fact that the money which vacationists spend here is only one of the many good phases of the tourist industry. Every tourist is a potential citizen, and the fact that we have the outdoor attractions which can appeal to living people here by the millions is a wonderful advantage, because they come, they see our state, and by seeing they are convinced that it is a good place in which to live.

"Tourists are good business stimulators. Most of them are good buyers and they have cash. Those who own summer home have pay taxes and the tourist will school 256 among other public improvements. They are good boosters and I believe that we do not all fully appreciate what they are worth to our state."

PIONEER WHO OPERATED FIRST HAZEL STORE DIES

John F. Magnuson, aged 72, pioneer settler of Huntsville county who owned and operated the first store in Hazel, died Tuesday, April 19, at the Ast Townsell home at Plummer. Death was caused by heart disease from which he had suffered seriously since an attack the previous Friday. Mr. Magnuson, who had resided at 710 Arnold avenue north the last two years, came to Hazel in 1902 and in the latter's store in Plummer at the time he was stricken.

Deceased was a native of Sweden, but was in Norway for awhile, before coming to this country together with Carl J. Lund, Thief River Falls contractor. They formed together at Buxton, N. Dak., for seven years. In 1910 they came to this county and filed on claims in Smiley township, southeast of this city. They stayed here for two years, then sold out and returned to Red River," settling in Belmont, N. Dak.

However, the returned and Mr. Magnuson filed on the first claim in Hazel when the Soo Line built in this city. After operating the store for seven years, he sold a half interest between Thief River Falls and Hazel, to Ole Lundberg, and then, after two years, sold out to Lundberg.

Mr. Magnuson is survived by one son, Carl, of Newark, Ohio; a brother in Sweden, and a sister in Mrs. Knute Henderson in North Dakota.

CREAMERIES TO MAKE IN-SALTED BUTTER FOR L. O. I.

The St. Hilaire and Holt co-operative creameries have been selected by the Land O'Lakes Creameries, Inc., to manufacture unsalted butter for a period of two months, to fill the sales quota necessary for the butter in the form for the Jewish trade in the east and also for ice cream manufacturing. It is expected that approximately 10,000 pounds will be made in each of the locality plants. This unsalted and uncolored butter commands a premium price, as it requires the highest grade cream and exceptional workmanship for production.

That the Hazel creamery patrons join in producing a product of high quality, is evidenced by a recent weekly report of the U. S. Department of Agriculture, which credits this creamery with a hundred per cent shipment of Land O'Lakes brand butter. It is pointed out that quality improvement means greater returns to the producer.

C. B. HAUG DIES.

A message was received this week by Ed Haug of the J. C. Penney company store at Roseau that his father, Carl B. Haug of Bemidji, died suddenly at International Falls Monday, April 11. The message was a former resident here, having lived at 411 Tinsdale avenue. Mr. Haug was born February 28, 1862, in Norway. During his absence, John DeBacker of the local Penney store will take charge. A. Dahl, manager of the Roseau store, having left on a business trip to the twin cities. Funeral services will be held the Zion Lutheran church here tomorrow afternoon.

Farm Testing Unit

A cow testing association has been formed by patrons of the Bagley co-operative creamery, with Ben Scholl as president and Phinney Stenberg as secretary.

G. J. HAGEN, PLUMMER BANKER, GETS YEAR AT STILLWATER

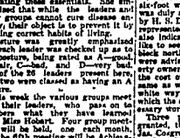
Gudor J. Hagen of Plummer, assistant cashier of the defunct Farmers State bank of Plummer, who last November was convicted of grand larceny in the second degree in connection with the closing of the bank on account of irregularities charged by the state banking department, was sentenced to one year in the state prison at Stillwater by Judge Wm. Watts in Red Lake county district court last week. He was taken to Stillwater Wednesday by Sheriff Pellman.

C. A. Grant of Crookston, attorney for Hagen, presented petitions signed by practically every citizen of the county urging clemency and Judge Watts took them into consideration. The other two charges against Hagen, forgery in the third degree, and fraud in the second degree, were dropped.

Hagen was in session only two days, the 18 cases of Carver, Minn., residents, holding protection guaranteed by the Merchants State bank of Red Lake Falls, having been made counter cases by agreement and their trial was postponed until May 2.

T. R. F. TO INVITE LEAGUE OF MINN. MUNICIPALITIES

An invitation to the Minnesota League of Municipalities to hold its 1928 summer convention in Thief River Falls, will be extended at the organization's annual meeting in Minneapolis in January, Mayor Bjornstad of the local club last Thursday instructed R. J. Lund of the convention committee to present an invitation in behalf of the club. Approximately 500 mayors, aldermen and city officials of Minnesota towns attend these conventions.



GETS SHELL AID

Pennington county shares to the extent of less than $3 in the payment of $40,000 by the state of the state, to aid to school districts in which tax exempt land owned by the state is located, according to information from the county auditor's office. The state use payments for payments on the basis of 5 cents per acre to the school districts, but only $40,000 has been set aside for this purpose and only 42 per cent of the aid can be paid.

If a fellow would just marry his affinity in the first place, he could save a lot of support money and court costs.

RONALD, SON OF MR. AND MRS. W. H. SPONHEIM, DIES FRIDAY

Ronald, the 11-year-old son of Mr. and Mrs. Wm. H. Sponheim, 515 Dewith avenue north, died Good Friday evening at 8:10 o'clock following a brief illness. About a month ago the young lad was stricken with influenza which developed into mastoiditis, for which he was operated upon. He was apparently on the road to recovery when he contracted the "flu" again, and this proved fatal, developing into brain fever. Ronald was the idol of his home and a favorite among his companions. His passing is mourned not only by the immediate family, relatives and friends, but especially by his fellow students and teachers at Central school.

Funeral services were held Tuesday afternoon at the home and at 2 o'clock at the Trinity Lutheran church, Rev. R. L. Tallakson officiating. The floral offerings were numerous and beautiful; the services were impressive. A choir sang two numbers, one of them being "Ronald's favorite, Safe in the Arms of Jesus." Rev. Tallakson's sermon was "Lovely Solemn Thought," and the sentiment of the funeral assembly which filled the church was fittingly expressed in the hymn, Nearer, My God, to Thee. Interment was made at the Sponheim family lot in Riverside cemetery.

Others from out of town in attendance were Mrs. Sponheim's parents, N. Dak.; Mrs. Roy O. Sterrick, Chicago; Joseph Wentz, Minneapolis; Miss Ida Wentz, Minneapolis; Mrs. Ida Pearl Weeks, Northfield.

Pallbearers were limited to Ronald's parents, his brothers Harlen and Raymond and his sisters Marion and Carol.

CONFERENCE POSTPONED

The state-wide conference which had been called for the Minnesota Council of Agriculture for May 6 at St. Paul, has been postponed to a later date, probably the latter pass of May.

The postponement was made necessary by inability of nationally known speakers to arrive in time for the meeting to attend the meeting on May 6. Due notice will be given of the date of the conference thru the public press.

SCANDINAVIAN SETTLERS

A number of Scandinavian farmers came to the shores of Lake Winnipeg a half century ago has there been a great influx of Scandinavian immigrants as large as that which arrived in the United States, hundreds of Norwegians, Swedes, and Danes, according to Dr. Thorleif Hansen, Norwegian consul for western Canada, who returned from a trip to Europe, are now living there.

The only two were classed as having an A rating.

This week the various groups meet with their leaders, who pass on to members what they have learned from Miss Hobart. Four group meetings will be held this week, Monday and the fifth meeting will be Achievement Day, toward which every group is laboring diligently.

Twenty-five girls have been enrolled in this project, with the enrollment of 230 members. Last year when the project was started, only 12 members, 240 women were enrolled.

While there are some changes made each year, the project is not "this" instruction, more could just as easily secure the help given, and the guarantee of success. This work is backed by the university and the state department of agriculture, which in turn is financed and otherwise supported by the federal government, state, and county appropriations, so every taxpayer is in reality helping financially to put on this work. It is only a few take advantage of the benefits thereof.

Two new units from St. Hilaire and one from Hazel have been added this week. The members from the St. Hilaire group—Bert Mrs. A. Erickson and Anna Roseth, leaders; Mesdames O. A. Holmes, J. V. Patton, Victor Frisk, Lucinda Hall, Ed. Hall, Lloyd Sig. Vik and Prestine Walton; Mrs. John Lundberg and Mrs. Willy Ewing, leaders; Mesdames Harold Holmes, Oscar Lundberg, Ole Lundberg, Fred Leach, R. J. McKercher, Hubert Nelson, and Earl Johnson. The Hazel group Mrs. Daniel Haugen and Mrs. James Freyenberg, leaders; members being Mesdames O. L. Wilson, Peter Kolseth, G. A. Wilson, S. Thorstenson, Ole Kvam, Peter Sturgeman, Pil Evenson, Wm. Clark, A. Peterson, Ole Hall, Ole Hall, Ole Peckwell, and Viola Wilson.

Other groups in the county have elected leaders as follows: Smiley, Mrs. Freeman Allen and Ida Moberg; St. Hilaire, Mrs. John Hansen and Mrs. Earl Jensen; St. Hilaire No. 2, Mrs. Oscar Gunstad and Mrs. A. Hilmer; Hazel, Mrs. Herman Jenson and Otto J. Johnson; Hazel Exelsior, Mrs. Carl Prestby and Mrs. B. Ihola and Mrs. Bernhard Sanum; Nelsonia, Mrs. A. Nelson and Mrs. C. M. Pederson; Thief River Falls No. 3, Mrs. H. Hanson and Mrs. Nelson. The leaders of the various groups request that only the enroll who will endeavor to attend all four meetings. The standing of the unit is based on perfect attendance of all members and if the attendance is poor in any group it may result in the downgrading of not only that group but that of the whole county. Last year Pennington county ranked 92 per cent, which was close to the top of the state list.

The next meeting by the state specialist, May 27, will be held in the Farmers' Club hall at Hazel instead of at St. Hilaire.

Mrs. Ayers announces that the Sandridge group will meet at the City View school house Saturday, April 30, at 1:30 p. m.

NUTRITION TO BE STUDIED BY 23 LOCAL UNITS

First Leaders' Training Classes Conducted by University Specialist

230 FARM AND TOWN WOMEN ARE ENROLLED

Leaders of Local Groups in County Listed; Unit Meetings This Week

Twenty-six leaders of 12 units of the nutrition project, conducted in Pennington county thru the agricultural extension division of the University of Minnesota, Friday met here with Miss Ines Hobart, university nutrition specialist. The meeting, which was held in the Commercial club rooms, opened at 10 a. m. and continued until 4 p. m.

Groups in the Thief River Falls and floodridge localities were represented at the meeting in this city, while the leaders of eight units at St. Hilaire and Hazel were present at the home of Mrs. Holmes.

Miss Hobart of this city was elected leader of the Goodridge unit here and Mrs. T. C. Orme, also of this city assistant leader. Miss Hobart Miss Ida Weberg of Hazel are project and assistant leaders, respectively, of the St. Hilaire leaders' group.

Miss Hobart discussed in detail the organization of the project, duties of the local leaders, the essentials for good nutrition, such as food, clothing, sunshine, etc., being necessities before the new year closes. Proper food needs of the body and types of food needed, with special reference to vitamins A, B, and C, were discussed, and other literature added in illustrating these essentials, she emphasized that while the leaders and their groups have the time of meeting strictly their object is to prevent it by forming correct habits of living.

Posters and score cards were explained and each leader was checked up as to her position, being rated as a perfect-fair, C-bad, and D—very bad. Out of the 26 leaders present there were only two were classed as having an A position.

This week the various groups meet with their leaders, who pass on to members what they have learned from Miss Hobart. Four group meetings will be held this week, Monday and the fifth meeting will be Achievement Day, toward which every group is laboring diligently.

COUNCIL CONSIDERS CITY IMPROVEMENTS

Sewer, Water Connections in New Paving Discussed; Trinity to Build Sidewalk

Quite a few property owners along the proposed paving district were present before the city council Tuesday night to discuss the matter of sewer and water connections which are necessary before any paving can be installed, unless owners are willing to pass up these improvements for another year. Mayor Bjornstad explained that no one will be permitted to cut into the concrete. There will be some scrutiny of the assessment roll submitted to the council at a special meeting Friday, May 13, as the date for the hearing thereof.

The Trinity Lutheran church is the owner of a lot on the east side of the church and a 16-foot alley on the north, and the council was asked to vote on the petition of Rev. H. S. Dahlen and Lars Backe, who are members of the congregation. They also indicated that the church would like to see the alley extended to block north on Horace avenue, and were advised to see property owners along the block to join in the cost of the posts and cable, the city to furnish the gravel. The petition was installed, following which the city would then do the necessary work.

Special room licenses were granted, these being to Harry Fry, Jas. Cosgrove, and P. M. Shandrew, all of whom are overseas veterans, and to H. A. Brunsund for both the Lyceum and Princess theaters, the application of the Merry Maniacs for a dance April 30 was denied; the application of Ralph Richardson for a pool room was denied, Richard stated that too many pool rooms and dance halls were being established.

The finance committee was given authority to direct the dumping of the dirt to be excavated from Main avenue and Atlantic avenue when the paving work starts next week and the special committee on the exhibit for the state meeting of municipalities was told to see that the exhibit be ready by June 1.

James P. Kennedy, secretary-treasurer of the Northwestern Improvement of Grand Forks which has the paving contract, was in the city Tuesday.

BAND OFFERS FINE PROGRAM FOR MAY 6

Public Urged to Support Organization; Woman's Club Plans Spring Dance

The municipal band will present its first concert in the auditorium Friday evening, May 6. So far the attendance at the band practices has been good and the individual members of the band are working hard to please the people of the city are not very desirous of maintaining a band unless they support it, in spite of the fact that all the citizens have to do in order to support the band is to pay the admission to the concerts for the band is to make it a point not only to purchase a ticket but also be present at the concert at which promises even to be superior to the preceding ones.

The band has been going at it hard and has a splendid program arranged. It is found that among the feature numbers will be the "Overture" which has been played by the leading orchestras and bands in this country for many years, and which during the past winter has appeared on many of the best radio concerts. There is a Victor Herbert's popular selection "The Red, Red Rose" presenting a number of arrangements, lighter in rhythm than the music usually found on the program, particularly American Ellenberg's characteristic "Hill in the Forest" also will be found on the program. The also indicated that the church would like to see the alley extended block north on Horace avenue, and were advised to see property owners along the block to join in the cost of the posts and cable, the city to furnish the gravel. The petition was installed, following which the city would then do the necessary work.

Special room licenses were granted, these being to Harry Fry, Jas. Cosgrove, and P. M. Shandrew, all of whom are overseas veterans, and to H. A. CLUB WORKERS OF COUNTY GET INSTRUCTIONS

County Agent Outlines Junior Projects to 53 Pennington Boys and Girls Sat.

CLUB TOUR PLANNED FOR ABOUT JUNE 1st

State Club Specialist to Award Championship Cup to Natalie Woolson

Junior club work in Pennington county was given an impetus for the 1927 season when 53 boys and girls from various parts of the county gathered Saturday in the Commercial club rooms to receive instruction from County Agent J. J. McCann. The enthusiasm shown at this first meeting, more than at this year, gives assurance of even greater interest and achievements than in past years. Already enrollments of 200 members have been signed up in the various clubs and enrollment will not close until June 1.

Besides the new enrollments, those secured at Saturday's meeting, and the leaders assured Mr. McCann that they would work to add before the time is up.

The work of each boys' and girls' project was outlined in detail by Mr. McCann, who distributed enrollment blanks.

The projects assured for Pennington county are: Poultry, baby beef, poultry, dairy calf, stock judging, corn growing, potato growing, photography, and baby beef. Only six have been signed up for baby beef, but the required 10 may be enrolled by June 1.

The baby beef club, which requires the ownership of a calf, is assured Natalie Woolson and Theodore Hennessy of Thief River Falls, and Russel Lee, Kenneth McKercher, St. Hilaire. Natalie Woolson and John Latzner will take up the leadership projects and are doing much to arouse interest in club work in their respective communities.

It was decided to have a 4-H club tour in June, members of the state club specialist to award the championship cup to Natalie Woolson for the best project work of the year. The annual election of officers for the county club organization was postponed until next meeting. The tour will terminate at the H. C. Woolson farm where Natalie Woolson's baby beef and girls will be treated to refreshments by Mrs. Woolson and Natalie's dozen friends in honor of his daughter, Natalie, who won the grand championship cup. Natalie is in charge of the Silver Valley Winter Shows in Crookston this week.

The Hugo silver loving cup won by Miss Woolson was officially awarded by Geo. F. Howard of St. Paul, state club specialist, at a Commercial club luncheon in this city, likely May 12. Mr. Howard made a short but very exceptionally interesting speaker and was hoped to have a large turnout for that meeting, definite announcement of which will be made later.

During the club tour in June, members of the stock judging project will compete in judging and placing animals from three different breeds. The tour ending at the club room in this city likely May 12. Mr. Howard will be present to award the cup and will also present the district winners with gift prizes. The district winners will get a trip to the state fair where they will compete for the state championship.

Among members signed up recently are: Dorothy Lemke, Irma Lee Gold, and John Latzner, Fremont Miller, Wesley West

Shower For Bride

Miss Mildred Christie, daughter of Mr. and Mrs. R. E. Christie, and who will become the bride of Harold Kneble next month, was complimented at a kitchen shower given by the members of the Syrenia League of the Methodist church in the church parlors Tuesday evening. A short program was enjoyed, including a presentation speech by Miss Mildred Mackesbury, to which Miss Christie responded, and a reading by Rev. J. T. Dixon and Mrs. R. M. Porter. Miss Ruth Smithers played much to the hilarity of the occasion by three readings, "Lillian", "The Minister Goes," and "Cupid in a Cadillac". The bride-to-be was the recipient of many useful articles from the thirty-eight people who were present.

Members of the Crookston chorus are: Mrs. Roy Bennington, Mrs. J. J. Fadden, Mrs. T. L. Bickford, Mrs. O. W. Peterson; Misses Alice Peterson, Margaret Pelling, Signe E. Swanson, Minnie E. Walker, Cora Mellum, Hazel Rebabus.

TELLS ABOUT FRANCE

An interesting talk about his impression of France, its people and customs, was given by L. H. Ireson, who served in the A. E. F. overseas during the war, in a talk at the Trinity Lutheran Brotherhood meeting Tuesday night. The house life of the French was discussed, Mr. Ireson pointing out that there is a preponderant religious spirit and that there is much unjust criticism of the moral standards. Observations on life among the "doughboys" were also related. A solo was sung by E. J. Lodge, accompanied by Violet Rheingrand. Three new members were announced.

TO ROTARY CONVENTION

A delegation of about a dozen local Rotarians plans to attend the Ninth District Rotary-International convention in St. Cloud May 3 and 4. C. H. Herrick is delegate from the local club, with H. E. Nelson as alternate. It is expected that about 2,000 Rotarians from five Northwest states will attend.

President Coolidge has been invited to spend the summer at Chicago, but probably can't get his armor-plate suit made in time.

FIRE BLIGHT ON APPLE SHOULD BE FOUGHT NOW

If you would have a blight-free orchard, cut out bark cankers now, for the five blight parasite overwinterers on the edges of these cankers," say E. C. Stakman and Jay Johnson, University at the University of Minnesota. "This is the only way the disease overwinters in Minnesota. In the spring it is spread from the cankers to the new growth. It cannot be controlled by spraying.

"Fire blight of apples is a bacterial disease. During the last four years it has been the most injurious disease of apples in Minnesota. Diseased young fruit, leaves, twigs, branches and even the trunks of apple trees may be attacked. Often so many leaves and twigs are killed that the trees appear to have been scorched by fire."

MANY IDLE MEN IN THREE LARGE CITIES, SAYS REPORT

"Serious unemployment conditions exist in Minneapolis, St. Paul and Duluth," says Secretary George W. Lawson of the Minnesota State Department of Labor, in warning to persons contemplating seeking work in these cities. The statement is substantiated by local citizens who have been there recently.

"To read the stories the metropolitan daily newspapers are carrying of the real estate boards' campaign to bring cities it would be difficult to believe that scores of tired, discouraged and often hungry men and women who are tramping the streets of these cities vainly seeking employment. There has been widespread unemployment during the winter and now it is not opening up as it usually does in the spring. Stories of existing industrial prosperity existing in the cities are busy dreams.

"Facts that are never contradicted are built two or three times in the daily newspaper stories.

While calling attention to the agricultural depression, Mr. Lawson stated that 7% is difficult to understand how the condition of the people in the farming districts can be improved by coming to the cities under present conditions. We sympathize with the people of the farming districts in the desperate situation they have been forced into, but our condition in the cities is also a desperate one. Organized labor did everything in its power to have the McNary-Haugen bill enacted into law to give some relief to the farmers. We were as disappointed as they in its veto."

Woman's Club

There will be a regular meeting of the Woman's club Monday, May 2, in the Commercial club rooms at 8 p. m.

Banquet and Installation

The Evergreen hotel was the scene of a most enjoyable social function Tuesday evening, when the Lady Foresters entertained, at a banquet dinner, thirty-five people attending. The tables were beautiful with baskets of lavendar and purple tulips, with candles and dainty place cards. A short program was enjoyed, Mrs. J. Marsh officiating as toastmistress. Miss Sarah Vaughan gave a reading, the Forresters Glee club sang two numbers, and Miss Anna Majerus gave a recording of the early history of the organization. Mrs. John Collins, chief ranger, presented Mrs. W. J. LaBree, retiring chief ranger, with a lovely gift from the order, to which Mrs. LaBree gracefully responded.

Following the dinner, the annual installation of officers took place in the American Legion club rooms. Mrs. Collins was installed as chief ranger; Mrs. Frank Fisher, vice chief ranger; Miss Marie Thill, recording secretary; Mrs. Frank Preis, financial secretary; Mrs. Fred Ehlbrecht, Mrs. Nick Majeres and Mrs. J. Provencher, trustees.

FREE CLINIC FOR CRIPPLED CHILDREN AT RESIDUI SAT.

Crippled children from this county are invited to take advantage of the free orthopedic clinic to be held at Residui on Saturday, April 30, under the auspices of the Community club.

This clinic forms a part of the state wide Christmas Seal work and is conducted under the direction of the Minnesota Public Health association. Physicians who specialize in the diagnosis and treatment of deformities conduct the examinations, which are for the purpose of discovering crippled children whose condition can be improved. These clinics are held in various centrally located cities each year, and children from all the surrounding territory are invited.

Among those especially urged to attend the clinic are children crippled as a result of infantile paralysis or bone tuberculosis; those showing weakness of bone or joint disorders; those having curvature of the spine, cleft palate, knock knees, flat feet, bow legs, club feet or hands, dislocated hips, or other disabilities.

Children desiring examination must be registered at the clinic before 10:30 a. m. on the day of the clinic. A special invitation has been extended to physicians to attend.

CLEAN UP

Next week is Clean-up Week for Thief River Falls and every family is called upon to make every possible effort to make this city cleaner and more beautiful than it has ever been before. Much can be accomplished, thru concerted effort. Clean and improved premises should be a matter of civic as well as personal pride to everyone.

We have invited thousands to visit our city this summer—let us show them that we have had our city "house cleaning."

"Clean up, paint up, keep it up."

The co-operative marketing movement has grown about 1,500 per cent in the last two years. It would be no less difficult to halt, tack the tide or impede the progress of this movement. The chief essentials of success of any co-operative marketing business are efficient management, a live, working membership, and a large volume of business. The latter makes the cost per unit of business and increases savings.—Northfield News.

Again we approach Mother's Day, which will this year be observed May 8, and every son and daughter begins to think of some way in which to make her happy. But every day should be "mother's day." What do we do to let her know how much we really love her?

It takes all kinds of people to make a world, including those who are against anything proposed for the improvement of the community.

Sometimes a floating indebtedness gets heavy enough to sink.

The Morris Tribune last week carried the following editorial comment on the suit of two Red Lake county farmers against directors of the Minnesota Wheat Growers' Co-operative Marketing association, an account of which appeared in last week's Times: "According to the Red Lake Falls Gazette, two farmers of Red Lake county have sued two directors of the Minnesota wheat Growers Co-operative Marketing Association, asking that the directors be enjoined from gambling in wheat and that they be required to pay the association $15,000, which is alleged to have been lost thru mismanagement. Some one evidently aspiring for sending copies of the Gazette to the members. We know nothing of the merits of the controversy, but the whole thing looks very much like an attempt by unfriendly interests to rail at co-operation for the wheat pool. It is altogether unlikely that two farmers would take on themselves the burden of financing a suit of this kind without outside assistance. The gambling charge is not a new one. In the business of selling wheat, the pool sometimes "hedges" to take advantage of the market. We have had it almost into an Democratic of those that hedging is a legitimate market operation—just prior to insolvency—and it probably is. In the opinion of the grain trade, however, hedging appears to be perfectly lovely for a private operator whether or not its operations are limited to have any semblance, but for a wheat pool selling 50,000,000 bushels, it appears to be gambling. Wheat pool officials were certainly foolish in lining up politically [illegible] Dr. McKay-Haugen bill, which would have wiped them off the map, but they must be pretty lively now to keep from being "set" by the organized grain trade.

Some merchants who stand on their dignity give evidence of not having much else to stand on.

CLEAN--UP NOTICE

Attention is called to Clean-up week, the first week in May, and every citizen in the city is requested to co-operate in this campaign for a cleaner and more beautiful city. The time and weather is again at hand to make it necessary that all refuse collected during the winter months be removed. Many individuals have already put their properties within the city in splendid shape from a health standpoint, and we trust that others will do likewise during the coming week.

On Bank Liquidation

Editor of Times:

We wish to thank you for publishing the bank statements in the last issue of the Times. Hundreds, yes seven thousands of people and depositors have been patiently waiting for these long delayed statements, and for the first time that depositors were given some information in regard to our closed banks. A little publicity is a healthful thing. The writer was particularly interested in the statement of the Citizens State Bank of Thief River Falls.

Supt. Veigel and his Examiner, Mr. Smith have done remarkably well with the Citizens State Bank. We note that out of a possible $50,000.00 of stockholders liability they have collected $7,000.00 or about 14 per cent. The other $42,000 of the stockholders liability has started to suppose.

Evidence of liquidation, or handling so far amount to only $10,542, which is a very small and trifling amount. All depositors with an intimation to kick should note that only $5,056.00 have been spent for attorney fees. Just think of it. Not quite $5,000 for attorney fees. That is truly a remarkable showing for Mr. Veigel and Mr. Smith.

On the other hand, with such a trifling expenditure they have succeeded in paying the depositors ten per cent dividend, after being in charge for about three years. This is remarkable, and indicates a high degree of efficiency.

Now depositors should appreciate all these things. When they can produce such results with a expense of only $19,563.00 and only $5,000.00 for attorney fees, there certainly is no cause for complaint. It is a concrete example in high finance efficiency.

Indications are that they have done equally well when it comes to collecting the assets of the bank. Why Smith and Veigel have played good fellow with the depositors money ever since they took charge. That's why they have collected in such a huge amount.

Clearly we don't need any more banking laws, when we can have such results. Evidently both Smith and Veigel have turned Socialist, or Communist. They evidently believe in dividing things up. Judging from their statement in

"Fivefold if depositors could meet and have a depositors committee they could find a way to assist Veigel and Smith, in their work. They have done remarkably well, but we believe just a little assistance, and publicity might spur them on to still greater efforts. What do you depositors think about it who have your money in the Citizens State Bank of Thief River Falls?

Yours truly,
A Depositor.

Miss Ella Peterson, accompanied by her mother, Mrs. A. W. Peterson of Middle River, were Friday shoppers in this city.

The Billings, Mont., Gazette of a recent date carried an article about Fergus Falls citizen who had visited the county fair at Billings six years ago without paying. He has thought the matter over six years—in other words his conscience has troubled him—and he recently remitted in full. If all the money that was due the Pennington County Fair attractions from beyond the fence during the last ten years will get busy and send in the money they should have paid, the Agricultural Society's treasury would take on swollen weight and a new grandstand could be built without difficulty.

URGING PUBLICITY DRIVE FOR VALLEY

Ada Club Starts Movement for Booklet to Advertise Red River Offerings

A resolution urging the Minnesota Red River Valley Development association to take steps to issue a publicity pamphlet about the Red River valley has been adopted by the Ada community club, and a movement has been launched seeking indorsement of the plan by other communities. The action was brought to the attention of the local Commercial club in a committee report read at the meeting last Thursday night, which was then instructed to refer the matter to the publicity committee.

V. M. Highsheam of Red Lake Falls, president of the Development association, was present and stated that the project would be undertaken as soon as sufficient financial support is assured by communities of the valley. Members present expressed the belief that this would be an opportune time for advertising the agricultural advantages of the section.

The resolution which has been sent to the officers of the Development association and to the valley villages throut the valley, follows in part:

"Whereas, the officers of the Minnesota Red River Valley Development Association have expressed a desire to learn the sentiment of the citizens of the Red River Valley as to the feasibility of issuing a booklet descriptive of the Valley from its southern boundary to the Canadian line, which will be used for the purpose of advertising the most productive farming section of the United States, with its diversified agricultural possibilities which include dairying, stock raising, hogs, poultry, grain, corn, potatoes, sugar beets, small fruits, alfalfa, sweet clover, and other crops, and the attractive opportunities now offered for the purchase of farm land and farm lands; and

"Whereas, the Hon. Congressman C. G. Selvig, with former Secretary Zealand of the Red River Valley Development Association, has spent considerable time preparing data for such a booklet to advertise the Red River Valley, and has nearly enough material on hand at present for the publication, and Mr. Selvig has stated he will have time during the coming summer to assist in this work, he has kindly offered to lend aid and assistance towards this excellent advertising feature.

"Be it resolved, that the Community Club of Ada, Minnesota, urge the Red River Valley Development Association to start an intensive publicity campaign for the Valley, along the lines suggested, and that every county in the Valley be requested by solicitors, sent out by the Association, to join in this project to the end that this booklet be printed, in which will be shown farm, village and city scenes, and in which will be published information relative to the productivity of the soil, favorable climatic conditions, the excellent supply of water, pure artesian well water, incomes from well filled and intelligently managed farms, the fine roads and market facilities provided, good schools and churches and the progressive communities in the rich farming section of the Red River valley."

Supt. A. C. Pederson, a brother of Miss Ruth Pederson of this city, is president of the Ada club.

CITY COUNCIL PROCEEDINGS

Thief River Falls, Minnesota

The City Council of the City of Thief River Falls, Minnesota, met in regular session on the 25th day of April, 1927, at 8 o'clock P. M. Present: Mayor Bjornaraa, Aldermen Brundin, Hagen, Hanson, Hoppe, Strandquist and Wold. Absent: Alderman Ostby. Minutes of the meeting held April 11th, 1927, were read and approved.

Engineer W. H. Bowers presented a report covering testing on the Asphalt Paving Contract No. 1 and the City Clerk was instructed to notify the contractor present in the district to be present at the time of the meeting of the Council on May 2nd, 1927, time the matter of sewer and water connections will be taken up.

The City Attorney was instructed to prepare a resolution to the Northern Construction Company of Grand Forks, N. Dak., for the paving of Alleys in Blocks 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40,

ST. HILAIRE

Fire Which Threatened St. Hilaire Destroyed Wilson's Meat Market

The village escaped a disastrous conflagration Monday morning when fire, starting across the street from the store of L. E. Wilson was extinguished after the roofs of the store and the residence, into which Mr. Wilson had recently moved, the local hose company placed at about $3,000, partially insured.

Shortly after six o'clock Mr. Wilson started a fire in the stove in the shop, and another in the stove upstairs, going across the street for breakfast. While there he was informed that the shop was on fire, but it had gained such headway that all efforts were given to saving nearby buildings, the local fire department being given excellent assistance by residents of the village, while Thief River Falls and Red Lake Falls responded with apparatus and firemen, the outsiders doing much to hold the fire in the place where it started, altho a few buildings nearby caught from sparks.

The only fire fighting apparatus in St. Hilaire at the start of the fire which did excellent work for two hours was one of the old style hand pumping machines, taking water from a large reservoir, nearly, the pump being manned by crews of ten men changing shifts every few minutes. Behind children manned the hand pumps nearby and pails of water were carried by men and this water used to put out small blazes from sparks.

Carnival April 29

A carnival will be sponsored by the high school students and faculty members at the school auditorium Friday evening, April 29. Each and every second number of the carnival will be a program of other good features will be given. This is given for the benefit of the high school athletic association to help it pay a number of bills incurred during the past season. The balance of the money will be used for athletic purposes for the coming season.

The carnival starts at 7:30 and the admission of 25 cents will be charged adults.

GOODRIDGE

H. Halvorsen to Stephen; M. Halvorsen Supt. Here

Henry Halvorsen of Warren, superintendent of the Goodridge school the last two years, has been elected superintendent of the Stephen public schools, Mr. Halvorsen having been selected from a field of 50 applicants. He is elected at a salary of $2,000 a year.

Mr. Halvorsen's position in Goodridge will be taken by Mathew Halvorson, also of Warren, who has been principal there the last two years. Both are able young men and are popular in the community which they have served. Not only have they performed their school duties in a highly satisfactory manner, but they have been active in the social life of the community. Mrs. Halvorsen, who assumed the duties of their promotion, altho it is supposed that the change in residence will not return next fall. Nancy Halvorsen's fine singing will be greatly missed at Goodridge gatherings.

Henry's sister, Clara, is teaching in Thief River Falls.

FARMERS CO-OP TO BUY WARREN CREAMERY PLANT

N. C. Lindberg, field manager for the Land O' Lakes Creameries, Inc., was in Thief River Falls Wednesday evening of this week in connection with the meeting of shareholders of the recently organized Farmers Co-operative Creamery association. It was decided at the meeting to purchase the creamery at Warren, and to this end a committee consisting of Ole Hanson, Ole Johnson and Ed Hall was appointed to go to Warren Friday morning of this week to look over the plant and report at a meeting to be held Saturday, this week, to give a better understanding of the matter in detail.

The creamery was originally built by farmers and business men of Warren, but the co-operative enterprise failed and the plant was rented to Mr. Burdick, who later bought it. During the last few years the output has been largely ice cream.

Approximately 100 farmers with 750 cows have 150 shares in the new organization. Mr. Lindberg is satisfied with the establishing of the creamery, which is a step towards diversification which is gaining in popularity in the Warren community, which has depended entirely on wheat in the past.

A self-made man gives all the credit to his maker.

Sets a New Standard

A motorist who has been using Red Crown-Ethyl and Iso-Vis motor oil, says that he never knew such "perfect service" could be obtained. *Actual* use—that's the best test of any product. In actual use Iso-Vis exceeds all expectations! Iso-Vis sets a new standard!

Thousands of motorists have taken the time and trouble to write us enthusiastic letters like the one following, telling how Iso-Vis has proved itself in actual use.

South Side Lumber Company
F. A. Hoppert, Prop.
3011 South Adams Street
Peoria, Illinois

February 8, 1927

"Mr. H. C. Griffe, Manager,
Standard Oil Company (Indiana)
Peoria, Illinois

"Dear Sir:

"A car operator bears a great deal about the merits of various oils and gasolines, but the final analysis is the actual results obtained.

"My Buick car is now being operated on Red Crown-Ethyl Gasoline and lubricated by Iso-Vis Motor Oil, and I will frankly say that I never knew such perfect service could be obtained until I changed to these two products, which you have produced.

"I like to pass on good things to the other fellow—so I am writing you this letter to express my appreciation and to permit you to pass this message on to other owners of Buick cars.

"I have had easy starting at all times, even under most severe conditions, and my oil gauge maintains even pressure at all speeds.

Yours truly,
Frank A. Hoppert"

This letter tells something of the amazing efficiency of Iso-Vis. Iso-Vis gives thorough and complete lubrication *every* day in the year—*every* mile of *every* trip—*all* the time!

Iso-Vis has astonished the motoring world. It is a revolutionary motor oil. Oil of the past thinned out. Iso-Vis maintains a constant viscosity—constant efficiency—from start to finish. Try Iso-Vis once and you'll understand its enormous popularity! Consult Chart for Correct Grade for Summer. 30c per quart—a little more per quart—less per mile.

Since the Sophomores are putting out the Progress this week, all members of that class are profoundly interested in the work which the "substitute Progress staff" is putting out. Each of the four classes is receiving one week in which it must carry all the responsibilities of the various duties of the regular staff, giving that group a short 'let-up', and widening its own experience for future years. We Sophomores are finding that the task is not as simple as has been assumed by many of us; but we are enjoying the work, nevertheless. The Freshmen have been commended 'em for their good work and as other classes are expected to follow the example, thus insuring strong competition.

If the keen interest which has been aroused by this substituting plan would continue the whole year around, and not only the staff, but every other student as well would feel forth his or her best effort to make our section of The Times a success, who knows but what the day might come when Lincoln high school will have a four-page paper.

The members of the Progress staff are mighty proud you'se,
When they can put a story out
That pleases you and me.

27 HONOR STUDENTS ANNOUNCED IN FRI. MORNING ASSEMBLY

Marion Reynolds Valedictorian, Alpha Gussen Salutatorian, 12 Honor Students

As a reward for their faithful and high grade of work during four high school years, ten per cent or six students of the graduating class, were announced as honor students at a special assembly Friday morning. Marion Reynolds and Alpha Gussen were given first and second honors, those of valedictorian and salutatorian, respectively.

Marion Reynolds clearly deserves the honor of being valedictorian. Her high marks, 94.4% honor points and an average of 2.71, and achievements in school activities leave gained for her the leadership of the student body.

The selection of the salutatorian was very close as Alpha Gussen had 94.1% honor points and a average of 90 she was given second place.

An unusual honor student list with all those winning a place on it having an average over 90, the normal rank in the majority of many schools. It is comprised of the following names: Marion Reynolds with the honor points; Goldie Gunderson with 42. Dorothy Thiele with 34½, and Louise Vevea with 34½.

—All students with averages above 90 are given the honorable mention list, which numbers six seniors: Lars Hersdahl, honor points. Evelyn Kline Ness 32, Margaret Patten 32, Ruby Asseby 31, Ilita Fitzerman 30, Stanley Hoglund 30.

The fact that a person having all A's received fourth place shows the remarkable standing that the class have. More than three-fourths of the entire class have an average of C or better, making most of them on or above the 84 per-cent level. The lowest ranking student averaged above 80 per cent.

Laura Bowers has been absent for the last few days because of illness.

Mr. Reginald Gunderson is back in school after having had the measles.

Gladys Vigness is back in school after an operation.

The girls physical training classes are learning the "Glow Worm" dance, under the direction of the University of North Dakota May Fete dances which was originated by Miss Nell Martindale, head of the physical education department of that school. It is a graceful dance of slight parts and is enjoyed by all the girls.

As soon as it gets warmer the physical training classes will be playing soccer on the football field.

PERSONALS

Gertrude Lockrem is at home recovering from an attack of whooping cough contracted after the measles. She is expected back to school within a short time.

200 MUSICIANS TO CONTEST IN DISTRICT EVENT

(Continued from Page 1)

Ronald Kinghorn, Earnest Krause, Melvin Lonsen, Glendon Larsen, Arther Larkin, Harry Moline, Donald Noper, Clayton Snyder, Wendell Sather, Gordon Overland, Oscar Wadul, *Arthur Swanson and Alfred Cleveland.*

Members of the girls' glee club are: Agnes Angell, Katherine Bakke, Elsie Carlson, Mary Hardisty, Harriet Fuller, Bernice Hoppe, Alvina Koglin, Charlotte Kurstad, Elaine Kortsad, Lucille Larson, Viola Lofsness, Judith Lockrem, Katherine Melby, Ethel Moline, Marjorie Nicholson, Agnes Quinlog, Marian Reynolds, Dorothy Sullivan, Doris Saken, Gladys Weeks, and Cora Nerbeck.

The accompanists are Lucille Iversaasen, winner in last year's piano contest, and Violet Rhodegaard.

At 6 o'clock the visiting musicians and teachers, as well the local performers, will be entertained at supper in the Catholic church parlors, with the Commercial club and the board of education as hosts.

Officers of the Minnesota Public School Music League elected for the year 1926-1927 are: Henry Grieve, Crookston, Polk high school, Minneapolis, president; Superintendent Brown, Marshall, vice president, Prof. Irving W. Allen, University of Minnesota, secretary-treasurer; Supervisor Ziele E. Shawe, St. Paul, and Superintendent L. J. Palmer, Thief River Falls, members of executive committee.

Members of the committee in charge of the district are Superintendent A. A. McArthur, Bautette, president; Maude L. Johnson, Thief River Falls, secretary-treasurer, and Superintendent E. F. Lee, Mentor.

The League was formally organized at the meeting of the music section of the Minnesota Education association in St. Paul December 3, 1926, with a view to establishing a *climax basis for carrying on contests.* The organization co-operates with the university thru the general extension division.

In the last contest about 7,000 pupils participated thruout the state, representing 183 different schools. The number of entries was more than twice that of the previous year. About 1,400 took part in the final state contest, coming from 64 schools. District contests, similar to that in the last two years, will take place in Bemidji, Detroit, Moorhead, St. Cloud, St. Paul, Marshall, Mankato, Mt. Iron, Northfield, Morris, and Minneapolis. Participation in these music contests is limited to bona fide pupils of the school represented, who conform to the following requirements:

Each pupil must have been enrolled in the school not less than two weeks before the contest.

Each pupil shall be doing passing work in at least four subjects for which he is enrolled. In case of pupils below the ninth grade they shall be doing passing work in the regular course of work required.

Each pupil who has been in attendance more than one semester, shall have made at least three half-year credits in his preceding semester's attendance.

No pupil who is a graduate of any high school, or of any other secondary school, shall be eligible to participate.

Pupils enrolled in grades below the high school, who are regular members of a high school vocal or instrumental ensemble, may participate with their group, provided they conform to the other items of eligibility.

N. B.—These requirements forbid the appearance of teachers or other adults in any group.

A pupil who has won first place in any solo class in the final contest shall not be eligible for entry in that particular class.

The Little Freshman Across the Aisle

The little freshman across the aisle
With turquoise blue eyes and short-cut hair,
Of what does she dream with her chin propped up—

Has she no troubles, not a single care?
Suppose that she someday shall become the rage
Across the blue seas or upon the stage!
But the thought arises rebuking as the
Alas, she's but the Freshman across the aisle!

SCRIMMAGES; GAMES AT CROOKSTON FILL ATHLETICS DOINGS

Juniors-Seventh Graders Win, Eighth Graders Lose in Inter-city Games

After practicing on the main points of the game Monday night, the newly formed football squads, A and B, fought it to a thirty-minute scrimmage the first of the season. It resulted in a tie, 6 and 6.

Squad B made the first touchdown of the day, by line breaks and end runs. The goal kick was missed, probably due to the increased distance rule, making the kick formation ten yards further from the goal than last season.

The ball was then given to squad A on the fifty-yard line, and in the attempt to score the count they were held for downs. The ball was again given to squad A after they had held squad B for a down, as they were forced to punt on the fourth down. The punt was recovered by Melvin Carlson, of squad A. The punt was carried by anyone on the team, but because of the change in the rules, they will need to equal it. The ball was then brought over by a series of passes, end runs, and line bucks for a touch down. The goal kick was missed, and the game ended, 6 and 6.

The line-ups were as follows:

Squad A	Squad B
Melvin Carlson re	Edward Gibson
Richard Dahlow	Douglas Bowers
Harry Rannum rt	Earl Beasley
Kenneth Lindberg rt	Wesley Rinkt
Fred Wempner lg	Chester Myrof lg
Glendon Larsen c	Glendon Larsen
Round Gunderson rg	Round Bi
Ronald Ericson rg	Selmer Severson
Donald Snyder lth	W. Rhsenbilli
Neil Bauman lh	Martin Maurice Jarnason
Willard Furan fb	Captain, H. Gen

—In the return game of basketball played Friday at Crookston the Junior boys again defeated the Crookston champions by a score of 15-7. The Juniors had the upper hand throughout the game and were never in danger of being defeated.

The seventh graders defeated the Crookston seventh graders 4-2, making up for the defeat that they suffered here. Nothing else was available to score and the first half ended 2-2. In the second half the seventh graders went into the game to win, and did. A basket in the beginning of the second half closed the scoring for both teams while giving the boys a triumphant lead.

The eighth graders from the Central school were the only unfortunates who could not bring home a victory. The game was very hard fought throughout, both teams being very evenly matched. When the final whistle blew the score stood 6-5, necessitating an extra period to break the tie. Three extra periods were played before the Crookstonites broke down and made two baskets giving them the victory by a score of 9-6.

The local teams therefore won the inter-city conference having won four out of six games. This year is the first year anything of this sort has been tried. The teams from both towns seem to have enjoyed the event very much. Wouldn't it be a good idea to try to arrange games like this every year. If Crookston is not always willing to play possibly Warren would do so.

Do not mistake flattery for courtesy. Sometimes courtesy from a friend means a good jolt that is helpful.

There is no injustice in the fact that if you spend your days killing time, time will kill you.

The end frequently justifies the means, but not when you drive sixty or seventy miles an hour to get there.

A Word With the Old Folks

Elderly People Are Learning Importance of Good Elimination.

IN the later years of life there is apt to be a slowing up of the bodily functions. Good elimination, however, is just as essential to the old as to the young. Many old folks have learned the value of Doan's Pills when a stimulant diuretic to the kidneys is required. Scanty or burning passages of kidney secretions are often signs of improper kidney function. In most every community are scores of users and endorsers who proclaim the merit of *Doan's. Ask your neighbor!*

Aged Couple Make Quick Comeback

Red Wing man wins year long fight. Husky as ever at 65 he praises Tanlac. Wife helped, too, joins in praise

At 423 Hill St., Red Wing, Minn., live Edrick H. Dwyer, 68, and his wife, 65. His tale of a year long struggle is impressive. "For a whole year," says Mr. Dwyer, "my stomach was such on me altogether. It was a most distressing experience. Nothing seemed to agree with me. I lost all appetite for food; my skin grew sallow and I had a constant burning sensation.

"On a friend's advice I tried Tanlac and that certainly did help. I soon began to get refreshing sleep again, to eat with old-time zest. Tanlac put me on my feet, with all my old-time vigor and enjoyment of life. I get on 10 lbs. My wife took it, too, and it helped her as much as it did me. Further more we used it bottles in all. We keep one in the home now in case of need."

Tanlac is nature's own tonic and body builder, made from roots, herbs and barks by the famous Tanlac formula. Your druggist has it. Get Tanlac today. Over 3-J million bottles sold.

Duluth Lays 969,689 Square Yards of Concrete Pavements

Several years ago Duluth, Minnesota, began to pave streets with concrete. It has continued to do so every year since.

During 1924 and 1925 street paving awards were 100% concrete, and Duluth now has 969,689 square yards of this permanent pavement.

Property owners say that concrete is ideal for fine residential streets, as well as in the business districts, where heavy grinding traffic soon wears out other pavements.

They have found that concrete requires practically no maintenance, that it is safe to drive on, wet or dry, and that the extreme range of temperature common in Duluth has no effect on its durability.

All of the facts are in our free booklet on "Concrete Streets." Ask for your copy.

SCHOOL NOTES

The "Bird 'Friends" club in Miss Sorby's room met Friday afternoon. The children elected new officers for the spring term. Dorothy Traver is president, Arthur Desjville, vice president, and Dorothy Thompson, secretary. Philip Pickard, Bernice Goln, Celeste Crown and Ramona Reits are the bird reporters for this week.

The third and fourth grades in Miss Sone's room planted a small garden last week.

The following people in the sixth grade have an average above 90 in at least three subjects: Dolores Amundson, Helen Hermanson, Thelma Lamb, Arvill Liken, Imogene Mattson, Robert White, and Helen Elofson.

The sixth grade has organized a club for the purpose of studying and protecting birds. Helen Hermanson, Thelma Lamb, Arvill Liken and Robert White are officers. They plan to give an interesting program each Thursday.

These pupils of the Northrop 6th grade were neither absent nor tardy the past six weeks: — Robert Orn, Orval Holland, Russell Reidy, Ruth McAdams, Richard Sullivan, Palmer Landry, Helen Johnson, Donald Erickson, Clarence Larson, Theodore Quale, Vivian Whiting.

The both speed and accuracy the following 4A pupils made the highest scores in a recent spelling test: Ella Ryr, Donald Erickson, Corlan Dokken, Lela Nelson, Kendall Gustafson, Lorraine Larson, Marjorie Thompson, Lucille Reidy, Albert Myhrer, Earl Severson.

Normal Training Notes

Miss Alice Stapleton left for River Falls, Wisconsin, last week, returning Friday to be present at the funeral of the death of her brother, Thomas.

Miss Elvira Lofsness resumed her duties at the Training department last Thursday after a few days absence due to illness.

Lincoln Contestants in Commercial Contest Named

The district commercial contest will be held at Crookston, May 7. There will be three events, namely: beginning typewriting, advanced typewriting, and advanced shorthand.

Entrance qualifications for *advanced typewriting are as follows:* The student must be a bona fide member of the school he represents, and must have been enrolled since the September last preceding the contest. He must also now be enrolled and completing his second year, or fourth semester of the subject, regardless of the length of period. He must not have entered a state or district contest in this particular event previous to this contest. He must not be a post graduate. The students representing Lincoln high school in this event will be Marian Reynolds and Louise Vevea with Gladys Remmen and Selma Gunderson as alternates.

Beginning typewriting entrance qualifications are similar to the advanced except that contestants must have begun the study of typewriting on or after September last preceding the contest. Contestants must be the equivalent of one double or 80 minute period per day. Harriet Fuller and Agnes Quinlog will seek honors. Linnie Lee is the girl farmer to buy with a small payment down, stock, grain and dairy farming. B. G. Gjerdrum, Williston, N. D. 12-16c

MAKING EFFORT FOR DOUBLING ALFALFA AREA

University Experts Have Plan to Increase Farm Income Thruout Minnesota

COUNTY AGENT LEADER CITES PENNINGTON CO.

Million Acres of Alfalfa in State in 1930 is Aim of Extension Workers

A campaign to double in the next three years Minnesota's acreage of alfalfa, now placed at 500,000 acres, has been inaugurated by the agricultural extension service of the University of Minnesota, according to announcement by P. E. Balmer of St. Paul, state county agent leader. The campaign will be carried on largely in the different counties by the county agents aided by the specialists and leaders from the extension headquarters at University Farm.

In Pennington county Agent J. J. McCann is assisted by a committee of business men from the Commercial club, which is offering prizes for the largest 1927 acreage. Farmers are urged to enter the demonstration sent out by Mr. McCann as soon as possible.

As previously indicated in a letter from Mr. Balmer printed in The Times, the April number of the Extension Service News called direct attention to the fact that "Pennington county in 1925 led the alfalfa procession with 5.3 acres per farm, followed by Grant with 5.11 acres, Carver and Goodhue, Rice county, with 4.8 acres, Traverse 3.9 acres, Lake of the Woods, Pope 3.7 acres, Wilkin and Sherburne 3.6 acres, and Mahnomen 3.2 acres."

This information is broadcast thruout the state in the extension bulletins, and has appeared in many Northwest newspapers and leading farm journals, further establishing Pennington county as the home of Alfalfa.

The counties with the high average acreage, Mr. Balmer says, are large ones, with large farms, these in which widespread introduction of alfalfa began in 1916 and which has been consistently followed up.

The census of 1909 reported 450 acres of alfalfa in Minnesota. By 1919 the total had grown to 2,200 acres, and alfalfa was then found in all but 13 counties of the state. In 1925 the alfalfa planted area had jumped to 43,412 acres. The few years previous to 1920 the county extension service became operative thruout the state, with practically every county engaged making alfalfa growing a standing project. The present acreage, placed close to 500,000, means an average of nearly 10 acres per farm for the 182,231 farms in the state.

"Alfalfa has increased Minnesota's annual farm income $18,000,000 to $20,000,000," says Mr. Balmer, "and a similar gain can be counted upon annually by doubling the acreage of this legume."

Making a conservative comparison, Mr. Balmer assumes that alfalfa is three times as valuable as wild hay and yields three times as much per acre.

Then 500,000 acres of wild hay, producing one ton per acre, having a value of $6 per ton on the farm as a feed would be worth only $2,500,000," he says. "But if we have this replaced with alfalfa yielding three tons per acre worth $18 per ton, the alfalfa farm as feed, or a total of 1,500,000 tons valued gross at $27,500,000. Deduct from that the value of the wild hay ($2,500,000) and $2,000,000 additional for cost of seed and planting leaves a value of alfalfa in excess of wild hay of $18,000,000 a year. There campaign will be carried on largely in the different counties by the county agents aided by the specialists and leaders from the extension headquarters at University Farm.

Making a conservative comparison, Mr. Balmer assumes that alfalfa is three times as valuable as wild hay and yields three times as much per acre.

Then 500,000 acres of wild hay, producing one ton per acre, having a value of $6 per ton on the farm as a feed would be worth only $2,500,000," he says. Deduct from that the value of the wild hay ($2,500,000) and $2,000,000 additional for cost of seed and planting leaves a value of alfalfa in excess of wild hay of $18,000,000 a year. There is no additional annual farm income that could be earned more profitably to the county than would be realized if every 100 acres of alfalfa could claim an increase gain of fully $10,000,000 annually due to alfalfa production. This means an average increase approximating $200 per farm per year for all the state. But there are other gains that accrue from alfalfa itself. More profitable livestock production will follow soil and cropping conditions will improve. Much early hay now almost abandoned may be reclaimed. Moreover, the growing of more alfalfa will result in more emphasis on the growing of sweet clover as a soil legume, essential in systematic crop rotations."

Mr. Balmer says the alfalfa acreage should be based on feed requirements. Its production in relation to other crop production should be determined largely by the livestock population of the county. Each farmer must plan his alfalfa growing program for himself largely. Alfalfa should be grown for feed and not for the market.

"No one should permit enthusiasm for the wonderful crop cause him to plant acreage greatly in excess of what will be well utilized on the farm or right in the locality," he says. "Every alfalfa grower must appreciate that other localities may grow alfalfa, and the grower generally must have as his ultimate objective the conversion of his alfalfa into livestock or livestock products."

An alfalfa growing program of the proportions of the one contemplated will, if fully carried into effect says Mr. Balmer, produce an income equivalent to the cost of state government in Minnesota, or fully one-half of the total taxes levied in the average rural county or pay the bonded indebtedness in every rural county within four years and in fifteen years less than two years, or pay two-thirds of the cost of general education of the average rural Minnesota community.

SPRING WORK IN FULL SWING HERE

Many Farmers Are Seeding Following Week of Drying Spring Weather

Ideal spring weather the last week has enabled farmers, of this community to work their fields and seeding is now practically thruout the Red River valley territory. On the ridges and on higher land some have already finished their plantings, but on the lower land work is just being started and in some instances it will not be dry enough until next week.

The delayed spring work is not confined to this section, however, the same condition existing in other parts of Minnesota and thruout the Northwest, according to reports. Little seeding is done anywhere up to this week.

The potatoes are getting into shape again, with drying winds and a warm sun, coupled with the efforts of maintenance crews. Judging by the number of cars on the highways Sunday, practically every automobile owner of the community was out.

A. STEINHAUER LEADS 2 YRS.

Arno Steinhauer, with a total of 2634 pounds of butterfat, topped the list of Holt co-operative creamery patrons for the month of March, 1925. "Arno doesn't claim to have any secrets of success," the community," says Manager P. L. Anderson, "yet he has done remarkably well when it is realized that he started in with mostly all 'red' cows as he calls them. He has a herd mostly all Holstein, pure-bred and one or more purebreds." J. P. Hansen came second to Mr. Steinhauer's record, having a total of 2100 pounds for the year, others passing the 2,000 mark being C. A. Davis, T. O. Veith, Mrs. J. D. Holst, J. P. Benitt, Wm. Steinhauer, Jr., Mrs. Nels M. B. Sampson, Lars Hallseyt, Alf Larson, Anton Benitt, R. H. Nelvig, Ole Meakstad, Axel Ring, T. R. Davis, and Mrs. Matt Larson.

A. WESTLUND LEAVING

A. Westlund, temporary pastor of the Augustana Lutheran church here the last seven months, will leave Monday to take charge of calls at Deerwood and Crosby.

CROW HUNT OPENS HERE NEXT SUNDAY

Wallenstein to Meet Tomorrow to Pick Teams for Organized War on Crows

An enthusiastic meeting was held Friday night in the Commercial club rooms by a fair-sized group of Lake Walton League members at which it was decided to put on a drive to get all delinquent members to renew for 1927 and to enroll new members prior to the big crow hunt May 1 to 8. The drive is on this week and Secretary R. R. Rasmussen reports that the response is encouraging, indicating that the 100 mark will be reached.

A special meeting will be held tomorrow, Friday, at 8 p. m. in the Commercial club rooms, at which time the two crow hunt captains, A. H. Largwath and Earl Effinger, will select members of their respective teams. Participants in the hunt will register at Sherry's garage, a registration fee of 25 cents to be charged. Special prizes will be awarded to the two highest scoring members of each team, and the losers will be given a banquet by the winners with a free supper, likely at the regular meeting of the chapter May 27.

Judging by the talk among local sportsmen the annual spring crow hunt at the opening of the hunt Sunday morning and it is safe to predict that the crow population will have diminished materially by the end of next week.

The fourth annual crow shoot staged by the Wallenstein Lake Walton League was conducted thruout the state Sunday. These crow hunts have become popular with the boys and fish department of the state and of the bureau of biological survey of the department of agriculture.

Prizes for all requiring resident fishing license, costing 50 cents or $1 for the family, was received with the approval of residents must pay $2 to fish in Minnesota waters, but in the case of the percentage of the non-residents have recently increased, Mr. Shermert, will be made in Greenwood cemetery.

The chapter decided to run a bulletin board at the corner of Fifth and Main, where anything of interest to Wallenstein may be posted from time to time.

G. A. DOKKEN

Ole A. Dokken, of Greenbush, formerly a resident of Lancaster, died at the Oakland Park sanatorium Sunday, April 24, following a six weeks' illness, having been admitted to the institution March 7. Mr. Dokken was 63 years of age at the time of his death, and is survived by his wife and ten children. Burial was sent in Greenbush Tuesday for burial.

PIONEER WHO CAME HERE 40 YRS. AGO DIES AT 79

Mrs. Herman Simonson, aged 79, pioneer resident north of this city, died Monday morning at her home at 222 Second avenue north, death being caused by heart trouble. She had been ill since last October and bedridden the last two months. Her illness is mourned by a large circle of friends, beside the many relatives.

Gertrude Rolandson was born September 17, 1847, at Manitowoc, Wis., and in 1870 was married to Alfred Simonson at Battle Lake, Otterfail county. In 1882 they moved to Thief River Falls and pre-empted land which they operated five years until they homesteaded in New Solum township, Marshall county, 40 years ago. They also resided at Excel township before moving from there to Reiner township, east of Goodridge, where they farmed 10 years before moving to Thief River Falls three years ago.

The Simonsons came to this locality with ox teams, the trip from Fertile to what is now Thief River Falls taking five days. Grain had to be hauled to Crookston with oxen in those early days, and Mrs. Simonson recalls riding from a wilderness to its present state.

Mrs. Simonson is survived by her husband, nine children, 70 grand children and three great grand children. The children are Simon, Minneapolis; Mrs. Ed Johnson, Manhattan Beach; Arthur, Thief River Falls; Mrs. John Gilbertson, Spokane, Wash.; Mrs. Robert Sapperstein, Gunbridge; Mrs. Iver Benson, Glendive, Mont.; Mrs. Thos. Arwen and Mrs. Nels Nelson, Fergus Falls; Mrs. Albert Schauer, Kevlin, Mont., and Mrs. Joe Simonson, Helmtoh.

Funeral services will be held tomorrow, Friday, at 2 p. m. at the Trinity Lutheran church, Rev. S. Trinity Lutheran church, Rev. S. Hjelmstad officiating. Interment will be made in Greenwood cemetery.

ASSESSORS OF COUNTY GIVEN INSTRUCTIONS

Gunnar B. Bjornson, Discusses Various Phases of Property Valuation Thursday

TAX COMMISSIONER TALKS AT CLUB MEET

Urges Taxpayers to Bring Troubles to Local Boards of Review for Adjustment

All but one of the 24 Pennington county assessors, E. J. Aberlund of Gary township, gathered at the court house Thursday morning to attend an instructive talk by Gunnar B. Bjornson, member of the state tax commission, from St. Paul. The tax commissioner urged the assessors to obtain them, accurate, and complete coverage of property, that none escape the tax burden, and that values be based on definite standards to obtain the greatest possible uniformity.

About a dozen assessors in northwestern Beltrami county attended the school here.

In a talk before the Commercial club at its noon luncheon, Mr. Bjornson spoke enthusiastically about the favorable sentiment prevailing at this section of the state and urged an organized effort to secure the right of way into the territory. "More settlers will be coming into this section, thus decreasing the present tax rate," he said. "What you need is a publicity campaign to let the rest of the country know about your wonderful soil and the easily cultivated land so as to attract farmers here. Lands are cheap now, but will not be at a later period but you need more people to fill the fertile lands of Pennington and the surrounding territory."

The commissioner spoke in favor of the state paying taxes on all state owned lands, to help relieve the tax burden in the various communities where such lands are situated.

State Work This Week

Mineral leases on state lands, 9-720 assessors started this week on collection values of personal property, on money and credits and on the 1927 crops.

At the meeting they will take a farm crop card, which will be sent in to everything from the acreage of corn to the number of chickens on the farm. The cards are being taken to the state tax commission city for final board of appeals. [illegible] power to raise and lower valuations to obtain uniformity thru the county. SOCIAL ITEMS

Wednesday Club

An important business meeting of the Wednesday club will be held at the home of Mrs. Frank Stanley, May 11, at 2:30 o'clock sharp. It is very essential that every member be present as further election committees plans. A social time will follow the business session with the hostess assisting in the serving. The Commercial club will meet directly preceding the meeting of the club proper.

The annual meeting of the women's club will be held at the Ivan Hanson cafe, Friday, May 6, at 7:30 o'clock. The committee in charge of the banquet will serve each following the meeting. Every member is requested to be present.

The city picnic meeting to be held this week is the Modern Literature group, Thursday, May 5, at 2 o'clock p. m. Mrs. Edward will read a paper, and Mrs. Hanson will have been in the vicinity of the Sec Line here for the past four years.

Wilmot Delegates

Mrs. J. H. Handley was elected delegate to the district convention of the Society of Christian Endeavor, which is to be held at Wilmot on May 13-14, at a meeting of that organization held at the home of Mrs. T. C. Hoag. Mrs. Anna Mackleburg was chosen alternate.

Mrs. Eva Angell Hostess

Mrs. Eva Angell entertained several at her home Monday evening. The hours were spent socially, and a dainty luncheon was served. Those present were Miss Lily Day evening, the hostess, Mrs. C. H. Whiting, Mrs. Jack Wesgerver, Mrs. Alice Erickson, Mrs. J. E. Robinson, and Mrs. M. Lemstrom.

Birthday Party

Mrs. P. O. Myhrum was hostess at a five o'clock dinner party last Thursday evening, the occasion being the birthday of her son, Walton. Ten friends were present, all near relatives of the family.

Mrs. Bishop in City; Speaks in Many Gopher Towns

Mrs. F. M. Bishop, who is touring Minnesota in the interest of the Minnesota league for the blind, was in the city Monday and Tuesday, and spoke at the Rotary club luncheon on Monday noon. She spoke in Detroit Monday night.

Mrs. Bishop has completed a remarkable tour of the state, covering many cities and towns. She has addressed Rotary clubs, Parent-Teacher Auxiliary and Legion meetings in practically every city she has visited. Her next week she will be in Detroit for complete arrangements for the meeting to be held there in August.

On Memorial Day she will deliver two addresses—one at Detroit in the afternoon and at the observance at Ortonville. She is also scheduled to speak at the Memorial day exercises to be held in Cambridge, and in Zumbrota she will address a number of meetings, including the Women's state gathering. Tuesday night she attended the local Auxiliary meeting, and expects to leave here tomorrow night or Saturday morning.

Pres. Congregation Elects

At a meeting of the Presbyterian church congregation April 21, the following officers were elected: Miss E. Scott Leird, president; Mrs. Frank Stanley, church treasurer; Mrs. O. Green and F. P. Haynes, re-elected elders; and Andrew Hall, Andy Anderson Dr. L. E. Towle, G. L. Covington, Wm. Kerfoot, Geo. Wilson, and F. F. Ferguson, elders of custom. Annual reports were read including the Sunday school report by Miss Minnie S. Leird; the Ladies' aid society circle, Dorothy Hoffman; missionary society, Mrs. Ira Wilson; benevolent treasury, Miss Laird; ladies aid, Mrs. F. S. Patton.

Rev. Ivan H. Peterson, Presbyterian pastor, plans to leave May 15 for Detroit, Belgium, having been elected delegate to the Rotary international convention. He expects to be away about two weeks, traveling through Europe before returning. Mrs. Lorenz will spend the summer with her parents in the Adirondacks. Substitute ministers will occupy the pulpit during Rev. Lorenz's absence.

Former Local Lad to Wed

Mr. and Mrs. Harry Merritt of Minneapolis announce the engagement of their daughter, Helen, to Hilden it Boeren of Mansfield, Ohio. Mr. Boeren is the son of W. J. Boeren of Minneapolis, formerly of this city. The marriage will take place in Minneapolis May 21. Mr. Boeren was educated in the local schools, graduating from the Lincoln high school in 1920. He graduated from the University of Minnesota in 1925. At present he is an industrial heating sales engineer with the Westinghouse Electric and Manufacturing company of East Pittsburgh, Pa. Those participating including Misses Irene Hanson, Dorothy Eldridge, Charlotte Kerfoot, Hilda Fiserman, Helen Grabinsky, Leocie Hoppe, Goldie Gunderson, Luella Harris, and Messrs Hilliard Myrin, Byron Thavaldson, Alfred Cloutier, Delmer Peterson, Leonard Knadle, Philip Sundahl, Raymond Wesgerver, Ernest Jarenson, and Harry Mollve.

Birthday Party

Mr. and Mrs. O. W. Carlson were hosts to several of their friends at their home Saturday evening, in celebration of the latter's birthday. The hours were spent at cards after which a dainty lunch was served by the hostess. Those invited were Mr. and Mrs. Julius Hartzell, Mr. and Mrs. John Wehakowski and children, Rod and Betty Jane, Mr. and Mrs. L. Helseth, Selma Nelson, Mr. and Mr. Philip Lundberg, and "Grandpa" Carlson. At the close of the evening Mr. Hartzell gave a talk which was enjoyed immensely by everyone.

A Correction

An error was made in listing the officers of the Lady Foresters who were installed at the annual meeting Tuesday evening of last week. Mrs. John Collins was installed as chief; Mrs. Ingeborg, succeeding Mrs. R. J. McGinn; Mrs. Frank Fisher was installed as lady chief ranger; Miss Marie Thill, recording secretary; Mrs. Frank Testa, financial secretary; Miss Anna Majerus, treasurer; Mrs. Fred Holbrecht, Mrs. Nick Majerus, and Mrs. J. Provencher, trustees.

REASONABLE BOOSTING

There are—people—who dislocate boosting. They believe it to be wasted effort to spread the news that a booster is egotistical and that his knowledge of everything is illogical and without sense.

While it's true that boosting may be over-done, the product frequently is moved to become over-enthusiastic to offset the effects of the carping critics work. As long as he remains within the bounds of reason, however, and sticks to facts, the booster is a valuable asset to the community and has a better mental attitude toward his own business, his job or his profession.

Boosting can be justified. Those who have tried it know that it can. There may be some who look on the public stunt at the booster now and then, but by his heart is felt and he is honest and sincere in his efforts he will win respect.

Most of all, the booster should be reasonable. He should not expose himself to ridicule, for that is the end his cause and nullifies his endeavors to bring improvement.

When everyone gets the right conception of boosting and tempers it with sense the spirit of American Forest Week" throughout the year.

The interest in more alfalfa growing in other parts of the state is evidenced by the following editorial from the Wadena Pioneer-Journal. "Here's a thought for this week's editorial: Farm and town hand in hand with more alfalfa. There is an indication that the feed situation next winter will be a serious one and with that in mind it is important that more alfalfa be sown. Growers and other farms may be planning to do so. Thief River Falls and Pennington county will not suffer by comparison. If will always grow in your estimation if you will take a few minutes now and then to think over some of its good points.

The drawbacks will disappear if everyone will bend an ear to cheerful in the betterment of the whole community.

"Unusually brisk building activity this spring is expected by local lumbermen," says the Marshall County Banner of Argyle, "with four large barns under construction in addition to numerous smaller jobs. The growing interest of the dairy industry in this section is indicated by the erection of several barns to be used mainly to house dairy herds."

The Red Lake Falls Gazette comments on building prospects as follows: "While there have been no big contracts for new buildings in Red Lake county awarded thus far this spring, there are several new residences being considered in the community and new barns, garages and other buildings are already being started. Four barns under construction are listed.

THE SPORTSMEN'S ATTITUDE

Why people realize that the glamour of hunting and fishing will be maintained on good or bad basis by its proportion as sensible measures are taken to maintain living conditions for wild creatures as nearly as possible in the form that nature provided for them. Without game birds and other aquatic game birds disappear with the destruction of their breeding grounds. The deer and other animals of the forest overgrown are reduced when their haunts are destroyed by fire; and there is a very large annual loss of nests, eggs and young of grouse and prairie chicken, where brush and prairie fires are allowed to run. From this it will be readily seen that forest protection and conservation of game and fish are closely related problems.

That hunters and fishermen are responsible for quite a number of unnecessary fires is substantiated by statistics gathered by the State Forest Service over a period of years, where it has been noted that fires in our slough trout streams is the early spring and summer, and when the pike and bass season opens fire becomes more numerous. It is also shown that the fires which these species of lakes in which these species abound. Fish do not start fires, therefore but they attract fishermen who build camp fires and sometimes neglect to put out the last brand of the cigars and cigarettes into the brush without bothering to see that they are not still glowing. There are many other causes, of course, but the hunters, campers and fishermen must not forget their share of the responsibility.

Sportsmen must awake to the necessity of wild life conservation, before it is too late. It salvages his interest in the game and outdoors he must make his more temperate in his views. It is to this, more than anything else that we owe the variety of things and prevents him from developing a clear case of brain fog.

And collective boosting for the community will do for it just what individual boosting does for the person who boosts. There is no better place to live than right here. Most everyone believes that, but there are not enough people putting their thoughts into words.

This please—we call home has some disadvantages, of course. What you think of the knocks, just remember that every other community has same too, and that they are as difficult to correct as those we have. Thief River Falls and Pennington county will not suffer by comparison, efforts. They contain the best each age has had to offer the world. The man if you will take a few minutes now and then to think over some of its good points.

Don't shudder when told that a hundred years ago there were no hospitals in this country. A hundred years ago there wasn't so much need for hospitals as there is now. Very rarely does one was injured by an ox cart or wheelbarrow.—Ex.

Fair Grounds Race Track Being Improved This Week

James Walker has been awarded the contract for improving the race track on the Pennington county fair grounds, and workmen have been busy the last week laying tile and digging ditches. From 1500 to 2000 feet of tile will be required for the project, tiles to provide drainage for the rest of the track. It is said that likely that the dirt track will be graveled, indications being that the drainage will be sufficient to make it practically an all-weather track

Legislature of 1927 Completes its Work

For Many Reasons an Extra Session Seemed Probable—Reasons of Deadlock on School Aid Question.—Appropriations Passed.—Views of Governor Christianson on Various Bills.—Democratic Efforts.

By Martin W. Odland

(Received too late weekly)

St. Paul, Minn., April 25.—The Minnesota legislature has departed, but fighting Ted Christianson is still behind the fort as governor. The situation on the morning of April 21 was quite dramatic. A majority of the state senators were determined that nothing should be done by the 1927 legislature to prevent future legislatures from paying the school aid deficit created by the governor's veto of 1925. The governor was even more determined that the certificates of indebtedness should be issued by the state to partial payment of this deficit should be accepted by the school districts as a complete discharge of the debt and that it should be written into the statutes that the future payments on that score shall be made by the state in the future.

The house was controlled by the governor, through the organization which was secured by Representative W. L. Nolan of Minneapolis over Rep. Ole Olson, when he brought out John A. Johnson as a candidate for speaker, and the governor's victory at the opening of the session just closed. So the house backed up the governor and his veto. The battle lasted all Wednesday night and far into Thursday morning, but was finally capitulated. Then they had held firm to the end, the senate would have won. Instead, the involving half of the entire biennial appropriations would have failed of passage at the extra session of the legislature would have been necessary, with a repeat bear at the capitol, fortnight, conferring with his lieutenants from time to time and also meeting places which are not properly kept and sanitary.

Another new law provides for the keeping of sales records for poultry and produce.

The grading and inspection of alfalfa and clover seed will hereafter offer protection to the farmer who buys seeds. The passage of the forestry bills, carrying out the intent of the forestry amendment approved at the last general election, is of interest to farmers and means the recognition of wood and timber products as a crop in Minnesota. A constitutional amendment, limiting the liability of stockholders in cooperative organizations, will be voted on at the next general election. The tax commission, the game commission, consisting of the governor, commissioner of agriculture and three other members, were created by law. This commission will carry on the work formerly carried on by the senate and the rules committee for their "broad-minded attitude" in the matter and asserted that the rules committee had dealt with it on a broad ground free of politics.

He maintained that the investigation had cost the state less than $7,500, of which $2,700 was spent in engaging the record of the proceedings, and that the results were worth thousands of dollars to the state to the cause of better government.

"I want to take a little time to answer my friend Tom Davis," he said in conclusion. "He is entitled to all the satisfaction he can get out of this vindication. I should like him to read this report a little more closely and see if he still thinks it's a vindication."

Mr. Lawson's reference to Tom Davis was prompted by a statement issued earlier in the day by Senator Schall's chief counsel, in which that latter person intimated that Lawson had eaten crow by signing the report.

Magnus Johnson his former secretary and manager, Henry Teigen, A. M. Nacrelius, and others interested in the Schall investigation were all at the capitol when curtain was rung down on this interesting, but rather disgusting political drama.

The legislature of 1927 was not a notable body and its acts will not play a prominent part in the history of the state. It was very conservative—almost timid—being afraid to strike out on new lines and averse to making changes. That was shown by its attitude on the crime prevention bills, submitted by the crime commission appointed by the governor a year ago. That body proposed some very drastic changes in the criminal code of the state in the effort to stamp out crime, but the lawmakers showed an attitude of indifference toward the proposals and the changes made in the laws dealing with criminals are not of much importance. Indeed, it is not likely that people will notice any difference.

The same attitude of conservatism was shown in the handling of the banking situation. All proposals to guarantee deposits were voted down by large majorities and whatever changes were made in the banking laws are not far reaching.

Again, with respect to our election system, which has been severely criticised, the legislature showed its conservatism or timidity by refusing to make any change. All public officials, county, judicial, legislative, state and congressional, will be nominated and elected in exactly the same manner as in the recent past.

About the usual number of bills were introduced and about the usual number of them were passed. In the house 1,200 bills were presented for consideration; in the senate, 1277. Bills that were passed will be distributed among the people of the state in the form of newspaper supplement.

Governor Christianson can veto or form as to the entering of bills and will go down into history as the governor who left office the state has so far had. For that he will doubtless be granted some thanks.

Agriculture Fared Well in Minnesota Legislature

While there were no large or momentous agricultural questions before the legislature this year, the session just closed has been a number of measures affecting agriculture.

Among the bills passed which are of interest to farmers are the following: A law making possible the sale of more than $10000 of capital stock to any one member of a co-operative organization; a law authorizing co-operative organizations to own the major portion of stock of subsidiary finance corporations; an anti-discrimination act covering all farm products; a weed inspection law—almost timid—being afraid to strike out on new lines and averse to making changes. That was shown by its attitude on the crime prevention bills, submitted by the crime commission appointed by the governor a year ago. That body proposed some very drastic changes in the criminal code of the state in the effort to stamp out crime, but the lawmakers showed an attitude of indifference toward the proposals and the changes made in the laws dealing with criminals are not of much importance. Indeed, it is not likely that people will notice any difference.

The Band-Stand Removal

To the Editor:

I notice that the city council is contemplating the removal of the band-stand and other benches, particularly the southwest corner of Second and Main.

Is not the present location about as good as can be secured? With the Methodist church directly opposite across the street many more people can congregate and listen to the band concerts, whereas, further down it would be possible two blocks further.

If the stand is to be moved, why not adopt the suggestion made by Alderman Paulson that it be placed on Middle River across the bridge? Another suggestion is to place it on Main, where the old Hick's buildings stood and which is to be filled in, thereby placing the stand in proximity to the small crowds that so many public gatherings are held. The other public buildings are also close by—such as the postoffice and the library, so a start perhaps toward a civic center. Again, the Second ward has no school, no church, no public building or park of any kind. While the above ideas are all have several things to their credit.

City Improvements

Editor Times:

The action of the Trinity Lutheran church in improving conditions around the new edifice by laying a cement walk on the south side, and a regulation width one along the side, coupled with the placing of cement posts along Horsens avenue from Third street north for one block, may well be the battle cry for many more improvements during the remainder of the season and thereby help to make it modern in addition to beautiful.

It was stated in the council rooms that the appearance of the streets in the business section of the city could be materially improved by the laying of additional walks, the placing of curbs in front of the homes, and the planting of trees. The great difference between rows or curbing already lends to make the impression created in the minds of visitors, delegates, and tourists a favorable one.

A few years back the city council each year passed a resolution whereby they agreed to rebate property owners a certain amount per foot for walks and curbs laid. Instead that year and the practice might well be revived at this time. Of course the work should be done according to surveys, grades being established by and engineer, thereby insuring uniformity throughout the city, and paving the way for permanent improvements.

In many cities such improvements are worked out by a committee of citizens appointed, and this could be done here, each year seeing a certain district improved, and the cost of the paving districts could be improved. It just a few years the whole city would present an aspect that local citizens would be proud of, which in itself draw forth praise from outsiders.

Mission-Budget Apportionment at Circuit Meet Here

About 60 pastors and delegates from Norwegian Lutheran congregations in the Thief River Falls circuit gathered in the Trinity Lutheran church here last Thursday forenoon to confer with district officials regarding the apportionment of the mission budget. Rev. L. T. Aasved of Detroit Lakes, president of the Northern Minnesota district, and Rev. A. E. Bergh of Moorhead, district home mission secretary, were present.

Rev. Aasved explained the apportionment of the various budgets in the circuit. They reported that the budget assessed for the year 1926 to be met for quota for 1926 and it is expected that the full amount will be raised this year.

Rev. Aasness, who still recently resided at Fertile, is now connected with Concordia college, Moorhead, as financial secretary.

Arrangements were made at the meeting to have Rev. S. L. Tollefsrud of Erskine and Rev. J. Hjermstad of Middle River serve the Thief River Falls congregation until a successor to Rev. M. B. Ordahl is secured; Rev. T. A. Hagen of Halma will help out the Greenbush church, while Rev. O. G. Birkeland of Roseau and Rev. Severson of Kennedy will aid the Rosewood congregation.

Rev. Aasved reported that arrangements are rapidly being completed for the annual district meeting in Thief River Falls June 6-11. The detailed program will be announced in the near future.

Improving Trunk Highways Delayed, Says Babcock

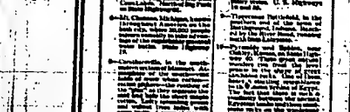
Failure of the Minnesota legislature to provide any additional funds for new construction will result in a road system that within a few years it will be necessary to spend much larger sums of money for highway improvements than would have been required had adequate provision been made for new construction, according to C. M. Babcock, commissioner of highways.

"We have apparently just ventured from a cycle of dry years and at the same time have witnessed a decrease in the traffic burden. The rain and snow fall during the last few months of the heavier than in recent years, to the contrary notwithstanding, and we shall probably see more and more traffic year by year. Under this condition the burden of traffic and upkeep will be greater than it has ever been before, and it will probably be necessary to spend a much larger sum of highway improvements than the $20,000,000 bond issue which we have recommended in each of the last three legislatures.

"The legislature made provision for increase of highway funds, but the re-classification of trunk highways and the reduction in the rate on the 1¢ license will reduce our revenues $500,000 in 1928 and succeeding years by that same amount, due to the severe winter that been experienced this winter than last winter. Registration fees are in March $412,764 over the same months for 1926, but from April 1 to 20, they were $178,000 less than in the same period last year. Either people registered their cars earlier, or they drove them less often, and the total for the year may be no greater than in 1926.

"The increased traffic together with the wet weather have increased the need for maintenance materials, so that the money left for new construction is less than in any year. If the wet season continues, the wear and tear on the roads will probably offset most of the improvements we can make. If a few hundred miles of the heavily traveled routes could have been paved during the last, three or four years, it would have saved us hundreds of thousands of dollars in maintenance expenditures every year, especially in wet seasons. The package of the Flower system of trunk highways is a distinct improvement. Where county and municipal authorities will co-operate with the state, should result in a material reduction in the burden of traffic. The legislature, however, refused to provide adequate highway patrol which is an urgently needed adjunct. Until such a patrol is created, we cannot expect to get the best results from the enforcement of our traffic laws."

The legislature having refused constitutional amendment to provide two-thirds of the gas tax receipts for the trunk highway fund to the state aid road fund. The arguments on this measure developed into a city versus country fight, in which those who were interested in highway progress from a state-wide standpoint took little or no part.



ANNUAL REPORT SHOWS GROWTH OF EXTENSION

Minnesota communities co-operating in 1926 with county agents in developing local programs of extension work numbered 1,324, an increase of 211 over those co-operating in 1925. The number of clubs, both adult and junior, carrying an extension work developed from 3,967 in 1925 to 2,062 in 1926, and their membership increased from clubs or co-operating groups, including men, women and children, increased from 37,964 in 1925 to 39,649 in 1926.

The grand total attendance at meetings, including demonstrations, held by county farmers' institutes, training meetings for local leaders, boys' and girls' club encampments and other gatherings, increased from 490,150 in 1925 to 504,919 in 1926.

CREW COMPLETES SURVEY OF TRUNK HIGHWAY

Nine surveyors for the state highway department who headquartered at the Park hotel in this city during while finishing a new survey of trunk highway No 32 between this city and Bemidji, left Monday morning for Lake Park, where they are engaged in a similar project. The crew is under the direction of T. C. Fahey of Bemidji.

While it is not likely that any extensive work will be done on No. 32 this summer, prospects are that considerable construction may be started next year, according to reports. The present course of the highway may be somewhat changed to shorten the distance between Thief River Falls and Warren by several miles, it is indicated.

KILL THE KOOSTER AND MAINTAIN QUALITY EGGS

Economy has been said, "The hen delivers the goods—or does she?"

"It is safe to say that you don't unless you have a trap nest," declares Prof. Dary, says Cora Cooke, a University of Illinois poultry specialist. "Only a trap nest will tell you the number of eggs each hen lays, and only by trapping every day will you know the exact number of eggs laid. Many hens lay only a few days in a month, and still others lay only a few eggs in a week. Such hens may be kept for several weeks without spotting."

"Needless to say the consumer prefers the delectable egg during summer when conditions are favorable. If you would have all consumers demand fresh eggs and then raise the price of eggs, observe Prof. the Hoosier Dary and get your neighbors to join you."

The mite you give for the much she has done will fill her heart with joy, pride and thankfulness. For her many hours of care, affection, solicitude and anxiety she expects nothing but love, loyalty and reverence. How better can that be expressed than with your tribute of Flowers on Mothers' Day. How happy you will make her. And how well she deserves it!

Suggestions:
All Flowers are Appropriate
Many varieties of beautiful spring flowers, such as sweet pea, carnations, roses, calendula, lilies, daisies, as well as many season's blooming plants. Order early.

A Mothers' Day Greeting
How often when a child, I sought the fields and woodlands through
For when, where sunshine warmest fell, I found their opening eyes,
How eagerly I gathered them and carried them to mother's knee,
And there triumphantly I'd seek my earliest sweetness to see;
No matter, with childish trophies spread, I stand before this bower,
Yet memory weaves garlands fair of never-fading flowers,
And thus your spirit comes to me with balm for lonely hours,
And so today again I'll be a prattler at your knee
And scatter upon my heart—a flower in memory of thee.
—M. Hothun.

THE JUNIOR ISSUE

During the past years it has been a practice of the regular Progress staff to take a little vacation, thus giving each of the four classes a chance to show their colors as journalists. A cash staff has been elected from the Junior class to publish this week's issue. We are glad for this opportunity to show our ability. Profiting from our two past experiences we hope to make our third attempt a great success. It is the result of our best efforts and abilities, and we hope that it will meet with the approval of the entire student body.

When the snow was a couple of feet deep and our lessons seemed fathomless, the Seniors lived on the bright hopes of graduation. Every day the realization of such hopes was far too distant and substantial to reach into the undeveloped minds of us Juniors, so we gradually thought of being merry before taking to graduation, namely, the Junior-Senior banquet. Oh, what wonderful visions of the dining room, of high stiff collars and necktie, of new and beautiful dresses, of lingering pumps with the highest possible spike heels. Why, ever since anyone can remember, the Juniors have always been the ones to entertain the Seniors at the banquet. Then there is the theme song, the toastmaster, the toasts, the menu, the decorations, the grand and glorious evening of eating, drinking, dancing, and being merry! The eating and drinking will be at the Evelyn hotel, and the dancing at the Elks' hall.

It's a poor plan to tell everything one knows, for greater is the secret the harder it is to keep, so we Juniors will make known just a very bit of our plans. Now you Seniors have been taking "After the Ball-s the Reward" as your motto. Your ball was in old Lincoln will soon be ended, and we start you on your reward. Therefore Captain Marvin Eve will his crew will take you for a little boat ride.

In the line of entertainment there will be a grand march up on deck to the tune of the Junior orchestra. Orchestra, besides just lots of other things for you to do all this early.

You have earned everything that you can give you, Seniors, so we take a think of the banquet as being our last real letter celebration together. But we do hope to have a little meeting or seeing all of you down in the messhall. Why, it's only at seven o'clock on the seventh of May.

For the last two years it has been the custom of the Junior English class to put out a Junior issue of the Progress. This year we are following the example and request a share in the budget look that has ever been written. This will mean a lot of hard work, for everyone who has read the issues of the previous years says that they are exceptionally well written.

Each pupil in the English III class will have a chance to show his originality and all the ability he has in writing at least one theme in the book. This will be an opportunity for all Juniors who claim to be artists, for the book will be illustrated not only with printed pictures but also with original drawings. The writing of different parts has been assigned to different sections.

These books not only afford entertainment and keep alive the memories of our Junior English class but they act as a stimulation to our theme work. The pupils no longer regard theme writing as dull and lifeless, their papers to be written, corrected, and then thrown in the waste paper basket. They all endeavor to write good and interesting themes so that their best will go into this book.

When the nice warm spring days come, everyone enjoys taking a course in science, for field trips are in order.

Monday Miss Ellis' biology class went on a field trip out to the sand pit. The students brought back many things of interest. Perhaps most of the students have heard the tales that has come from the chemistry laboratories, but nevertheless it is being kept. The first animal to be captured was a frog about the size of a little water rat. This is now getting along famously, but still refuses to be tamed. The frogs

MANY JUNIOR LEGION BALL TEAMS FORMED

Playing Activity in Minnesota Legion to Start May 16; Local Team Considered

Minnesota baseball fans will have an opportunity to see many of the state's best baseball teams in action this season, according to plans announced by the Minnesota department of the American Legion. Baseball leagues for boys of Junior Legion age are being organized in many communities and will play a schedule of games during the summer months. The season will open May 16 and will close August 15. Rules governing the contests have been announced by Ray P. Chase, state commander of the Legion, and Harry H. Peterson, state baseball chairman. Each team must be sponsored by a local post of the Legion and must be composed of players who are members of the Junior Legion. Boys who have reached their seventeenth birthday are not eligible to play on Junior Legion teams. Each team must play at least seven games in order to be eligible for the championship. Each team must be registered with the state baseball committee before it plays its first game. Any team which plays a game with a team not registered will be disqualified. Any player who participates in baseball games for money, or who receives any remuneration for playing baseball, will be declared ineligible. Any player who plays baseball with a professional team will be declared ineligible. Any player who plays baseball with a team which is not sponsored by a Legion post will be declared ineligible. Any player who plays baseball with a team which is not registered with the state baseball committee

DAIRYING PROSPECTS GOOD

Dairying, which gives people a steady income and prosperity is based upon the sentiment of dairy cattle which is the biggest thing in the better in tonnage in April this year's segregation for about 2,000,000 and a quarter pounds as compared to over 33,000,000 pounds a year ago. The gain in the month of April in the United States should suddenly double the figures for the last season's butter on hand to supply the nation for six hours and eighteen minutes before there is danger of power of over production—this year anyway. This is a significant fact for this community.

THE RAVAGES OF FLOODS

Floods that have been sweeping through the Mississippi river valley leaving death and destruction in their wake, are unparalleled in the records of the government weather bureau.

The number of homeless people is estimated at over a hundred thousand and the property loss will mount into the millions. All earthly possessions of countless numbers of people have been swept away. Rich, fertile soil is inundated and crops of many years have been destroyed.

The outlook is not bright for those who have suffered this great misfortune. The sympathy of all right thinking will go out to them in their hour of distress.

There is something relentless about flood waters that is indescribable. Man is helpless before their fury. The Mississippi river levees that have done valiant service in the past for so many years are the cause of the present catastrophe and areas never before invaded by flood waters are held in their grip.

The present should be a lesson for the future. Something should be done to prevent the recurrence of a disaster that exacts so heavy a price in property and life.

THE BEGINNING

The commencement season is here—the time when proud parents rejoice at the achievements of their children, the time when boys and girls feel a tinge of sadness, yet a sense of relief, that the hard work of their high school course is over.

Commencement for the average student means entry into the world of practical affairs and to the small minority the beginning of a new experience in college that may make or mar their lives. The world is in dire, pulsating contact of youth and those who are older ever since the days of the distinction which it receives.

All of the elements that are a part of education have been changed and fled. They are too difficult and too numerous to analyze. The process does not end on commencement day as the term implies. It is only the beginning of a larger and fuller life.

We have grown to know better, though, what education means and the great purpose it serves. The mastery of one's mind and a sound and wholesome view of life are the great goals sought. Education has been defined as "the determined and long-continued effort of a serious mind" person to train his powers of observation, thinking and reflection through gain in knowledge." Success in life, however makes character.

We are apt to judge education by its by-products which, of course, are essential. Efficiency in one's work in life is a manifestation. Certainly efficiency is made more probable with a good education as a groundwork. This hope is high—and a commendable hope it is—at the end of the academic course. Those who have had the commencement experience, however, think less of that outcome than the purpose which it serves in character building and providence a new perspective, which is increased as the years pass.

INTERVIEWS

It has become quite the fad for men in the public eye to be interviewed on their birthdays. Recently two men as far apart as the north and south poles were interviewed by newspaper reporters on their birthdays.

Clarence Darrow, who has a dark outlook on life, was 70. He said the chief discovery he ever made was that of ignorance and intolerance in men.

Chauncey DePew, who has the opposite view of life, was 93. He said God there was less prejudice now than when he was a boy.

Here are the views of two men, both professed thinkers and right and persons, that are entirely different.

Darrow in a generation where scientific discovery has set a new mark asserted that no original thinking is being done. At a time when human institution movements have attained their highest level, Darrow declared that we are moving in materialistic stages the fine scientific discoveries of the nineteenth century."

DePew has a mellow view of life. He expresses the belief that it is as important for a man of 93 to have playmates as for a youth of 20.

Perhaps Darrow's trouble is that his vision is obscured because he believes man is a machine, with no promise of a life to come.

If the average man were to make a choice, he would take DePew's philosophy. Surely it is more inspiring, more endearing, and it will make life fuller and more profitable.

DAIRYMEN'S ASS'N LOSES

The following editorial from the Farmer, St. Paul farm weekly, is of special interest here inasmuch as the Northern State Dairymen's Association held its annual convention here last January.

"Among the appropriations made by the legislature, but vetoed by Governor Christianson, was $5,000 for the Minnesota State Dairymen's Association. This association, one of the first agricultural associations formed in Minnesota, has received little aid for many years and this action by the governor comes entirely from the fact that it has not lived up to the possibilities during recent years. Too much of its state aid money has gone for salaries and traveling expenses, and its annual meeting has become a meeting of the old guard in that organization, butter buyers and cream-ery supply men. It will be interesting now to see if those who have guided the destinies of this organization during recent years will put their shoulder to the task of reorganizing its activities, for the love of The Dairy Farmer, or if they will turn the door to state aid has not been closed forever."

It seems that this great butter state should have the finest dairymen's association in the nation. It may be that the chief interest of Minnesota dairymen is directed to the fund O'Lake Creameries, Inc., which attracted 1000 farmers, many of them to the annual meeting. However, the Red River Valley Dairymen's Association meetings are attended by real cow farmers, and it is especially unfortunate that the veto of the $5,000 appropriation also means that this group will lose $500 as its annual share of the aid.

In fairness to the State Association it must be stated that it has done splendid dairying and is a real service, and Cliff Club work to which a considerable part of its appropriation has been diverted.

State Aid Big Total

According to the Dunn Law, Pennington county gets about $20,000 state aid annually for new construction and maintenance, providing the county expends about $5,000 for new construction. It is pointed out that $17,000 of the $20,000 should be diverted to maintenance, reducing this expense to the county in that amount. This would provide $22,000 for construction—$12,000 state aid and $10,000 county money—at an actual cost to the county of $2,000, as the maintenance item is a fixed expense. However, the new construction would necessitate more maintenance funds, and the total cost to the county would likely be about $4,000, it is figured.

In order to carry on the construction program necessary to get the state aid it was necessary for the board that the last plan would be to issue bonds to wipe out the present overdraft, the $100,000 also taking care of a $20,000 deficiency in the general ditch fund.

It is believed that three funding bonds can be sold at about 4½ per cent interest, making possible a saving in interest, as the warrants draw 6 per cent.

May Raise R. & B. Levy

In this substitution of one form of indebtedness for another, the board plans to work out a definite program of retiring the bonds. It was proposed at the meeting to raise the road and bridge levy one or two mills, the tax money thus raised to be applied on the bonds. Indications are that the sanatorium levy can be cut one mill for next year, which would allow a nine mill increase in the road and bridge levy without raising the county total.

Members of the board last week expressed their belief that it would be necessary to hold new construction down to $22,000 a year for the next few years, in order to remain on a cash basis without increasing taxes.

The road and bridge funding bonds of $70,000, issued in 1923 and due in 1937, are being retired at the rate of $5,000 a year.

A committee of local businessmen, consisted of Math Barren, H. S. Dahlen, Thos. Quale and W. E. Dahlquist, attended the meeting and spoke in favor of floating the bond issue.

fund will amount to approximately $120,000 for the year.

To meet these outlays, the fund has available some over $60,000 under the present arrangement—$30,079 from the tax levy of five mills, $20,000 allotment from the state, and a cash balance of $10,382.

This condition of the road and bridge fund caused the board to reject bids on three proposed road grading projects, the total cost of which was nearly $2,000, at a meeting April 7. Since then the question of working out some plan by which it would be possible to continue its road building program so that the county may continue to benefit by state aid under what is known as the Dunn Law, has been given much careful attention.

FARM LABOR SUPPLY AND DEMAND NORMAL

The figures obtained by the Minneapolis Farm Census Committee in connection with the 1927 Agricultural Census of Minnesota indicate that the labor situation in Minnesota is about the same this season as a year ago. The demand for farm labor is weak, and the supply is considered ample. However, the type of labor that is available is not considered the best of farm labor.

The average daily wage is $2.02; the general wage per month is $45.00 and the night monthly season daily average is $45 per month, a slight decrease from last year. The average in this locality is $3 a day or $40 a month according to County Agent J. J. McCann, who reports placing 22 farm laborers in April and about 20 in May so far.

Cuts Cost for Taxi Company!

The Yellow Cab and Baggage Company of Topeka, Kansas, thanks the Standard Oil Company (Indiana) for the manufacture of Iso-Vis in a letter, which should be of interest to every motorist.

You will notice that this Company had tried almost all of the standard grades of oil. Men in the taxi business know the importance of lubrication. They can measure it in dollars and cents.

The Yellow Cab and Baggage Company was surprised at the results obtained by using Iso-Vis. No wonder! Iso-Vis is new—different! It lubricates a car with an efficiency never known before, as the above letter illustrates. Only 65 barrels of Iso-Vis are ordered to do the work that it took 100 barrels of ordinary oil to do! Iso-Vis costs a trifle more per quart—but a whole lot less per mile!

Iso-Vis has solved the problem of dilution that had worried motorists and baffled experts for years, and thousands of people through the Middle West are writing enthusiastically to the Standard Oil Company (Indiana) to express their surprise and pleasure at the results obtained.

Buy Iso-Vis at any Standard Oil Service Station or Licensed Garage.

CLASS PLAY PRESENTED

The Senior class play entitled, "Don't Count on Jill" was presented to a full house both nights of Thursday and Friday. The play was a three act comedy, and met with great favor from an appreciative audience. Every character so ably played his part that it would be difficult to pick out the best characters. In the intermission between Jill's absence was favored with a number of vocal solos by Principal R. Peterson, Mrs. Arthur Peterson played the piano to Miss Nora Lindquist and Vera Johnson for their capable coaching.

MOTHER'S DAY PROGRAM

A Mother's Day program consisting of a number of beautiful songs and readings was given at the Methodist church Sunday morning. Besides reading and reciting by students at the Sunday school, readings were given by the following: Lillian Eckleff, Benedikta Hagen, Mrs. Dahl, Mrs. A. F. Hall. Master Patsy Lasby and little Eileen Porter pleased the congregation with two vocal solos. Very beautiful vocal solos were also rendered by Mrs. L. Gullickson and Mrs. A. Dahl. At the close of the program each present was presented with a red carnation.

"Well, George, here it is—!"

EVERY TOWN needs more folks like the George Middletons. Surely they have learned the secret of contentment! And their plan is so sensible and easily adopted that very few words will make it yours—

First, the Middletons operate their household on a budget. They have a definite sum of money for each department of expense.

Secondly, [and this is more important], they invest their funds carefully and wisely. Mrs. Middleton is buyer for the firm—and a mighty good one.

Mrs. Middleton is a good buyer because she knows *what* to buy, *when* to buy and *where* to buy. There is never any doubt in her mind.

Perhaps you have guessed the reason: Mrs. Middleton *reads the ads in the newspaper*, and does her weekly buying according to their advice.

That's why she so often finds opportunity to get George with a new duster, an electric piece of furniture, or a substantial cut out for their savings account.

Because she *studies the ads*, this lady makes their income buy more. happiness! YOU can do the same with yours!

RESIDENTS NEED LI-CENSE FOR FISHING

Department to Have License on Sale Before Fish Season Opens on May 15.

Fishing licenses for Minnesota residents, costing one dollar, will be on sale at stations for persons over 21 years old, will be on sale May 15 when the season for walleyed pike, pickerel, muskellunge and the open season for bass opens, according to J. V. Cecil, state game warden.

The licenses are to be issued in the same manner as license for hunting, that is, by county auditors and by deputies in various parts of the counties. It is expected that over one million fishing licenses will be supplied at the time the season opens and that they will be for sale at the large summer resorts.

Individual licenses cost 50 cents each, but the head of the family can purchase a family license, good for all members of his family, even if they are over the age of 21 years, for $1. Indentification cards are to be issued to the adult members of the family in such cases, and issued free of charge. Licenses for those who are from other states cost $3 as formerly.

The department intends to spend $250,000 in restocking lakes with fish.

Governor Christianson closed the season for hunting partridges and ruffed grouse during 1927 in a proclamation issued Monday. Depletion of the birds thru disease, bad hatching seasons and netting was given as the reason for the closing, which was asked by Commissioner Gould.

MUSIC AN AID TO ADOLESCENT BOY

Also Found Effective as Discipline in Corrective Institutions.

Rapid progress in the use of music as a means of discipline in corrective

institutions, and in the training of musicians for the concert stage, is reported by the New School for Music Study, 70 Fifth Ave., New York City. Music is not only proving a powerful influence in the development of character, but is also training many boys and girls for careers as professional musicians, it is stated. Further information may be obtained by writing to the school.

Soy Beans Furnish Protein for Stock

Are Superior to Cottonseed Cake for Dairy Cattle.

The past few years has seen a decided increase in the acreage and interest in the growing of soy beans. As a pasture crop, either alone or in combination with corn or sorghum, they are very certainly adapted, as penetrating the soy bean in the Digital States.

The need of the soy bean plant is the enormous, crude protein of all the seeds used in fresh cracking. The percentage of crude protein in the seed bean is 35.2 per cent and every 100 pounds of soy beans fed-yields 35.2 pounds of digestible crude protein. The soy bean seed is rich in oil, as it contains 18.1 pounds of oil-rich fat for each 100 pounds of soy beans fed. Compared to linseed oil meal, soy beans contain 2.9 per cent more digestible crude protein and 8.4 per cent more digestible fat.

Soy beans for dairy cattle are similarly superior to cottonseed cake. Care must be exercised in feeding soy beans to dairy cattle, as excessive amounts cause soft butter.

Cattle have been successfully fattened upon soy beans, and, when compared in nutritional value, the soy bean proved just slightly inferior to the cottonseed cake.

In swine feeding, the composition of soy beans as given above, should be carefully considered. The protein content indicates that it can be used as a protein supplement to carbonaceous grains. Due to its high oil content soft pork is apt to result, if soy beans are fed in any great quantity.

Soy beans should be ground for horses and cattle, but, it is not necessary in feeding sheep and swine. W. W. Fairbanks, Extension Service, Colorado Agricultural College.

Foreign Clover Seed Is Found to Be Worthless

During the last few years numerous shipments of alsike clover seed, principally of Russian origin, have been offered to and entered the United States from Italy and Canada. This seed is shown by the United States Department of Agriculture and other investigations to be of very high grade, but unsuited to the conditions in this country. It is not adapted to the production of clover in this country.

Reports coming from experimental tests in Iowa, Minnesota, Wisconsin, Michigan, Indiana, Ohio, Tennessee, Pennsylvania, Virginia, and New York State and several other states, present a body of information which is able to support important conclusions. These are that Italian red clover seed is worthless except in Idaho and Washington, where the climate is mild; that Scandinavian red clover is not hardy enough for any of the northern clover seed is the best; and that Canadian clover seed is the best of all, or without doubt, the safest supplier of the standard, of native seed for the country.

Strain of Early Tomato

Propagated at Michigan Station Is Offered to Growers.

A new strain of tomato, developed and propagated at Michigan State college under the direction of George L. Slate, horticulturist, of Hartford City, Indiana, and Dr. W. A. Billings of the extension service, who is in charge of the field work. The co-operators hail from Niles to Flint and from coast to coast. About 250 of them are located in Minnesota.

Among the Minnesota co-operators are the following, from Pennington county: Mrs. Harry Wadsworth, W. J. Jandrey, Mrs. Bellah, all of Thief River Falls; Chris Carroll, Mrs. K. O. Leyland, C. D. Rose, Mrs. Aston Jensen, F. J. Hall and Gordon Casselman, Thief River Falls; P. G. Dale & Son, Rosewood, and S. T. Dahlgren, St. Hilaire.

The project as it now stands involves the production of a million and a half of turkeys at a conservative estimate, says Dr. Billings. The trial flock will range from 30 to 5,000 birds, the biggest flock also on a North Dakota turkey farm. Six thousand copies of the extension service's bulletin, "Talking Turkey," have been sent out, from the extension's headquarters at University Farm in St. Paul to direct growers. All interested co-operators will be visited and counseled during the month of June.

Diseases in turkey raising conducted at the Minnesota station in Minneapolis showed all results successful reported. Artificial incubation and brooding were used with great success. The Bells Drive poultry club closed confinement on good, clean soil, and a good range of various parts by which a yellow corn mash, wheat middlings, bran, meat scrap, and flour to start with, but changed to grower and as the birds grew older. To 70 pounds of this mash was added charcoal. Lack of high grade, hard, sweet, a half pound of sand per bird, and a half pound of new-cleaned charcoal. Blackhead and other diseases were absolutely under control.

There was a group of 32 poults, hatched May 25, 1926, on the farm of Mrs. Harry Wadsworth, which were marketed in the fall when their average weight was over 20 pounds. The next return for bird was 36 over the feed cost of 8 cents per pound. The flock was given free run of the county fair. Winner of the grand championship was also a group of 12 which was placed in a chicken coop on the fair grounds and allowed ground but all but two in a month's time.

After the first six weeks the turkeys need in the experiments were hopper fed on crushed corn and wheat.

TURKEY READY TO START

N. C. Lindgren, field manager for the Land O' Lakes Creameries, Inc., announced that the starting of an active part of the newly organized Warren co-operative creamery association, at which he explained various features to be handled at the creamery. Will-ston Lindberg of Minto, N. Dak., a graduate of the dairy school at North Dakota Agricultural college, has been employed as buttermaker and has arrived in Warren to take charge of the plant. Mr. Lindgren is also assisting in the organization of a co-operative creamery at Middle River, Marshall county, which is being financed by the Land O' Lakes Creameries, Inc. Work on the building is progressing rapidly and the plant will be completed and ready for operation by June 1, it is expected.

MANY CO-OPERATORS IN TURKEY PROJECT

Much Interest in New Plan Promoted by "U" Agricultural Extension Division.

About 200 co-operators, representing 200 flocks of turkeys, have been signed up for the turkey improvement project, according to J. McCuen, Mrs. Harry Wadsworth, W. J. Jandrey, Mrs. Bellah, all of Thief River Falls; Chris Carroll, Mrs. K. O. Leyland, C. D. Rose, Mrs. Aston Jensen, F. J. Hall and Gordon Casselman, Thief River Falls; P. G. The Senior Issue.

The three lower classes have had their chance at issuing the "Progress," and now our turn has come. As Seniors, we feel that we should try in the last opportunity to edit the school paper as a class, to make this issue a credit to our record in high school. We know that everything is possible if we work hard, and we have done our best. We leave it to you to judge whether the issue of the "Progress" reflects the untiring efforts of our teachers and our acquisition of knowledge during our four years in Lincoln High.

HOSPITALITY

The members of the Senior class have during the past week had several opportunities to enjoy what is called hospitality. The remarkable thing about these instances is that we have discovered what hospitality really is. We've always known that it is a direct result of friendship, mutual cooperation, and of course, Golden Rule to others. We are convinced that it is not, as many people believe, a more rigid adherance to the stiff, formal rules of society. Where there is hospitality, there is a spirit of the "eat and drink," severe reserve.

When our committees of students went to Crookston last Saturday, they enjoyed every minute of the visit. This would have been impossible without the friendly hospitality of our hosts. When the students arrived at Crookston they brought with them that spirit of good will and fellowship during the contest and afterwards. They returned to us that spirit multiplied while guests between the Crookston high school and our own, and that feeling still lingers.

At the Junior-Senior banquet the same effect was produced. As we entered the hotel before the banquet, we detected an air of sociability which assured us that we would remember the banquet of 1927 as the ceremony, not as a social activities for the year. We appreciate the generosity of the hostess and shall always be grateful for it.

The early newspapers printed the four points of the compass at the top of the page to indicate that news from all parts of the world were received. A printer's devil subsequently rearranged the letters symbolic of the points of the compass, in a straight line, and printed the word "News." Hence the origin of the name newspaper.

A boss in the home is wrong; says an authority on health and sanity, but if that's the case, who's to decide who will mow the lawn?

RULES

Students, have you ever noticed what a multitude of rules and regulations have just lately been gathered and are now hanging over our heads? Teachers are, have you noticed any improvement? I am a student and can answer for the first, but the second I shall have to give merely the students' opinion.

Long before we entered high school we had heard from all sides that high school days were the days. So we immediately set out to make it the days, for of course it's not the building but the pupils that do the making. Now suddenly all our privileges have been taken away. They say that we are too discreetly for those who want to study. I wonder how many students there are that would rather study with no interruption but the clock. I'll guarantee there wouldn't be enough to fill one row of seats. And the new rules would put into the class that prefer to have a little giddy mixed in with study. Why not put this one row of studious students in some remote, quiet, room (for instance, the store room) while the others can enjoy themselves. I think we still get just as much out of it. A little interruption will make the subject less monotonous. I suppose, teachers, that you were all A-No.1 students with not a single hospitality kink in your head or always did "just what teach told you to." It doesn't matter what kind of students you were the but you'll see to it that we're that way. I don't think you will succeed. You'll have a new rule to give us talk about it. This we all say our heads together and try to think of some new form of mischief that the law says nothing about. Thanks how we spend those valuable minutes that you try to preserve for study! We rebel when they start to drive us around like prisoners in a cell. That's the limit!

Now, teachers, please don't say one word to himself. I don't mean you at all. If you don't care to listen to a pupil's talk on this subject, ask the pupil in room 105 what he thinks of the rules.

PARODY

Blessings on thee little Fred
Bath head'h by water with loosied head
With berry pants—twelve inch
And thy saxophone's sweet tunes
Thy lips so very red
Kissed by maidens it is said.
With the sunshine on your face
And a cheerful heart at ease!
Let the billionaire guys ride
In their limousines on the side,
Freddie bringing up the rear
In his Ford is full of cheer.

"Why do you ask for a new trial?"
"On the grounds of newly discovered evidence, your honor," said the lawyer earnestly.
"What is the nature of this evidence?"
"My client has shut up $400 that I didn't know he had."
Does history repeat itself?
Sure does if you flunk it.

LINCOLN ENTRANTS WIN TWO EVENTS IN DISTRICT MEET SAT.

Louise Veves Winner in Shorthand Contest; Marion Reynolds, Advanced Typing

A commercial contest of much interest to the high school took place in the Crookston high school Saturday afternoon. The three school participating in the contest were Crookston, Warren, and Thief River Falls.

In the advanced typing division, Marion Reynolds brought home first honors, typing at the rate of 55 and three-tenths words a minute, with a very high per cent of accuracy, having only nine errors in the entire fifteen minute test. As there is no regular typing II class, this record is an unusual achievement. It is interesting to note that last year the state champion in advanced typing wrote at the rate of 60 words per minute.

In the beginning typing division, our other representative in this division took second honors with 44 and one-tenths words per minute and a high per cent of accuracy. Marion used the L. C. Smith typewriter in the Underwood division.

Robert E. Anderson, Warren entrant in the contest, had third honors, writing 40 and seven-tenths words per minute.

Louise Veves, speedy Greer writer, won first place in the shorthand II contest, with 97 and one-tenth words, of 99½ per cent accuracy. She had only two errors in transcribing the five minute dictation, which was given at 80 words per minute. This success is no doubt, the result of diligent work and co-operation of Louise and Miss Hervig, instructor.

In the division, Cora haver, Crookston, placed second with 96 and Lola Martin, Warren, third with 95½ per cent.

Linda Blomberg, Crookston came out first in the beginning typing contest, making a record of 47 words a minute. Second honors also went to Crookston. Nellie Lavely, who wrote at the rate of 46 words a minute.

Harriet Fuller and Irene Quindlog, who represented Thief River Falls, won third and fourth places respectively. They wrote on the L. C. Smith and Underwood machines, Harriet Fuller having the greatest number of words in the fifteen minutes, writing 829 words, but due to machine trouble, her score was brought down, as ten words are deducted for each error. However, she made 44 words a minute, which is a high rate of speed for beginners.

As a reward for their work, Louise Veves, Marion Reynolds and Harriet Fuller are eligible to enter the state contests in shorthand and typing. Judging by their previous records, they should make a fine showing for the school.

Juniors and Seniors Enjoy Annual Banquet at Evelyn

Last Saturday evening, May 7, the Juniors were hosts to the Seniors, faculty, and school board members at one of the most successful banquets in the history of the high school.

A Junior reception committee received the guests, who assembled at the Evelyn hotel shortly before seven o'clock.

At seven, the guests and hosts formed for a grand march into the dining-room, where each found his place at the artistically decorated tables.

Chester Myren, Esalge, toastmaster, broke the ice with a few fitting remarks, and Harriet Fuller, Junior class president, designated as Second Mate, welcomed the guests. The Senior class president, Byron Thorgilson, "First Mate," responded. The "ship's" effect, so suggested by the names given various members on the program, was carried out in detail throughout the entire evening's entertainment.

After the preliminary speeches of welcome and response, the following menu was enjoyed:

Fruit Cocktail

Celery — Olives

Chicken Patties
Buttered Peas and Carrots
Mashed Potatoes — Buttered Rolls
Parfection Salad
Ice Cream
Lady Baltimore Cake
Coffee

Mints — Nuts

Between courses the program was continued with the following numbers: Song, "Nancy Lee," Margaret Bjorkman, accompanist, Angeli Klaiber Konrad. Gladys Weeks, Dorothy Sullivan, and Eloise Carlson.

Piano solo ..... Harold C. Hand
Noah's Ark ..... Regna Stenerson
Stewardess ..... Ilma Hagstrom
Captain ..... Morris Dye
By the Sea ..... Lucile Hermanson
Admiral ..... Ray Strayer
"Goodbye My Seniors, Goodbye," Group of Girls.

Chester Myren, acted in the capacity of toastmaster throughout the evening. Music was furnished by the "Merry Mariners."

The decorations were carried out in Senior colors, blue and silver. Dainty programmes, they were on the L. C. Smith and Underwood machines, Harriet Fuller won the greatest number of words in the fifteen minutes, writing 829 words, but due to machine trouble, her score was brought down, as ten words are deducted for each error. However, she made 44 words a minute, which is a high rate of speed for beginners.

As a reward for their work, Louise Veves, Marion Reynolds and Harriet Fuller are eligible to enter the state contests in shorthand and typing. Judging by their previous records, they should make a fine showing for the school.

P. T. A. RE-ELECTS MELLBY PRESIDENT

Ways in Which Parents Can Cooperate With Teachers Stressed by Educator

Dr. O. F. Mellby was re-elected president of the Parent-Teachers' association at the annual meeting held at the high school Monday night. Other officers named are: C. W. Pope, first vice-president; Mrs. W. J. Le Brae, second vice president; Mrs. H. W. Bixby, secretary and Miss Caroline Mikkelson, treasurer.

It was decided to raise the annual membership dues from 25 cents to 50 cents. A fair-sized crowd attended.

An instructive address on "Some Phases of Co-operation Between Teachers and Parents" was given by Miss Mabel F. Hice, supervisor of the junior high department of the state teachers college Bemidji. Her talk was replete with apt illustrations of ways in which the parents can help the teachers in giving the children the proper attention and training.

The importance of good health and its relationship to children's studies was emphasized. "Health habits" must be taught in the home as well as in the school. She speaker said, pointing out that the children are under the teachers' care only one-eighth of the time. A proper diet was stressed.

"Remember, children are not equipped with a speedometer—that is judgment," she said.

In discussing home work, Miss Hice urged parents to guide their children's reading, declaring that there is much reading material now of the most wrong outlook on life.

She urged that more open-minded regarding what their children study. "Not where as their vocation," she said in pleading with parents to take more attention to their children's interests.

The audience was delighted with the humorous selections given by Norman's Club chorus.

The annual reports of Secretary T. M. Thronson and Secretary Carol's Mellby were received.

Mrs. Mabey presided in the absence of President Mellby.

We wonder what the librarian means when she says, "Only low conversation allowed."

Robert Erickson, son of Mr. and Mrs. Ben Erickson of this city, was operated last week from a Crookston hospital, where he was confined several weeks following a complications for appendicitis. Altho he is much better, it will be a couple of weeks before he can resume his work. Friends of Robert will remember him as employed with the local Northwestern Bell Telephone company. He was a student at Concordia at Chicago at the time he was taken ill.

Ray Wengeler returned to school Tuesday afternoon after an illness of several days.

Alice Brorby spent the weekend at her home near Kratka.

Leona Bartell returned to school Thursday, after having been absent eight days on account of illness.

Many of the Lincoln students who live in the country could not come to school Monday because of impassable roads.

Knox Operetta Scores Hit With Large Crowd

To spite of the rainy weather the operetta, "The Golden Whistle," given by the Knox school, the city and Allendale Wednesday, May 3, was attended by a large crowd, and was a decided success in every respect.

The fairies and brownies, the roses, the bumblebees, relative, butterflies, the fairy queen, and other characters gave the delight of the children, and the adults as well. The costumes were all very original and pleasing, and the flower garden in the opening number brought loud cheers from the audience. The entire story of the operetta was exceptionally well interpreted by the pupils, all of whom were in or below the sixth grade. The individual solos and group singing received generous applause on the part of the pupils, and thorough coaching by the teachers, all of whom co-operated in the production.

The matinee Wednesday afternoon was also well attended.

Senior Class Meeting

The Seniors have held several meetings of importance within the last few days. At the meeting held by the Seniors attend these meetings, Thursday, they decided on a Class Play, "Betty, the Girl o' My Heart," to be staged at the Grand theatre in the city auditorium, are being sold by members of the class.

The following committees on commencement invitations and cards was elected. They are Bernice Magnus, Irene Hansen, and Lena Amon. This committee will look up the latest invitations and cards to present to the class, which in turn will vote on the one it prefers.

Hank Greef and his wife, formerly Miss Belle Perby, have just returned from a two weeks' honeymoon trip to Niagara Falls and points east. Much concern was expressed by both as to the whereabouts of Mrs. Greef's mother, who left here three days ago. Word was received when they stopped on their trip they sent her a post card with the words, "Wish you were here." It was later that she knew at their word and is taking the trip after them.—

Mrs. L. G. Larsen entertained the third and fifth grade girls Saturday afternoon with an interesting party. She told of many of her own experiences as a child, and explained a few facts about bird migration.

The following first grade pupils were the guests of Miss Craig's room neither absent nor tardy this year: Lorraine Amundson, Beryl Scalzer, Margaret Jacobson, Paul and Robert Folley.

Miss Stenerson: Give the positive, comparative, and superlative of "low."

Knot Notes

This week is "Good English" week at the Knox school. The study and teaching of good English is being carried out throughout all the grades.

Miss Granrude's mother, sister, and brother from Hugby, North Dakota, were visitors at the Knox last week.

Mrs. L. G. Larsen spoke to the children on "Birds" Friday.

The primary grades have started on the Japanese project. They have a project for each month, and during May this one will be carried out in language, geography, lessons and decorations.

An Audubon society has been formed in the sixth grade with 36 members.

An Appreciation

The Knox teachers wish to extend their sincere thanks for the splendid patronage of parents and people of the community in helping make their operetta a financial success.

Washington Echoes

Miss Loftness and Miss Haney of the teacher training department are doing practice teaching in the first grade this week. Mr. Overum is in the second grade, Mrs. Kervestad in the third grade, Miss Clarke-Ikata is teaching reading and penman.hip in the fifth grade.

Joel Chandler Harris Never a Social "Lion"

The first published work of Joel Chandler Harris, creator of "Uncle Remus," was set into type by hand on a printing press in his head, without being committed to paper, says J. T. Harris of Hale Swelling, who worked with Harris on the Monroe Advertiser in Forsyth, Ga., shortly after the close of the Civil war.

Harris would not read his compositions after they were in print if he could avoid it. He inquired hazily to read proof and it's marked having to read what he had "written" with type. Harris was extremely shy and declined to meet many persons. Once Mark Twain and Joel Chandler Cable met in New orleans. Twain recounts the instance in his "Life on the Mississippi," when Cable's name is mentioned.

Three Quixies lined up in the first Pine Trees which waved its whispering branches over Cheerups' hollow stump, and they were so much alike that you couldn't tell them apart unless you knew them very well. They were so slender and brown as Cheerups was plump and green, and being so slender and brown, it's looked like brothers to the pine needles which fell from the great pine trees and feel so soft under your feet in the woods.

Brighteyes could see very well indeed. His eyesight was so wonderful that he could almost see around a corner. Quickear said that he could hear the grass grow. Softfoot moved so lightly that even Quickear couldn't hear him, so I Softfoot could smell a mice a mile away.

Of course, with such good friends near him, Cheerups couldn't be very sad about the lack of visitors. It was really because he was so glad that fine morning that he wanted to share his good spirits with every one.

"Yes, I'm sure they would like us if they could only get here," murmured Cheerups to himself. "I would so love to broaden my acquaintance. They say travel does it. That's it, we'll travel! oh, Brighteyes, Quickear, Softfoot, Swiftwing! I have an idea!"

"Yes, sir, here I am, sir; I couldn't see anyone from the top of the mountain coming this way, sir," cried Brighteyes, as he fluttered to the ground.

"Never mind that now," shouted Cheerups excitedly. "I have a wonderful idea. Well go to them!"

"To them!" cried Quickear.

"To where!" chirped Softfoot.

"To—for they had all dropped down from the Great Pine Tree at Cheerups' first call.

"We are going to travel," chuckled Cheerups. "Isn't it exciting!"

"But, please, sir, when do we start?" chimed the Quixies in chorus.

"We begin here and we start now," cried Cheerups gleefully. "All aboard for somewhere," and he hopped on a passing leaf and rose into the air. The four little Quixies were most too astonished to move but they didn't want to be left behind, so each grabbed a bit of thistledown and followed Cheerups on his voyage of discovery.

MARSHALL ROAD LEVIES

With a total of $43,188 scheduled to be spent township roads in Marshall county during the present season, Middle River township will have the distinction of making the largest appropriation for this purpose, the figure being $2,450, while the average for 27 townships is $1583.9.

Music Charms Horses

Horses are particularly sensitive to music, especially martial airs. In 1872 a vet in British regiment was making a military test march. When the music started a young horse, ridden by a captain, hastened forward and placed itself in ranks of its rider, behind the last rank of the musicians. Then it followed the band, with obvious signs of pleasure. When the music ceased the captain was able to resume his place at the head of his company. But when the band struck up again the horse galloped ahead, and once more placed itself behind the musicians.

With Cheerups and the Quixies by Grace Bliss Stewart

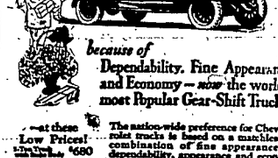
PATH TO CHEERUPS' DOOR

NOW just look at that path, Brighteyes," called Cheerups to a little brown Quixie who was peeping out of a bush near by.

"You couldn't really call it a path, could you, sir?" asked Brighteyes.

"Maybe it's not a path, but it's something," replied Cheerups. "Should of course to see us. Maybe they can't find the way. But even if the rest of the world hadn't come to Cheerups, he had friends. Anyone so jolly and kind deserved to have friends, and so the little Quixies who were his faithful companions, and they were called Brighteyes, Quickear, Softfoot and Swiftwing.

"Have an idea," Called Cheerups to his Companions,



It must be that, for I'm sure they would like us if they could get here."

"I'll go once more and look," cried Brighteyes. "I'll climb the very tallest tree on the tiniest top of the mountain and look as far as I can to see if anyone is coming," and he jumped aboard a passing breeze and flew away through the air.

There sat Cheerups in the doorway of his little home. It was only a hole in the side of an old hollow stump, but this jolly little fairy liked his home and was so happy, that it would have made you laugh just to look at him.

The Senior Issue.

The three year classes have had their chance at issuing the "Progress," and now our turn has come. Ad. Seniors do feel that we should, in this our last opportunity to edit the school paper as a class, to make this issue a credit to our record in high school. We know that everything is possible if we work hard, and we have done our best. We leave it to you to judge whether this issue of the "Progress" reflects the untiring efforts of our teachers and our ambition of knowledge during our four years in Lincoln High.

HOSPITALITY

The members of the Senior class have during the past week had several opportunities to enjoy what is called hospitality. The remarkable thing about these instances is that we have discovered that hospitality is catchy. We now know that it is the direct result of friendship, mutual cooperation, and an effort to be of service to others. We are convinced, we believe, a mere rigid adherence to the stiff, formal rules of society. What there is in hospitality, there is a softening of the "cut and dried" rules of etiquette.

When our commercial students went to Crookston last Saturday, the city enjoyed every minute of it. This would have been impossible without the friendly hospitality of the hosts. When the contestants returned home, they brought with them that spirit of good will which prevailed during the contest and afterwards. They convinced us that the right relationship exists between the Crookston High school and ours. Both will both benefit by it.

The Junior-Senior banquet the same effect was produced. As we entered the hotel before the banquet we detected an air of sociability which assured us that we would in future years remember the banquet of 1927 as the crowning event of the social activities for the year. We appreciate this generous hospitality and shall always be grateful for it.

The early newspapers printed the four points of interest on the front page to indicate that events from all parts of the world were recorded. A progressive publisher recently rearranged the letters symbolic of the stories, so that they read in a straight line, and printed the word "News." Hence the origin of the name newspaper.

A boss in the home is wrong, says an authority on health and beauty, but if that's the case, make it the kiddo who will mow the lawn!

STARTS WORK AT $90 A MONTH

Instead of taking an ordinary textbook business course, Alvin Guenther enrolled at Dakota Business College, Fargo. Here he had the benefit of ACTUAL BUSINESS training (copyrighted—unobtainable elsewhere) and stepped right into a $90 a month position with the Central Light & Power Co., Harvey. Nina Dahl was sent direct from D. B. C. to the Pioneer Coffee Co.

RULES

Students, have you ever noticed what a multitude of rules and threats have just lately been gathered and are hidden away over our heads? Before, we have you noticed any improvement? I am a student and can answer the first, but the second I shall refuse to give—merely the students' opinion.

Long before we entered high school we had heard from all sides that high school days were the days. So we immediately set out to make it the days, for of course it's not the building but the people that do the making. Accordingly all our privileges have been taken away. They say that we are too disorderly for those who want to study. I wonder how many students there are that would rather study with no interruption but the clock. I'll guarantee there wouldn't be enough to fill one row of seats. All the rest could put into the class that desire to have a little ability mixed in with study. Why not put this one row of studious students in some remote, quiet, room (for instance, the storeroom) while the others can enjoy themselves. I think we still get just as much out of it. A little interruption will make the subject less monotonous, I suppose, teachers, that you have all a terrible task dealing with mischievous idea in your heads and always did "just what teach told you" and never dared be L. C. Smith machine, and Louise the Underwood. Ah, Seniors, Warren was important in the contest took third place, typing 60 and seven-tenths words per minute.

Louise Veyen, speedy fingy writer, took first place in the shorthand contest, with the very unusual record of 97 words per minute. She had only two errors in transcribing the five minute dictation, which was given at the rate of 120 words per minute. This success is, no doubt, the result of diligent work and encouragement of Louise and her teacher, Miss Bruzgar.

In the letter box Vera Lowe, Crookston won second with 58 5-6 and Lois Martin, Warren, third with 39½ per cent.

Linda Bjornberg, Crookston came out first in the typing typing contest, making a record of 47 words a minute. Second honors also went to Crookston, Nellie Lavely, who wrote at the rate of 46 words a minute.

Harriet Myrom and Agnes Quisling, who represented Thief River Falls, were third and fourth places respectively. They wrote on the L. C. Smith and Underwood machines. Harriet Puller wrote the greatest number of words in the fifteen minutes, without a mistake—due to machine trouble, her accuracy was brought down, as ten words are deducted for each error. However, she made 44 words a minute, which is a high rate for a beginning student.

As a reward for their work, Louise Veyen, Linda Bjornberg and Harriet Puller are eligible to enter the state contests in shorthand and typing. Judging by their previous records, they should make a fine showing for the school.

LINCOLN ENTRANTS WIN TWO EVENTS IN DISTRICT MEET SAT.

Louise Veyen Winner in Shorthand Contest; Marion Reynolds, Advanced Typing

A commercial contest of much interest to the high school took place at the Crookston high school Saturday afternoon. Nine three school participating in the contest were: Crookston, Warren, and Thief River Falls.

In the advanced typing division, Marion Reynolds brought home first honors, typing at the rate of 65 and three-tenths words a minute, with a very high per cent of accuracy, having only nine errors in the entire fifteen minutes. Had there been a regular "whip" effect, as suggested by the names given various members on the program, was carried out in detail throughout the entire evening's entertainments.

After the preliminary speeches of welcome and response, the following menu was served:

Fruit Cocktail

Celery Olives

Chicken Patties
Buttered Peas and Carrots
Mashed Potatoes Hot Buttered Rolls
Perfection Salad
Lady Baltimore Cake
Coffee

Mints Nuts

Between courses the program was continued with the following numbers: Song, "Nancy Lee," Margaret Bjorkman, Agnes Gravelle, Ethel Sewell, Gladys Weeks, Dorothy Sullivan, and Elsie Carlson.

Pilot ——— Harold C. Hand
Noah's Ark ——— Margie Stoverson
Stewardess ——— Blanch Korstad
Captain ——— Morris Eye
By the Sea ——— Lucile Hermanson
Admiral ——— E. M Beenes
"Goodbye, Sweetheart, Goodbye," Group of girls.

Chester Myrom, acted in the capacity of toastmaster throughout the evening. Music was furnished by the Lincoln orchestra.

The decorations were carried out in Senior colors, blue and silver. Dainty programmes, ship-shaped nut baskets, and the little sails decorated the cups, shaped potatoes made the tables very artistic. The center-piece of each table was a large mirror, edged with moss, this, of course, being in keeping with the theme of the banquet.

At 9:30 the Juniors and their guests adjourned to the Alls' hall elegantly in gray and blue for the occasion, where the remainder of the evening was spent dancing to the music of the "Merry Maniacs" orchestra.

Everyone present spent a most enjoyable evening, and declared the banquet a decided success.

Juniors and Seniors Enjoy Annual Banquet at Evelyn

Last Saturday evening, May 7, the Juniors were hosts to the Seniors, faculty, and school board members at one of the most successful banquets in the history of the high school.

A Junior reception committee received the guests, who assembled at the Evelyn hotel shortly before seven o'clock.

At seven, the guests and hosts formed for a grand march into the dining-room, where each found his place at the artistically decorated tables.

Chester Myrom, Ensign, toastmaster, broke the ice with a few fitting remarks, and Harriet Puller, Junior class president, designated as Second Mate, welcomed the guests. The Senior class president, Byron Thuteau, as First Mate, responded. The "ship" effect, as suggested by the names given various members on the program, was carried out in detail throughout the entire evening's entertainment.

After the preliminary speeches of welcome and response, the following menu was served:

P. T. A. RE-ELECTS MELLBY PRESIDENT

Ways in Which Parents Can Cooperate With Teachers Stressed by Educator

Dr. O. F. Mellby was re-elected president of the Parent-Teachers' association at the annual meeting held at the high school Monday night. Other officers named are: Mrs. Pope, first vice president; Mrs. W. J. Ege, second vice president; Mrs. T. Mahoney, secretary and Miss Catherine Melby, treasurer.

It was decided to raise the annual membership dues from 25 cents to 50 cents. A fall-sized crowd attended.

An instructive address on Some Phases of Co-operation Between Teachers and Parents" was given by Miss Mable F. Rice, supervisor of the junior high department of the state teachers college Bemidji. Her talk was replete with apt illustrations of ways in which the parents can help the teachers in giving the children the proper attention and training.

The importance of good health and its relationship to children's studies was emphasized. "Health habits must be taught in the home as well as in school," the speaker said, pointing out that the children are under the teachers' care only about one-fifth of the time. A proper diet was stressed.

"Remember, children are not coupled with a sportsmeter—that is judgment," she said.

In discussing home work, Miss Rice urged parents to guide their children's reading, especially in the case of harmful material which gives them wrong ideas of social life.

"Parents need to be more open-minded regarding what their children do or chose as their vocations," she said in pleading with parents-to-give more attention to their children's recreations.

The audience was delighted with three song numbers given by the Woman's Club chorus.

The annual reports of Secretary T. M. Thronson and Secretary Carolyn Fisk were read.

Mrs. Mahey presided in the absence of President Mellby.

Coach L. A. Thune visited at Iron Mountain over the week-end. During his absence Mrs H. C. Hazel taught his Biology classes.

Ray Wangeler returned to school Monday afternoon after an illness of several days.

Alice Dowdy spent the week-end at her home near Kratka.

Leona Bothoth returned to school Monday after having been absent eight days on account of illness.

Some of the Lincoln students who live in the country could not come to school Monday because of impassable roads.

Joel Chandler Harris
Never a Social "Lion"

The first published work of Joel Chandler Harris, creator of Uncle Remus," was set into type by hand as ideas came to his head, without first being committed to paper, says J. T. Maury of Dixie Dealing, who worked with Harris on the Monroe Advertiser in Forsyth, Ga., shortly after the close of the Civil war.

Harris would not read his completed tales after they were in print if he could avoid it. He taught Maury to read proof and then avoided having to read what he had "scribed" with type. Harris was extremely shy and seldom went to any gathering. Mrs. Harris, Mark Twain and George W. Cable were his New Orleans friends, recounts the instance in his "Life on the Mississippi," when the three of them, after a dinner given by Cable, went to Uncle Remus' home to call on Harris. They were greatly disappointed and started to leave.

"Why, he's white."

To console them, a move was made to have Harris read the Tar-Baby story aloud. But he never had read aloud to people and was too shy to make the venture.

Lakes Asa'n Will Issue Tourists Vacation Booklet

"Vacation Days" an extremely valuable vacation booklet which in past years has been published by the Minneapolis Civic & Commerce Association has been taken over by the Ten Thousand Lakes Association and the 1927 edition will be distributed free to tourists. It will make its appearance soon.

While the booklet, beginning with the 1927 season becomes a publication of the Ten Thousand Lakes Association, a great portion of the work of compiling the material which it will contain will be done by the Minneapolis Civic & Commerce Association. This is being done so that the material concerning the playgrounds of Minnesota which has been gathered in past years by both organizations will be incorporated in the new booklet, making it the most complete publication of its kind ever attempted in the state.

The 1927 edition of "Vacation Days" will include practically everything that the tourist will want to know. It will have a description of all Minnesota towns with a population of 500 or more. Resorts with rates and accommodations will be listed. A list of municipal golf courses will also be given. A description of state parks, prepared by Hon. Ray P. Chase, state auditor, as well as information concerning the national forest reserves of the state will be given. The booklet will include an invitation from Governor Theodore Christianson to visitors. Railroad excursion rates, descriptions of all municipal tourist camps, a transcontinental map, an air chart, a church directory, a list of boys and girls camps, descriptions of commercial hotels with their rates and a road log of the highways of Minnesota will be given. It will contain some general traffic information and will urge upon tourists the necessity of registering their cars, purchasing fishing licenses and observing the conservation laws. Hitherto these have only been urged by the commissioner of the state will also be given. In reality, "Vacation Days" will be a hand book of Minnesota, complete in every way.

Knox Operetta Scores Hit With Large Crowd

In spite of the rainy weather the operetta, "The Golden Whistle," given by the Knox school at the city auditorium Wednesday, May 2, was attended by a large crowd, and was a decided success in every respect.

The fairies and flowers, the roses, the bumblebees, robins, butterflies, the fairy queen, and other characters were the delight of the children, and the solos sung by Margaret Jacobson were all very original and pleasing, and the flower garden chorus brought loud cheers from the audience. The entire story of the operetta was exceptionally well interpreted by the pupils, all of whom were from the third to the sixth grade. The individual solos and choruses were reflected strenuous practice on the part of the pupils, and thorough coaching by the teachers, all of whom co-operated in the production.

The matinee Wednesday afternoon was also well attended.

Senior Class Meeting

The Seniors have held several meetings of importance within the last few weeks. It is significant that all the Senior meetings are exciting.

The tickets for the Senior Play, "Mr. Pim Passes By," are about, to be staged on Friday, May 13, at the city auditorium, are being sold by members of the class.

Last Friday a committee on convocations, including Alpha Gauson, was elected. They are Bernice Hoque, Irene Hansen, and Lars Berstad. This committee is to select a few invitational numbers to present at the close of which will turn will rely on the one it prefers.

Hank Crevel and his wife, formerly Miss Belle Perky, have just returned from a ten weeks' honeymoon trip to Niagara Falls and points east. Much concern was expressed by Hank as to the whereabouts of Mrs. Creel's mother, who left here three days ago. From each place where they spent a part of their time they sent her a post card with the words, "Wish you were here." They fear that she took them at their word and is taking the trip after them.

We wonder what the phrase "Only low conversation allowed."

Robert Erickson, son of Mr. and Mrs. Ben Erickson of this city, was released last week from a Chicago hospital, where he was confined several weeks following a critical operation for appendicitis. Altho he is much better, it will be a number of months before he can resume his school work. Friends of Robert will welcome him as employed with the local Northwestern Bell Telephone company. He was employed in the city of Chicago at the time he was taken ill.

Are You "Toxic?"

Tells Well-Them to Learn the Importance of Good Elimination.

FUNCTIONAL inactivity of the kidneys permits a retention of waste poisons in the blood. Symptoms of this toxic condition are a dull, languid feeling, drowsy headaches and, sometimes, toxic backache and dizziness. That the kidneys are not functioning as they should is often shown by scanty or burning passage of secretions. Many readers have learned the value of Doan's *Pills*, stimulant diuretic to the kidneys, in such conditions. Then prove endorse *Doan's. Ask your neighbor!*

Knox Notes

This week is "Good English" week at the Knox school. The study and teaching of good English is being carried out throughout all the grades.

Miss Gravrolet's mother, sister, and brother from Rugby, North Dakota, were visitors at the Knox last week.

Mrs. L. G. Larsen spoke to the children on "Birds" Friday.

The primary grades have started on the Japanese project. They have a project for each month, and during May that one will be carried out in language, general lessons, and decorations.

An Audubon society has been formed in the sixth grade with 36 members.

An Appreciation

The Knox teachers wish to extend their sincere thanks for the splendid patronage of parents and people of the community in helping make their operetta a financial success.

Washington Echoes

Miss Loftness and Miss Haney of the teacher training department are doing practice teaching in the first grade this week. Mr. Overum is in the second grade, Mr. Reversland in the third grade, and Miss Martineson in the fourth grade during this trip in the fifth grade.

The following three new pictures are being displayed in the Washington school: "Children of the Sea" in the fifth grade, and "The Windmill" in the fifth grade room.

Stella Myrom of the fifth grade has almost completed her Studebaker tests and hand tests this week.

The pupils of Miss Craig's room have completed the Fair work.

Paul Gilbert, who graduated from normal training here last year, and has been teaching near Grygla this winter, visited at the Washington on Monday.

Northrup Briefs

Mrs. L. G. Larsen entertained the third and sixth grade Bird Club on Thursday afternoon with an interesting talk. She told of many of her own experiences with birds and exhibited her facts about bird migration.

The following first grade pupils show the splendid record of being neither tardy nor absent this year: Loraine Amundson, Leroy Desatan, Margaret Jacobson, and Robert Wood.

MARSHALL ROAD LEVIES

With a total of $43,188 scheduled to be spent township roads in Marshall county during the present season, Middle River township will have the distinction of making the largest appropriation for this purpose, the figure being $2,850, while the average for 47 townships is $918.89.

Music Charms Horses

Horses are particularly sensitive to music, especially martial airs. In 1862 a corn in British regiment was making a military foot march. When the music started a young horse, tied to a caisson, hastened forward and placed itself in spite of its rider, behind the last rank of the musicians. Then it followed peacefully, giving curious signs of pleasure. When the music ceased the cortege was able to resume his place at the head of his company. But when the band struck up again the horse galloped ahead and once more placed itself behind the musicians.

The Economical Pavement
--for town or city

ONLY Portland Cement concrete streets will stand up economically under the traffic of today. Rigid and unyielding, they retain their safe, even, attractive surface year after year.

Surprisingly moderate in their first cost, they require almost no maintenance—are open and in service at all seasons.

The concrete pavement is unaffected by temperature—and is the *safest* pavement wet or dry.

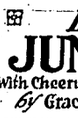
"I Have an Idea," Called Cheerups to His Companion.

It must be that, for I'm sure they would like us if they could get here."



"I'll get more and look," cried Brightеyes. "I'll climb the very tallest tree on the tiresest top of the mountain and look as far as I can be see if anyone is coming," and he jumped aboard a passing breeze and flew away through the air.

There sat Cheerups by the doorway of his little house. It was only a hole in the side of an old hollow stump, but this jolly little fairy liked his home and was so happy that it would have made you laugh just to look at him.

In the JUNGLE
With Cheerups and the Quixies
by Grace Bliss Stewart

PATH TO CHEERUPS' DOOR

"NOW just look at that path, Brightеyes," called Cheerups to a little brown Quixie who was peeping out of a bush near by.

"You couldn't really call it a path, Cheerups," answered Brightеyes, "Hardly a blade of grass is worn off."

"No, that's just the trouble, Brightеyes, there's never no one to wear it off," replied Cheerups. "Nobody comes to see us. Maybe they can't find the way.

But even if the rest of the world doesn't come to Cheerups he has friends. Anyone so jolly and kind couldn't help it. There were four Quixies who were his faithful companions, and they were called Brightеyes, Quickeer, Softfoot and Smilfunit.

These Quixies lived up in the Great Pine Tree which waved its whispering branches over Cheerups' hollow stump, and they were so much alike that you couldn't tell them apart unless you knew them very well. They were so slender and brown as Cheerups was plump and green, and being so slender and brown, it re looked like brothers to the pine needles which fell from the great pine trees and feel so soft under your feet in the woods.

Brightеyes could see very well indeed. His eyesight was so wonderful that he could almost see around a corner. Quickeer said that he could hear the grass grow. Softfoot stepped so lightly that even Quickeer couldn't hear him, and Smilfunit could smell a violet a mile away.

Of course, with such good friends near him Cheerups couldn't be very sad about the lack of visitors. It was really because he was so glad that the morning that he wanted to share his good spirits with every one.

"Yes, I'm sure they would like us if they could only get here," murmured Cheerups to himself. "I would like so fora to broaden my acquaintance. They my travel does it. That's it, will travel! oh, Brightеyes, Quickeer, Softfoot, Smilfunit; I have an idea!"

"Yes, sir, here I am, sir; I couldn't see anyone from the top of the mountain coming this way, sir," cried Brightеyes, as he fluttered to the ground.

"Never mind that now," shouted Cheerups excitedly. "I have a wonderful idea. We'll go to them!"

"To them!" piped Quickeer.

"To where!" chirped Softfoot.

"To where!" sputtered Smilfunit.

For they had all dropped down from the Great Pine Tree at Cheerups' first call.

"We are going to travel," chuckled Cheerups. "Isn't it exciting?"

"But please, sir, when do we start?" chimed the Quixies in chorus.

"We begin here and we start now," cried Cheerups gleefully. "All aboard for Somewhere," and he hopped on a passing leaf and rose into the air. The four little Quixies were most too astonished to move but they didn't want to be left behind, so each grabbed a bit of thistledown and followed Cheerups on his voyage of discovery.

9 CHORUSES TO ENTER CHORAL CONTEST TUES.

Hundred Women to Partake in Musical Program of Women's Clubs Convention

T. R. F. CHORUS TO TAKE PART IN DISTRICT EVENT

Local Artists to Assist in Attractive Program, Public Invited to Attend

Approximately 100 women from nine Red River Valley towns will take part in the ninth annual choral contest of the Ninth District Minnesota Federation of Women's Clubs which will feature the convention program here next week. The contest will take place in the auditorium Tuesday night, May 17, commencing at 7:45 o'clock, and promises to be a premier musical event of the season in this city.

The contest program is open to the public and it is expected that the auditorium will be filled to capacity by convention guests and local citizens. A small admission charge will be made, 25 cents, to help defray various expenses in connection with the affair.

Two Groups

Six choruses will compete in the Mozart cup contest group, namely: from Fergus Falls, Perrytz, Detroit, Pelican Rapids, Warren Girls' Community, and Crookston Civic. There will be three cities represented in the Current Events group, namely: Thief River Falls, Crookston and Warren. Details of the contest are announced by Mrs. A. E. Swenson, Warren, Ninth district chairman of music.

Besides the contesting choruses, the evening of music will be featured with the appearance of two local assisting artists, Mrs. Doris Halvorson Pope, soprano, and Mrs. Bertha Hefner, violinist. Both are well known and will be welcome to C Sharp Minor" by Chopin, "Claire de Lune" by Debussy, and "Waltz" from "Dalibes Ballet" by Willis Eckman. Miss Simerson will read "Mush's Ark", by Bangs. Both of the local assistants are talented performers, and can be counted on to add much to the pleasure of the evening.

Miss Thorsen is Host

The required songs for the Mozart cup contest, selected by the contest committee, are: "On Music's Wings" by Mendelssohn and "I Passed By Your Window" by Brahms. The Current Events cup group the requirements are: "O Music Holy Art" and "Fairy Cradles" by Molly Carew. Miss Thief River Falls ladies, committee for the Current Events contest, is: Mrs. Lullaby" by Brahms, unaccompanied; Miss Esther Moen and Miss Lucile Boyer.

The ladies include Mrs. A. G. Jacobson of Bemidji, district president of the Northern Lights National Federation of Music Clubs, and Mrs. Mabel Swanson Swain, teacher of music, state teachers' college, Mayville, N. Dak. The third judge has not been announced as yet.

Misses Esther Ojertson and Sibyl McGinn have been named to audit the scores.

DISTRICT MEETING OF WHEAT GROWERS MAY 18

The annual meeting of district No. 2 of the Minnesota Wheat Growers' Co-operative Marketing association will be held at the court house in Red Lake Falls Wednesday, May 18, according to Jorgen Kide, secretary of the state organization. Plans will be outlined for improving the services of the organization and all members are urged to attend.

At this meeting three delegates will be elected to represent the district at the annual meeting of the state organization to be held in Minneapolis June 1. A representative from headquarters will be present to discuss the association's activities.

District No. 2 includes Pennington, Red Lake, Clearwater, Beltrami, Itasca, St. Louis, Lake and Cook counties. District No. 1 members are Kittson, Roseau, Marshall, Lake of the Woods, and Koochiching counties will meet at Stephen.

MANY ORDER PYROTOL

Orders for approximately 2,000 pounds of pyrotol have been received from farmers in this vicinity by County Agent McCann. This explosive is distributed at a small cost by the war department thru the university extension division. Orders must be entered soon to assure a supply, Mr. McCann says.

Warren Woman's Club chorus has chosen "Spring Comes Laughing" as its special number while the Warren Girls' Community club has selected "The Slumber Song" by Cadi-Kempner, the latter being in the Rounds cup group.

At the close of the contest, the combined choruses of the district will sing Gounod's "Send Out Thy Light" with Mrs. Swenson directing.

The local Women's Club chorus is directed by Mrs. O. F. Melby, well known soprano soloist who has developed a group of singers which make a strong bidding for district honors. Rehearsals have been carried on thruout the winter and spring and the finishing touches are being put on what promises to be a premier musical event of the season in this city.

A Talented Group

Members of the chorus, whose talents are known to local music lovers, are: Mrs. O. C. Granum, Mrs. M. W. Smith, and Miss Mildred Markenburg, first soprano; Mrs. G. W. Boeren, Mrs. Helen Bottelson, and Mrs. J. N. Nesse, second soprano; Mrs. T. Hoey, Mrs. H. Joken, and Mrs. Geo. Swanson, alto. Mrs. Floyd Anderson is the piano accompanist. Local citizens are urged to turn out to boost for their representatives in the competition

The Warren Woman's Club chorus, under the direction of Mrs. Swenson, the district music chairman, has won an enviable record in district and state music circles. Last year the chorus won first place and sweepstakes in the Ninth district contest held at Detroit Lakes and later received 1st second honors at the state contest. The chorus has won the Current Events cup twice, and seeks to gain possession of it by winning in the competition here next Tuesday.

Members of the Warren chorus are: Mrs. C. J. Mathiason, Mrs. Ole Taraseth, Mrs. T. O. Hatfield, Mrs. Ben Spaulding, Mrs. Ed Bratrud, Mrs. C. D. Davis, Mrs. S. Swanson, and Miss Agnes Eliertson, with Miss Agnes Lodgren as accompanist. Members of the Warren Girls' Community chorus, organized during the last few months under the direction of Miss Muriel Ann Hebal are as follows: Misses Jeanette Jones, Esther Wallan, Edna Swan, Ethel Hegberg, Rose Drake, Esther Myrvold, Anna Buckminster, Dorothy Blake, Velma Peterson, Mary Hefter, Ellen Erickson, and Mrs. Nettie Peterson.

Directors Listed

Directors and accompanists of the various choruses and the special numbers to be rendered are: Crookston, Mrs. E. Buckingham, director, and Mrs. Wm. Nibelung, accompanist, "Daisy Bell" by the audience; Fergus Falls, reservation club, Mrs. A. R. Wells and Dagny Johnson, "The Old Refrain" by Kreisler; East Grand Forks Methodist church, Miss Vevier and Mrs. Elmer S. Ash, "Cradle Song" by Tschaikowsky; Pelican Rapids Woodcraft club, Mrs. H. L. Hanson and Miss Ella Johnston, "Sunset" by Franz; Detroit, Miss Esther Moen and Miss Lucile Craig, "The Old Refrain," and Bertha Hefner, Mrs. H. A. Stinson and Miss Lucile Boyer.

The judges include Mrs. A. G. Jacobson of Bemidji, district president of the Northern Lights National Federation of Music Clubs, and Mrs. Mabel Swanson Swain, teacher of music, state teachers' college, Mayville, N. Dak. The third judge has not been announced as yet.

Misses Esther Ojertson and Sibyl McGinn have been named to audit the scores.

FACTORY EXPERT COMING HERE

Larson Furniture Company To Give Unusual Demonstration

As a result of considerable effort on the part of the Larson Furniture company, local agents for the Kitchenaid Stoves and other products of the same manufacturer, they have been able to secure the service of a factory expert for a three day demonstration, beginning May 16 and preparations are now being made to take care of the many visitors who are expected, and will want to visit this demonstration.

The Larson Furniture company claims that the Kitchenaid stove, which will be especially featured, is a product which is rapidly revolutionizing the liquid fuel stove industry. It is claimed that the stove is the nearest approach to city gas which has ever been produced. In fact, it is said that the Kitchenaid is even faster than gas and that no other cook stove approaches it in range, uniformity and intensity of heat. Unlike the usual liquid fuel stove, it requires only one minute to light the master burner of the Kitchenkook, after which additional burners may be turned on or off as wanted, exactly like gas.

The safety of the stove is demonstrated by a very unusual safety test —that of turning the stove upside down and on its side while it is in operation. Also a feature in the demonstration will be a small size of the Kitchenaid, an electrically operated, revolving stand by means of which food is made to revolve scientifically while burning, during the cooking demonstration.

The Kitchenaid Line, which comprises a number of gasoline gas appliances, is said to include a complete gas cooking, lighting and heating service for home without city gas service. The entire line will be shown during this demonstration.

In view of the fact that demonstrations will be made in only a few cities in the United States this year, the Larson Furniture company considers itself fortunate in securing the services of the Kitchenaid expert here and hopes that a great many people, and especially the women of the surrounding territory, will take advantage of this demonstration.

Narrowly Escapes Death In Collision With Train

Wesley LaFave, Horse Shoe Bend farmer, narrowly escaped death Friday evening when the team and wagon he was driving collided with a Soo Line passenger train, smashing the wagon to bits, and hurling him a distance of 30 feet.

Mr. LaFave was driving his team across the railroad tracks at the Greenwood cemetery, where the road follows closely along the Soo Line tracks, when his horses were frightened by the whistle of the Minneapolis local, approaching from behind. Breaking away from his control, the animals plunged across the tracks, the engine hitting the wagon at the crossing. Mr. LaFave was thrown clear, without a bruise, and the horses were unhurt, continuing in their run which ended when they had their harness entangled in a fence.

TO TREAT HIGHWAYS

The present bituminous treated mileage on the Minnesota trunk highway, which was 229 at the end of 1926, will be increased to about 353 this summer, according to announcement by Commissioner C. M. Babcock. The highway department last week made arrangements to purchase 2,000,000 gallons of road oil and tar and of this amount, 1,250,000 gallons will be used on roads not previously treated. It will cover 125 miles. The oil and tar treatments will be applied on roads which cannot be paved immediately, for lack of funds, but which carry such heavy traffic that untreated gravel will not stand up in either wet or dry weather. The cost of the new treatment varies from $1,250 to $1,750 per mile.

As usual, the oversize weather forecasters are predicting this will be a year without a summer, which is a good warning to prepare for some hot weather.

T. R. F. SCHOOLS TO BENEFIT BY AID PAYMENTS

(Continued from Page 1)

following statement to superintendents and school boards:

"The legislature at the 1927 session authorized payment in full of the deficit for the years 1925 and 1926 and appropriated $912,000 sufficient for that purpose.

"It also appropriated $400,000 which it designated as payment in full for the years 1923 and 1924. This sum will be sufficient to pay approximately 29 per cent of the $1,350,000 shortage for those years. This item however only those districts which were entitled to supplemental aid in 1925 and 1926.

"The above amounts will be certified by the department of education for payment before the close of this fiscal year.

"The legislature passed an act amending the state aid laws in the following respects:

"1—Only 90 per cent of the amount called for in the several special state aid laws shall be paid in the year 1927.

"2—Payment made in accordance with these provisions shall be payment in full and no further obligation will be regarded as existing against the state.

"The appropriation made for each of the years 1928 and 1929 is $1,000,000, the same as at present.

"The apportionment for November as usual and will be in accordance with the above provisions.

1927-27 Prospects

"There are some items in the state aid, notably the transportation of pupils, that it is impossible to estimate in advance with any accuracy. Even the normal increases of former years following any considered fairly accurate in securing the services of the Kitchenaid expert here and hopes that a great many people, and especially the women of the surrounding territory, will take advantage of this demonstration.

Do You Realize—

that success in business is one of those things in life that money has never been able to buy?

When a creamery has patrons that will stand by frankly and constructively help correct the faults of their own organization giving it a chance to reciprocate they have a priceless foundation of success.

It is just such cream patrons as these that have helped our business to grow to the extent that it has in a few short years.

We appreciate the steadfast, loyal patrons more than we will be able to tell. Our desire is to deserve the old friendships and retain the business with which they have been favoring us. We endeavor to deserve the continuance of their business and by service and square deal enlist new patrons to join the ranks of our old and regular patrons.

SCHOOLS PLAN MUCH ACTIVITY AS TERM ENDS

Fifty-two Candidates for High School Graduation; Commencement June 3

REV. TUNGSETH TO GIVE BACCALAUREATE SERMON

Eighty-four Complete 8th Grade in Public Schools, 17 in Catholic School

With the end of the school year only two weeks away, Thief River Falls teachers and students are busy making arrangements for the closing events which will mark the various graduations.

The smallest class in some years will be graduated from Lincoln high school next spring. There are only 52 candidates for graduation, according to Principal H. C. Hand as compared to 120 a year ago. The class of 1928 is unusually small boys. In addition to the seniors, there are many 8th grade graduates who are completing their course in the teachers' training department. Last year 21 completed this course.

The program of events for the commencement season opened May 7 with the annual reception at the Lincoln hotel. The next major event will be the junior play which was successfully staged in the auditorium Friday, last week. The time for the baccalaureate sermon and class day exercises for the graduates has not been announced. On the final week, commencement for May 27 and 31 and June 1 and 2, are scheduled for that week.

Rev. E. L. Tungseth, pastor of the First Lutheran church, will deliver the baccalaureate sermon Sunday evening, May 29, in the auditorium. Sunday morning, May 29, the full program will be announced next week.

Eighty-four pupils in the 8th grade of the public schools are candidates for eighth grade graduation, the final exercises for which will take place in the auditorium Friday, June 3 at 10 a. m., according to Miss Ethel Hall, principal. Miss Rachmael, valedictorian; Forrest Anderson, salutatorian; Evelyn White and Robert Bowren will take part in the program. The principal address will be given by Dr. C. J. Lee, president of the board of education. The eighth grade class colors, under the direction of Edward Swanson, will play.

Friday afternoon, June 3, there will be the class exercises at the high school when the diplomas and certificates will be awarded and honors announced.

The commencement exercises will take place in the auditorium of the parochial school will be held in the auditorium Tuesday evening, June 7, according to Sister Secretaria. The complete program will be printed in these columns next week. Seventeen pupils are candidates for eighth grade graduation. This number is larger than last year's class.

As in recent years, it is planned to have a county graduation program for eighth grade graduates in the rural schools of the county, according to Miss Ethel Hall, county superintendent of schools. The date for the event and other details will be announced later, Supt. Geo. M. Gunderson.

Movie of Swat King to Be Shown at the Lyceum

The medium of the screen as a means of bringing to the world's celebrities in various places of endeavor is unsurpassed, since the unconscious scope of the films enables millions to see the actors' figures as they might never otherwise have seen an "still photographs."

Thus, Pathe National Pictures, in presenting the idol of American baseball fans, Babe Ruth, in a picture called "Babe Comes Home" will be a benefactor for hundreds of thousands of people who have never come run-ning in action, but to whom the Babe is a household word. It will be shown at the Lyceum theatre Sunday and Monday.

Oddly enough, however, according to the man who produced the film for First National, Wid Gunning, it is not just a picture written around the character and exploits of Ruth as baseball hero. Instead, it is a real story which called for such a character. Ruth was available and the First National engaged him for the role.

WHEAT GROWERS MEET

Gilbert Hasvi of Thief River Falls, Forrest Swanson and Ben Hall of Red Lake Falls were elected delegates to the annual meeting of the Minnesota Wheat Growers' Co-operative Marketing association, to be held in Minneapolis June 1 at the meeting of district No. 2 at Red Lake Falls yesterday. Activities of the local association were reviewed by G. W. Fennell of Minneapolis, general manager, who came here from Red Lake Falls last night. He reports a harmonious gathering, members being well pleased with the association's record. Mr. Fennell attended the World Wheat Pool conference held two weeks ago in Kansas City.

WINNIPEG MAN SPEARS

Tom Forbe, manager of the Winnipeg tourist and reservation bureau, spoke at the Commercial club luncheon today. He is in the city making arrangements for the Winnipeg excursion of the state Elks convention and Tuesday addressed the Rotary club. Yesterday he spoke at the Women's Club convention.

Many Get Permits at Fishing Opening

Local sleuths have ... the fishing licenses which will permit ... to fish their ability to hook ... Fifty-five fish and members of the Sioux tribe. The season opened Saturday and many anglers tried their luck in the river here, while many has been the invasion of various favorite fishing spots in the state.

The first resident fishing license in Pennington county was issued to Jacob Hermansen of this city, reports Chester P. Anderson, deputy. Approximately 100 licenses had been issued by Tuesday, having critted here Saturday. They are being issued in the county auditor's office without any special charge, while if the applicant has a printed subscription in other parts of the county he will be required to permit a charge of 25 cents extra. All residents of the state 21 years or over are required to purchase a 50 cent fishing license. However, no fishing license will be issued to the head of the family for $1.

It was to help establish a closer check on non-residents that the state game and fish department recommended passage of the resident license law.

SECTIONAL PLAY DAY PROGRAMS MADE OUT

Teachers' Committee Announces Events Arranged in Various Parts of County

The following sectional play days in Pennington county rural schools have been announced by Miss Hazel Kruse, president of the Teachers' Progressive club of the county.

May 20, in district No. 94, Wylie, taught by Edna Anderson. Other schools participating are: Silverton No. 146, Myrtle Kruse; 196, Helen Anderson; 90, Jessie Joyce; 99, Bertha Hastad.

May 21, in district No. 55, taught by Clara Lund. Other schools participating are: districts No. 60, Anna Wedell; 33, Thelma Bellrud; 39, Hazel Dahlen.

May 26, in district No. 221, near Huot, taught by Ezzie Blair. Other schools participating are: districts No. 12, Lilly Gunstad; 6, Edith Patten; 125, Agnes Nelson.

In case of inclement, there will be a sectional play day in district No. 27, at Highlanding, taught by G. Thorkildson, on May 23.

The speaker's bureau of League members in charge of arrangements for the county play day, met here Saturday afternoon, to canvass April 30 and June 4.

The present condition of the ground has prevented athletic programs from being held for the past two weeks this month, but it is hoped that a goodly number of sections will be held before the close of the month. Competition for representation in the county events there, will be keen, as the winner of each sectional play day will be allowed to take part in the county finals.

Roseau Woman Buys Peterson Millinery

A deal was consummated first of the month whereby Mrs. C. L. Peterson, proprietor of the Peterson millinery shop at 208 Main Ave north, purchased the stock of goods and fixtures to Margaret Cooper of Roseau, who took charge of the business this week. Mrs. Cooper has operated a similar shop in Roseau the past three years, moving her stock here this week. To make room for new stock, Mrs. Peterson has announced that a special sale is planned for Friday and Saturday, an advertisement for which appears elsewhere in this issue.

E. T. Bower left Tuesday for Red Lake Falls where he is opening a grocery store.

Clean-up Campaign Winds Up With Enthusiastic 'Clean-up Bee'

Army of Volunteer Workers Remove Much Junk From Vacant Lots About The City

Thirty patriotic and public spirited citizens turned out last Thursday afternoon in the "clean-up bee" for the culmination of the city-wide clean-up and paint-up campaign conducted under the auspices of the Commercial club and Woman's clubs.

A dozen trucks, wreckers, and a team, with driver, donated by various business firms of the city, were available to remove rubbish, piles of rock, flanked manufactured gas plants and other unsightly stored, and the entire business district was given a thorough cleaning. The Girl Scouts, Woman's club and other interested in city beautification made up the army of workers crew in assuming to load the trucks. About half a dozen old vehicles were packed on various lots in the city were hauled out to the iron works graveyard, where they will be made into scrap iron. Many loads of junk were hauled to the dump grounds.

The services of auto wreckers were donated by Rogers, Hallada, and Thief River Falls Motor company garages; trucks were furnished by the Standard Oil, Peoples Oil, Hansen & Barnes Milling, Comstock & Dickinson, Richard Clarence & Beldick lumber Co. Gustafson & Son companies, and the city, while a team was furnished by the Thief River Grocery company. The trucks and wreckers gathered in the afternoon at 4 o'clock and the work was continued until 7 The workers were directed by W. J. Bowers, city health officer and chairman of the committee which had made an inspection of the city to locate the various places that required the attention of the volunteers.

"The committee, in behalf of the city as a whole, hastens to thank all those who helped in the clean-up," says Dr. Bowers in announcing that the fine response that has been given the appeal for a general clean-up. Members of the committee heartily agree that the results are decidedly encouraging, as can readily be noticed by a tour of the city. Appreciation of the movement may be noted in every part of the town.

All those who assisted in the "clean-up bee" last Thursday afternoon were given free tickets to the Princess theatre show that night by Managers H. A. Dunning.

Two vacant corners which have been public eyesores are to be beautified by the city, namely the corner of Main and Second, where the Hicks building formerly stood, and the corner of Labree and Second, across from The Times. The holes in both places are being filled with dirt from the excavations and will give the city a greatly improved appearance when completed.

TO STATE CONVENTION

Dr. O. F. Melby left Friday night for Washington, D. C. to attend the annual convention of the American Medical association. He expects to be away about ten days.

Club Work Trains Boys and Girls For Farm, Howard Tells Club

Educational Benefits Cited in Talks by Club Winners at Commercial Club Luncheon

Boys' and girls' club work formed the subject of the weekly noonday luncheon of the Commercial club last Thursday. The club room was filled to capacity with business and professional men who gathered to show hearty co-operation previously every club project offered. This year she has enrolled in the baby beef club. She claimed that club work is not only entertainment and interesting, but profitable as well, having averaged about $70 a year in prizes and now owns three purebred Guernseys and a purebred Aberdeen Angus calf.

Albert Pepperhagen of Goodridge who called attention to the work that they are doing in the state's county to the front.

A most interesting talk about club work was given by Leeroy F. Howard of St. Paul, state club specialist, who emphasized the importance of boys and girls' club work in addition to the regular school work. He also cited the educational value of club work and effectiveness of the methods followed.

Club work winners at the luncheon were: Hilbert Wallace and Mr. Pepperhagen were Iaca and Dorothy Knutson, John and Emma Letnes, and Raeford Hoget. Helmer Skemsedahl and Clarence Sande. Those unable to attend were Harold Lofaso, Georgia and Woodrow Wilcox, Irvin McKerchar, and Viola Gustafson.

County Agent J. J. McCann, who has long in charge of club work, stated he came here nine years ago and was then appropriations from the state were largely responsible for its organization and progress here. He spoke briefly. He stated that approximately 200 members have been enrolled for 1927 in the county and that prospects are favorable for a record season.

Ten from this county will be given free trips to the boys' and girls' short course at the Northwest School, Crookston June 6 to 10. Two of them will be the stock judging team to be selected during a tour to be conducted by the county prize. At the short course, announces Mr. McCann.

Valley Dairymen's association to the owner of the champion dairy calf at the Winter Shows in Crookston.

Mr. Howard responded with fitting remarks, expressing her appreciation for the interest in club work evidenced by local businessmen and farmers in assisting her work in the county. Also now only 16 years old she has been in club work for nine years; has taken part in every project offered. This year she has enrolled in the baby beef club. MICHIGAN SCHOOL GETS COACH THUNE

Leonard A. Thune

Coach "Lars" Thune, for four years high school secretary and for a number of athletics in the Thief River Falls high school, this week announces that he has signed a contract to become coach at the Senior high school in Iron Mountain, Mich. The new position is a distinct promotion with a substantial salary increase. While his many friends and admirers here are pleased to note this step in his advancement, they regret to see him leave this city.

The Iron Mountain school has an enrollment of 675 students—the largest high school there is in Michigan. Coach Thune's successful record here is evidenced by the fact that his basketball teams have won the championship of the Red River Valley conference for the past two years, and this year the team was runner-up for the state championship. The football team this year was also runner-up for the conference championship.

Coach Thune's many friends here will regret to see him leave this city, but wish him success in his new field of endeavor.

Cow Killed in Auto Collision; Boy, 3 Crushed Under Tire Suffers Injuries

Gabriel Nee, Wesley Morris, and Carl Gerlach, Goodridge youths, had a narrow escape from serious injuries when the Nee automobile, a Chevrolet touring, turned over after colliding with a cow which was killed, on T. H. No. 1 half a mile south of St. Hilaire, Saturday evening. The car was damaged considerably, the top, fenders, and radiator being badly smashed. The accident occurred between 9 and 10 o'clock and Lloyd Jackson of Barry's Garage, who was visiting in St. Hilaire at the time, brought the car to this city where it was towed to the garage of Mr. Batterberry. The driver, Mr. Nee, claimed that he did not see the animal until he struck it.

Mr. Nee escaped with a few bruises, while Mr. Morris, and Carl Gerlach, a boy of 3 years, received injuries when the car turned over. The latter was pinned under the rear wheel and was crushed and bruised about the legs and abdomen. PAULSON GROOMED FOR DIST. CHIEF

Boosted by Local Legion Post for 9th Dist. Commander; Verner Nelson Honored

A campaign for the election of Oscar C. Paulson of this city as commander of the Ninth district American Legion was launched by the Thief River Falls post at a meeting of the local post, which met in the Legion hall Monday evening. Mr. Paulson is now serving as commander in other capacities since its organization here in 1919, and is a Thief River Falls, former district commander, and C. A. Gunnarson were named as campaign managers. They will line up support for Mr. Paulson before the district convention to be held in Fergus Falls June 6. Sidney Stadsvold of Crookston has been district commander the last year.

Nominations to the Fergus Falls meeting will be the best post Friday when Mrs. Paulson, Ernest Rude, and Joe "Alibone" Hansen, the alternates being Mr. Vagyes Omar Nelson, and Bert Aarhagen. It is likely that a good sized delegation will attend the convention to boost Mr. Paulson for the commandership.

A report of the organization of a drum and bugle corps was given by Mr. Marusko, who assured the post that the corps will be ready when it is formed. This favorable report was met with a vote to order 14 uniforms for the corps. Mr. Marusko is the man who represents Thief River Falls in the state organization of the Legion drum corps. During the last two years Drago has been practically inactive, but is now preparing for a comeback. Plans in preparation for the Red River Valley basketball tournament to be held here March 16, 17, and 18 were discussed. Victor Herbert's "Fortune Teller," the last one of these contests some years ago, will be played as a concert number. The contest will be followed by a big dance, with Bob Howard's orchestra furnishing the music. Tickets will be sold at $1.50 per couple for the dance. Plans are also in preparation for the Red River Valley basketball tournament to be held here March 16, 17, and 18.

The program will be completed by the selection of a chairman for the minstrel show, which will be one of the lighter numbers, announces Director Leroy Howard.

With increased interest in the city band and the approach of summer concert season, Director Howard asserts, it is expected that there will be a good turnout

Free! a week's washing for the whole family
—and every garment will be washed spotlessly clean without hand-rubbing

PHONE the Maytag dealer. Let a Maytag do your next week's washing FREE—without obligation of any kind. Let it wash the garments of your whole family sanitarily-clean.

Let it wash grimy overalls and rompers—baby clothes—fine lingerie—table and bed linens—EVERYTHING!

Then you will know the MAYTAG. Then you will see how it washes big tubfuls in 3 to 7 minutes. See it do a whole washing—50 pounds (dry weight) in one short hour. See it wash everything—even collars, cuffs and wristbands—without hand-rubbing.

Try the Maytag —if it doesn't sell itself, don't keep it.

For homes without electricity, the Hoover is available with its own 4-cycle gasoline motor.

Maytag dealers everywhere follow the standardized rule of sending a Maytag to a home to do a week's washing free, and without obligation of any kind. This is the way all Maytag Gyrafoam Washers are sold. The Maytag must sell itself solely upon its performance in the home. It must wash everything to your entire satisfaction. Must wash everything quicker, easier and cleaner than other washers. Must wash everything—even collars, cuffs and wristbands, without hand-rubbing. Must prove to you, in your own home, that it is the most helpful home-laundering unit you have ever seen or used.

Health and Home

CAMPING AND PROBLEM OF FOOD

There is no healthier sport than camping. During the warm and balmy spring and summer days, it is real recreation. To get out in the fresh air and sunshine, free from worry and care, enhances the health of anyone, be he office man, salesman or what not.

But due to the entirely inadequate means of food preservation and refrigeration found in the majority of camps, there is the ever-present danger of sickness from infected foods. The utmost care must be taken in order that this may be avoided. Butter and eggs should be bought only as used. The milk is a problem in itself. Perhaps the solution lies in the use of a bottle other than market milk, in order that purity and sterility may be assured. For such use, evaporated milk is ideal. Many people are wont to consider evaporated and condensed milk but there is no similarity between the two. Condensed milk is a combination of sugar and milk and can be used only when both of these constituents are desired. Evaporated milk is merely pure, fresh milk with about sixty per cent of the water removed and the nutrient content left intact. It is absolutely sterile and pure, having been sterilized before leaving the factory. The water, removed by evaporation, may be replaced very easily and the milk returned to its original volume. Evaporated milk may be obtained in small cans, containing six ounces or in larger cans containing about one pint. It can be taken to camp in quantities sufficient for the needs of the entire period, thus assuring a constant supply of pure, fresh milk without the worry or the danger attached to the use of the market product.

Following are recipes for a few dishes that are best adapted for camp consumption because of ease of preparation, purity and food value.

Tomato Soup.

1 pint tomato pulp 1½ cups water
or canned to- Salt and pepper
mato soup. ½ tsp. soda
1½ cups evaporated ½ tsp. paprika
cream milk. 1 tbsp. butter
½ cup water 1 tbsp. flour
½ tsp. onion Grated cheese

Bring tomato pulp or soup to the boil, add the seasonings and soda. Heat the milk and water and combine evenly with the tomato mixture.

Shirred Eggs.

Butter individual baking dishes and break into each as many eggs as desired. Season with salt and pepper and place a small piece of butter on each egg. Bake in a moderate oven until the whites are set.

LEMON MERINGUE PIE EASILY MADE

Start Should Be Made by Making Undercrust.

(Prepared by the United States Department of Agriculture.)

Start your lemon meringue pie by making an undercrust. Use your own recipe, or the following one which may be saved for another day:

Mix 1½ cupfuls of soft wheat or pastry flour with 1 teaspoonful of salt. Work into this about 6½ to 7 tablespoonfuls of fat with the tips of the fingers. Add about 2½ tablespoonfuls of water, or just enough to make the dough correct for rolling. Roll it very lightly. Prebake a single crust at about 450 degrees Fahrenheit until it barely begins to color. Now make the filling separately. You will need 4 tablespoonfuls of lemon juice, 2 tablespoonfuls of cornstarch, 1 cupful of boiling water, 1 cupful of sugar, ½ cupful of milk, 1 tablespoonful of butter, 2 egg yolks, the grated rind of half a lemon. Mix the sugar, salt and cornstarch together and add to the boiling water, stirring constantly until the cornstarch is cooked. This will take about 5 or 10 minutes. Now add the lemon juice, grated lemon rind and well-beaten yolks and butter. Cook all together for not more than a minute. Pour into the crust and spread over the top a meringue made by thoroughly beating the 2 egg whites, with 2 tablespoonfuls of sugar added when the egg whites are stiff. Use a wire whisk and beat the whites on a platter to make them light and fluffy. Bake at a low temperature, at about 250 degrees Fahrenheit for 20 minutes, and then raise the temperature until the meringue browns.

PAINT GIVES TONE AND PRESERVES PROSPERITY

The upkeep of farm buildings is an important factor in the business of farming. Figures that are used by the American Appraisal company are well worth considering in relation to the value of painting, says H. H. White of the farm buildings section, University of Minnesota.

An unpainted farm building with siding has an average length of life of 20 years, while a building which is painted every five years has a life of about 60 years.

It is interesting to note that the building which is not painted, if it is to have the siding replaced at the end of 20 years, will require the expenditure of about the same amount as would have been required during the 20 years to keep it in good condition by painting. Paint covers the building that is not painted will have at the end of 20 years about 10 per cent of its original value. The building painted every five years will have at the end of 50 years about 20 per cent of its original value.

And the greater value of the painted building is not its only point of superiority. It has a great advantage in appearance. It is far more attractive. Everyone likes to see a building that looks new and freshly painted.

CAUGHT FISHING—FINED

Last week's issue of the Okiee Herald carried the following item: "Irvey Tande, Clarence Wallaug, and Manford Stens were caught fishing in the Clearwater river yesterday by Game Warden M. K. Nelson of Thief River Falls who brought the boys into Justice Hall's court on the charge of fishing out of season. Though they had caught no fish they all pleaded guilty to the charge and each paid a fine of $10 and costs."

MUCH IMPROVEMENT

It is encouraging to note the fine way in which Thief River Falls citizens are responded to the annual clean-up appeal this spring. While there are still a few unsightly places, many premises have been cleaned up and improved by this time, giving the city the gala and spic appearance which it should have, especially with a series of conventions coming here in the course of the summer.

A clean city makes a lasting impression upon the visitor. Thief River Falls has established a reputation for being a clean and attractive town and its residents are this year doing their utmost to beautify.

However, a clean-up campaign is not for appearance alone. Its aim is also to safeguard health, further fire prevention, promote thrift, and stimulate civic pride.

In this connection it should not be amiss to call attention to the value of trees, shrubs, and flowers in making the city more beautiful.

Nature is now putting on her summer dress, and as usual, green is the predominating color. Nature never changes the style. But it is a fashion that never wears out its welcome or its return each year. The shade trees that line the streets in Thief River Falls have a most beautiful air of permanency, but a survey of this city makes it evident that many more could be planted.

A little attention to the lawn turf now and then also brings remarkable results. And remember, every resident does not maintain a lawn for you to mar; trees scarred by the public sidewalk instead of "cutting across" lawns.

Many buildings are being repaired and given an improved appearance by a fresh coat of paint. Old shacks are being torn down for the good of the community. Next to building a worthy structure, the removal of unsightly and fire menacing sheds and barns is most desirable.

The citizens who turned out for the Wednesday bee last Thursday are to be commended for their public spirit-edness in volunteering to clean up vacant lots about the city.

Club women of the Ninth District attending the convention the week before agreed that the city showed evidence of an effective spring "house cleaning."

Who is to blame for increased taxes?

The war caused an increase in federal taxes which no one could prevent, but the government has been reducing those taxes at a rapid rate. The war was used as an excuse for many rapid increases in city, county and state taxes. But as a matter of fact, war activities are responsible for only a small part of any increase in local taxation.

The people themselves are largely to blame for the increased taxes of which they complain. They vote for tax-raising propositions which add to the cost of government. Then when the tax payments, including principal and interest, come due, they kick about the increased tax rate. If it is the desire of the public to constantly enlarge the activity of government and demand public improvements the taxpayers can only expect a steadily increasing tax burden.

The ballots in every state at every election are loaded with measures which add to the taxes. The voter must show keen discrimination in passing on measures and candidates if he wishes to hold down his tax bill and official extravagance. This is an individual responsibility and a duty of every citizen.

We can't blame the lawmakers much when we look around and see some of the people the laws were made in for.

There are plenty of people who work themselves to death looking for amusement.

Nine times out of ten the chip on the shoulder has dropped from the block just above it.

When life is too intense, it is too soon in the past tense.

WOMEN'S CLUBS CONVENTION IS PLEASING EVENT

(Continued from Page 1)

An outstanding event of the convention was the banquet in the Trinity Lutheran church parlors Tuesday evening, attended by 114 women. The program, presided over by Mrs. Wm. Severud, included a toast by Mrs. Roy Hillier by Mrs. L. Berg, president of the Third River Falls Woman's club, to which the former responded; a toast to Mrs. Davis by Miss Bernice Boyer, president of the local Girls' Community club, responded to by the district president, and music by Gordon Overland and Dolores Larson, violinists accompanied by Dorothy Shirley.

The convention opened Tuesday morning in the attractively decorated auditorium with community singing led by Maude L. Johnson of this city; invocation by Rev. E. L. Tungseth and address of welcome by Mayor W. W. Prichard, Jr. Greetings by Mrs. Koep and Miss Boyer were responded to by Mrs. Brydon. Reports were given by Mrs. L. J. Neely, recording secretary, and Mrs. Davis, the latter of whom stated that 11 new clubs had been formed in the district the last two years, bringing the total to 55.

Mrs. E. E. Green, Crookston, announced that the second mothers' conventional camp will be held at the Northwest School June 21-24.

"Religious Instruction in Small Towns" was discussed by Mrs. A. E. Hansen, Stephen, who pointed out the need and methods in this phase of education. Marjorie Ann Taylor of this city, delighted the audience with whistling solos, accompanied by her father, Irving Taylor.

Committees Appointed

The following were appointed on the resolutions committee: Mrs. Felton, Mrs. J. W. Campion of Argyle, Mrs. Fraser Grandstaff of Warren, Mrs. Thrower, Mrs. H. Fraser of Mahnomen, and Mrs. John Bisbee of Crookston; transit tellers, for the election, Mrs. Fred E. Hodgson of Fergus Falls, Mrs. C. Noyes of St. Vincent, and Mrs. Carl Miller of Alvarado.

In the afternoon Dr. John Lee Coulter, president of the North Dakota Agricultural College of Agriculture, Fargo, spoke interestingly of the "black gold" with which the Red River valley is blessed. Dr. Coulter, formerly of St. Paul, director of the state department of rural education, gave an inspiring talk on "The Enriched Curriculum and the Child." Other theme of the convention being "Education and Development of the Child." New methods in education were pointed out in the talk, which was followed by a lively discussion. Vocal solos by Mrs. Helen Rotheson of this city and Mrs. M. R. Ransom of Goodridge were well received.

Yesterday morning was devoted to round table discussions, which proved of much interest that it is planned to enlarge this part of the program next year. Reports were given by district directors, division and committee chairmen, county presidents, and Mrs. Fraser, treasurer, and the annual address of the state president was delivered by Mrs. Bayliss of Minneapolis, a comparative review of club activities.

Talks About University

"Our University" was exploited by Mr. H. Pierce, St. Paul, field secretary of the University of Minnesota and the Alumni association, in a manner that held the attention of the entire audience, which learned of the phenomenal growth of the institution in the last few years. Starting with its establishment in 1851, the speaker traced its development and likened it to the hub of a wheel, into which spokes were placed as requirements for specialized colleges demanded. The value of the university to the welfare of the state was stressed. Mr. Pierce also pleaded the importance of providing adequate facilities for the increased enrollment. At present 14,000 students are enrolled in regular courses.

Mr. Pierce also gave an interesting and inspiring talk at the high school assembly.

Larger encouragement of the child and its instinct of learning at an early age was urged by Dr. C. A. Prosser of the University of North Dakota, Grand Forks. A violin duet was played by Masters Overland and Larson, accompanied by Mrs. Melby, and the Legion quartet sang, which numbers were much enjoyed. Discussion of "Self Expression versus Repression" was led by Mrs. J. M. Handy, Mahnomen.

A complimentary auto ride was provided visitors by the Commercial club in the afternoon.

The $10 prize offered the club in the district which reported the most interesting and unique project during the year, was awarded to Mallock. Climax and Radium clubs were given honorable mention.

Miss Alice Barlow of the Minneapolis Tribune staff and Miss Seering of The Journal, were here to report the convention proceedings.

Mrs. Bayliss Speaks

Following are extracts from Mrs. Bayliss' address:

The basis of all work in this growing organization of ours is the desire for constructive effort to make Minnesota a better place in which to live. Our slogan is "A group of organized women in every community who can be depended upon" and it is with this in mind, that community work is undertaken and carried thru to a successful finish. It is a hopeful sign when organizations in every town vie with each other in doing civic work. Women have succeeded in doing a thought-to-be impossible things, comprised a sophisticated world by declaring themselves as waiting to be good home makers, just when everyone was comfortably convinced that they craved something else entirely.

Minnesota has had a survey of homes covering 387 farms and 60 urban communities. The result of this survey shows at just what we need in the average communities and the concrete things needed in these special communities. Our slogan is "Running water in every home in Minnesota." We are campaigning with heating, sanitation and plumbing interests; electrical companies with our state departments and our university are trying to demonstrate as far as we can the better equipment for the homes. This survey has shown:

1. That there is a wide variation in the standard of equipment prevailing in cities of given sizes in different sections of the country. This is especially noticeable as to the basis of water supply.

2. That in some localities there are no records available as to sculpture—in others there are only partial records of most essential facts.

3. That before a real standard of home equipment can be set up there must be dependable and comprehensive information as to existing conditions.

4. That before remedies for inadequate equipment can be suggested there must be information as to the causes of deficiency in a particular community, such as:

(a) Lack of understanding on the part of the housewife of the labor saving devices that are available even with a limited income.

(b) Lack of available community service from public utilities that obstruct the free use of conveniences by the housewife.

(c) A fixed habit of drudgery, the result of tradition on the part of the housewife or of the community.

Conservation

We know of many towns that have been presented during community Christmas trees by the clubs of their towns. Last year club women of Minnesota planted over 200,000 trees. We will extend this number this year, I believe.

Our magazine is the mouthpiece of our federation just as any other organization has its magazine; and it is through this medium that we look for much support. Five subscriptions to the magazine for one dollar is the special offer. Our Hello-Some-One subscription list has almost doubled, but it should be 50 per cent more.

Civic Club Campaign

Just a year ago in January, after a conference with twelve women we launched this work in the state. Club women started work with new courage in their own communities. As a result of urging this before 20,000 women in different parts of the state and of the work of state chairmen in their talks and publicity, I have had inquiries from 200 communities on the clean milk question.

In September 1925, there were 38 county federations—today there are 59. These county federations are becoming more and more the unit of our work.

Religious Instruction

Religious instruction for every child in Minnesota in his own church is one of our goals. We know that there is only one place where all the children of every community have to congregate and that is the school, so we are asking that club women of every community to accept this responsibility of seeing that these children are sent from their schools once or twice a week for religious instruction TO THEIR OWN CHURCHES. What would your life be today, if you had never heard of God or the Bible?

But there are countless numbers of children in Minnesota who will ask "Who is God?" We must decide, in cases where it concerns children—we have no right to sit back and say "they aren't my children. Why should I concern myself?" And yet our children have to play with those others who through no fault of their own, are growing up into Godless men and women. This is where leaders, then the responsibility is ours—we are our brother's keepers—the children of a town are the responsibility of that community. "Loving a child is being a part of God." Let us do this one thing next year—for the sake of the little ones.

Voting

We are asking every club woman in Minnesota to vote at every election. A few nights ago one of our clubs reported to me that their club voted 100% strong at a recent election. I wish every one of our clubs would try each election to equal that record.

Let us at this the beginning of our new year, renew our pledge of allegiance and loyalty to the United States of America—let us show increased respect for TRUE ACCOMPLISHMENT, let us not be afraid to show defiance of gossip; let us show our disapproval of INSINCERE CONDUCT. Let us give to the utmost of our loyalty, our energy, and our talent to our Federation to the end that its talents may be multiplied and be translated into the accomplishment of the greatest good for this our proud STATE OF MINNESOTA.

PROGRAM BY SELLRINGERS ENJOYED SATURDAY NIGHT

Red and bandana prevented many home coming parents from enjoying Saturday night's program at the Park Theatre when the Sellringers presented a very well and only a fair sized crowd attended. The present crew appeared on the manner in which the performers handled the bells in playing classical and popular selections. O. E. Agre played several accordion numbers with his wife and daughter as feature of the program was the playing of the Agre brothers on the saxophone. A dance was enjoyed following the program.

The entertainers visited at the E. O. Hedeen residence the early part of the evening, going from here to Warren.

LOW RATES for time payments on these cars

ANY FAMILY entitled to credit may buy a General Motors car and pay for it while using it, under the GMAC Plan.

When time payments first became an accepted form of car purchase, General Motors organized its own finance company, the General Motors Acceptance Corporation, to make sure that the sale of its cars on time would be in the buyer's interest and that the finance charges would be fair.

GMAC rates have always been low; and the last reduction has saved General Motors' customers more than $12,000,000.

The General Motors line includes "a car for every purse and purpose"—a suitable model for every income. You can buy it out of income, paying no more than the cash delivered price, plus only the low GMAC financing charge. And the whole transaction is so conducted as to keep your goodwill and satisfaction.

CLIP THE COUPON

USE THE GMAC PLAN to enjoy a new car now. Use it to get a better car for what you plan to spend. Have General Motors' quality. Share in the economies of volume production. Look over the list of General Motors cars below. See which car suits your purse. Then clip and mail the coupon. We will send you full information about that car and about the fair, low-cost GMAC Plan of paying for it out of income. Don't wait. Clip the coupon and mail it TODAY.

Why Firestone GUM-DIPPED TIRES Wear Longer

WE recently were given the tremendous advantage of having the mammoth Firestone factories brought to us. In Tire Educational Meetings we were shown, by means of motion pictures, charts, tire samples and complete engineering data, the details of Firestone tire design and construction—and how Firestone and Oldfield tires and tubes are made in the world's most efficient and economical rubber factories.

Firestone pioneered the original low-pressure tire and made it practical by Gum-Dipping. The motion pictures showed us how the cords of the carcass are dipped in a rubber solution; thoroughly saturating and insulating every fiber of every cord with rubber. Simple demonstrations and tests illustrated the great advantage of this process, which supplies the extra strength to withstand the extra flexing strains of low-pressure operation—one of the reasons why Firestone Gum-Dipped Tires are establishing such unheard-of mileage records.

We learned why the Firestone Balloon Tread gives extra safety, comfort and long wear. We were shown why Firestone, from the very beginning, designed and continue to use the round Balloon Tread, maintaining "shoulder breaks", so destructive to tires. Excess rubber at the edges of a Balloon Tread is wasted—actually detrimental to tire mileage. In the Firestone Tread the small units and sharp projections are scientifically placed to permit easy flexing, resulting in extraordinary riding comfort.

Come in and let us put you on the list for one of these Gum-Dipped Tires on your car—for longer mileage, more thrift and safety. Quality is higher than ever before, and prices are the lowest in history. Buy now!

Importance of Treating Potato Seed Emphasized in University Bulletin

Every possible effort is being made to eliminate injurious seed borne diseases in the growing of potatoes, according to E. F. Loss of the department of plant pathology, University Farm, which has developed a high grade potato seed treating machine. To assist farmers in the use of this machine in addition to the special seed treating equipment and is treating seed for growers, reports Theodore Mitchell, in charge of the work in the First A Minnesota State bank building.

The hot formaldehyde method and a charge of 10 cents a bushel is being made, the company furnishing all materials.

The Minnesota Experiment Station at Crookston publishes the following figures on the yield of potatoes where the undesirable one-hundred-pound seed-ball, and where the best-looking seed-ball, produced 182.6 bushels. This makes a difference of 66 bushels to the acre in favor of the treated seed over that of the untreated. The difference in quality is also shown by the greater percentage of disease which was 5 per cent in the treated with-hot formaldehyde, only 19 per cent treated with the solution and 24% in the untreated seed. This makes it possible for every grower to treat his seed and thereby increase the yield and profit by a small charge for each acre per bushel.

Growers desiring fertilizer for their potato fields should apply to Mr. Hoehn who will give advice on its application and make arrangements for certification may be secured at the county agent's office with full instructions on how to apply. The grower should make a special effort to secure good seed enough to plant at least one-half acre which will give them seed to plant a field the following year which can be easily certified and insure the grower of quality stock. The one-half acre can be certified this year by carefully selecting the seed and observing the instructions given in outlines on digging in the farm bureau office.

"Full stands of potatoes help to cut down costs. Potato diseases, poor seed, and careless planting methods are chiefly responsible for the missing hills so conspicuous in many fields. In some parts of Minnesota the stands is the rule, perfect stands of 50 or 60 per cent and only a heavy toll on production. In the Scandinavian country in southern Minnesota, where more intensive farming methods are followed, the stands are always close to 100 per cent.

Gardeners of the University of Minnesota are very much of the mistaken idea that it is necessary to treat seed and the use of planting machinery. F. A. Krantz of University Farm says that practically every farm seed should be planted and that the planting should be done immediately after cutting of the tubers. If the seed pieces are permitted to heat there will be a great loss from germinating ability. The action of potato planter should be carefully checked.

Try a remedy that has proved its merit. Now if you want relief you may try some of these things, but if you want quick relief and want to take drugs that check the cause of the trouble, you may have to change the use. Kidney Buchu (Keller Pills) is a remedy that has been used successfully for over 40 years. It helps eliminate the poisons causing the trouble by its direct action on the kidneys and bladder, and at the same time it helps the bowels driving out foreign matter, neutralizing excess acids, thereby relieving the irritation which causes "Getting Up Nights." The tablets can be had at any drug store or Keller Laboratory, Detroit, Mich. Locally at Lamb's Drug Store.

Yes, we've had a delightful ride this year in the Progress buggy and can sing with the rest, "There's room for the Buggy Ride, we've had a wonderful time. The way it has been bumpy and sometimes Old Dobbin has been rather skittish, but we've reached our destination without spilling. After a few repairs the old buggy will start out on another journey with a new driver and new passengers—its ninth journey to be exact. After hearing of some of the lucky and unlucky experiences of the predecessors no doubt the way will be smoother and driver with greater speed. Neither of the backseat drivers have proven helpful, contrary to the custom in automobiles, since they've been over the bumps before and know something about them. We will have the future use buggy ride and expect to ride to another vehicle from now on; ears only; are the sentiments of the off and our best wishes for a happy journey to the driver of the new stack of scribes will gain much good experience and democracy, not only in writing, but in improving their powers of observation. Right Yes Are, Tommy

Tommy was rather careless. When he went to bed at night his clothing was scattered all over his bed room. One night after Tommy was tucked in his bed, his mother patiently picked up his garments.

"I wonder who it was," she remarked, "who never folded up his clothes when he went to bed."

—Why, Adam, of course," replied Tommy.

"There is not another boy in this town as clever as my Charles."

"How is that?"

"Well, look at those two chairs. My Charles made them all out of his own head, and he had enough wood left to make an armchair."

Overdoing?

Hurry, Worry and Overwork Bring Many Ills

MODERN life throws a heavy burden on our bodily machinery. The eliminative organs especially the kidneys, are apt to become sluggish. Retention of excessive acids and other poisonous matter often gives rise to a dull, languid feeling and, sometimes, toxic backaches and headaches. That the kidneys are not functioning perfectly is often shown by burning or scanty passage of secretions. More and more people are learning to assist their kidneys by the occasional use of *Doan's Pills*—a stimulant diuretic. *Ask your neighbor!*

Registration for Next Term Begun This Week

A short assembly Monday morning was devoted to giving the students next year's registration requirements, several changes having been made in the curriculum, and in graduation requirements.

As this was of interest only to the three lower classes the Seniors adjourned to Room 101, where Supt. Morris Bye spoke to them concerning the teacher training department and the various colleges.

The requirements for entering the teacher training department were stressed especially. To enter a student must be:

Be a graduate of a high school.

Have completed the high school course.

Have not more than 25 per cent of his final marks below 80.

Have all English credits 80 or above.

Have not more than five vocational and miscellaneous credits.

Have at least eleven academic credits.

Students who do not meet these qualifications may be admitted if they rank in the upper fifty per cent of their class. We will have the student bring his car to the rear entrance of the high school building where Supt. Bye will meet him.

Supt. Bye spoke to the three lower classes on the graduation requirements in the general, scientific, commercial, classical, and normal courses and described the various subjects are divided into two kinds: academic, and vocational and miscellaneous. Under the academic group come English, social studies, science, mathematics, and foreign language, in which a student must have eleven units for university entrance. All others are vocational and miscellaneous subjects not more than four will be counted toward college entrance.

Leaflets were handed out to all students explaining the work in the intelligent job of registering for next year. A vocational guidance chart is placed on the main bulletin board, has also the attention many interested in going on to college or in fitting themselves for a particular kind of work.

Registration began yesterday with the Juniors and will continue today, tonight and tomorrow.

GRADUATING AT CONCORDIA

Among the 65 young men and women who will be graduated from Concordia college, Moorhead, this spring are Berghild Bye of Brandon, sister of Supt. Morris Bye of this city; Olga Tande of Chisel and Valborg Bjornson of Rothsay, daughter of Iver, and Mrs. H. Bjornson who formerly resided in Kratka. Eugene Pitiola of Middle River read the class poem at the class day program Tuesday, at which Lieutenant Governor Thomas Nolan was the principal speaker. Dr. J. A. Aasgaard of Minneapolis, president of the Norwegian Lutheran Church of America, and former head of the college will be the commencement speaker at the final exercises on May 31. Rev. Reisberget is the sister of Supt. Reisergard of St. Hilaire, is also among the graduates.

Did They Grow

One morning Jones looked over his garden fence and saw his neighbor burying something.

"What are you burying in that hole?" he asked.

"Just replanting some of my seeds, that's all," was the reply.

"Seeds?" exclaimed Jones angrily. "looks more like one of my chickens."

"That's all right," said his neighbor, "The seeds are inside."

Farmer Resler Speaks From Experience

Well known Minnesota man now fully recovered. Tells friends that Tanlac put him on his feet when all else failed

Anton J. Resler, R. F. D. 4, Owatonna, is widely known among Minnesota farmers. Many of these good friends were worried about his poor health and amazed at the quick and complete recovery he has had. "I was suffered untold agony," he tells them, "so very near dead I almost lost me and what little I could eat lay like stone in my stomach.

"Every morning I would rise with that awful pain inside me, and I had neither heart nor strength for the day's work. The smallest job was a chore drudge to me then. I grew feeble, weak and nervous, returned to the house exhausted each evening, gave discouraged and knew I couldn't stand it much longer.

"Seeing what it had done for other folks, I gave Tanlac a trial and can truthfully say it gave me relief from the first. The awful weight and pains in my stomach soon disappeared and my appetite came back. I was able to sleep naturally again for the first time in a year. Now I'm strong and well and go through the hardest day's work with ease. Nothing bothers me now. Tanlac will always have a warm place in my heart."

What Tanlac did for Mr. Resler, it has done for many thousands of others. Over a hundred thousand grateful friends have written to tell us so. If you have not tried Tanlac, Your druggist has it. Over 42 million bottles sold.

Fargo Seeks Minnesota Classification at Meet

"Fargo renounces relations with North Dakota in freight rate matters and wants to be considered as a 'Minnesota city' for the purpose of rate making, according to testimony of Neil A. Williams, traffic commissioner of the Commercial club of Fargo, before the interstate commerce commission, at the hearing held in that city, declared J. J. Kelly, secretary of the Dakotas Association, association, upon his return to Crookston from the hearing Friday.

Instead of the adjustment proposed by the railroads, Williams, according to Kelly, advanced one radically different for application in this territory. The Fargo proposal contemplates dividing Minnesota by the line of the Northern Pacific railway from Duluth to Fargo, carrying with it a 12 per cent rise in the rates on shipments from the Twin Cities and Duluth to Fargo. Territory north of that line would take the rates 112.5 per cent of those applicable to Fargo. All other North Dakota cities were to be on the same basis as northern Minnesota. With reference to the present rates Mr. Williams proposal would mean the first class rate from the Twin Cities to Fargo would be the present rate of 19.5 cents while the present rate to Crookston of 11.5 would remain unchanged. Grand Forks and Jamestown, N. D., rates would remain unchanged.

"The proposal is most unpopular," said Kelly, "with other North Dakota cities than Fargo, according to the railroads. It was severely criticized by the representatives of the North Dakota board of railroad commissioners, who asked the Fargo representative to explain his mixed up position because of a recent appearance before the North Dakota board of railroad commissioners in favor of a flat reduction in rates which his proposal contained.

The proposed adjustment advanced by Fargo practically parallels the plan suggested by Senator Frazier in a bill for relieving the cities of northwestern Minnesota from the present intolerable rate situation existing here which was consistently opposed by Fargo."

The contention of the Northwestern Minnesota Shippers' association that favorable through rates from Chicago and the east were of no great consequence to this section was substantiated by C. H. Swingen, rate expert for the North Dakota Grain Dealers association, and E. R. Murphy president of the Jamestown Chamber of Commerce, Kelly said.

Many an astute businessman never displays any of his astuteness at home.

HAROLD WILL HEAD OF 27-28 PROGRESS STAFF NAMED TUES.

Harriet Fuller and Elaine Evenson to be Associate Editors of School Page

Harold B. Will, Harriet Fuller and Elaine Evenson were chosen to head next year's Progress staff, according to a decision rendered by the English teachers Tuesday night. Harold Will, the new chief, has served in the capacity of second associate editor this year, proving of outstanding ability in journalistic work on several of his articles having received marited praise from local newspaper men.

Although Harriet Fuller has done well in the office of feature editor this year, especially in the doctor looked at him a moment then remarked, "Well, I'll charge you for three dollars."

"That's fair enough, Doctor," replied the patient, "if you find it, I'll split it with you 50-50."

Of Course

The teacher was instructing her class in will annual life

"Now any of you under are an elephant alive," she asked.

"Yes, Ma'm," answered Willie. "Where was it, Willie?"

"On a reflant in a mude.

Spring Football Season Ended in Game Monday

An grand climax to the spring football season a regular game was staged Monday evening. Group A remained by Robert "Hunky" Erickson romped away to a victory over Group B captained by Roy Oen. When the final whistle blew the score stood 18-6 with Group A taking the long end.

Emil Destal scored the first touchdown for the A group as a spectacular off-tackle cut-back. The drop kick for point went low, however the same then turned into a punting duel both teams being forced to punt repeatedly. While returning one kick "Sous" Severson was tackled behind his own goal line, giving group A another two points.

After a long hard drive down the field, Roy Oen placed the ball over the line for group B. They too missed the drop kick, and the score stood 6-6 for group A.

During the second half Group A scored another touchdown, followed by a long, wonderfully arched drop kick by Erickson for the extra point. This closed the scoring for the remainder of the game.

Emil Destal stood out as yard gainer for group A, especially on his off-tackle bucks. "Stan" Oen gained consistently for group B, making yardage whenever called on to do so.

The game as a whole was full of interest and excitement for both spectators and players. Of course the Skrathuttle company was more than in the fall after more detailed practice, but prospects of gridiron glory for next year look bright.

The lineup were:

Group A		Group B
Richard Dahlen	LE	Robert Erickson
Emil Destal	LG	Alfred Chesley
Chester Myron	C	Lloyd Hall
George Anastad	RG	Ralph Hall
Alfred Chesley	RT	Fred Wengaler
Emil Destal	RE	Melvin Carlson
John Arnold	QB	Ansar Myhre
Emil Destal	HB	Ralph Hall
Howard Gibson	HB	Roy Oen
D. Snyder and W. Furen	FB	Leonard Knadle

Group A scored as follows:

Douglas Boorom ..... LE
Robert Erickson ..... LT
Chester Dahlen ..... LG
John Barsen C
Wesley Roth ..... RG
Gordon Dahlen ..... RT
Edward Gibson ..... RE
Selmer Severson ..... QB
Morris Jamason ..... HB
Waldemar Romnhilit ..... HB

Customer: "I want a pair of spectacles immediately, without any nonsense about prescriptions—confound—I'm in a hurry."

Floorwalker: "I know what you mean, sir. Mr. Parker, show this gentleman a pair of rim-spotted spectacles."

Little Willie: "Uncle, does father like to watch you play football?"

Rich Uncle: "What an idea! I don't play football."

Little Willie: "Well, I heard father say that whenever you kicked off, he'd quit working."

An inquisitive city fellow was talking to a farmer and seeing an old horse, owned by the latter he asked: "What do you use him for?"

"Well, for the present we planned some revenue getting under the tail of the first wouldn't get at 'em."

Yes? No?

"Spoon, Miss?" asked the handsome waiter.

"Don't be so smart," snapped the young lady, "or I will call the manager."

SKRATTUTLE COMPANY TO PLAY HERE SATURDAY NITE

"Ollo I Skrattutl", the popular Swedish comedian and his troupe of entertainers, will again visit Thief River Falls, Lyol Sundberg, advance man, was in the city Monday to make arrangements for a program to be given at the Auditorium Saturday night, May 21, an announcement of which appears elsewhere in this issue.

The Skrattutl company is now in its 22nd season in America and has just returned from a tour of the New England States, where they played to capacity houses, the Minneapolis reports. While "Ollo's" orchestra was in New York City, the Skrattutl company engaged it to play for torrent records, which will be on sale in Minneapolis and Fargo soon.

In addition to the program of specialities—monologues, songs and music—the company will present a comedy "Fyorman i Kvisa." Members of the troupe include Mr. and Mrs. Halmer Peterson, both of whom appear in solo numbers; Mr. and Mrs. Ted Johnson; Harry Swanson, pianist; Bert, Danielson, accordionist and Anner Myhre, singer and actor. While in the city Mr. Myhre will stay at the Roy Fyrts home, where he makes his home when he is not traveling with the Skrattutl company.

Mrs. Peterson will leave on a trip to Sweden shortly after her appearance here, expecting to sail June 11.

It is a poor way to help law enforcement to criticize the integrity of enforcement officers. If you do this you encourage lawlessness.

"It does not suffice to say that if we preach Christianity all of these other questions will settle themselves. Christianity is a sovereign remedy for the ills of the individual, but Christianity only affects the character of the state when its principles are recognized in governments. The first duty of the church is to lead the individual to salvation; its second duty is the leading of society into principles of justice and righteousness."—Tolstoy.

FINAL DRAMATIC PRESENTATION IS CREDIT TO CLASS

Julius Ophelm Leads Successful Cast of Senior Actors to Finished Play

The seniors presented their class play "Betty, the Girl O' My Heart," Friday evening before a good sized audience in the city auditorium. The excellent coaching of Julius W. Ophelm, coupled with the natural ability of the actors, resulted in a style that is seldom seen in a play by amateurs. Unfortunately, the weather was in keeping with Friday, the 13th superstitions and out of town people were unable to attend on account of road conditions.

The play centered around Betty, who had come to the wealthy home of the Graves as a kitchen maid. While she was the wife of Jerry Carmichael, who had come to pay respects to the memory of the step-daughter of Mr. Graves. He became acquainted with Betty through her mistaking him for the butler and the fun that followed was due to attend on account of road conditions.

Oh! Sammy!

Hon-ra-ra-ee-o, doodoo l—lo-lo-lo! Sammy! Sammy, Sammy!

Oh! Lawsy, quit singin' that song. Why? I think it's the dearest piece.

Everybody everywhere is singing it over it—and it's the latest.

Yes, and quality that you've just arrived from Sicker. It is not the latest but it has, and always will be "Marx" favorite.

Who's he?

Why! He's a she—and her name is Miss MacMillan, torture teacher. The girls Leonard Harris gave a dance of some sort "lately," and we hear he had a peach of a time. It's the first sort of—enjoyed—it—hummer right along with the piano—but now I go to the movies—Monday, Tuesday and other day Mac hid them outside Harris Jamason's house nearly—Harris Jamason's house nearly scared—Harris Jamason's house nearly scared the life out of the girls. Of course the windows were open and the music did carry—but I had a chair near the curtain string so I saw it all. The girls didn't like it at first—but the music began to kept looking up as if they thought the could see God! they look funny. First they'd kick behind, next in front, and they'd jump up and down, generally screaming with good dancers but it sure kept us busy looking out the window that day.

Miss Dixon's Favorite Lines

Miss Dixon was looking over the sewing problems.

"Now let me see, yes, I believe that would be the best thing to do. Yiddish, get to work. How are you getting along, Cindy? Viola, put on the soft pedal. Dorothy, are you chewing gum? You had better get rid of it immediately. All right Thora, I'll see what I can do for you. Girls, not so noisy! Haven't you anything to do, Bernice? Well, you'd better find something then."

Thus the time passes, until there comes Miss Dixon's favourite call of, "Pick up." A few minutes later and then, "Irene, put your things away." The bell rings and away they go, leaving Miss Dixon and her favorite lines behind, but in spite of all that they turn out many nice things because most of them can work hands and tongues at the same time.

GORDON OVERLAND COMPETES IN STATE VIOLIN CONTEST

Gordon Overland, accompanied by his instructor, Mrs. Oleg Holmberg, returned Monday morning from Minneapolis where he participated in the violin competition of the annual high school contest of the Minnesota Public Schools Music League held last Wednesday, Friday and Saturday at the University. Approximately 1600 students from all parts of the state competed. In the violin soloist group, divisions B and C, first place was won by Phyllis Wagner, Rochester, second by Frank Neegelle, Fergus Falls, third by Hilbred Brobaugh, Willmar. Althe Gordon did not receive a placing, he made a fine showing and enjoyed the thrill and experience of taking part in the state contest.

The girls' glee club from Erskine, who won first place in the district elimination in Thief River Falls, captured first prize in division C in the state finals. Pine city taking second, and Preston third.

Thief River Falls citizens will be interested in knowing that third place in the piano solo group, division C was won by Eugene Sorlaten of Morris, son of Mr. and Mrs. J. Sorlaten who formerly resided in Thief River Falls and attended the Thief River Falls band concerts.

The Thief River Falls boy's glee club did not attend the state contest as contemplated, the trip being cancelled on account of the bad road conditions. Mr. Wagner decided to take the boys down in automobiles. The playing-over will be conducted by a member of the state organization if rectorate.

PROWLER SOON READY

The members of the Prowler staff had their pictures taken for the memorial for the annual go to The Times studio. Work is progressing fine. All proof matter on the work has been completed and returned, now the finishing touches are being given. This year many new ideas have been incorporated in the annual, that the graduating class of 1927 can justly be proud of its work. It is expected that the Prowler will be ready for distribution about May 23.

WHEAT SOWING RELATED; WHY NOT PLANT FLAX?

Because the United States produced less than 100,000,000 bushels of flax in 1926 and also because the price outlook for flax appears favorable, Prof. A. C. Arny of the agricultural at University Farm believes that it is simply good judgment to produce more flax in Minnesota this year than in 1926 and less wheat.

"Inability to get wheat, oats and barley in the ground until late means that the yields are likely to be much less than could be grown with the exception of obtaining a full yield but it should be sown promptly as it will soon be getting too late even for flax planting."

Flaxseed were imported into the United States last year 22,350,000 bushels of flax which added to the 19,625,000 bushels, less about 2,000,000 bushels reserved for seed, which were produced here, make up the 39,600,000 bushels more or less of flax seed needed by the crushers of this country. Mr. Arny makes the point that Argentina, from which most of the imported flax comes, has had two record breaking crops in succession years. It would be exceptional indeed, he argues, if Argentina should have record breaking crops in successive years. The big crops have been absorbed promptly and there are no large reserves on hand.

Nesct, Josten Citizenship Medals to be Awarded Soon

Following a custom begun last year the Josten Manufacturing company of Owatonna will present two medals one to the Senior boy and one to the Senior girl making the best record in Citizenship during the course of the school year in Lincoln. This company has furnished the class rings for the classes of 26 and 27.

Olaf Nesct, a director on the school board, will also award a medal—this to be presented to the person holding the best citizenship record at the end of the term.

The following scale will be a basis for each selection:

Scholarship	30 points
Character and General Conduct	30 points
Courtesy	10 points
Co-operation and Helpfulness	10 points
Leadership	10 points
Versatility	10 points

Principal Harold C. Hand will be assisted by the Senior teachers in determining the winner of the Josten medal and by Freshman instructors in selecting the winner of the Nesct prize.

MUSIC PRACTICE AID TO SURGEON

Constant practice on a musical instrument as a means of acquiring that degree of skill which the surgeon must have for the successful pursuit of his profession, is advocated by a writer in an English medical journal, copies of which have been received by the Coast Medical Center. The editor of the medical journal in question has written a famous Gloucester surgeon whose advanced opinions are widely quoted.

The writer of the article maintains that constant and intensive practice on a musical instrument, even from the start, requires a super-degree of dexterity. The difficult exercises required in bringing small blasts from a horn are even superior to the skill required by the medical man in the midst of a major operation, he maintains. Even the movements of the fingers and their immediate response to mental suggestion are likened by the writer as paramount among the benefits derived from the musical sideline.

Espousal Rules

In the days when the espousal was in vogue the girl invariably received a ring if her lover had the money to buy it, and this fact she wore on the right hand until at the wedding it was transferred to her left. If the future husband was too poor to buy or rent a ring he gave her a glass—no binding token is had the law allowed the woman if jilted, to retain half of his presents.

The following editorial from the Red Lake Falls Gazette will interest local readers of The Times:

"The Red Lake river is high and thousands of millions of water are running over the dams and are lost forever as far as generation of power is concerned. Along in the latter part of the summer the river will be so low that there'll be enough water to keep the turbines going half the time. If the water power interests at Red Lake Falls,

RIGHT OF WAY FIXED IN NEW MOTOR CODE

Question of Rights at Crossings Turns, Settled: Pedestrians Recognized in Law

The question as to the right of way, which has led to many disputes, accidents and law suits, is clearly defined in the new Minnesota highway traffic code. The provisions in the new law are in accord with safety rules, based on results of practical experience. If observed by motorists in Thief River Falls and elsewhere, it should greatly reduce the number of accidents resulting from arguments over the right of way. Here are the provisions of the new law on this question:

When two vehicles approach an intersection at about the same time, the vehicle on the right will have the right of way, but a vehicle traveling at an unlawful speed shall forfeit any right it may otherwise have. This section applies to both motor vehicles and street cars.

The driver of a vehicle or street car approaching but not having entered an intersection, shall yield the right of way to a vehicle or street car within the intersection making a left turn across the path of travel of the first-mentioned vehicle or street car, provided the driver of the vehicle is not given an in-plain signal of his intention of turning.

Drivers of all vehicles shall yield the right of way to pedestrians at regular crossings in the absence of any ordinance portions of any municipality.

Pedestrians shall yield the right of way at other places in the business or residence sections to vehicles on the street or highway.

Vehicles coming out of alleys or private roads or driveways shall yield the right of way to vehicles on the street or highway. If the view is obstructed, they must stop before crossing the sidewalk or entering the highway.

Ambulances and police and fire vehicles shall have the right of way over all other vehicles, but this does not relieve the driver of the ambulance or police or fire vehicle from the duty to drive with due regard to the safety of all persons upon the highway.

When a fire or police vehicle or ambulance approaches and gives audible signal by means of a bell, siren or exhaust whistle, drivers of other vehicles must go as close to the right hand curb as possible, clear of all intersections and remain there until the ambulance or police or fire vehicle has passed, unless otherwise directed by the police. Use of sirens on other than fire and police cars and ambulance is prohibited.

It will be made unlawful to follow within 500 feet of any fire apparatus responding to an alarm. To drive into or park within the block where such fire apparatus has stopped, unless permitted by a police or fire department officer.

Del Monte Completes Decade of National Advertising

Every "old-timer" in the grocery business remembers the 1916 panic of California's four pioneer canning companies, forming what is now the California Packing Corporation.

After more than a half-century of business, the J. K. Armsby Company, the Griffin & Skelly Company, the California Fruit Canners' Association, and the Central California Canneries, consolidated their wide resources and became the national distributors of California's finest fruits under the 'Del Monte' label.

That period marked the start of many of the greatest advertising campaigns in the canned fruits business. Just ten years ago, "Del Monte" made its first appearance in the magazines. Beautiful color illustrations of ripe fruits appeared in the mouth hungry public and influenced the buying habits of American housewives.

From the very start the campaign was successful beyond all hopes. It grew steadily with the business. Today Del Monte is recognized as one of the most powerful of all institutions in building up and maintaining a consistent, sustained demand for the retail trade in every section.

This year, Del Monte national advertising will eclipse even the greatest records of the past. A tremendous schedule of some 400 million messages, appearing continuously in all the issues of the Saturday Evening Post, will tell the story of Del Monte quality in a way that will do much to extend the preference which this brand enjoys.

One of the most striking advances concerns Del Monte advertising in the "set." Beginning this year the Del Monte ads will appear in four colors—in addition to the J. K. Armsby Company's well known perfect realism in the beautiful Del Monte illustrations. Each month will contain a full page, perfected position—on the front inside cover where the Post's two and a half million subscribers are sure to see it.

Back of all this effort is the definite purpose of the California Packing Corporation to make Del Monte always a standard among fine grocery products—to be, just ten years ago, "Del Monte."

In this connection, special material is being furnished to the retail trade to use Del Monte advertising to the full extent. Each year Del Monte window display cards are issued for use as the central feature of the grocer's window display. These are lithographed in full colors. They liven up the window of any store and create new business at the point of purchase. Besides these Del Monte window displays, the trade is also furnished with other store and window display material, newspaper and multigraphed cuts, theatre slides, advertising leaflets and recipe folders. This material has been widely employed by the trade as a definite tie-up with Del Monte national advertising, and its use has proved to be an excellent stimulant to local business.—Adv.

MICHIGAN SCHOOL GETS COACH THUNE

(Continued from Page 1)

school building with a fine gymnasium. Mr. Thune will be provided with an assistant in his work. During the past two years the school has had the Upper Peninsula championship in football and figures prominently in Michigan athletics.

Mr. Thune, familiarly known here as "Zion Lutheran," has been in Thief River Falls since his graduation from South Dakota State college at Brookings, where he was a basketball player. During these four years he has worked hard for the development of athletics in the local schools and has succeeded in building up a system of "athletics for all." He has not only turned out strong football and basketball teams but has given all who so desired an opportunity to participate in the various forms of athletics. A program of physical education rather than mere team development has been carried out, starting in the lower grades.

It will be remembered that the Thief River Falls high school won the district championship in basketball in 1923 and 1926, and made an enviable record this year but lost district honors to Warren in a close contest. The Lincoln High football team has not been defeated on the home gridiron during the last four years. Prospects are exceptionally good in these sports for the coming years. Spring football has added to the training for this game.

In addition to his work with the regular scouts, his work with interscholastic athletics Mr. Thune has also aided materially to athletic prospects for some time in the future.

Perhaps what will have the most lasting importance in Mr. Thune's work here is the spirit of clean sportsmanship he has developed during his two years with us. He will come in contact. In this he has been of great service to the community which heavily feels his influence. He believes in being a good loser and good winner and in having opponents at all times. The spirit of antagonism was not in his coaching and co-operation and friendship has been promoted among the various schools.

He has so ably managed the financial affairs of the teams that there is a substantial sum in the treasury to begin at the end of the season to be used for new equipment. Last Thursday the coach ordered several articles from the Spalding agencies who was here.

It will be difficult to secure a man who can take Mr. Thune's place in the community, and it is safe to say that he will be missed not only by the boys and girls in the schools, but by everyone who knows him.

2 HOLT H. S. GRADUATES

Myrtle Halvorsen and Mabel Thompson of Holt were Thief River Falls visitors Friday. Together with Ernest Rasum they comprise the graduating class from the Holt high school. Commencement exercises will take place June 2. Seven or eight are expected to receive eighth grade diplomas. R. J. Vielie, superintendent and high school instructor, has revoved his contract, as have Gladys Swenson, high school teacher; Annette Lano, Annandalee; Ruth Swenby, grade teacher; Paul Palmer, St. Cloud, in the grades. Marjorie Paulsrud, Fergus, grade teacher, is as yet undecided.

Hold Onto Your Team, Elephants Are Coming

Yes, circus days have changed and yet in the average American city it is the event of the season. Young and old men, boys and girls, mothers and grandmothers still get the thrill out of what goes on under the big top. The greatest shows have all combined into fewer and better organizations. Automobiles instead of horses and carriages bring the farmers and people from the neighboring towns to see the circus, but the peanuts and pink lemonade still remain. Every boy makes up his mind that some day he will join a circus—usually as a result of his experience in carrying pails and gallons of water to the elephants, for their capacity seems unlimited. Zellmar Brothers' Greater Combined Trained Wild Animal Shows will exhibit at Thief River Falls on Tuesday, May 31, both afternoon and evening.

DIST. JUDGE HEARS CASE

Judge Andrew Grindeland of Warren, accompanied by H. G. Swenson, court reporter, were here Monday to hear evidence in the case of A. J. Fenstad, Commissioner of Agriculture of Minnesota and Statutory Liquidator of the Citizens State Bank of Thief River Falls vs. Ward E. Baker, H. E. Pendleton and H. S. Gilkey, Farmers & Merchants State Bank. Gladys B. Baker, H. E. Newell, L. D. McAdams, and John Sandelin. A writ was filed with the judge by the attorneys, Gay Halvorson for the defendants and H. O. Thomsen for plaintiff. The amount in litigation is $926.91. Part of the testimony in the case, that of T. L. Meignard, former cashier of the Citizens State bank, was taken in Oakland, Calif.

SELVIG RETURNS

LEGION SPONSORS FUTURE JUNIOR BASEBALL TEAMS

The first game in the Legion Junior Baseball league, organized by the local post, was played Thursday evening when the Tarbuckers defeated the Eastsiders by a 9 to 3 score. Another game will be played tonight, at 6:30, between the South and Westsiders, announced Jay Marohn, manager. The winners of tonight's contest will clash with the Northsiders next Sunday afternoon at 3 o'clock.

MONTANA OIL MAN HERE

W. F. Emmond of Big Timber, Montana, arrived Saturday and will spend some days here with his wife and children who have been visiting the past few months at the home of Mrs. Emmond's father, R. H. Mix. Mr. Emmond is interested in one of the largest oil companies in Montana, the Emmond Oil and Development company of Big Timber, which has over 52,000 acres of oil land under lease. They have 4 structures supported by 3 of the Harding pinnacles in the Upper Cretaceous and the first deep well at Big Timber, which is 2,000 feet, encountered difficult selections, under the direction of L. F. Emmond.

The next appearance of the band will be next Saturday evening when a street concert will be played, commencing at 8 o'clock. An interesting program of classical and popular numbers will be presented. This will be the first of a series of Saturday concerts to be arranged for the summer.

Band members will initiate their new uniforms on Memorial Day.

lengthening the time in order to develop a healthy tan and to prevent burning. This can easily be done during the late spring, summer and early fall months by selecting a place protected from the wind and keeping the entire body during the warmest part of the day. The time of first exposure is limited to 2 minutes, but when a good tan is developed, exposures may continue up to three hours. If person is ill this should be done according to directions of a physician. The feeding of cod liver oil has been found to have similar results and the Minnesota Department of Health during the dark months when the sun is so far away.

Sunlight is an aid to health. Pleasurable emotions add the flow of the secretions of the body; while anger, fear, disgust, and anxiety hinder their flow. In intense emotion the blood supply is drawn from the alimentary tract to other parts of the body and digestion is interfered. As a result, digestion and absorption are prevented. The mental attitude of each individual has a definite effect on her health.

Rest is as essential to the body as food. To really rest, the individual must be able to lose herself at least for the time being all anxiety and responsibility, relax and give herself up entirely to play or recreation.

Severe mental strain will cause fatigue even more quickly than heavy physical exertion. This exertion fatigue will be of short duration.

The "tired feeling" is due to an accumulation of toxins produced during exercise tissues. These are oxidized and neutralized in the process of rest. Then the energy is free to be used elsewhere.

The amount of time required for rest is due to the amount of poison present and the length of time necessary for its elimination.

Mental vitality means the possession of a reserve fund of energy beyond that actually needed for the day's work. Any person is tired at night but fully rested in the morning after a good night's sleep. Adults need eight to nine hours sleep at night; children more.

Posture—Perfect health is impossible with poor posture. Poor posture causes good body mechanics, for all of the vital organs depend upon it for the coordination and response that nature intended. Poor posture, standing or walking, may interfere seriously with circulation, respiration, digestion and elimination.

GAS PRICE DROPS 2c

Motorists last week received the welcome news that gasoline prices had been another step downward. Reduction being announced Tuesday by the Standard Oil company of Minnesota, the other companies making similar cuts. The price in Thief River Falls is now 21.1 cents a gallon, the service stations and 19.1 cents at the tank wagons, these prices including the two-cent gas tax. The price of kerosene has dropped one cent and is now selling for 18.8 cents a gallon. As a result of a price war, gasoline is reported to be selling for 17 cents a gallon in Chippewa Falls, Wis.

CO-OPERATIVES ARRANGE JOINT PICNIC JUNE 22

District Creameries and Valley Poultry Members to Gather in T. R. Falls

SENATOR SHIPSTEAD PROMISES TO SPEAK

Heads of State Associations Will Address Big Meet of N. W. Minn. Farmers

Members of two leading farm co-operatives in this territory, the Thief River Valley Co-operative Poultry and Egg association and district No. 17 of the Land O' Lakes Creameries, Inc., and their friends will gather in Thief River Falls for a joint picnic on June 22. This decision was made at a joint conference between Manager B. O. Cooley of the poultry association and officials of the creamery organization at a meeting held at the latter's office. Hundreds of dairymen and poultry raisers in Northwestern Minnesota are expected to attend this event, which promises to be the biggest of its kind ever staged in these parts.

Prominent speakers will address the gathering, those in charge announce. An elaborate program of music, sports and picnic lunch is being arranged.

Henrik Shipstead, Minnesota's senior senator, has already signified that he will be here for the occasion, as has John Brandt of Litchfield, president of the Land O' Lakes Creameries, Inc. Hagbarth Boen of Minneapolis, secretary-manager of the Land-Tamber-men connected with it. Mr. Emmond has a number of his old friends this section of the country interested in his development work at Big Timber, one of them being stockholders. He reports that Montana, especially the section in which he is working, is the center of the leading oil men of the United States and he feels certain that his company will strike oil in their first well.

PLAY WELL RECEIVED

A capacity house greeted the local cast of players who staged the three-act Ingvald Ervenes, Norwegian comedy, at Foaston Tuesday night, according to all reports. The performances were turned over to the national Vrondeslag convention held Thief River Falls, the proceeds from the piano accompaniment. The afternoon program of the "Syttende Mai" celebration was presided over by Bernhard Knudsen of this city and was accompanied to Foaston by Mrs. Knudsen, L. H. Kalberg and Halvard Hanssalin of Minneapolis, speaker of the day.

The following subscriptions to the Mississippi flood relief fund being raised by the American Red Cross are reported for last week by Manager W. W. Prichard, Jr.:

Selma, Hazlebakke	$ 1.00
Marie Community	6.05
Elmer J. Eklund Post	10.00
Mr. and Mrs. C. W. McDaniel	2.00
Previously reported	163.21
Total	$182.26

Many donations of clothing are reported by Envoy H. E. Roffe of the Salvation Army.

More than $400 has been raised in Red Lake County and nearly $400 is reported from Marshall county.

Junior Baseball League Game to be Played May 29

The boys from the West side were victors over the South siders last Thursday evening in a close contest, the score being 9 to 8. This was the second of a series of games arranged by Jay "LaRoe" Marohn, in charge of organizing a junior baseball league under the auspices of the Thief River Falls Legion post.

The winning team in the two opening games, the West and the North sides, were scheduled to cross bats next Sunday, but this game has been postponed until next Sunday at 2:30, on account of rain.

Quite a number of enthusiasts turned out to the fairgrounds to witness Thursday's game, which proved an interesting one, giving promise of many more snappy games to follow. The team pitched for the West siders, with Leo Hennessy behind the receiving end, while Waldemar Rosenblatt occupied the mound and Melvin Lonson caught for the losers.

There is much competition between the various players to merit a placing on the team which will be sent to Fergus Falls to compete in the district contest.

AUXILIARY TO SELL POPPIES ON MAY 28

Mrs. Smith in Charge of Project to Help Cause of the Disabled Veterans

Next Saturday, May 28, has been declared Poppy Day by the Thief River Falls by the local American Legion auxiliary, in accordance with a resolution passed by the auxiliary at its meeting the annual sale in this community. Mrs. Oscar R. Smith is in charge of the drive, assisted by Mrs. Ed Hall, Mrs. Bessie Avelsen. A group of about 20 girls will help in selling the poppies on the streets and in stores, for which permission has been secured as headquarters for the workers.

Auxiliary Verner Nelson of the Legion post is committee treasurer. Mrs. Ole Grinager is in charge of the poster advertising and Mrs. A. M. Hagen of Grygla is publicity director.

Auxiliary units thruout the state have completed arrangements for the sale of poppies, which are made by disabled veterans in hospitals and convalescent workshops have been made. Proceeds will be used for relief work among disabled men to support themselves and families during the winter months especially in the Twin Cities, where the Poppy Workshop is located.

The money raised by the sale of poppies will be utilized in relief work among disabled veterans and families of dead and disabled men. Last year the amount raised was estimated to total more than a half million dollars and a similar sum may be realized this year. The larger part of the money is to be utilized by local Auxiliary units to be used in relief work in communities which they are located.

Mrs. Smith expresses the hope of committee that there will be a hearty response by local citizens when they are approached by the workers Saturday.

Following is a list of the sales girls: Sybil McGinn, Florence Hall, Mavarette Hines, Helen Johnson, Ruby Bliss, Elsie LaFleur, Ruth Jackson, Ruth Frosth, Claudia Landon, Thelma Rowles, Lillian Hanson, Ruth Dudley, Gladys Larson, Clara Halvorson, Irene Kleven, Elnora Toma, Ruth Cronkhite, Marguerite Johnson, Ruth Kvstad, Lucile Larson, Lucile Harmanson, Ruth Lucas, Mildred Thompson, Lucile Rayson, and Blanche Breeangen.

FIRST OUTDOOR BAND CONCERT ON MAY 28

Program Last Sunday Delights Audience; To Have New Uniforms Memorial Day

Despite the inclement weather, a good-sized crowd gathered in the auditorium Sunday afternoon to listen to the most delightful program given by the municipal band. This, the first indoor concert of the season, gave evidence of intense training by the players who are showing rapid progress in the rendition of decidedly difficult selections, under the efficient direction of L. F. Tulsen.

The next appearance of the band will be next Saturday evening when a street concert will be played, commencing at 8 o'clock. An interesting program of classical and popular numbers will be presented. This will be the first of a series of Saturday concerts to be arranged for the summer.

Band members will initiate their new uniforms on Memorial Day.

SISTER OF LINDBERGH, WORLD HERO, RESIDES AT R. L. FALCK

A native son of Minnesota this week has attracted the attention of the entire civilized world for his daring accomplishment, and the Gopher state is celebrating. He is Captain Charles A. Lindbergh of Little Falls, aged 25, the first man in the world to cross from continent to continent in a single hop by airplane, flying alone across the Atlantic from New York to Paris, a distance of 3,600 miles in 33 hours and 29 minutes. Forty thousand greeted him in Paris when he arrived Saturday night; Honors from all parts of the world are being showered on him.

Captain Lindbergh is a son of the late Congressman Charles A. Lindbergh, at one time Farmer-Labor candidate for governor, who is well known to many here and visited this city during the campaign. He died in Crookston. A half sister of "The Flying Fool" resides at Red Lake Falls—Mrs. George W. Curtiss, wife of one of the Red Lake Falls Gazette publishers.

County Gets $9,637 in Back Pay For Mothers' Pensions

As a result of action taken at the recent session of the state legislature the state of Minnesota will no longer continue to share with the counties the cost of supplying mothers' pensions, in repealing the former law, the legislature appropriated nearly a half million dollars to reimburse counties which in past years have paid the pensions in accordance with the law.

Sharing in the reimbursement are 36 counties, of which Pennington county will receive $27,000.45, Kittson $2,456.43, Marshall $9,917.54, and Red Lake $1,374.25.

Pennington county last year paid out $1,822 in mothers' pensions.

LUTH. WOMEN OF DISTRICT MEET HERE JUNE 9-10

Convention of Women's Missionary Federation of N. Minn. Norw. Lutheran Church

EXTENSIVE PROGRAM IN ARRANGED FOR SESSIONS

Mrs. Ylvisaker, Miss Feldhamer, Astad, Brown and Stavaas Among Speakers

The fourth annual convention of the Women's Missionary Federation of the Northern Minnesota district of the Norwegian Lutheran church of America will be held in Thief River Falls June 9 and 10, during the 14th annual meeting of the district church council.

The 11 circuits comprising the district will be represented at the convention, with an approximate membership of 12,000 women will be in attendance.

The convention opens Thursday morning at 9:30 o'clock, when the convention sermon will be preached by Rev. L. Tollefsrud of Thief River Falls. The meeting will then be formally opened by the district president, Mrs. A. Hoskeen of Halstad. The day sessions will be held in the Zion Lutheran church.

Reports will be read by the district officers, the circuits with which the four department secretaries on missions, Sunday school, the deaconess and membership.

Many Topics Scheduled

Mrs. D. Ylvisaker of Stiftorpet, general president will give a report of the work of the federation.

Representatives of the various church boards will represent their respective departments.

Other topics which will be presented will be the home finding and rescue work at the church institutions by Miss Mollie Fulchamont of Minneapolis. A round table discussion is scheduled for one of the sessions.

GETTING READY FOR 8TH SALE OF GUERNSEYS

Committee Selects 100 Head for Consignment Sale in Thief River Falls June 9

33 PUREBREDS IN BEST LIST EVER OFFERED

Pennington County Dairymen Again Lead Among Consignors for Valley Event

Inspection of 100 head of purebred and grade Guernseys, from best herds in this section, consigned to be sold at the eighth annual sale of the Red River Valley Guernsey Breeders' association to be held here June 9, has been completed by the sales committee, according to President Paul Nordgaard of Thief River Falls. The quality of the stock offered for sale on the auction block next month is the best ever offered, the members of the association, the committee declares, predicting that the sale will be a banner event.

The list of animals includes 33 purebreds, of which 16 are sires of the most desirable type. These are of the most suitable foundation stock for high grade cows and heifers comprise the bulk of the consignment.

Many Buyers Expected

Interest in the annual event is already evidenced among dairymen and farmers who plan to secure foundation stock here. Experienced buyers will be on hand from Minnesota, North Dakota and Montana, and perhaps from other states. As previously announced, a special train will be run from Thief River Falls to Fergus Falls over the past year. A report of the swimming pool committee, which has been spent recently to buy piping and fittings for the concrete pool, is to be laid in the new swimming water for the proposed swimming pool.

Reports of the various group leaders showed that the group system, as inaugurated last year by the district, proved highly successful, and will be adopted again this summer.

Dinner will be served by the Ladies' Aid of the Zion church next June 9. Engelstad today will request the Commercial club to take charge of the sales pavilion on that day.

Pennington Man Auctioneer

H. O. Walley, prominent Fosston livestock breeder and auctioneer will cry the sale, according to Secretary Houkes of Halstad, secretary of the Red River Valley Guernsey Breeders' association. Ringing will be done by the First National bank.

Cattle from Pennington county herds will again predominate at the sale, according to Houkes, who has been in touch with Thief River Falls breeders. Among the latter are: Albert Johnson, Peter Engelstad, P. H. Conklin, H. C. Wedeen, Melvin Wedeen, Thief River Falls; Stuart McLeod, T. O. Johnson, O. N. Urdahl, C. A. Lindberg, J. C. Fredericksen, F. Propper, Hagen, Matt Muttnansky, and Ed. Mistler, Goodridge, and Earl B. Owens, St. Hilaire. A. F. Sandberg, Hazel Bluff, Kenneth Bros., Goodridge, may also participate.

"We hope that most of these animals from the herds we will be bought by Pennington farmers that they will remain in the county" urges Mr. Engelstad. "We need good high-producing cows in this community if we are to make the proper progress."

List of Consignors

Others included in the list of consignors are given by the committee as follows: M. L. Lindberg and Herman Berg, Fosston; Basil Lee, Thief River Falls; Ole Hanson, Nelson Fruetiks; O. B. Ameth, Erskine; O. N. Olslund, Helitrandt; John Tronsdal, Crookston; W. H. Hall, Mentor; Alex McWilliams, McIntosh; Erick Anderson, Crookston; H. E. Billings, Audubon; Clayton Walker, Red Lake Falls; J. A. Maxwell and J. W. Pevek, Washburn; Richard Erickson, Kennedy; R. T. Byrne, Effie; W. W. Barr, Vikna. O. A. Swanson, Newfolden, and Bennie Vigen of Grygla may also contribute a few heads.

The Lundbys of Rosean county are not taking part in the sale this year, as the entire herd of Senator A. M. Landby of Swift will be sold out on June 10, when a herd bull will be disposed of. Shipping of his farm by the rising waters of the Lake of the Woods as a result of dams has made it necessary for Mr. Landby to move on it.

Members of the sales committee for the sale in addition to Mr. Engelstad are P. A. Upgren of Erskine and Martin Landby of Swift.

NUTRITION SPECIALIST AT HAZEL TODAY; HERE MAY 27-28

Leaders of nutrition project units in the Hazel and St. Hilaire communities are gathered in Hazel today to receive instructions from Miss Ione Hobart, university nutrition specialist. Miss Hobart is conducting the meeting of a series of four leaders' conferences in this county. Tomorrow and Saturday she will address leaders of the Thief River Falls, Rosewood Mendi, and Goodridge communities at the Commercial club rooms. Child feeding is the subject.

The nutrition project is purely an educational one furnished to be worked out in four monthly meetings. The last meeting which will be held here during the next two months will bring Miss Hobart for talks on "Play" and "Meal Planning."

Leaders of the 25 units in the county have held their first monthly meeting, with a total attendance of 313 women.

The Valhall unit of the Nutrition Project met Friday, May 20 at the home of Mrs. Emil Hanson, at which time the Hazel unit was present. Mrs. Mena Sprattler was elected president, and Mrs. Ed Hanson secretary. The lesson was presented by Mrs. O. B. Gerhart and Mrs. S. E. Hunt, leader and assistant leader, respectively. Interesting posters were used. Anna Marie Hanson and Leonard Engelstad were the children chosen for observation, their weights and measurements taken. Lunch was served, after which followed a general discussion of the effects of posture and diet on one's health.

Meetings will be held earlier in the month, hereafter, this month's meeting having been postponed because of prevailing sickness.

Present Fine Recital

Violet Rhodegard and Fern Bassett, pupils of Miss Thelma Holm Erickson, were presented in a delightful recital Tuesday night at which they showed exceptional ability and musicianship. They were assisted by Mrs. M. Brink, vocal soloist.

Former Resident Married

Announcement was made last week of the marriage of James E. Cooper son of Mr. and Mrs. William Cleary of Bemidji, formerly of Goodridge and Thief River Grocery company's office two years ago, to Miss Gladys Marion Cooper, daughter of Mr. and Mrs. Phillip Rauch, St. Paul. The ceremony took place in the St. Paul Cathedral Tuesday, May 17. Mrs. Cleary is a graduate of St. Mary's hall, Faribault, and the University of Minnesota. They will be at home in free to Bemidji, after a wedding trip in the East.

THE NATION GIVES

The country that has surmounted the test million dollar fund asked by the American Red Cross for the flood sufferers. The money will be used to a good purpose, however, no matter how high the oversubscription goes, because the Red Cross officials have established the fact that the ten million dollars sought was distinctly a minimum.

Pennington county never fails to do its share in time of emergency. Never during the war or any time since has any appeal for money to help unfortunate people in any country gone unanswered in this community. This is as it should be. Thief River Falls and Pennington county have been blessed compared with the people of many other sections. No great disaster has visited this community and the people as a rule have been prosperous. It is only natural that they should give for the misfortunes of others less fortunately situated.

Of course, the giving is never equally distributed. Some people are most generous with their money and give in some cases more than they can afford. Others who are financially able to contribute never give a cent in answer to distress calls. It will always be this way no doubt. Those who are able and give but a mere pittance in silence because they know, regardless of what the public thinks, that they have done their duty. Those who fail to come up to their obligations in matters of this kind probably fail to remember that they have to live with themselves.

TO THE COW

The Times submits the following relacy to a cow, reprinted from the Northfield Journal. A fitting tribute to Pennington county's outstanding resource:

"Truly, the cow is man's greatest benefactor. Hail, winds, drouths, and floods may come, destroy our crops, and banish our hopes, but from what she is? the cow never disappoints. She is nourishing and life-sustaining food. We love her for dwelling her home safely, and her usefulness. Her loyalty has never vacillated; we know that in the cow we have a friend that is never known to falter. She pays the debt. She eats at home. Little do we realize the debt we owe her."

A man may stand in his own light if he wishes, but when he gets in the light of others he's treading on dangerous ground.

Along the Mississippi the folks understand the meaning of that old song, with the words, "we been working on the levee all day long I worked."

Being in a rut is not always disastrous. A locomotive that doesn't stay on the track never gets any place.

The easiest way to destroy liberty is to take too much of it.

POPPY DAY, MAY 28

"In Flanders fields the poppies blow,
Between the crosses, row on row."
—Lieut.-Col. John McCrae

Coming with the sweetest spring,
Poppy perfume wavering
Over the bed of pain's distress,
Watching until Death's darkness
And White, shrived peace
Descend to ease.

Poppy flowers, bringing smiles
To tired hearts with live trials,
Blowed and well nigh broken with
A dream grown mighty like a
myth
Of sorrow.
Dr. only "if"
"If only"—!!!"

Poppies, friends, will iron wide
A pathway halfway smooth to
guide
The tired feet, the failing eyes
That gave you all and found no
prize;
Let no heart sigh in vain!
Buy, friends, buy!—E. P.

A DISGUSTING CHAPTER

The resignation of Ruth Snyder Brown and Henry Judd Gray for the murder of the former's husband, a New York motorboat salesman, the editor closes a disgusting chapter in the history of crime. The sentence providing that both were to die in the electric chair was to be expected. Any other termination would have been a farcical miscarriage of justice.

Neither Mrs. Brown nor Gray denied the murder, but each tried to shift the blame on the other. Mrs. Brown fell, the security of her sex with the jury would save her from death, but she was so palpably guilty of a ruthless crime that no other verdict could be rendered and still be a just verdict.

Any amount of moralizing might be done on this case. It seems queer that normal people who commit murders don't profit from the experience of others. The least bit of reasoning should tell a murderer that he is going to be caught. The editor's wife, even though they had murdered her husband, thought they couldn't escape punishment. Their crime was crude and their methods to conceal it equally clumsy.

The motives were as old as humanity itself—love for gold and the sinful desires to which mankind has fallen heir. Before the actual commission of the crime, Gray "stewed" his nerves with whiskey, which apparently is the first lieutenant of crime.

Sandeen To Legion Convention in Paris Next Sept.

Thief River Falls will be represented at the Paris American Legion convention in September, W. L. Sandeen of Sandeen's Garage being among the Gopher buddies who have already secured their tickets for the trip. The Minnesota contingent, of which Mrs. J. M. Bishop of this city, state Auxiliary president, will also be a member, is scheduled to leave Montreal September 5. The convention will be held September 19 to 23. It is expected that 20,000 American veterans and their ladies will attend the convention and visit the battlefields. Mr. Sandeen intends to be gone about six weeks.

The Great Peril dealer served overseas one year, and sustained injuries from which he has suffered since. Mr. Sandeen is a member of the Oklee Legion post, but intends to transfer soon to River J. Thisdell. Herbert Hanson of Oklee also plans to attend the Paris convention.

Ruby Aasehy not only won the substitute declamatory contest, but was also a member of the debating team, which Arda Ayers was also a member.

One of the most interesting and attractive books ever published by Lincoln High is the 1927 Pioneer, the first of which is being distributed today. It is a distinct credit to the editor-in-chief, Gladys Gunderson, and her staff of active assistants. Replete with pictures it forms a concise review of the year's activities. A feature of the book is the art work by Byron Thorndicen, who has also displayed his ability and originality as a cartoonist in numerous high talks. Philip Sundahl served efficiently today as business manager. The book was printed by Thief River Falls Times print.

ISO-VIS MOTOR OIL
STANDARD OIL COMPANY (INDIANA)
SERVICE
Motorists Like Iso-Vis
This new motor oil has proved itself! Only a few months ago the Standard Oil Company (Indiana) introduced Iso-Vis to the motoring world. Thousands of motorists were willing to try it because of their faith in the Standard Oil Company (Indiana). Now their friends and their friends' friends are using it! For they have been telling the world about the amazing results they get from Iso-Vis. They are so enthusiastic they are voluntarily writing to the Standard Oil Company (Indiana) praising its new product!—witness:

Attention L. O. Hughes
Dear Sir: We have used your new ISO-VIS Motor Oil in our fleet of trucks for about forty days, and it gives me pleasure to say that we have found nothing that equals it. It is a product of merit and is entirely satisfactory in every way.
Yours very truly
E. R. Clark Coal Co.

There is a reason—a good sound one—for the immediate popularity of Iso-Vis. Iso-Vis never thins out! It's a new motor oil with a new efficiency! Different from all the motor oils of the past. They all became diluted—even the best of them thinned out. Lost two-thirds of their viscosity before the car had gone 200 miles.
Iso-Vis—manufactured to meet a new theory of lubrication—maintains constant viscosity. That's why it is called a revolutionary motor oil. Iso-Vis solves the problem of dilution!
Iso-Vis does a thorough, efficient lubricating job every mile of every trip. That's what you should expect of a motor oil—but more than you can expect of any oil that dilutes.
Motorists like Iso-Vis because it keeps a car performing at its best all the time—ends dilution troubles—cuts repair bills—adds new smoothness and new pleasure to motoring! Try Iso-Vis and you'll like it too!
Iso-Vis costs a trifle more than ordinary oil—30c per quart—but a lot less per mile!

This age of high standards welcomes the Camel quality
MODERN smokers are the most exacting ever known, and they place Camel first among cigarettes.
For Camel was created to succeed in the hardest-to-please age ever known. It was made to satisfy—to win those who demand the utmost, and modern smokers have given it such popularity as no other cigarette ever had.
If you're downright hard to please, just try Camels. Too, more taste and fragrance will be revealed as never before, for Camels are rolled of the choicest Turkish and Domestic tobaccos, supremely blended. This modern plaything surmounts all other standards but its own. To light one is to find taste fulfillment. "Have a Camel!"

Like the twelve o'clock curfew that rings 'new year in, old year out' is the changing of the Progress managers. And like the new year ushers, the new staff come bedecked, some ambitious, and young; for we have not yet acquired the sageness of experience which we will have.

Not as old as Father Time is pictured, is the retiring force. One year of constant application has brought them a keen sense of journalism and a feeling of pride. No one can be long associated with a project so long and not regret leaving it; and although there are a few who are giving up their places somewhat happily, most of the previous editors will miss the weekly requirement of writing articles up for the paper. The staff of 1926 won a place in the N. I. P. A. contest at Grand Forks; the former editorial staff brought this distinction home for Thief River Falls a second time. The new force does not mean to let this standard slip; rather, we are going to attempt to keep the measure of excellence which the previous publishers have set before our minds. In our subsequent issues, we shall try to prove this more than "just words."

When one of the esteemed members of our good ship Progress has to leave—for distant territory, then we realize more than ever the loss we have played in our trip toward success. You, Mr. Thune, have been an active and important part in the first stages of Lincoln and its faculty, working to prepare youth for life's battle. In the science department you have proved a conservative, a biology teacher; and in athletics—through them you have gained the friendship and respect of us all. That you will be all over as a coach who curbs his temper when with his boys; one who deals with them squarely and teaches them to follow a definite plan which will make them healthy physically and clean morally. You have instilled here things by example and precept. Football team from "green material"; you have made district champs of our basketball boys in '25, '26; and in '27 you have developed good sports and good players, although Fate tricked you out of the championship.

Even though you will greatly miss you, we wish you unbounded success and smooth sailing in your trip on a larger ship and a vaster stretch of sea than that of old Lincoln.

T. R. F. BOY WINS MEDAL

In the grand final elocution contest held at Crookston college, May 19, Emmett A. Shanahan, of Thief River Falls, won high honors in section 1 with the selection, "Sworn Off." Paul A. Carrie of Crookston was second with the humorous number, "The Wrong Train." Francis Emerick, won his second consecutive medal with selection "Isaac Iyer of York." Fredrick Isfeldt of Hibbing was second in this section with the piece, "Death of Shakespeare." There were ten men in the contest and all gave their pieces in such an excellent manner that it was difficult for the judges to decide. Medals will be awarded to the winners on commencement days.

SHE KNOWS HER HISTORY

Friends of Harriet Mattison, daughter of Mr. and Mrs. M. A. Mattison, former residents of this city and now of Brookings, S. D., will be interested in the following item from the Brookings Register:

"Miss Harriet Mattison, a junior student in the Brookings high school won first place and incidentally a $5 gold piece in a history test sponsored by the daughters of the American Revolution. Five of the leading high school students in the high school took the test, which was composed of 100 questions relative to early American history. The test was taken last Saturday morning. Miss Mattison's grade was a better less answers wrong. In reality she only missed one, as two questions gained lost, and a missing one automatically made its gain wrong. This was a standard test and one used in similar contests throout the United States, and in this instance the highest grade in the country receiving little attention in the ordinary test. The other seven competitors averaged from 94 down, but all showed a wide knowledge of American history."

ROSEWOOD

The Rosewood Farmers club met Saturday evening but owing to the rainy weather and almost impassable roads only 25 persons were present. As previously planned it was decided to cancel all meetings during the summer months, as the hall will be turned into a storage room by the present owner and the club at present has no meeting place. However, the Farmers State bank building may be leased by Oct. 1, and meetings will then be held regularly. The members of the club have been invited to visit the Crookston agricultural School on June 21, and plans will be started at the next meeting to arrange a gathering there that day. The club visited the school the past two years, and had quite a very large turnout reported a pleasant day.

Elected Secretary-Treasurer of Ass'n at Detroit Lakes Meeting Convention

T. Theo. M. Thronson, vice president of the First National bank of this city, was last Thursday elected secretary-treasurer of the Ninth District group of the Minnesota Banker's association at the closing session of the joint session with the Sixth district held at Detroit Lakes. Other officers elected by A. Bracey, Fosston, president; E. E. Roberts, Moorhead, vice president; C. G. H. Sloss, Perham, director; Wroth, Fergus Falls, and H. W. Gunderson, Hawley, directors. Eugene Harris of Wadena was named president of the Sixth district group.

There has been much interest displayed in the meetings of the group, and business men feel they will get on a sounder and better footing."

Mr. E. E. A. Bole, chairman of the agricultural committee of the association, spoke on the work that is being done through the country by the committee. He called attention to the fact that while many of the problems of the farm was to put a purebred sire in every herd in the state.

"You can be of great assistance to the committee," he said, "by helping the organized 4-H club work when they come to your country to organize their meetings. Get behind them and help them work, but get in the harness and help pull the load. Don't stand back."

Mr. Bole explained the various projects that the committee is advocating. They are boys' and girls' club work, a purebred sire campaign, a soil building campaign, control of dairy production, economical production of baby chicks and introduction of farm records and accounting.

CAMPAIGN TO BOOST R. R. VALLEY TO BE CONSIDERED

A call has gone out for a meeting of the Red River Valley Development association to be held in the Crookston Commercial club rooms Saturday evening, May 28, at 7:30 o'clock. The purpose of the meeting is to consider the advisability of a campaign at this time to advertise the resources of the Red River valley. Sentiment in favor of such a movement has developed in some localities, and it will be determined at this meeting what action will be taken. It will require considerable financial aid to carry on such a movement and the Development association cannot promise unless it appears there is sufficient support to make it possible. The meeting will be open to anyone interested.

Members of the Commercial club here at a recent meeting voiced their approval of the project, providing the cost would not be too great.

GIVEN VERDICTS

Verdicts totaling $31,650 were awarded five plaintiffs in Clay county district court Thursday in suits against the World Amusement Service association and C. Alex Sloan, its vice president. Damages amounting to $107,000 were sought. Alfred H. Bakke, Thief River Falls, sued for $43,900 for alleged injuries when Ray Claypool, auto driver, went thru a fence at the Grand Forks fairgrounds in 1925, killing A. S. Ellingson of Hatton, N. D., and injuring others. Bakke received a verdict of $5,000, according to press reports, while Mrs Ellingson was allowed $14,000.

Alfalfa Thrives Despite Excessive Rains; Root System Helps Drainage

County Agent McCann Points Out Importance of More Alfalfa to Take on Moisture

While the excessive moisture has delayed the seeding of grains, alfalfa, Pennington's best forage crop, is finding growing conditions favorable over its needs this year. Stands of this crop are of the best ever seen and will generally survive the flooding of this locality, Miss local farmers plan to seed additional acreage this spring, as indicated by the questionnaires returned to County Agent J. C. McCann.

"An additional reason for growing more alfalfa in Pennington county is demonstrated on old alfalfa fields during this period of excess moisture," says Mr. McCann. "On farms where there are acres of alfalfa are green, the fields are naturally drained by the growing of deep long roots which leave the soil very porous and on such places seeding of small grains has been completed two weeks ago.

"Some farms may be will ditched and yet wet flood water in abundance all over the field but not so on the alfalfa fields which are naturally tiled by the net work of roots.

This season while having many disadvantages is an admirable one for sowing more alfalfa. There is plenty of moisture in the soil which is favorable for the germination of the seed. The ground has been profitably sown over followed for at least a month and the alfalfa sown without a nurse crop which will give it time to establish a good root system before the winter months.

"Alfalfa places more nitrogen in the soil which is the element that makes food. The roots reach down many feet, thereby draining off the surplus moisture and bringing to the phosphorus, potash and other valuable minerals. Such fields produce larger yields in later years by crops having a shallow root system. For greater larger yields, Alfalfa boards itself and sows for the 'privilege.'

"On account of the late season it may be advisable to sow more of the spring crops as alfalfa, for corn, sugar beets, potatoes or corn. Rye, wheat and barley may be sown in the fall when sown late unless an unusually good season occurs.

"This season emphasizes the advantages of dairy farming over grain raising only, which is more or less of a gamble."

It has rained nearly every day the last week and practically no field work has been possible. J. M. Barnes, local weather observer, reports that the total rainfall for Saturday, Sunday, Monday and Tuesday is 1.65 inch. The river rose 14 inches as a result of this heavy rainfall, but Tuesday night receded 1 inch. This sort of weather is said to be general in the Northwest and some fields are reported to be much worse than here in the valley.

Roads are faring badly with continued rains, especially the trunk highways which carry heavy traffic. The gravel in many places is disappearing in the mud. The Pennington county roads, however, are holding up pretty well.

Exceptionally Fine Program by Skratbait Entertainers

"Olle I Skratbait" and his company of popular Swedish entertainers appeared at the Lyceum of Norway hall Saturday night in what is considered by their best program ever presented here. Despite the rain, the hall was filled for the first show but the second performance was cancelled and those in attendance enjoyed a dance after the program. The entertainment was the varied than ever before.

"Superman I know," a screaming new comedy in one act, was thoroly enjoyed. The acting was exception ally good, with Oscar Danielson in the title role and the other parts taken by Mrs. Hjalmer Peterson, Olga Swedlin, and Annar Myhre, who has made a host of friends with Mr. and Mrs. Ray Fryta in this city.

As usual "Olle" brought roars of applause with his clever monologues and songs, all of which were new to the local audience. Especially funny numbers were "Flicken vid Selmann's Bal" and "Morsan fyller fem aar" which he was accompanied by his "Leafry Orchestra," a feature of the show. Mr. Myhre's rich baritone voice was to good advantage in "Vill du komma till mig kara vackra flicka" and "Styrerbojt," Hungarian Rhapsody No. 5 and "Hela Varlden dar hemma," violin solos by Ted Johnson, accompanied by Mrs. Wife, were well received.

Especially the specially pleasing numbers by the orchestra were "Solitar" by Bert Danielson, accordionist; Nils Dahlin, violinist, and Mr. Johnson appeared in delightful trio numbers. Miss Ruby Swanson played at the piano. The attire and makeup of the Skratbaits caused much merriment. The group has made such a hit here on a tour in the East this spring that they will be brought back again for several records. "Olle" also sang several Swedish songs.

Mrs. Peterson will leave June 9 on an 8 weeks visit to Sweden which she left 14 years ago.

Alderman Postpone Meeting Until Tuesday Eve, June 7; To Attend State Sessions

Inasmuch as the next regular meeting of the city council is scheduled for June 14, at which time the aldermen expect to be in Minneapolis attending the annual meeting of the League of Minnesota Municipalities, the aldermen at their Tuesday night meeting postponed that meeting at which time they will dispose of the matter of assessments for the Main and Riverside avenue paving jobs, to the regular meeting of May 13. The postponement Tuesday night was due to the absence of Engineer W. B. Stevenson for whom, who was to have made certain changes in the assessments.

Little business appeared before the aldermen and they adjourned early to view "Lindbergh in the Spirit of St. Louis" at the theatre.

Three requests for dance permits were granted, one building permit was granted to M. V. Evenson, bills were allowed, the request of Grace James street from Triumph to Crookston was referred to the street committee, free use of the auditorium given to the International Bible Students for June 21, and taxation problems were discussed informally.

NATIONAL CHURCH LEADERS TO ADDRESS NORWEGIAN LUTHERANS OF NORTHERN MINN. NEXT WEEK

Pastors and Delegates from 136 Charges Coming for 5-Day Convention

WOMEN'S MISSIONARY GROUP MEET JUNE 9-10

Fergus Falls Choir Concert June 11; Two Services on Closing Sunday

Norwegian Lutherans from 136 parishes will gather in Thief River Falls next week for the biennial meeting of the Northern Minnesota district of the Norwegian Lutheran Church of America to be held June 9 to 12. In addition to the pastors, the attendance will include two delegates from each charge, one of whom is always a layman. The charges include one to five congregations.

Representatives from 450 women's societies in the district will also convene here, the fourth annual convention of the district Women's Missionary league to be held June 9 to 10. Each pastoral charge is entitled to two delegates to the convention, but it is expected that many more will attend.

With the national leaders of the church body scheduled to address the various meetings next week of devotion and discussion, indications are that large numbers will attend the meeting here, especially from nearby congregations. The sessions will main in the city the entire week, while others will come only for certain programs. The program this year is said to be one of the best ever prepared by officers of the organization. Many exceptionally fine speakers are listed.

All sessions except one service will it held in the new Trinity Lutheran church, the women's meetings to be held in the Zion church.

Hotel Rooms Needed

Rt. Rev. L. T. Aastad of Detroit Lakes, for 34 years pastor of the local congregation here, is the bishop of the district presidency in 1919, will preside at the sessions, which is the church body. Mrs. A. Houkom of Halstad is president of the district

BETTER LIVESTOCK MEETINGS PLANNED

Agricultural and Civic Groups Co-operate With Minneapolis Tribune in Campaign

C. C. Morrison, assistant general agricultural development agent for the Great Northern, was in the city last week to make preliminary arrangements for meetings to be held here this month by the agricultural experts of the Minneapolis Tribune staff, which is to stage a 30-day campaign here more or less similar to that at the Red River valley during June.

The offer for such a campaign was made by F. C. Murphy, publisher of The Tribune, and is similar to that just finished in North Dakota, which proved a tremendous success. Under the schedule outlined the Tribune says would spend the full month working with county agents and other agricultural workers in the valley. A. C. Krob being assigned to Pennington, Falk, Red Lake, and Marshall counties, while C. F. Collison will work in Clay, Norman, Becker, and Mahnomen.

According to present plans Mr. Krob will attend the Commercial club here June 16 and a farmers' meeting in Thief River Falls. The meetings may also be arranged for St. Hilaire and Goodridge. The meeting of the Red River Valley Development association in Crookston Saturday, P. J. Moe, editor of the Crookston Daily Times, and Pat Hall of St. Hilaire were put in charge of arrangements in this section.

The plan was outlined by Mr. Collison, agricultural editor of The Tribune.

The campaign opens today with a meeting of Crookston businessmen, addressed by Mr. Krob.

The meetings will be devoted to the importance of more and better livestock in a diversification program and such meeting will be fully covered by a Tribune writer supplying daily stories for the campaign period in that newspaper.

REMIDJI FIRM AWARDED GULLY CREAMERY CONTRACT

The bid of Dickenson & Bredeson, Remidji contractors who built the Trinity Lutheran church here last year, was accepted by the Gully Co-operative Creamery association for a new 45x25 brick building, at a meeting of stockholders held last night. The contract awarded is for $5,285. The plant is to be ready for operation about August 1. It is located in Hickory township, in southeastern Pennington county, are stockholders of the Gully creamery.

PLANTING MORE POTATOES

Planting of an increased acreage of potatoes is now under way by farmers here, according to Theo. Hunt of the potato firm which will erect a storehouse in this city. Favorable weather this week has made it possible to do considerable work in the fields, but seeding plans have been changed a good deal. The early grain acreage will be comparatively small in this vicinity this year.

CHICK WITH FOUR DRUMSTICKS HATCHED HERE

At least one chick hatched out on the Third River Fletchey is amply equipped with drum sticks. A Rhode Island Red hen recently hatched a chick with four legs, but otherwise normal in every way.

The freak chick was included in the shipment to Rev. J. E. Lerohl of Chloe and at last reports was getting along nicely.

Approximately 1,000 chicks are being hatched weekly, reports Manager Gunsten Gunstenson. Turkeys are also being hatched.

Gunstenson has already hatched about 200 to his farm north of Chloe, where he will raise a large flock. He has also inaugurated the plan advocated by the university specialists.

Many farmers in this locality are adding to their flocks this spring.

4TH OF JULY PLANS TAKE DEFINITE FORM

Tentative Program is Announced by Legion Committee, Headed by Carlisle

Arrangements are under way for a real old-time Fourth of July celebration in Thief River Falls and judging by present indications the attraction will draw crowds from a wide territory.

W. L. "Bob" Carlisle is chairman of the Legion committee in charge of arrangements and is leaving nothing undone to make it a success. "We are going to make it a celebration that everyone will enjoy," he says.

According to present plans there will be a parade by the Juvenile band, kid sports and street races, and a program in the auditorium in the forenoon. Some prominent speaker will be secured.

In the afternoon plans include a parade to the fair grounds, where there will be a concert by the municipal band, and a program of races and sports, leading to baseball and dancing.

A street band concert, water fight, the fireman's demonstration, vaudeville, fireworks, and dancing is scheduled for the evening.

The section chairmen are announced as follows: C. F. Paulsen, decorations and grounds; W. E. Dahlquist, auditorium; P. G. Sanborn, prizes; Alfred Stenerson, parade; Emil Smith, sports; L. H. Ingels, insurance; W. L. Carlisle, general; Mrs. N. Rude, dance; Chas. Elcher, murder T. Thompson and James Cahill, concessions.

Aldermen to Municipality League Meet to Make Bid For 1928 Convention Here

The League of Minnesota Municipalities, in which 377 communities of the state hold membership for co-operative effort in the solution of city and village problems, will hold its annual convention in the Kenwood Armory, June 14, 15 and 16, it was announced this week by Secretary H. R. Stevenson.

Members of the local city council, as well as the mayor and possibly the city attorney, plan to attend the meeting, and will present Thief River Falls' invitation for the 1928 convention. Delegates will be named at the meeting of the city council Tuesday, June 14.

A municipal exhibition in which many departments and municipalities will take part will occupy the entire floor space, Auditorium, White Bear Lake, Hibbing, Minneapolis, Robbinsdale, Hillwater, and Thief River Falls have already entered exhibits, as have the engineering departments of education, game and fish and health. Among other displays will be one from the Minnesota League of Women Voters, Boy Scouts of America, Minnesota section, American Water Works Association, Minnesota Conference on Public Utilities, Minnesota Safety Conference, and the Playground and Recreation Association of America. There will also be an exhibit from the University of Minnesota.

There will be luncheon meeting's each day for the following groups: Mayors, city or village clerks, attorneys, engineers, health officers, fire chiefs, police chiefs and park superintendents. Superintendents of water, sewer, heat and light plants will have joint meetings with the Minnesota Conference on Public Utilities. The Water Works Association, The health officers will be invited to the meetings of the Minnesota Sanitary Conference, which will be conducted on the same three days.

The president of the league this year is Mayor Reyer, president of the Minneapolis Board of Estimate and Taxation.

Permanent headquarters of the league are at the Municipal Reference bureau of the University of Minnesota. Mr. Merrin B. Lambie is executive secretary.

Three-Act Melodrama to Feature Catholic Eighth Grade Graduation

ORCHESTRA FROM RED LAKE FALLS ASSISTING

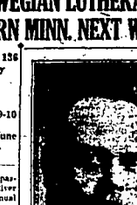
Seventeen to Get Diplomas at Second Graduation; Only Eight Last Year

A delightful program, including a three-act play, will be presented by pupils of St. Bernard's Catholic parochial school in the city auditorium tonight, commencing at 8 p. m., in connection with the graduation exercises for 17 eighth grade pupils. Rehearsals have been going on for some weeks under the direction of Sister Secunda and other instructors.

The play is a lively three-act melodrama in which the serious and heavy action is relieved over and again by the laugh provoking Aunt Matilda, Judy and her attempts at nuptiality, as she learns.

Seats for the program may be reserved at Lambert's drug store.

A special invitation is extended by the pupils and Sisters to the non-Catholic public of this community. They are anxious to have their non-Catholic friends and neighbors present to give them occasion for becoming better acquainted with the work being done in institution growing up in their midst.



Special orchestra music will be furnished for the occasion by pupils of St. Joseph's school in Red Lake Falls, while C. F. Collison will work in Clay, Norman, Becker, and Mahnomen.

Following is the program in detail:

FISHING LICENSES SELLING WELL, ACCORDING TO AUDITOR

That Pennington county has quite a number of anglers despite the absence of lakes within its borders is indicated by the resident fishing license sold at the county auditor's office since the law became effective May 15. The office has been a busy place with constant calls for the slips of paper which give the hearer permission to legally catch fish in season with hook and line. Up to yesterday a total of 98 family licenses, costing $1 each and $50 individual licenses at half that price had been issued here, according to Auditor T. J. Anderson.

The auditor calls attention to the fact that persons under the age of 21 do not need fishing license, and if the parent of any boy or girl under the age is staying at home, the family license grants them the necessary permission. Mr. Anderson also points out that members of the family are granted free of charge.

Considerable fish is reported and some local anglers have journeyed to popular fishing lakes.

SHOW PROCEEDS TO GO TO FLOOD RELIEF

Brumund to Screen "Woman-handled" Tonight For Flood Sufferers

Mayor W. W. Pritchard, Jr., of the Mississippi flood relief fund, announces that Jl. A. Brumund, manager of the Lyceum theatre, will screen free of charge the Paramount picture "Womanhandled" at the Lyceum tonight, for the benefit of the flood victims. There will be no other show at the Lyceum this night and all proceeds at the Lyceum will be sent to the flood relief fund.

The mayor urges that the public take this means of contributing something to the relief of the unfortunate families which have been driven from their homes by the flood. A free selling of his regular Thursday show means a considerable sacrifice for Mr. Brumund.

The picture will be shown twice at 7:15 and 9:10 o'clock, at the regular admission prices.

"Womanhandled" is a new comedy-drama, the kind that makes one laugh heartily from the beginning to the end. Variety says a reviewer in commenting upon "Womanhandled": "Most of the comedy is caused by the attempt of Rex Bell, here, Richard Dix, to stage a western picture in a thoroly modern way. The scenes took place at Greenwood and in the Catskill mountains. In the after-thing brought to the attention of local business men last Thursday when a demonstration was conducted by representatives of the Northwestern Bell

SOCIAL ITEMS

Delegation Going to Dist. Legion Auxiliary Meeting

A good-sized delegation of local Legionnaires and their wives will plan to attend the 10th District convention to be held in Bergen Park here in Thief River Falls next Monday and Tuesday, the famous "clever stuff" which made such a hit at the St. Cloud state convention last fall.

The campaign for the election of Oscar C. Paulson to the city as district manager, to succeed Harold Stafford of Fosston, is meeting with favor in every section of the district, according to reports and the feeling is that Mr. Paulson will be the choice of the convention.

Many prominent state officials, and ladies and at last a large and successful convention will be held with the Thief River Falls Legion and Auxiliary members in attendance. Sheila Conway, State and Adjutant Lindell of the Legion and Mrs. J. M. Savage, state president, and Mrs. H. Hilleboe, department chaplain of the Auxiliary, will be among the visitors of note. A large parade led by the Fergus Falls drum and bugle corps from Detroit Lakes and will precede the banquet. The visitors will also be entertained at a dance.

Following a brief business meeting of the local Legion Friday night, the ladies and members of the Auxiliary, who have planned for a social gathering, repaired to the Elks hall, where a dance was given for the benefit of the convention fund.

ANYTHING IS POSSIBLE

Any community can become whatever it wishes to become. That is an abstract statement, but it has been proved true so many times by cities and towns which have prospered, that it is accepted as truth. With the community, as with the individual, wishing is valueless without action and neither community efforts or individual efforts succeed without co-operation.

This is the reason for civic and community organizations. Combined action to bring about a desired end is not possible without organization, and organization can function well without the whole-hearted support of a large majority of the people.

Conservative improvement industrially by supporting and encouraging industries they already have, and building this sort of a reputation invites others to come.

It has been demonstrated in many instances to be a fallacious policy to offer a large bonus in cash or favorable sites to draw industrial establishments away from other places. Industries thus won are usually of no value. There should be a good reason for a manufacturing plant to change locating.

An alert community that wishes to grow industrially will advertise itself, emphasizing its claim to being a good location for a certain type of industries, and always be awake to the needs of the industries already established, helping them to extend and enlarge their business.

FLOOD PREVENTION

With the flood waters of the Mississippi basin subsiding, and the worst flood in history having been recorded, thought naturally turns to preventative measures that will make impossible a repetition of this year's disaster.

It is a question that touches every citizen of the United States, all of whom have been affected in one way or another by the unprecedented flood.

Manifestly it is a task that demands the best brains the country can summon in the job and one that should not be hastily attempted or precipitately finished. It is one in which politics should be entirely eliminated and sectional feeling should be forgotten.

The problem is undoubtedly the greatest that any nation ever faced in time of peace, but it will be faced and solved by the greatest nation.

Once it is determined what plan is best, the American people, who raised $25,000,000,000 in make the world safe for democracy, will not hesitate at providing a few billions to make our own country safe from floods.

Many half-baked opinions have already been advanced as a solution. Certain enthusiasts propose reforestation as a panacea for floods. Another group believes that immense spillways are the only logical way to avoid a repetition of this year's high waters. Then it has been suggested that another channel might be built to carry away the floods. Still another scheme is the building of storage reservoirs at the headwaters and another proposes retarding reservoirs such as have been found successful in protecting Dayton, O., and other cities on the Great Miami river since the 1913 flood. A continuation of the levee system is favored by a large group.

It is distinctly an engineering problem and already engineering staffs in Washington have been assigned and are embarked on the flood control problem. When in 1909-'32 the last study was made the engineers had the highest range of water of which they had records, and developed levees there four feet in excess of that figure. It now appears that for the first time in the history of the river all the tributaries are flooding at once. The floods of 1916 and 1917 were caused by the overflowing of the Red river and its tributaries, and the flood of 1920 by the overflowing of the Mississippi and its tributaries. The present flood is caused by the overflowing of both the Red and Mississippi and their tributaries, and the combined flood is greater than the total of any of the three floods mentioned.

TAX RATES

The Pennington county is one of the youngest counties in the state there are 37 of Minnesota's 87 counties which have a higher average tax rate this year, while 18 have a greater percentage delinquent. This information is revealed in a bulletin recently issued by State Auditor Ray P. Chase, in which interesting comparisons with other counties can be drawn.

The average rate for direct taxes in this county for this year is 64.52 mills, which is exceeded by Aitkin, Beltrami, Carlton, Cass, Clearwater, Crow Wing, Hennepin, Hubbard, Itasca, Koochiching, Lake, Lake of the Woods, Mahnomen, Mille Lacs, Ramsey, Red Lake and Roseau counties. In 36 of the 87 counties the rate is more than 50 mills.

The highest rate is paid in Koochiching county, which has an average of 157.31 mills, while Beltrami comes second with 132. 05. Others beyond the 100-mill mark are Cook with 124. 29, Cass with 108.04, Lake with 110. 1ed, and Itasca with 100.96.

The lowest tax rates are found in the southern and southwestern portions of the state, where the country has been settled for over a quarter of a century. Rock county has the lowest average—31.62 mills, while Murray has 33.37, according to the state auditor.

The average rate in Pennington county last year was 68.23 mills, this year's average being 74 mills lower. Improvement in expenditures by the various local governments here is reflected in spite of the fact, however, that valuations have been lowered.

The delinquent tax situation is not so alarming when compared with other counties of the state. Pennington's percentage of taxes remaining unpaid as of January 1, 1927, is 16.78 as previously stated in The Times. This is somewhat higher than for the previous year, and an even better showing is expected for 1928, according to county officials. Combined action to bring about a desired end is not possible without organization, and organization can function well without the whole-hearted support of a large majority of the people.

Champion Club Worker Tells Story About Her Experiences

Natalie C. Westeen, 16-year-old daughter of Mr. and Mrs. H. C. Westeen of Pennington township, near Thief River Falls, has written the following story about her junior club work, and The Times urges every Pennington county club member to read it carefully for their information and inspiration:

"Eight years ago, in 1919, I entered Club-work with a few Barred Rock chickens and some Toulouse geese given me by my mother, and a 971 Guernsey calf which I received from my father in exchange for helping on our farm. I exhibited all of my livestock at our county fair, but of course I didn't score out at top-card that year, nor did I win anything until about two years afterward, when I was awarded first in dairy judging. I was encouraged by this that I traded my mother's calf for a heifer from my Dad's herd. I received first prize on her at the next county fair and then took my first trip to Crookston with her. My place then was eighth.

"In the meantime I had won quite a number of premiums on my poultry, as I seemed to have better birds each year. But calf club-work was my favorite project and the one in which I had the most competition, even within my own family, for my two sisters were also in the dairy calf club.

— — — How I got and Dewee — — —

"One fall I raised about ten very well-marked Rock cockerels, which I sold at an average of $3.00 per bird. I made an allowance for birds eaten and so forth, and then traded my club calf, which was what was left of that year, to Dad for a six months old heifer from one of our best cows. I named her Florentine of Silverton, the latter part being our farm name. From my county fair time I petted, fed, brushed, and trained her. The feeding and feeding went well, but I had a hard task trying to train such a high-bred little creature. She grew extraordinarily large, and at the following show time came she won first place in her class. I was given a free trip to the state fair, but when we entered the grounds Florentine failed to do her part. It took three strong men to get her in the place assigned her—and then she wouldn't stay. Then, if ever, I felt like giving up club work. But club work, especially the showing, has its ups and downs the same as everything else.

"Florentine is now a four-year-old and has won several championships over other breeds as she did at the 1927 Crookston Crop Show. She is now also a one daughter. The former will be included in the Guernsey sale here this June, while the latter will remain with me, however my future club animal.

Bought Baby Beef

"With my prize money I have purchased a purebred Angus baby beef which I intend to fit and show at the next county fair. This is a project which is new to me. The other projects I will carry are leadership, poultry, and dairy judging.

"Club work is a lot of fun for those who will take a little interest in it. Their interest will soon be enlarged to educational because of all the fine topics offered and because of the knowledge of cooking, sewing, and caring for animals and plants. Besides this it is highly profitable on account of the large money premiums and the valuable experience.

Trains Youth for Farm

"If anything will keep this generation's boys and girls on the farms it certainly is club-work, for after one gets a start in it as his age increases so will his property increase both in number and in value. Then he may either remain on the farm and earn his living from his property or he may go away to learn different work. Club-work will help to make a more successful set of farmers fifty years from now.

"Pennington county is the home of alfalfa and of the dairy cow. A county such as this is just the place for

Farmers to Rally are Started by Indians June 1

The Minnesota State Fisheries at Nasby began commercial fishing operations June 1, when the Red Lake tribal gives were given an opportunity for a week to demonstrate whether they can catch, sell and market fish profitably as a project, at cost or at a loss, says Ben Meeker, Pioneer. The Indians are granted full authority to conduct their own operations; they are furnished with ice and other necessities for conducting their supervisory and are given the full use of the fishing plant with which to handle their output.

This agreement was entered into last every aid will be given them to sell their fish anywhere they desire, to successfully compete with the Canadian pike which began coming on the market June 1.

This agreement was entered into May 20 at a conference held in the council chamber at the Red Lake Indian agency, which was participated in by fifty-odd to the number of more than 100; Mark Burns, superintendent of the Indian agency; J. F. Gould, state game and fish commissioner; Attorney Robert C. Dell of Detroit Lakes, (selected by the Indians as official counsel for the Indians); George Weaver of Minneapolis, acting superintendent of the Red Lake Fisheries, and C. C. Musgrave of St. Paul, district manager for the South Bay fisheries company, with Peter Graves of Red Lake acting as interpreter.

Joseph R. Jourdain, a member of the Red Lake band of Indians, presided at the council.

"The agreement which I am now entering into with you Red Lake Indians means that the Red Lake Indian Fisheries will be operated from June 1 to October 1 each year until the expiration of the present contract with the Indian department, July 1, 1929," said Mr. Gould. "We will continue to operate the hatchery at Redby, watching white fish and tullibee during the winter months and pike and suckers during the spring, automatically restocking Red lakes. Under the new plan of operation of the fisheries, we will provide the funds. Outside the months of June to October we will not require the services of more than two men, thus cutting down the present number of years' employees and decreasing our overhead considerably."

MAKING ARRANGEMENTS FOR NORTHWEST SCHOOL RE-UNION

Alumni and former students of the Northwest School are making extensive plans for the annual matters picnic which will be held at the Northwest School, Crookston, on June 30 according to Dr. Harry Haslin, Crookston, president of the alumni association.

The reunion will include all the former students of Northwestern Minnesota where most of the students live. The occasion is intended as an annual event when school mates may renew their acquaintances. The Northwest School family now numbers nearly three thousand.

A general committee, consisting of representatives from each county has been selected by Dr. Haslin to complete plans for the program. The committee from this county will consist of Paul Engstad, '16 and Theresa Aakre, '24, Thief River Falls.

In union there is strength and in organization there is power, and we have to unite to organize.

Farmers Should Use Clean Seed Aids, Advises 'U' Expert

W. A. Sumner, of the agricultural journalism department of the University of Minnesota, in a recent article in the Classified Journal says in part:

"For the lowest priced member in the classified section, the farmer, is the most extensive user. He has the power to bring quick results and is constantly used by the class of readers who are ready for them to meet their individual needs.

"When the farmer has a small quantity of surplus seed or stock to dispose of, the local newspaper could probably be used to the greatest advantage in securing results. When the quantity is larger a county newspaper undoubtedly would be most necessary. As an even more effective medium the state press could be employed, combined with the farm papers.

"In using the classified advertisement the farmers should not attempt to write too briefly because the saving of a few cents in this manner might bring decreased results.

"If the farmer sets out clearly the products he has for sale, a buyer is almost certain to be found among the readers of the various papers, and because of this, deterioration in his entire stock will be prevented and the product placed in the hands of the individual with immediate needs for the article."

After the storm comes the calm—and also the Red Cross.

GOODRIDGE

Baseball Game

The Goodridge baseball team played the Strandquist team Sunday at Strandquist and were defeated by a score of 9 to 6 and considering the fact that the Goodridge boys have been practicing only a few times this is their first game and an strange ground, it was a fine game. The Goodridge lineup was as follows:

Herbert Anderson, pitcher; Helmer Bjerke, catcher; Albert Wilkins, 1st base; Ilan Payne, 2nd base; Leo Dahlstad, 3rd base; Joe Christianson, short stop; Rudolph Urdahl, left field; Lars Lindelien, center field; Elmer Hanson, right field.

The following people attended the baseball game Sunday at Strandquist between Goodridge and Strandquist: Mr. and Mrs. Owen Olsen and children, Mr. and Mrs. J. Stephenson and children, Mr. and Mrs. Rasmussen, Georgia O. N. Urdahl, George Johnson, Mrs. Ingvald Urdahl, Mrs. Ingeborg Urdahl, Mrs. Jens Moen, Mr. R. H. McDonald, Misses Margie Stenslie and Myrtle Simonson and Beverly Parris.

Mrs. Carl Kenedi entertained 5 of the girls Tuesday evening in honor of her daughter, Violet's birthday anniversary. Those present enjoyed a social time and played games. A lovely lunch was served.

Miss Violet received a number of pretty gifts. The guests invited were Myrtle and Adelia Stephenson, Ilah Parris, Beverly Parris and Ruth Olsen.

There is no changing of water during washing because of the heat-retaining nature of the Maytag's life-lasting, cast-aluminum tub, that drains and cleans itself in 30 seconds after the washing is done.

There is no hand adjusting of the famous Maytag wringer that instantly adjusts itself to a handkerchief or a blanket and wrings both equally dry.

Try the Maytag next washday. Do a whole washing without obligation or expense. If it doesn't sell itself, don't keep it. Phone the Maytag dealer now.

For heater without electricity, the Maytag is available with in-built gasoline motor

One Hour with a MAYTAG *and a* Whole Washing *is* Done

IMAGINE a washday measured in minutes instead of hours. When big tubfuls are washed in 3 to 7 minutes. When a whole big washing is done in one short hour.

When every garment is washed spotlessly clean without hand-rubbing even collars, cuffs and wristbands. When even greasy work-clothes and grimy rompers are washed clean as new in 10 minutes.

FACTS *about used car allowances*

Most new car sales now involve the trading-in of a buyer's used car. More and more people are asking: "Why should my used car seem to have several values? . . . Why should dealers in different makes of cars offer me allowances differing materially? . . . Does the largest allowance offered mean the best deal for me?"

Here are basic facts:

1 Your used car has seemingly different values because competitive dealers are bidding to sell you a new car.

2 Your used car has only one fundamental basis of value: what the dealer who accepts it in trade can get for it in the used car market.

3 The largest trade-in allowance which is offered on your used car is not necessarily the best deal for you. Sometimes it is; but sometimes it is not.

4 An excessive allowance may mean that you are paying an excessive price for the new car in comparison with its real value.

5 Judge the merits of the new car in comparison with its price, including all delivery and finance charges. Then weigh any difference in allowance offered on your used car.

WHEN YOU are ready to trade-in your present car, remember that after all you are making a *purchase* and not a *sale*. You are buying a *new* car and simply applying your present car as a credit toward the purchase price of a new car.

So far as I know, men, rich and poor alike, are the same. And there will be room in the future as equal opportunity for all to prosper. Addition is equal proportions. Let us consider a few men of wealth in our country today. Most of them started out just as poor a man as any of us. His first investment was small. He has earned what he is worth today by using his brains. Perhaps he didn't go begging for the wealthy man's money but in teaching others how to succeed. Some of them started with $25,000. Rockefeller started as poor as any of us. Working in a store. Some of them started with $100. Some with $1000. Furthermore, we must consider the habits of others. Can we justly allow any farmer to go and get any amount of money he wants, then would be no incentive to work.

Whatever a man sowth that shall he also reap. So, it is unto others as ye would that they should do unto you. Can we have laws of nature? — A Reader, Pennington Co., Minn.

Specialists to Instruct Women at 2nd Summer Camp

Plans for the second annual Women's Camp to be held at the Northwest School of Agriculture, Crookston, June 24 to 29, are complete, according to Superintendent A. A. Dowell, and a strong program has been arranged.

Among the outstanding demonstrations to be given in the Northwest School family will be Mrs. Margaret Huber, head of the animal department of the Bemidji Normal school. Miss Julia Nerdrum, state home demonstration leader, University of Minnesota and Miss Helen Christine Pierson, state supervisor of home economics extension of North Dakota Agricultural College, Fargo.

The program of the camp will not only include the presentation of new ideas for the home and community, but stunts, pickles, a theater party, and other recreational numbers as well.

TOO MUCH CREDIT

We found the following interesting article in the weekly issue of The Farmer of St. Paul:

"For years I cannot convince myself that F. A. Fielder's plan can work very successfully. I agree there is too much credit for farmers, but it is unto the farmer who thinks he can escape it from the banker or borrowing money. No man who has been in the line of business for by and by everything on the easy-payment plan will ever make any money for his trouble.

So far as I know, men, rich and poor alike, are the same. And there will be room in the future as equal opportunity for all to prosper. Addition is equal proportions. Let us consider a few men of wealth in our country today. Most of them started out just as poor a man as any of us. His first investment was small. This, the last issue of our paper, closing the school year of 1927, is made possible by the combined efforts of both staffs. Although our name Bond this issue, we are responsible in a large degree to "the old bunch," who relinquished the opportunity of having their articles appear for the last time in the paper so familiar to them.

Looking back over the past school year Mr. Hand and Mr. Ilye express themselves as being very well pleased with the activities of Lincoln high school and the student body as a whole. The faculty and public together with the students have been very pleasant and friendly throughout the year.

The 1926-1927 school year has been very successful in athletics. The students have shown particularly good school spirit and co-operation. For this fact they are known throughout the Northwest. In regard to the prospects for athletics for next year, we hope to have as equally capable teams as we have had during 1926-27. We are fortunate in retaining all the members of our basketball and football teams excepting Captain Ilye Wangsjer, next year we intend to compete with a greater area of teams, as large and even larger than our home town, Thief River Falls.

This year's graduating class is an exceptional group. They have a more higher and better record than the former class has known for several years. Next year's Seniors are expected to raise even this high record, for they, too, are a very capable group.

Seniors may come and Seniors may go but the High School stays on forever.

The Senior Class of 1927 is no exception to this, for, we are about to make our departure from this old institute of learning. We have enjoyed our sojourn in Lincoln; we realize now how much fun and value we've had, the at times we have experienced severe trials and sufferings.

It is with a bit of regret that we surrender our places. We are sorry we are leaving. Four years is a long time. Four years, and hope we will be remembered for the things we did for our Alma Mater!

Correct, be Seated

Hurry lead to worry
Don't hurry to classes.
Don't hurry to hand in your work.
Don't hurry to obey.
And you won't need to worry about graduating—you just won't.

Both minds and fountain pens will work when filled.

But minds like fountain pens must first be filled.

NEW COACH LEADING ATHLETE AT N. D. U.

Ed. Boe Has Exceptional Record in Three Major Sports; Had Many Offers

Times readers will be interested in the following item from the Grand Forks Herald concerning the new athletic coach secured by Thief River Falls:

"Ed Boe, for four years an outstanding athlete at the University of North Dakota, has signed a contract with Thief River Falls high school to act as coach in football, basketball and baseball as well as worker in physical training, it was announced today by Ted Rockwell, university football coach.

"Rockwell stated that Boe had accepted the position after having declined for some time with the authorities at Crookston, Valley City, Hazelton, Hayes, Rent, and Pontiac Mich.

"All these towns were bidding for the Nodak athlete's services. A substantial salary and good athletic prospects were given as the reasons for his decision.

—Good luck, opportunity —

"According to Boe the situation at Thief River Falls gives every indication that the school will be a splendid opportunity for him to begin in the vocation that he has chosen for his future work. Boe watched "Lars" Thune, whom he will succeed, put a spring training football team, numbering fifty youth, Minnesota huskies thru their paces and soon after going to work on blocking and tackling and engaging in football fundamentals, stated that the football situation looks very favorable.

Lars Thune, a former South Dakota State athlete, leaves for other fields to enter private business. The people regret his passing but Superintendent Ilye, realizing this, has procured a man in Boe who will carry on the work so ably fostered by Thune.

Much Praised

"According to Director of Athletics Paul Davis, Boe has been the most sought after athlete who has graduated from the University in years.

"Boe's aptitude on the gridiron, on the basketball floor and on the diamond has led to several flattering offers. It is the opinion of Director Davis that Boe represents the finest type of athlete that the University has ever produced.

"Thief River Falls offers an opportunity for Boe that would be very hard to equal. The situation there has been well managed and at the present time is in splendid condition. Coach Thune has left nothing undone to leave behind him a winning aggregation in all lines of sports and Boe is especially well equipped to carry on where Thune left off.

"Boe is expecting to go to Ann Arbor, Michigan, this summer to attend the University of Michigan summer school and will combine the tuition with his coaching activities."

In Many Sports

Mr. Boe played on the Grand Forks high school football team three years, serving as captain the last year; on the basketball team four years and was all-state forward in 1922; track activity three years, winner of javelin throw in 1923 meet.

His university career includes three years football, captain in 1925; second all conference quarter-back in 1925-26; four years basketball, captain in 1926 and 1927, all conference guard in 1926, all state in 1925-26-27, the basketball team, from which the choice for two years as guard on all conference, one as center (Leading the team both years), all opponent choice, one as center (Leading the team both years), all opponent choice, one as guard; baseball, three years, Newman Trophy winner, 1926, batting champion, Minnesota, Nebraska, Omaha, Minnesota, and Iowa.

As an all-round athletic Mr. Boe chose baseball and has played semi-pro baseball for three years. He still has not the love of football in the fall. 1927 Prowler Greeted as Best Ever Published Here

The 1927 Prowler, sold to the student body last Thursday, proved to be the cause of one of the most famous pep-overs ever seen. The "mayor of the Prowler Revolution. Five minutes after dismissal a mass of eager, pushing humanity was organized outside the bookkeeping room, from which the shower of dozens were being issued. The show, one of the leading features of all opponent choice, one as center (Leading the team both years), all opponent choice, one as guard; baseball, three years, Newman Trophy winner, 1926, batting champion, Minnesota, Nebraska, Omaha, Minnesota, and Iowa.

They Lead Class in Scholastic Achievement

Top row—Marion Reynolds, Alpha Gausen, Linda Jokela. Bottom row—Goldie Gundersen, Dorothy Shirley, Louise VeVea.

These six girls comprise the honor roll group of the 1927 class of graduates from the Thief River Falls high school, which class is declared by instructors to have reached the highest point scholastically in the history of the local schools.

The upper 10 per cent of the class is given the distinction of being designated honor students at the graduation, and the girls pictured above are completing their high school course with averages of more than 90 per cent. The average for valedictorians in high schools of the country is from 92 to 94, indicating the superior standard of the local honor students.

Miss Reynolds, valedictorian of her class, graduates with an average of 97 per cent, an exceptional scholastic record. She has shown marked ability in her efficient editorship of The Progress and as associate Prowler editor. She is a daughter of Mrs. Ila Reynolds.

The salutatorian, Miss Gausen, a daughter of Mr. and Mrs. R. A. Gausen, finishes her course but a step behind the valedictorian, having an average of 96 per cent. Both have shown exceptional brilliance and application and have taken a prominent part in extra curricular activity, as have the other honor students.

Miss Gundersen headed the staff which prepared the 1927 Prowler, an especially fine production, her associates besides Miss Reynolds being Miss Shirley, who has taken a prominent part in musical activities. Miss VeVea has already demonstrated unusual stenographic ability. All are residents of Thief River Falls except Miss Jokela, whose home is at Mallory.

Graduates given honorable mention and whose scholastic attainments have given averages above 90 per cent are: Lars Barstad, Evangeline Nass, Margaret Patten, Ruby Aaseby, Rita Fiterman, and Helen Griebstein. They rank in the order given. Thus one-fourth of the class averages above 90 percent, while three-fourths average 90 or short. The lowest average in the class is slightly above 80, indicating that on the whole the class is above the average.

Only the low of averages 10 or 50 per cent of a class should average 80-86, whereas in this class 75 per cent are above 86. "This is a remarkable record," comments Principal H. C. Hand in reviewing the achievements of the graduates.

Miss Aaseby, a star debater and declaimer, completes her course in three years with an average of 92. Three years ago she attended high school only three years, while the following have attended three and one-half years: Evangeline Nass, Anlis Ayers, Goldie Rammerud, and Lena Amundson. All have averages above 84 per cent.

JUNIORS NAME USHERS...

The last Junior class meeting of the year was called Wednesday, May 25.

STUDENTS EXEMPT FROM STATE EXAMS

Long List of Students Whose Averages for Year Entitle to Exemption

The exemption list from the state board examinations was read at an assembly last year. The students who are free from the two-hour state exams are looked upon by the less fortunate with envious eyes. The Latin word ex-empt means to take away—to purchase. So the "privilege" has been taken away from several of the delighting students, but they realize that the freedom has been purchased by a year or a half a year, depending upon the subject, of concentrated studying. Nevertheless, many of the exempted students think it advisable for pupils to take the tests in spite of exemptions, because it helps the student to get a more complete review and to acquire a well-rounded knowledge of the subject.

The rules for exemption are: For a student whose subject, four A's and two B's or five A's and one C; for a semester subject, two's and one B.

The following students are exempted from certain subjects:

English I: Evelyn Brewers, Rosine Dahlen.

English II: Douglas Boeren, Laura Bowers, Elaine Evenson, Estelle Isaacson, Hanna Haugen, Emily Jacobson, Richard Maley, Mildred Tessum.

English III: Chester Dahlen, Harriet Fuller, Gwendolyn Hanson, Elaine Kordal, Lenore Lieberman, Chester Myrom, Lewis Sandahl, Gladys Weeks, Harold Will, Agnes Angell, Ruby Aaseby, Lilletta Quist, Ruth Palmer, Rita Fiterman, Alpha Gausen, Goldie Gundersen, Dorothy Shirley.

Norse I: Agnes Angell, Gertie Asbjornson, Rolland Brosten, Sagna Brosten, Judith Lockrem, Josefa Nabben.

Norse II: Judith Lockrem, Stella Salvason, Selma Steen, Edith Sten

PLAN CAMPAIGN FOR BOOSTING VALLEY REGION

Proposals for Advertising Red River Valley Discussed at Crookston Meeting

COMMITTEE FROM 13 COUNTIES TO CONFER

This Believed to be Opportune Time to Attract Homeseekers; Booklet Suggested

Launching of a publicity campaign telling the rest of the world about the advantages and opportunities offered in this section of the country was urged at a meeting of the Minnesota Red River Valley Development association held in Crookston Saturday night.

Sixty farm and city representatives from nearly all the Valley counties were present, including a delegation from Pennington: Mayor W. W. Pichette, Jr., County Agent J. J. McCann, H. S. Dahlen, F. J. Stebbins, John Rustrud, Hans Anton, V. Lewis McCullough, and Dreng B. Bjornaraa of Thief River Falls.

In considering a number of proposal plans for the project, a committee comprised of two representatives from each of the 15 Minnesota counties in the valley was appointed to meet in Crookston June 10 to further consider ways and means for advertising the valley and its resources to home-seekers in other localities. Arrangements may be made at that time for the publication of a descriptive booklet.

The sentiment of the meeting Saturday favored development of a plan which would attract more farm owners to this section.

The factors concerned in financing the plans suggested also received close attention. The plan of the Advertising Community club as explained by H. Olson at Shafer, who urged publication of a booklet, taking in both North Dakota and Minnesota counties of the Red river. This suggestion was met with the answer that North Dakota valley residents already were included in the Greater North Dakota association and would probably not be interested in another sectional organization. It was generally agreed that the Development association, if it is possible to carry out the project if given proper support, and the effort will be made to form a state development association similar to those in North Dakota.

F. M. Higinbothan of Red Lake, head of the Development association, presided at the meeting.

Congressman C. G. Selvig of Crookston advocated taking the publicity and development efforts for the valley on a continuous scale, declaring that now is the opportune time for such a project. Others who spoke included Representative O. C. Newman of Fisher, Representative O. C. Newman of Hallock, president of the Minnesota Realty association.

"Hiram" Season Opens

The straw hat season was officially opened here last Thursday when Carl Sanders, local ford dealer appeared with a hat of herbage. It was a residential with Paul's announcement of a new model. Saxahmaster E. F. Thiem braved the cool breezes Sunday and quite a few others have been seen with "straws" this week.

SELLS HOLSTEIN HERD

One of the greatest sales of pure-bred cattle in the United States was completed at Rochester Saturday when the Grahamholm herd of Holsteins passed into other hands at the close of the two-day auction. Two hundred and fourteen animals were sold, bringing a price of $53,000. The herd was owned by Dr. Chester Graham, who owns several farms in this vicinity. Grahamholm Columbia Segis Maid, one of the most celebrated cows in the state and the world, with 1,000 pounds of butter in three years, was sold for $3,000.

Hope is a wonderful thing. Without it life is almost hopeless.

Baccalaureate Service

The necessity of religion as a stabilizing factor in the present bewildering era stressed in an impressive sermon by Rev. E. L. Tungseth, pastor of the Zion Lutheran church, at the baccalaureate service in the auditorium Sunday night. The spacious hall was practically filled with the relatives and friends of the graduates. The sermon was a message that will long be remembered by its hearers.

"Where Is the Rock of Ages as an anchor you will not drift far in the sea of bewilderment and skepticism which marks present conditions," Rev. Tungseth declared. "The church and God must be the stabilizing factors."

Miss Maude L. Johnson played the processional and recessional and also presided at the piano during the singing of two hymns by the audience. The singing of "Send out Thy Light and Truth" by the Women's club chorus, directed by Mrs. O. F. Melby, was a most delightful part of the program. The beautiful number by fifty trained voices, principally Swedish and well balanced group, becoming more and more appreciated by local audiences, who join in hoping for their victory in the state choral contest in Crookston in October.

Closing Assembly

The public is invited to attend the closing assembly at the high school auditorium tomorrow afternoon at 2:30 o'clock, according to Principal Bland. At this time the various awards will be made and athletic letters distributed.

Following the closing of the schools, teachers whose homes are elsewhere are leaving for their vacations; some of them to attend colleges or university during the summer. Nearly all students are returning to their respective homes.

Several young men and women who are attending school or teaching in other localities are beginning to return this week.

...For one who uses his bronchial tubes so little, it is difficult to understand why Mr. Coolidge has been invited.

LOCAL BALL TEAM DOWNS GR. FORKS

Visitors Beaten by 10 - 8 Score; Bronson Coming Here Next Sunday

The Modern Woodmen of America baseball team of this city defeated the Grand Forks M. W. A. nine in a close contest at the fair grounds here, the score being 10 to 8. A good-sized crowd turned out to witness the game, which was an interesting one.

Next Sunday afternoon the locals will play the Bronson team here and a lively battle is assured. Bronson is reported to have a strong team and the Thief Rivrites are showing improved form with added practice.

H. Bundy occupied the mound for the locals during the first few innings against Grand Forks, Ardell Robinson finishing the game, with M. Olson at the receiving end.

Winners in First Walton-ian Crow Hunt Announced

About 20 members of the local Izaak Walton League chapter gathered in the Commercial club room Friday night for a business session and to enjoy the "feed" which culminated the first annual crow hunt. Announcement was made that the team headed by Earl Effinger with 467 points to its credit won over the team headed by Ernest Langevin, which finished the hunt with 446 points. The latter group had to furnish the hunter's feed, consisting of baked beans, brown bread, weiners and coffee served during the evening.

S. Salvesen with 102 points scored for Effinger's team and Fred Lee with 97 points for Langevin's team received a sheath knife. On account of the rains during the first week in May only a small number participated in the hunt.

Arrangements were made for an intensive membership campaign during the first week in June, when the entire city will be canvassed by a committee headed by C. Herbert Jang.

A committee composed of S. A. Peterson, A. Anderson, and Thos. Quale was named to organize additional chapters in the territory north of here, principally Roseau and Middle River.

Large steel signs warning tourists to put out campfires and take other precautions for conservation will be placed on the principal highways leading into the city.

The re-election of R. B. Rasmussen as secretary was accepted. He expects to leave the city this month for a new position.

The next regular meeting of the chapter will be held June 24, but a special meeting will be held at the close of the membership drive, when J. A. Jahren, in charge of the Lake Park Orphanage, will review the activities of their institutions.

Federation Meeting

A mass meeting under the auspices of the Women's Federation will be held Friday evening at the church with Rev. Asatad, Prof. Brown, and Rev. O. T. Stavaas, St. Paul, as speakers. Musical numbers will be furnished by the Woman's Club chorus, directed by Mrs. O. F. Melby; the Thief River Junior choir, directed by Rev. Tallaksen and Mrs. C. A. Stuenes of Clearbrook, pipe organ soloist.

Saturday morning Rev. T. F. Collinson, Minot, N. D., general vice president, is to speak on "Foreign Mission Work."

The business session is set for Saturday afternoon, and the election of officers and other matters will be considered. A discussion of John 15:1-8 will be conducted by Rev. Lindenfeld and Rev. Akre.

Two Sunday Services

A concert by the Park Region Luther college choir of Fergus Falls will be given in the Trinity church Saturday evening at 8:15, under the auspices of the Trinity Senior choir. This will be the big musical event of the convention.

NATIONAL CHURCH LEADERS TO ADDRESS NORWEGIAN LUTH. OF NOR. MINN. NEXT WEEK

(Continued from Page 1)

Women's Missionary Federation and will preside over its sessions.

A committee from the Trinity Ladies aid has been busy the last week decorating rooms in private homes for the visiting delegates. Many homes in the city are being opened to the visitors, but the committee in charge requests those having rooms who have not already been called upon to notify Mrs. Carl Christofferson or Mrs. Dreng B. Bjornaraa as soon as possible.

Accommodations will be required for a large number. Members of the committee, headed by Carl Christofferson, met last night and a favorable response was found.

Eleven circuits comprise the Northern Minnesota district, namely: Alexandria, Benedict, Clearwater, Crookston, Duluth, Fergus Falls, Glenwood, Milaca, Moorhead, Pelican Valley, Thief River Falls, and Twin Valley.

The opening service Tuesday morning at 10:30 will be conducted in the Norwegian language, with Rev. S. C. Haugo, Hawley, preaching the sermon and Rev. E. Salveson, Rothsay, as liturgist. The convential address will be made by Rev. Asatad. In the afternoon communion at 2 o'clock reports are to be made by Rev. J. A. Asagard, Minneapolis, general president, and Rev. Asatad, district president.

Following devotion and singing by the pastor's chorus, Rev. G. Simdal, of Minneapolis, will preach the convential sermon. Reports will be heard at 1:30 and at 7:30. There will be a general discussion of the year's work.

"Home Mission Work," the predominating theme of the convention, will be introduced Wednesday morning by Dr. O. E. Brandt, vice president of Luther Theological Seminary, St. Paul. This will be preceded by a prayer service at 8:30 by Rev. Lindenfeld. Brandt's address, Rev. O. J. Hoff, Thief River Lake, will speak on "City Home Mission," and Rev. Asatad on "Rural Home Mission." The home mission topic will be continued in the afternoon by Rev. Akre with a discussion by workers on the Northern Minnesota home mission field.

Dr. O. E. Stub, pastor of the Central Lutheran church, Minneapolis, is scheduled to speak on "Home Mission Work in the Cities" at the evening meeting, which is to open at 7:30 with devotion and music led by the pastor's chorus. His address will be followed by a discussion led by Rev. J. H. Steffenson, vice president of the district, and Rev Elias Rasmussen, Duluth.

Thursday morning the home mission work Overseas will be continued by Dr. Brandt, following a devotional service at 9 o'clock, with a discussion led by Rev. B. B. Thompson, Minneapolis, general home mission secretary, and Rev. L. C. Graabner, Ada. Rev. Graabner will present methods of circuit organization for effective home mission work.

In the afternoon John 15:1-10, Christ's words, "I am the vine, ye are the branches," will be introduced by Rev. J. Linnerud, Glenwood, who has charge of conventional arrangements for church papers. Rev. J. E. H. Akre, Goodridge, is to lead the discussion following.

"Christian Education" will be discussed by two prominent educators at the Thursday evening session, opening at 7:30 with devotion and recitations by the pastors' chorus. The speakers are Prof. J. N. Brown, president of Concordia college, Moorhead, and Prof. E. Wolfsberg, head of Park Region Luther college, Fergus Falls.

The topic for Friday morning is "Church Finances," to be explained by Rev. H. O. Shurson, Minneapolis, general treasurer. The discussion will be led by Rev. S. M. Nyvlaker, Fergus Falls.

Rev. H. B. Kildahl, Minneapolis, secretary of the board of charities, is to talk on "The Relation of Our Church" Friday afternoon, when N. O. Skaugo, manager of the Wild Rice Orphanage at Twin Valley, and Rev. A. Jahren, in charge of the Lake Park Orphanage, will review the activities of their institutions.

Federation Meeting

A mass meeting under the auspices of the Women's Federation will be held Friday evening at the church with Rev. Asatad, Prof. Brown, and Rev. O. T. Stavaas, St. Paul, as speakers. Musical numbers will be furnished by the Woman's Club chorus, directed by Mrs. O. F. Melby; the Thief River Junior choir, directed by Rev. Tallaksen and Mrs. C. A. Saturday morning Rev. T. F. Collinson, Minot, N. D., general vice president, is to speak on "Foreign Mission Work."

The business session is set for Saturday afternoon, and the election of officers and other matters will be considered. A discussion of John 15:1-8 will be conducted by Rev. Lindenfeld and Rev. Akre.

Two Sunday Services

A concert by the Park Region Luther college choir of Fergus Falls will be given in the Trinity church Saturday evening at 8:15, under the auspices of the Trinity Senior choir. This will be the big musical event of the convention.

Two divine services are arranged for Sunday morning, the 10:30 and 10:30 o'clock. The English language will be used at the meeting with Rev. Gullixson preaching and Rev. Salveson as liturgist. Rev. Jacobson will conduct the services at the Norwegian service in the church, at which Rev. H. S. Ramm, Goodridge will be the liturgist.

The Trinity choir directed by Dr. P. L. Vitzansett will sing at one of the services.

The convention is to close Sunday afternoon, when Prof. C. M. Wewig of Luther Seminary is to speak on "Christian Education," and Rev. Asatad closing remarks will be made by Rev. Asatad.

Rev. H. W. Estrem, Pelican Rapids, is secretary of the district organization.

A pastors' chorus of about 25 members will be organized at the opening of the convention by Rev. Casper Johnsbuy, Starbuck. Among the singers will be Rev. Tallaksen and Rev. Ramm and others who were members of seminary glee clubs.

The Federation convention opens Thursday morning at 9:30 officially when the annual report will be read and published by Rev S. L. Tallaksen of this city. Reports will be presented by the district and circuit officers and missionaries.

Mrs. I. D. Vivlasker of Minneapolis, general president, will give a report and present the delegates who, besides representatives of the various church societies, will represent their various departments. Miss Mollie Feldhaus of Minneapolis is in charge of conducting and rewiew work at the church institutions.

Musical numbers are to be given at the various women's sessions as follows: Thursday morning, Rev. H. Hanum, Goodridge, vocal solo, and Rev. Casper Johnsbuy, Starbuck, violin. Thursday afternoon, Rev. Swenson, Baudette, and Mrs. S. Lovaid, Middle River, vocal duet; Rev. O. J. Hoff, Thief River Falls, vocal solo, and Lucille Herman, Thief River Falls, vocal solo. The Friday evening program will be given by the church has already been mentioned.

The closing reception will be tendered the visiting women by the Ladies aid society from 8 to 10 Wednesday night.

The Trinity congregation will be represented at the district meeting by Carl Christofferson and Olaf Tessum, while Mrs. A. Berggrend and Mrs. Lars Larson are delegates from the Ladies aid to the Federation meeting.

South Side Juniors Defeat West Siders in Fast Game

NEARLY 200 DELEGATES AND 100 PASTORS ATTENDING DISTRICT CONVENTION AT TRINITY CHURCH

Women's Missionary Federation Opens Session Today with 150 Delegates

SPEAKERS OF NATIONAL PROMINENCE ON PROGRAM

College Heads Address Educational Meet Tonight; Two Services Next Sunday

Trinity Lutheran congregation and Thief River Falls are hosts to pastors and delegates of the Northern Minnesota district of the Norwegian Lutheran church of America...which opened its bi-annual convention here today. Three sessions are held daily, closing Sunday afternoon, with numerous addresses and discussion of the various phases of church work by national leaders.

Nearly 100 pastors and about 200 delegates are in attendance at the meeting, sessions of which are held in the Trinity church, presided over by Rev. J. T. Asatad, Detroit Lakes, president of the district, and secretary of the local congregation for 25 years before taking his present position in 1925. Numerous addresses have been filed and additional state, national and international church problems will be discussed, according to the program announced by Rev. Asatad.

Among the speakers who will be heard this afternoon and evening are Rev. Mrs. T. Hoop, Thief River Falls, vocal solo, and Lucille Herman, Thief River Falls, vocal solo. The Friday evening program will be given by the church has already been mentioned.

The closing reception will be tendered the visiting women by the Ladies aid society from 8 to 10 Wednesday night.

The Trinity congregation will be represented at the district meeting by Carl Christofferson and Olaf Tessum, while Mrs. A. Berggrend and Mrs. Lars Larson are delegates from the Ladies aid to the Federation meeting.

South Side Juniors Defeat West Siders in Fast Game

The West side team Sunday lost to the South siders by a score of 5 to 3. It is the third game of the Junior Baseball League sponsored by the Legion. A number of fans gathered at the fair grounds to watch the game and were furnished plenty of thrills.

Following is the box score, submitted by Manager Joe "Ladoo" Matcosko:

A provision was made by the state legislature so that future aid will be apportioned in such a way that deficiencies cannot again occur.

Payments of mothers' pension deficiencies, also provided for, will be distributed this month to 27 counties, Pennington to get $1,237.

FERGUS FALLS CHOIR TO SING SATURDAY

Church Convention Delegates and Others to Hear Concert by 40 Singers

A feature of the Norwegian Lutheran church convention here this week will be a public concert by the Park Region Luther College choir from Fergus Falls to be given in the Trinity Lutheran church Saturday evening. It will be this choir's first visit here and local music lovers look forward to the program with a great deal of anticipation, as the organization has been enthusiastically received in other cities.

Under the direction of Prof. Sigvart Dose, former soloist with the noted St. Olaf College and an understudy of Dr. Melius Christensen, the Fergus Falls group has developed into an exceptionally fine degree of musicianship according to those who have heard these 40 youthful singers.

The especially delightful program has been arranged for the concert in this city, which will be attended by pastors and delegates from Minnesota, including the families of some of the singers. The concert opens at 8:15.

Following is the personnel of the choir:

First Sopranos—Kathleen M. Nelson, Minerva Asleson, Ruth Larsen, Cora Thorson, and Irene Rasmussen.

Second Sopranos—Edna Brandrud, Hazel Boyum, Valborg Ordahl, Ruth Swire, Pearl Jordahl, Geneva Goodsell.

First Altos—Valborg Ylvisaker, Esther Lawrence, Ruth Ingram, Helga Ylvisaker, Florence Hegge.

Second Altos—Ethel Svare, Ethel Hanson, Miss Dahl, Miss Lee—Loomer, guard, Laura Kjorstad, and Florence Svare.

First Tenors—Alexander —Forde, Boyd Gendrud, Orien Asleson, and Harmon Swire.

Second Tenors—Aldeo Snowbeck, Rudolph Hegge, Christian Olson, and Harold Hatch.

First Basses—Joe Fatland, William Bergquist, Marcus Wiik, Lawrence Hatch.

Second Basses—Arne Fischer, Grant Haugen, Gerhard Lergaard, Karl Zilmer and Sigrod Sonju.

Prof. E. Wolfsberg, president of the college, will address the Christian education session of the convention tonight.

CHURCH CONVENTION PROGRAMS ARE WELL ATTENDED

Fifty-two Complete High School Course; 23 Get Teachers Certificates

REV. SMITH DELIVERS INSPIRING ADDRESS

Class of 77 Eighth Graders Given Diplomas; Bennes Speaks at Exercises

The auditorium was filled to capacity Friday night when 52 members of the 1927 class of Lincoln high school received diplomas and 23 postgraduates were issued teacher's certificates at the 24th annual commencement exercises which marked the closing of one of the most successful terms in the Thief River Falls school system. A heavy shower in the afternoon kept many country people from attending.

The program was thoroly enjoyed, especially the address by Rev. Ralph Smith, pastor of the Simpson Methodist Episcopal church in Minneapolis and one of the best speakers of the Northwest. The audience was kept at rapt attention by the address, which was replete with clever expressions, logic, humor, pathos and touches of laughter.

The essentials for success in a material way were effectively brought out in a discussion of "Make Help Wanted," the various points being taken from the report of page of a recent publication.

Success does not consist of owning things but of becoming something, the speaker said in defining success.

Education is to be considered by the young man as a means of fitting himself for a job as drawn from representative sources, the speaker said in his report. Must be able to deliver the goods; must be honest; must have pleasing personality; must be able to EARN.

Education is to develop character. He also quoted the wisest man who ever lived as saying "character is proportion to ability".

The eloquent speaking boy he said in referring to "No cigarette smoke in my lungs."

Every point of the inspirational address was driven home by illustrations giving concrete examples of what is meant by the various points mentioned.

The address was brought here by car from Fertile by T. R. Bayard, who is a member of the board of education. He also addressed the Commercial club at a luncheon in the Grand Forks hotel at noon. His talk on "Some Wild Notions of Education" was replete with humor and sound, while philosophy. Fallacies of numerous common sayings, such as "Take all things with a pinch of salt" and others were aptly exploited.

The value of the church to the community was strongly emphasized to the graduates.

In exploding the statement "The good die young" he said that "only the wicked die young."

The commencement program, preceded by the processional march, played by Mrs. Dye, was opened with the processional, "Priest's March" played by the class.

Many High School Students are Honored at Closing Assembly

Athletic Letters, Citizenship Medals, and Special Awards Presented to Students

The final high school assembly of the year took place Friday afternoon following the distribution of report cards and class standings. It was attended by every Lincoln High student and a few adults, some of them alumni of the school. Principal Harold C. Hand presided. This was the last gathering of the high school students until the school term opens next September.

In accordance with an established custom, the class banner was presented, in this instance by Byron Thorshlosen, senior class president, making the presentation on behalf of the class. Miss Harriet Fuller, junior president spoke in behalf of the 1928 class.

Athletes Get Letters

Thirteen football players on the 1926 team were awarded letters, the significance of which was emphasized by Superintendent Harris Bye.

Captain Raymond Wangsjer, Captain-elect Roy Oen, Frederick Wangsjer, Gordon Dahlow, Robert Erickson, Melvin Olson, Earl Bessler, Emil Jorgenson, Ole Hegge, Ralph Hanson, Willard Furan, Selmer Severson, and Clarence Larson.

Five letters were awarded to basketball players all members of the football team, as follows:

Wangsjer, Ericson, Oen, Dahlow, and Severson.

Gordon Dahlow received the trophy offered by Coach L. A. Tessum for the best cool shooting in practice during the entire basketball season. The trophy is in the form of a gold basketball.

Coach Tessum Honored

In presenting the letters Mr. Bye paid a fine tribute to the excellent work done by Coach Tessum during his four years of service in the local schools, and expressed the regret of teachers and students that he will not return here next fall. The speaker urged to always remember the ideals and principles of good sportsmanship and fair play exact thereby by the coach.

JUNE IS HERE

June-is the month we all look forward to as the delightful scene of the rare days that have been described by poets of the ages. Others have done well by June. The subject supplies imagination enough for any composer of rhyme to fill level best.

If June behaves as is its custom, it deserves all that the grand and the lovely poets have said about it. Occasionally June showers a rebellious spirit in it, but so rarely is this true that the exceptions prove the poets' rule of June's universal smile for June.

This is the month of the year when nature perfects herself. Spring is the month of May flowers and then delightful, are but the temporary stages. They set the scenery, prepare the stage, give life to the buds and bring out the foliage in the splendor background for the lovely fingers that make June fascinate.

We may sing poems to June, but the month of brides and roses and sweet girl graduates and other things good to look upon would be a dismal failure were it not for the hearty ex-pectation of April and May.

TO HEAR ST. OLAF CHOIR

A number of local people will motor to Crookston next Sunday evening to hear the famous St. Olaf Choir give their sing at the Armory there at 8 o'clock. NORWEGIAN LUTHERANS OF NORTHERN MINNESOTA CONVENE IN CITY

Continued from Page One

Glenwood; Rev. A. Moland, Pelican Rapids; Felican Valley; Rev. John Johnson, Radium, Crookston; and Rev. R. S. Hauge, Valley, Fertile.

Rev. G. Walther Tolo, Fertile, is in charge of the pastors' equalization.

Two church congregations were taken into membership at the afternoon session, these being the Trinity English Lutheran of Cook and the Zion of Osler.

There are at the present time 478 congregations in the Northern Minnesota division of the Norwegian Lutheran church of America, according to the report of Secretary Ystrem which was considered next. 1,000 members are ministered unto. The membership is placed at 55,765. The total number of communicants was placed at 47,819, an increase of about eight and a half per cent in the past three years.

During the year 1926 services to the number of 12,000 were held. School enrollment for the religious training of children was stressed during the session, there having been 3,000 days of schooling in the entire district taken into account. The total enrollment attendance of 8,253, or gain of 1,117 over two years ago. Six thousand and thirty eight Sunday school sessions were held, with a teaching force of 1,429.

2 New Churches

Corner stones of two churches were laid during the last year, while seven churches were dedicated, according to reports presented at the session. Corner stones were laid for Trinity church in this city where the new church is built and for Nazareth at Wanke, in Hickory township. The dedication of Trinity of this city will be held on St. Pauli at Hazel.

Fifteen pastors moved into the district. Adolph Lee, Pelican Rapids; Verne Olsen, Fertile; M. G. Bilsell, Hendrum; Clifford Lysen, Nashwauk; and Rev. R. Leirfallsem, Wanke. Hendrum, Blackduck, Stanley Lyson; and Swenson were ordained during the year.

There were eight resignations, including C. M. Grimsrud, to Hillsboro; Rev. R. H. Ness, A. O. Odegard, to Blackduck, and H. Gulbiseth, Greenbush.

Dr. Aasgard Gives Message

Rev. Aasgard presented the theme for Tuesday evening-pertaining of old pastors and widows. Rev. G. Arnesdal, Minneapolis, gave a report history of the pension board, stated statistics in substantiation of the pressing need of a better pension system than the one now in force. He reviewed the course taken in other denominations and spoke in appeal for the reserve fund plan which has been successfully used by large church bodies of the country. In the discussion following Rev. Grimsland, and Rev. Warren spoke for the lay delegates and appealed for definite action, and the question was referred to the committee on church affairs.

A parable was given under the direction of Rev. J. H. Steberg and Isaiah Christ's words, "I am the vine, ye are the branches, still be introduced by Rev. J. Linnerud, Glenwood, who had charge of convention publicity for the church papers. Rev. J. H. Aker, Shelley, is to lead the discussion following.

"Christian Education" will be discussed by two prominent advocates at the evening's session, opening at 7:30 with devotion and selections by the pastors' chorus. The speakers are Prof. J. N. Amundson, Moorhead, was elected mission secretary for two years. John Weld, Park Valley, was named to represent the district on the general finance committee at the biannual meeting next year.

Dr. Rinb Spoke Last Night

An interesting address on "Home Mission Work in the Cities" was delivered last night by Dr. A. G. Rinb, pastor of Central Lutheran church, Minneapolis, and president of the Minneapolis district of the church body. He used the Norwegian language. His hearers were given a clear insight of the problems that confront the church in the large centers of population, which he pointed out are little fields for religious work despite difficulties. An appeal was made for greater interest in city mission work. Attention was called to the large number of young people who drift into the cities from the smaller communities and often are attracted away from the church by the numerous other appeals.

Dr. Stub's father preceded Dr. Aasgard as general president of the Central Lutheran congregation is building now $200,000 church.

The discussion following Dr. Stub's address was led by Reverends Steinberg and Rasmussen, of Duluth.

A much enjoyed feature of the program is the singing of the pastors' chorus of about 20 voices under the direction of Rev. M. C. Stenberg, Starbuck.

This morning the home mission work of the church was continued by Dr. Brandt, following a prayer service at 9 o'clock, with a discussion led by Rev. H. Kildahl, Minneapolis, secretary of the board of education, in the talk on "The Charity Work of Our Church" Friday afternoon, when Mr. O. Thompson, manager of the Welfare Department of Twin Valley, and L. J. Salvesen, in charge of the Lutheran Park Commission, will discuss the activities of their institutions.

M. W. A. TEAM WINS OVER BRONSON SUN.

Robinson Strikes out 12 in 13 to 11 Victory at Local Fair Grounds

The Modern Woodmen baseball team of this city Sunday afternoon downed the Bronson nine by a score of 13 to 11; this being the second victory this season. The locals are showing increased strength with each game and are giving a good account of themselves. A fair-sized crowd gathered at the fair grounds to witness the game.

A. Robinson again pitched for Thief River Falls and struck out 12 men. Olson of Bronson struck out six. O'Hare caught for the locals and K. Danielson caught for the visitors.

Following is the box score:

Appreciative Audience at Big Chorus Concert

The concert given at the Elim church last Monday evening by the Augustana college choir was greatly enjoyed by an appreciative audience. Most numbers were encored and all were well rendered. The program with various readings, solos, duets, and choruses, was a delightful evening's pleasing, as were the solos rendered by Prof. Lee Sloan and E. F. Oyaas. He mastered his instrument with ease and marvelous accuracy.

Surprise Party.

Mrs. John Kelliher was hostess to a number of girls at her home yesterday afternoon in celebration of the ninth birthday of her daughter, June. The time was pleasantly passed with outdoor games on the lawn, after which luncheon was served at a table prettily decorated in pink and white. The little guests included Ethel Pomroy, Lois and Sylvia Hanson, Marjorie Thrasher, Marjorie Lane, Edna Gilquist, Helen Berg, Alice Anderson, Harriet Hawkins, Edith Knutsen, Eileen Rhodegard, Eileen Holland, and Gladys Reinlan.

Member of State Board

A picture of Mrs. Thelma Holm Erickson appeared in the Minneapolis Journal Sunday with the pictures of the nine other officers of the Minnesota State Federation of Music clubs, of which organization Mrs. Erickson is second vice-president. The annual board meeting, following which luncheon was served, Mrs. Erickson was unable to attend, took place Tuesday at "The Wicket," at Prescott-on-St. Croix, the summer home of Mrs. Dwight Williams, state president of the Federation.

Mildred Hansen to Graduate

One hundred and eighty students of the Bemidji state normal school will receive their degrees, diplomas, and certificates at the annual commencement exercises to be held in Lyceum theatre, Minneapolis, for which an extensive program has been arranged. The graduating class will be addressed by Mr. and Mrs. William Mather Lewis.

Miss Mildred Hansen, a member of the class, will be awarded a certificate of graduation from the kindergarten primary department. Miss Hansen is a member of the Sigma Sigma Sigma sorority and has been active in dramatic work while attending the school. She is a member of the Bemidji Players, a group of young people who have staged a number of successful plays during the past year.

Thelma Holm Erickson Pupils Give Recital

Mrs Thelma Holm Erickson will present her pupils in a piano recital at the home of this city and Lawrence Mansfield, a pupil of Mrs. Erickson, will play a violin solo. The graduates will receive their diplomas from the Bemidji State Normal school at the commencement exercises to be held in the Lyceum theatre, Minneapolis, for which an extensive program has been arranged

It is a regrettable fact that practically all of the Gamesters sold at the consignment sale last week were of the ilk immediate kidney, many of them into North Dakota. It is all the more to be regretted when one stops to think of the fact that while 25 head were consigned by Pennington county breeders only five were bought by local farmers—a net loss of 20 head.

Near Red Lake Falls a number of head of live stock have died recently as a result of having been shot, by boys with 22 calibre rifles and Sheriff Charles Fellman publishes a notice in the Gazette stating that they expect to be positive carriers of tularemia will be arrested hereafter. Boys should exercise the utmost care when using the shooting as a stray bullet may lead to damaging results.

Thief River Falls has again lived best to a reputation of an up-and-doing means, and came out of it with colors flying, for many delegates spoke of the hospitality shown them on all sides. It goes without saying that the city received much advertising as a result. These visitors when they henceforth speak of Thief River Falls will continue to boast for the city, naturally enough and they will want to come here when they have the opportunity. Conventions, on the whole, are a good thing and the city will do well to get all of them it can.

Probably never before in the history of the city has such a beautiful spectacle been witnessed as that of the flag day exercises at the Elk's park on the river bank Tuesday night. Just before the sun sank beneath the western horizon, behind the lodge hall which mount higher and higher toward the western line of Pennington county, the "colors" came marching by. The parade ended in the park where a set sentence made by about a hundred active, easily-painted. Then, as the sun went down in the west, the Ex-service men lowered the flag to the accompaniment of The Star Spangled Banner, just as the full moon in all its glory came up over the tree tops across the river to the east. Altogether, it was a beautiful sight, and people learned that Thief River Falls has a beautiful park, skirted by the Red Lake River, and with beautiful trees, some young, but many old, graceful ones also, bordering the same. It is a place that will grow in favor as time goes on.

A WORD OF APPRECIATION

Rev. M. P. Tuhern of Holden, Wis., who visited Thief River Falls last week, desires to extend a hearty thanks to Dr. and Mrs. J. N. Kerr for their hospitality, to the City band for its splendid open air concert and congratulates the citizens of Thief River Falls for having such an efficient city government that cleanliness in every respect rules supreme. He would be glad to call your city "The Pearl of Northern Minnesota."

All things come to an end, but which, God depends upon you.

56 GUERNSEYS WENT ON SALE LAST THURSDAY

(Continued from Page 1)

Dahl, each purchased 11 of the Guernseys, the former digging into his funds to the extent of $552.50, while the latter likewise imported with $681. The third largest purchaser was Geo. McCabe of Minneapolis, buying four from North Dakota herds at the spectacular cost of $552.50.

The three cattle that sold at $552.50 the valuable Red River Valley Guernseys were sent at the total of 56 head, while a few other fine cattle were secured by individuals from that state, all of them being determined to improve the livestock of North Dakota at the expense of Minnesota breeders.

The fourth largest bidder in number was the county agent from Clearwater county, A. A. Lund of Bagley purchasing for interested livestock men in that section. He readily laid $522.50 for last four head, and went away well satisfied that Clearwater county livestock will be vastly improved.

County Agent M. R. Taylor of Bemidji, county Agent Pace of Grand Forks, A. D. Collette, secretary of the Warren Commercial club and Agricultural association, and others were there: Supt. A. A. Dowell, G. M. Keyser, livestock specialist, and D. H. Lafond, livestock instructor, the three being from Northwest School of Agriculture at Crookston; and L. Jolliff, Clearbrook, president of the State Dairymen's association, were all interested spectators and bidders at the sale. Assisting Col. Tellier in auctioneering were Ralph Hale of Warren and W. B. Bosworth of Ada with the ring was clerked by the First National bank of this city.

Hillstrom, Thief River Falls; Arthur Cook, Thief River Falls; C. T. Thomas, Goodridge; Vilas Johnson, Red Lake Falls; Marvel O. P. Austin, Crookston; Kenneth Anderson, Crookston.

Better Prices Than Year Before

A few comparisons of prices this year and those of last year will serve to demonstrate the fact that the prices for which these fine Guernseys were sold are higher this year than last. Last year the average price of the seventy bulls sold was $82.50 while this year it was $8.50; the purebred cows and heifers a year ago brought $129 each, while this year the lot went up to $186.75. The grade cows a year ago averaged $99 but this year these animals brought 23 cents over the $100 price.

While the sale at first glance does not appear to be high in price, yet when it is considered that most of the animals sold were merely calves, or young stock, it then becomes apparent that exceedingly good prices prevailed. Had there been more cows in the consignment the prices would have gone far above the amount bid last Thursday, but it was hard to get any of the Guernsey owners to part with their older stock.

Another evidence of how good stock increases in value, especially when well bred, was demonstrated in the sale of a fine grade animal for $155 which was under the hammer at the sale here last year for $57, the owner practically doubling his money in the year and being one of the most satisfied people connected with the sale.

Adopt Resolutions Before Convention was Adjourned

The committee on resolutions, consisting of Revs. G. G. Beito and D. G. Jacobson organized by electing Rev. Beito as president and Rev. Jacobson as secretary, and on Saturday afternoon, just preceding the close of the meeting submitted the following report which was unanimously adopted:

The Northern Minnesota District of the Norwegian Lutheran Church of America in convention assembled June 7 to 12, at Thief River Falls, Minn.

1. Wishes to express deep appreciation of the goodwill and hospitality shown by the many citizens of Thief River Falls who have given so freely of their time, thought and effort that the convention might be pleasant and profitable;

And that the many whom we wish to thank are:

a. Trinity Lutheran congregation and its pastor, Rev. S. L. Tollaksen, the Ladies' Aid, the Dorcas Society and the housing committee, as well as the many members who have so hospitably entertained the members of the convention;

b. The members of Zion Lutheran church and its pastor, Rev. E. Tungseth;

c. The members of the other congregations in the city who have opened their homes for the entertainment of members of our convention;

d. The Commercial club, for providing hotel rooms for the officers of the convention and giving us the use of the Auditorium for the Sunday services;

e. The Thief River Falls school board for the use of the Central high school building;

f. The Municipal band, for its free concert.

2. Sends Relief of the Association, from out the Thief River Falls congregation, the Thief River Falls Ladies' Aid, and the Thief River Falls Dorcas Society, for their splendid work in connection with the convention.

3. The convention notes with regret the death of Mr. L. W. Pedersen of Halsted, Minn., which occurred at this time.

It remembers with gratitude his great gift to the church by first establishing the Lake Park Orphanage with his own means, and later deeding this orphanage, together with 320 acres of land, to the church.

Our sympathy goes out to his bereaved daughters, and our hope and prayer is that God be with them and comfort them in their sorrow.

4. The secretary is hereby instructed to transmit copies of the above resolutions to the proper authorities.

(Signed) G. G. Beito
D. G. Jacobson

The resolution committee also paid homage to Fred Elling Hove of the Hendrum community, the man being a Norwegian, and to be transmitted to him in that manner.

ARNOLD AVENUE WILL BE GREATLY IMPROVED

Arnold Avenue is being graded with one of the large motor units used in grading the country highways, the street commissioner, with the approval of the council, believing this very necessary improvement very much needed thereon.

Residents living on the street and persons having occasion to use it, should be a little more patient than usual, while this year the job will undoubtedly be one of the best in the city, and is one of the few thru streets on the west side.

Classifieds may be sent to qualifieds in some localities, but in others it is next to impossible.

Commerce in the Air

Arthur Brisbane, in the Chicago Herald and Examiner of May 16, says, "Standard Oil of Indiana announced yesterday the purchase from Henry and Edsel Ford of a large, commercial, engine-driven monoplane 'to provide safe, fast and comfortable trips' for its officials to outlying oil regions.

"The time of a good oil man is worth more than the price of several airplanes.

"Perhaps Standard Oil will contribute to American flying on its own account, and build that 'real flying machine' which Henry Ford suggests."

The Standard Oil Company (Indiana) has been, and is, contributing to American flying in the interest of the people whom it serves by the development of special gasoline and lubricating oil for aviation use and by its program of marking air trails.

This company is interested in commercial aviation. It has proved in its own business that the air is an extraordinarily satisfactory medium of communication.

The Air Mail has been a tremendous asset to the Standard Oil Company, (Indiana), increasing the efficiency of the organization. Other business concerns and individuals throughout the United States have appreciated this speedier mail communication it makes possible, as the record for 1926 testifies. A total of 17,345,000 letters were carried by airplane during the year.

This Company's investment in a giant monoplane is further evidence that the Company is deeply interested in commercial aviation.

The new all-metal monoplane, named the Standard, can accommodate eight passengers, has a wing spans of 71 feet, and is propelled by three motors. It uses 55 gallons of gasoline an hour and carries fuel for a sustained flight of five hours.

The Standolind was purchased to provide safe, fast and comfortable transportation to oil producing regions, division headquarters and outlying refineries.

The Standard Oil Company (Indiana) is always on the alert for new ways and better methods of increasing efficiency. The purchase of the new monoplane is in line with its progressive business policy.

ISO=VIS
Takes the "guess" out of lubrication!

It's a great satisfaction to know that your car is thoroughly lubricated—that there's no danger of the oil thinning out, no matter how long your trip.

If you use Iso-Vis, you can know that satisfaction. There was no guesswork in the making of this motor oil. It was carefully and painstakingly developed to meet the new theory of *scientific* lubrication.

There's no guesswork about its performance either. Iso-Vis lubricates a car with a new efficiency —always on the job *every* mile of *every* trip! One of the thousands of appreciative letters the Standard Oil Company (Indiana) has received, relating actual experiences with Iso-Vis, is reproduced below:

Iso-Vis takes the "guess" out of lubrication because it maintains constant viscosity—it is always the same. The body is as good at the finish as it was at the start—in fact it "seems a shame to throw it away"!

According to statistics, ordinary oil loses two-thirds of its body before the car has gone 200 miles. That explains the big difference motorists notice when they start using Iso-Vis—the greater smoothness—the freedom from dilution troubles—"better lubrication at lowered cost per mile!" Iso-Vis saves trouble—and saves money! 30c per quart at Standard Oil Service Stations and all licensed garages.

TENTH ANNUAL PICNIC OF MARSHALL COUNTY

The tenth annual Marshall county picnic will be held yesterday at Mendenall's grove, three miles east of Argyle. Quite a few from Thief River and neighboring farms north of here were in attendance, attracted mainly by entertainment given by Mrs. Frank St. Murphy, speaker of the day, was Mrs. Mary Sheets-Haugen, farm wife, who has championed for equal pay.

An interesting program starting early in the forenoon, and concluding with a country dance in the evening, was carried out.

TWO ECLIPSES IN JUNE; ONE OF SUN; ONE OF MOON

Two eclipses come this month, a total eclipse of the moon occurring Wednesday June 15, visible almost in United States, and a total eclipse of the sun, which may be seen in parts of Europe and Asia, the most astronomical interest will be the shadow approach of Venus Wednesday noon on June 21. It is six years since the comet was visible. The most important feature in connection with the comet is that it will be only 2,500,000 miles distant from the earth, and it does a heavenly body, except the moon became so seldomly so this.

TRAFFIC SPEEDED UP BY TRAFFIC BUTTONS

The installation of the yellow traffic buttons at each street intersection of the paving has tended to speed up traffic, police points for it is no longer necessary to make sharp turns as formerly, and the elimination of the "silent policemen" formerly placed in the center of the intersection. All that is necessary is to keep to the right of the buttons, observing caution so as not to collide with pedestrians who again have the right of way, according to the act of the last legislature, and approaching vehicles coming from the right.

LIBRARY IS CLOSED FOR ENDECORING REPAIRS

The Carnegie library has been closed this week, while repairs are being made to the interior. A new floor is being put in because of the work taking longer than was estimated, the re-opening may be delayed till some time next week.

When the opening can be definitely determined a notice will be posted in the post office lobby and also placed in the newspapers.

ROTARY SCOUT CAMP IS GOOD INVESTMENT

Local boys who atten scout camp last year are enthusiastic about what it offers. Instruction is given in various scout activities, with P. C. Grady chairman of Grand Forks, Scout executive, in charge, and Fred Allen of Grand Forks, instructor in water sports. Approximately 75 Scouts from various towns in this section attend each camp. Each period will be divided into four units or groups, each under the personal leadership and specializing in different branches of Scouting. It is planned to have in Indian Council Wagon, Sea Scout, and Daniel Boone patrol, each group directing the activities along the line suggested by its name.

Camp Rotary has a capital investment of nearly $4,000. The expense of the camp will approximate $500 per month. The boys bring their own bedding, other supplies and pay 50 cents a day for meals, the only cost.

It now appears that the Americato-Europe fliers will be as thick this summer as the non-stop swimmers of the English channel were last summer. Some cut vegetables out of their garden and others lost use them for a summer diversion.

ST. HILAIRE

Mrs. Ida Winter

Word was received here Wednesday by Mrs. Hugh of the death of her daughter Mrs. Barry Winter of Hillsboro, N. Dak., which occurred Wednesday morning at the hospital in that city after an operation.

Mrs. Winter was before her marriage, Miss Ida Hugh. She was born in Ontario, Canada, where she resided for twenty-five years, coming to St. Hilaire in 1914. She took up homestead claim in Hillsboro township in 1920, to Harry S. Winter whom she was married in 1921. Besides her husband and little son William, she leaves to mourn her death, her father, Mr. Hugh, two brothers, Edward and William of this village, Signet of Hillsboro, and Mrs. Ed. Hoffman of N. Dak. Funeral services were held Friday at 2:30 o'clock at the home and William Rose, pastor of the Methodist church in Hillsboro officiated. Interment was made in the Hillsboro cemetery. Pallbearers were Ralph Hugh of Minneapolis, Signet of Hillsboro, Edward and William of this village.

Mrs. H. F. Dunn injured

Word was received Monday by Mrs. Frank Dunn of this village that Mrs. Dexter Dunn, wife of Dexter Dunn of Hillsboro, had injured in a car accident at San Diego, Cal. She was waiting for a car, when she was struck by a passing autoist being thrown on the pavement. Her injuries are not serious being confined to the abdomen. She was very much bruised, receiving a deep gash in the left side of her abdomen. Several X-ray pictures have been taken to determine whether she is suffering from any internal injuries, but as yet no report has been received. Friends of Mrs. Dunn wish her a speedy recovery.

Mr. and Mrs. Sigurd Engh accompanied by Mr. G. Fellman left Tuesday morning for their home at Minneapolis. Upon their return they were accompanied by Mrs. Engh's mother Mrs. Olson of this village who will visit a short time with relatives.

MUCH TAX MONEY WAR COLLECTED LAST MONTH

A total of $154,874.84 was collected during the month of May by County Treasurer, Jens Gullingrud, the bulk of which was in payment of real estate taxes, which totalled $125,249.92 for the month, while $19,484.90 came in for delinquent taxes.

Mrs. Ed. Lund has been busy most of the month rounding up delinquent personal property taxes. She intends to keep at it till they are all collected, in order to make the best showing in years in that line.

The long-distance forecasters have been prediting summertime years for the past month or two, and perhaps they present right this time.

CONFERENCE ON SOCIAL WELFARE

Mrs. L. G. Larsen will Represent Pennington County at Important Meeting

Pennington county and the City of Thief River Falls will not be without representation at the annual district meeting of the state conference of Institutes of Social Work to be held in Detroit Lakes next week. Friday June 17, for Mrs. L. G. Larsen a member of the local county board, has decided to make the trip. Her connection with the Welfare board here and the local school she has made Mrs. Larsen one of the best informed persons on social welfare work in this section, and undoubtedly she will come back with information that will be of material assistance to local authorities after imparting some to those in attendance a the meeting.

Thirty-five years ago, under the auspices of the State Board of Charities and Corrections, the Minnesota State Conference of Social Work came into being. It has grown slowly but steadily, assuming new duties and responsibilities, until today it is recognized as a strong force in shaping social policies and planning social programs. Since 1917 many of the important changes have occurred: the Conference has been held annually on the campus of the Agricultural college in St. Paul; an office for the Secretary has been furnished by the General Extension Division of the University of Minnesota; and the Legislative and Executive Committee, sponsored jointly by the State Conference of Social Work, the State Board of Control, and the General Extension Division of the University have been held in accordance of the State which have evinced interest in matters of social service.

Becker county is to set as host to all individuals from northwestern Minnesota who are sufficiently interested to make the trip to Detroit Lakes tomorrow. Papers are to be given on certain definite subjects appointed to the different speakers, followed by discussion and answering of questions which may arise, and a picture will be taken of those who the problems of your community but themselves with the questions of every other community, and they may be best served and mutual facilities your state has to offer in the solving.

Farming does not permit skilled production of the many phases of social work which are to be considered, the following topic headings should attract and hold your interest: Child Welfare, Community Welfare, Miscellaneous, Illegitimacy, Delinquency, Probation Service, the University of Minnesota.

Strathcona Creamery Sponsors Big Picnic

A big picnic has been arranged for Saturday, June 18, at the Strathcona park in that village, sponsored by the Strathcona Co-operative Creamery, the purpose of which is to work for a re-organization of the business affairs of the institution.

Those attending are asked to bring their own lunch, but the creamery will furnish the cream for the coffee and also ice cream, while the business men of Strathcona will furnish the coffee.

A program of races and sports has been worked out, while four prominent men of Northwestern Minnesota have been secured as speakers namely State Auten, Thief River Falls, one of the active creamery men of the local creamery; Leonard Hemake, Halstad, secretary of the local Lake Falls Valley Garnered Breeders association and also field man for the Land O' Lakes Creameries in district No. 141; and J. C. Lindberg, Thief River Falls, also field man for district No. 141; and J. W. Taylor, Roseau, county agent for Roseau county.

Rev. Dixon to Leave For Duluth Next Week

Rev. J. T. Dixon, pastor of the Methodist church in this city for the past three years, leaves next week for Duluth, having accepted a call to the Woodland M. E. church there.

Announcement to this effect was made by Mr. Dixon during the services last Sunday, the latter stating that his sermon next Sunday would be the last in this city.

Nothing is known as yet as to who will come to Thief River Falls to succeed Rev. Dixon.

PLAIN DRUNK IS FINED IS THIRD THIS YEAR

John Anderson, a resident of this city, was arrested Tuesday afternoon by Chief of Police A. W. Crown in an intoxicated condition and on Wednesday was brought before Judge N. W. Thygeson, who sentenced him to a $25 dollar fine, which was promptly paid, defendant quickly as promptly taking his departure.

This is the third arrest for the police department has had this year on charges of being drunk.

Meeting to Raise Funds

A meeting will be held this evening in the office of Registrar of Deeds Fred Lorentzen for the purpose of naming a committee which will solicit donations to raise funds for the Swedish-American Three Hundredth Anniversary drive which will be staged here next week, and anyone interested in the matter is invited to be present tonight.

ORGANIZATION FOR GAS TAX AMENDMENT

A. W. Hanson of Pennington County Named at Meet Held in St. Paul

A. W. Hanson of Pennington county has been appointed a member of a state committee to promote the adoption of the gas tax amendment to be submitted at the next general election. This appointment was made by the Minnesota Good Roads committee, composed of members of the Legislature and others who met in St. Paul, June 3 for the purpose of considering the matter. It is proposed to call a meeting of the town boards at Thief River Falls in July to attend the organization into every township.

Mileage of Minnesota Roads

Trunk highways, 6,231 miles; State aid roads, 14,462 miles; county and township roads, 88,17? miles.

How the division of the funds looks per mile:

Money spent for trunk highways during 1926, $17,350,491.30 or $2,504.02 per mile.

Money spent for state aid roads during 1926, $11,10?,255. or $762.85 per mile.

Money spent for county and township roads during 1926 is approximately $6,186,542.02 or $70.23 per mile.

The money spent for the last mentioned item is for roads constructed entirely from the tax-payers of the townships with the exception of a small aid some counties of the state are giving to townships for which county roads are built and this aid is directly out of the tax payers of the county.

On account of the vast mileage of those two classes of roads it is impossible to levy enough taxes to build and maintain them in less than twenty to forty years. Therefore aid from the gas tax is necessary.

Complaints on Taxes Should be Made Now

The city council and the county board will each sit as a board of review on Monday, June 27, to listen to complaints as to the valuations placed upon the personal or real estate property by the local assessor. The sessions will be adjourned from day to day until the task is completed, so that there are any who make complaint.

If people are not satisfied with their assessment at the time to register the complaint, not next January after the books matter is finished and the same spread upon the books of the county treasurer.

Two Year Record is Shattered at Creamery

With an abundant rainfall this spring the pastures have come back strong in fine shape, and cows have been producing increased supplies of milk, resulting in a greater amount of butterfat being brought to market.

The Thief River Falls creamery reports approximately 18,050 pounds of butter turned out week before last, which according to the manager, Joe Holte, is the largest week's production in over two years.

STATE BANKERS ELECT

A. G. WEDGE PRESIDENT

A. G. Wedge, Park Rapids, Minn. was elected president of the Minnesota Bankers association today in the concluding session of the thirty-eighth annual convention of that organization. Wesley Vesley, Hutchinson, was chosen vice president, and Scott Laird, Thief River Falls, Minn. secretary.

Previous to going to Park Rapids Mr. Wedge was vice president of the First National bank of this city, and retains many warm friends here who will be glad to hear of the honor bestowed on him.

PARKING SPACES AGAIN RECEIVING CHAT OF PAINT

The white parking space markings put on the street pavement two years ago, in preparation for the state Legion convention were so nearly worn off that the street committee decided to repaint the same, using he prevalent yellow marks instead of the white as formerly, thus coinciding with markings in the larger cities, and is also the color scheme of the state highway department.

A crew of men has been at work this week on the project and the appearances are excellent. City officials, especially the police department, hope that car owners will park their cars strictly according to the markings.

$72 FINE IMPOSED ON SOFT DRINK PROPRIETOR

A fine of $75 was imposed on Clif Noel, proprietor of a soft drink establishment in the old post office building, when on Saturday he plead guilty to a charge of maintaining a public nuisance, following arrest late Friday afternoon by Chief of Police A. W. Crown, who testified that he had found the defendant with liquor in his possession, but which was destroyed by breaking the bottle against a radiator before the same could be used.

The fine was paid but the place of business has not yet been re-opened.

Land O' Lakes Picnic Success Last Sunday

Quite a large number of people from this city went to Maple Lake last Sunday for a days outing, some of them taking in the big picnic sponsored by the Land O' Lakes organization, and part of them enjoyed the ball game between the local boys and Mentor. It is estimated that 5,000 people were present at the lake last Sunday.

The outing last Sunday eclipsed any previous picnic staged by the organization, which had secured several good speakers for the occasion. Sept. A. A. Dewell of the Northwest School of Agriculture, Congressman C. A. Selvig and John Brandt, president of the Land O' Lakes company were the speakers of the day, and were listened to attentively by the audience.

Alleged Car Thief Sent to St. Cloud

Pat Clements, residing a short distance north of Crookston, in whose possession was found the stolen car of Prof. L. W. Tufeen of this city, was last week taken to St. Cloud reformatory to serve an indeterminate sentence growing out of stealing wheat from the Elevator Company's building in Crookston.

The defendant was taken into district court here and plead guilty to the charge, which prevents any action at this time for the alleged theft of the Tufeen car.

School Board Meeting

The regular monthly meeting of the school board, transpired last Monday night, was held Wednesday night, routine matters being disposed of, including the making of the usual summary repairs to the various buildings during the summer vacation. Employment of the grounds at the high school, acceptance of the resignations tendered by them as against five by the latter. The team play was as follows: G. Thompson, Wold, Lund, Thompson on the voice president's team got Barsen, Lund, Wold, Thompson on the president's team got 25 points.

J. F. Curtis and E. Barsen on the president's side chalked up three, but Mrs. Barsen was unfortunate in opposing them, drew a blank.

Mr. Barsen and Mrs. Goseman, representing the president, put it over on Mr. Wolsey and Mr. Olsen, playing for the two, resident, to the tune of three to nothing.

Andy Anderson, playing alone for the vice president, defeated J. Barsen, Chase by the score of three to nothing.

The Crookston golfers are planning to come to this city next week when the weatherman is kind enough to favor the players by giving them fine weather.

C. Lindbergh may have flown across the Atlantic with an atrocious lot of hair but he has always had plenty of water conveniently nearby.

City to Entertain Tronders of America in 3-Day Meeting Opening Friday of Next Week

Convention May be Attended by 1,000 Delegates, "Lag" Officials Declare

EXTENSIVE PROGRAM HAS BEEN ARRANGED

Local Talent to Present Play "Ingvald Enersen" on First Night, Friday

Norwegian-Americans who, themselves or their forefathers came to this country from Trondhjem, Norway, will gather in Thief River Falls next week for the annual convention of the national Vonderlag of America, to be held July 1, 2, and 3. A large assistance of members from all parts of the country is expected, many of attending gatherings in former years averaging about 1000 persons, and the program arranged for the convention is said to be one of the best ever offered by the organization, according to Rev. D. G. Rieke, chairman of the program committee.

Nothing is being left undone by the committee of the local lodge, which provide accommodations for the visitors and make their stay a pleasant one. Final details will be completed this week, reports L. H. Kolberg, president of the Thief River Falls Vonderlag, which this week issued a call for a meeting of the local lodge.

SCHOOL ELECTION SET FOR JULY 19

Filings Must Be Made On or Before First Tuesday in July

A week from next Tuesday will be the last date on which filings for the school directorship in school district No. 18, or any of the other districts in the county for that matter, may be made. That date, July 5, is just two weeks ahead of the July 19 date for the school elections, which will be held therefore on July 19 this year.

Two directors are to be elected this year in the local district. The terms of V. C. Noper and L. M. Rayson will expire at the close of the present term, and both are expected to be candidates for re-election before the time for filing.

E. M. Benitez, president of the local school board, was elected in 1925 for a three year period, while Mrs. G. Larson and Ole Nesse were chosen at the election in 1926 for a similar length of time. Mrs. Larson is also serving as clerk of the board, treasurer is L. M. Rayson.

When Mr. Noper was elected three years ago it was the first time in several years that any member of the district, altho quite a number of members attend from the country.

S. Dak. Band to Play in City Next Monday Eve

Under Scout Auspices

This community will have opportunity to hear one of the finest ensemble bands of the country next Monday evening, June 27, at 8 p. m., when the Madison High School band of nearly 50 pieces comes here to play under the auspices of the Boy Scouts.

The band, which is directed by Prof. Arthur E. John Deere Tractor Demonstration

Thursday Afternoon June 30

at the C. M. Hoverstad farm 1½ miles east of Thief River Falls on the Elwell road.

A factory representative will demonstrate this compact, light-weight tractor. We want you to see it. You will be surprised at the power of the

John Deere Model D Tractor

This 18-27 H. P. tractor weighs only 4,000 pounds—power ordinarily wasted in moving excess weight in the field is applied to the drawbar of the John Deere.

The John Deere is hundreds of parts simpler—it's the tractor of fewer and simpler parts. Fewer moving parts reduce friction, one of the biggest power thieves in any engine. Belt pulley is mounted directly on crankshaft—no power-loss.

All operating parts of the John Deere are automatically oiled—and completely housed in a dust-proof case—filling is positive, dust and sand cannot get in to cause friction, loss of power, and undue wear.

John Deere one-piece frame holds all units in permanent alignment.

200 Voices will be Heard at Sangerfest

A grand chorus of about 200 voices, composed of Scandinavian singers from Grand Forks, Detroit, Fargo, Fertile, Hatton, Mayville, Petersburg, Portland, Thief River Falls and Winnipeg will sing two programs at Grand Forks on June 24 and 25 at the city auditorium during the bi-annual Sangerfest of the Red River Valley Scandinavian Singers association.

Bruce Male chorus of this city, directed by Dr. F. L. Vistaunet, will hold its final rehearsal tonight and all members and others interested will leave for Grand Forks by automobile tomorrow morning. Local singers expected to take part include: Mrs. Jos. Hartman, president of the Bruce Male chorus; Mrs. Bernhard Knudsen, Olaf Nesse, Dr. J. N. Nesse, Rev. R. I. Tvinoyer, L. P. Tuleen, C. C. Gulrud, Millard Hanson, Mrs. Ole Gudalstad, Mrs. H. O. Melby, and Edgar Longtin.

G. Halverson of this city is president of the valley association, which gathered in this city four years ago.

The programs are sponsored by the Forks, director-in-chief and Dr. Vistaunet, assistant.

Henry S. Houglum, tenor, of Minneapolis, will be heard in solo numbers. Besides singing two groups of English and Norwegian songs at each program he will also render several instrumental solos in the grand chorus numbers.

In the majestic concluding number of each program, "Landsmaal-Sang," by O. A. Lyngheim of Grand Forks will sing the solo.

The local orchestra composed of prominent musicians of Grand Forks will furnish four program numbers besides playing the accompaniment to four of the grand chorus numbers.

Big Celebration Marks Warren Creamery Opening

Warren's new co-operative creamery was formally opened Saturday when farmers and business people joined in celebrating the event in a gala manner. The new creamery is already manufacturing more than 1,000 pounds of butter a day, according to manager W. A. Lindberg, who told of Mr. Selvig's address.

"Another forward step is being celebrated today," said Congressman G. G. Selvig of Crookston, speaking at the festivities. "The opening of this modern creamery is significant among the most important events in the history of your community. Good cows, growing alfalfa, and other valuable feeds, scientific feeding care, and loyalty to your creamery are cardinal tenets that must be adhered to.

Stuart Siebool of Goodridge, a director of the Lakes Creamery Association, told of the activities of that organization and welcomed the Warren creamery into the ranks of the state's co-operatives.

Sweet clover and alfalfa are feed crops particularly adapted to Red River valley counties, said Mr. Olivier, in commenting on the farming possibilities.

Mr. Selvig cited statistics to show that while production of dairy products is steadily increasing, the ratio of consumption due to increased demand and growing population, outstrips production, resulting in a strong market tone.

The industrial employment record and industrial activity were cited as important factors in maintaining this demand.

Marshall county marketed dairy products valued at $367,924 thru nine creameries in 1925, Mr. Selvig said, and added that this has been increased by at least 20 per cent in succeeding years.

Loyalty to the organization was stressed by the speaker as a prime factor in the success of a co-operative creamery. He told of progress made by Red River valley co-operatives, some of which have increased their output 30 fold in the last 10 years.

Local Men Re-elected by Setsedahlag at Gr. Forks

Mr. and Mrs. S. K. Dahle, Olaf Nesse, Carl Fenske, and Olaf Reiel of this city attended the annual convention of Setsedahlagt held in Grand Forks last Thursday and Friday. A total of approximately 900 persons registered at the sessions. Interesting programs are reported.

Among those taking part in the program were Ole Dahle of Erie, Harding singer violinist; Miss Holmes of Plummer, reader; Bjorn Tveitbakk, of Wanke, violinist, and Mrs. Sigurd Reiel, soprano, who sang a number of songs. R. Reseke and son and Mrs. S. Dahle of Erie and H. T. Hanson of Wanke were also in attendance.

H. Bjornaraas of Wanke, president of the "Sag" since its organization in Grand Forks 18 years ago, was re-elected president, other officers re-elected being: Olaf Nesse, Thief River Falls, 2nd Pres.; C. A. Arnstad, Grand Forks, vice presidents; T. O. Ilen, Oklee, secretary, and Arne Grytdal, Grand Forks, treasurer. The directors are: H. D. O. Sande, Grand Forks; Thos. Thompson, Mayville; N. Dale; Gunder Nesland, Grygla; S. Hagen, Thief River Falls, and Ole Breitland, Ada. The last named is the only new director.

An invitation from the League of Norsemen of Canada to take part in the International celebration of the Norwegians in the United States and Canada in Winnipeg next June, was received. It will be one of 40 Norwegian societies similar to that of the Setsedahlag group in the United States and most of these are expected to take part in the Winnipeg meeting.

Plans were also made to get out a book containing a history of the organization, the committee to arrange for the publication of such a book consisting of Messrs. Dahle, Nesse and Bjornaraas.

Mr. Bjornaraas went from Grand Forks to Williston, N. Dak., to address a session of Nordvestre Taleag the first of the week.

A. R. Krok of Orrock, Ill., representative of the Minneapolis Tribune in the latter's circulation campaign in the Thief River Falls territory, addressed a small gathering at the Silverton hall last Thursday night. His discourse was along the lines of that delivered at the Commercial club luncheon and reviewed in last week's issue.

The BANANAS Are Here

The ripe yellow delicious fruit you see in the store windows has traveled all the way from the jungles of South America—on the backs of mules, over primative railways, in the holds of great steamers to the port of New Orleans, then by fast rail direct to Thief River Falls—all in a couple of weeks time.

Bananas are an all food fruit but they must be ripe.

The banana is always cut green from the tree, even when it is to be consumed locally in the tropics. If allowed to ripen on the tree, it entirely loses its flavor and becomes insipid; also, the skin bursts and insects attack the ripening pulp.

Thief River Falls will be host again

next week to another convention—the national convention of Volunteer Fire Departments and firemen—and will be here from many parts of the country, and they will find the city ready for them and in a hospitable manner. Everybody should see that their homes and lawns are fixed up, and merchants should make displays which will impress the outsiders so that they will return to their homes they will take with them a most favorable impression, which by the way, is the best advertisement that the city can have.

For nearly three years patrons of the local post office have had open mail boxes in the faces of three persons wanted for the murder of a railway clerk. And these boxes have been in use since Oct. 11, 1923. In Georgia, Thief Rivers have disarmed the lobby of the post office and attracted much attention. And unanswered mail was made recently, at their capture in Chile, and if they are proven guilty of the deed it will add the more emphatically demonstrate the fact that the state has gone after a person, he does not relent till he is found.

In a letter to the members of the National Editorial Association in Convention at Omaha Henry Ford paid the following tribute to the country newspaper:

"I am glad of the opportunity to send a greeting to the publishers of our home community newspapers. Besides being the oldest and most distinctively American type of publication, the small town and country press is our only keeper. It is owing to us as a friendly visitor from the days of childhood that we know and still know best. It has avoided the errors of monopoly, pays little heed to the sacrifice of influence. The Ford Motor Company has always found the country press an efficient means of reaching the public and we foresee further use of its facilities in the future."

For three years pupils in the local schools have been working an addition whereby the school chairs and desks are kept in better condition than formerly. When a pupil is caught defacing the particular piece of property he or she may be using the pleader from kindergarten to the high school down to such an extent—that the mars will be no longer visible. This is not an easy task for much hard labor for everyone. One visit to punishment is sufficient, and when other scholars hear of the results the tendency is to keep the property as done. With the school boards' purchase of a machine to sand paper these desks, and the purchase of varnish wherein the janitors will rejuvenate them. It is hoped that school property will last a considerably longer time. Although it is a real asset, not a place for invoking surplus cash, the fact that the furniture of utmost importance in developing the good will of prospective buyers in the years to come."

Third River Falls Boy Wins Prize at 4-H Short Course

Two 4-H 'ub were red letter days for 725 4-H club boys and girls—420 boys and 305 girls—who went from all parts of the state to the seventeenth annual short course at the University Farm. Meeting leaders and their assistants and college students attendants the course was attended by about 900 club workers.

The forenoons were used for class instruction and for judging stock judging the afternoons for recreational activities and the evenings for entertainments in the auditorium. The class-in rope work numbered 190 as compared with 80 last year's short course. Elsie Haack, club girl of Springfield, was the baton twirling contest over the entire field. Lester Carlson of Thief River Falls was second, and Stanley Halvorson of Milaca, third. Nearly 100 juniors took the sportsmanship pledge, and 50 received scenic classes for girls were well represented.

More than 170, a dozen or more of them were girls, took part in livestock judging contests. Classes were judged for the study of types of farm animals, and for proficiency in judging and showing, were largely attended. Medals were presented to the winners.

Nearly 200 enrolled in the class for the study of leadership which was taught by the state club leader and his assistants and T. L. Bewick, the Wisconsin state 4-H club leader, who was two days to instructional work. A banquet was given for delegates in South Dakota: H. M. Jones, the South Dakota club leader, and Earl J. Cooper of the state extension staff; the Helstein-Friesian association of America were introduced and complimented and encouraged the young members. Mitsubishi, they said, are outstanding in boys' and girls' club work and the development of leadership that will later count for so much in the development of citizenship. Director F. W. Peck in his address to the class emphasized the importance of time, ability to plan, initiative, thrift and enthusiasm in the program and work of prospective leaders.

The letter was written on May 31 on board the Carinthia, and while nearing the end of the ocean journey, being dispatched from the boat before it made any landing.

Goes on Fishing Trip.

The time now seems appropriate to start my letter back home. And what is well give a somewhat connected record of events. We had a most delightful trip east. William Greff was a perfect traveller which of course added greatly to our pleasure. Spice was added to the trip by our having close connections with Albany, where we had a most delightful visit of the N. Y. C. leaving two hours before the Century. Yet when we got some time between Toledo and Cleveland that my father and mother and daughter were at one of those trains. But our plans were spoiled for the Clearwater section was held over and we had to wait for the next train. But our plans were not changed

ROSEWOOD

The Rosewood Farmers club date for a community visit to the Crookston school of agriculture June 21 has been cancelled owing to the extremely busy season. A date was asked for a week later but as no dates are available before July 23rd, it is feared that the visit must be definately cancelled for this year, as by that time haying will be in full swing and as the season is very late farmers do not feel that they can leave urgent work for a day of pleasure.

John Hanson who has been employed as a railroad worker at this place for the last five years has been appointed as section foreman at the main line at Bronson and left last Wednesday for that place to take up his duties. His family will remain here until about July 1st to allow his children to complete their parochial school, and one daughter Margaret will receive her confirmation diploma at the exercises of the Rindal church here on June 26th. Changing Seasons Mean Nothing to the Concrete Streets of Moorhead

Think of concrete as the material which gives everlasting strength to great dams, canals, bridges and skyscrapers. Then you will appreciate that neither winter's biting cold, nor summer's scorching sun means anything to concrete streets. They keep on giving the same sturdy service year in and year out.

Moorhead, Minnesota, one of the progressive cities of the famous Red River Valley, knows this is true.

It knows also that concrete can carry traffic burdens that would "break the back" of any other type of pavement.

Moorhead laid its first concrete pavement five years ago, and its handsome light gray surface is just as true and even today as when first opened to traffic.

Moorhead now has 132,414 square yards of concrete streets, and in the past four years has laid this type exclusively.

All of the facts are in our free booklet on "Concrete Streets." Ask for your copy.

ISO-VIS STANDARD OIL COMPANY (INDIANA) SERVICE MOTOR OIL

Test Out Iso-Vis

for yourself—as did the foreman of a garage, who wrote this letter.

Independent School District No. 27
Hibbing, Minnesota, February 14, 1927

Mr. E. J. Stehlin,
c/o Standard Oil Co.
Hibbing, Minnesota

Dear Sir:

We are using your Iso-Vis in sixteen cars and busses and find that it is giving us perfect satisfaction.

We have used it in our touring cars on long trips with the same satisfactory results. We took the word of no one as to what this oil would do but bought a barrel and tested it to our own satisfaction. Since then we have purchased a number of barrels.

Yours truly,
E. A. Andrews,
Garage Foreman I.S.D. No. 27

Iso-Vis was adopted by this garage after its merits had been tested and proved. Now it is being used in 16 cars and busses—giving *"perfect satisfaction."*

Because Iso-Vis is a motor oil of constant viscosity—a revolutionary development of the Standard Oil Company (Indiana) which solves all dilution problems—it gives remarkable performance. That's the secret of its enormous popularity!

Don't take anybody's word for Iso-Vis. Just give it a test yourself! 30c per quart at any Standard Oil Service Station and at licensed garages.

Iso-Vis "F" for Fords.

OFFICIALS TOLD TO CUT WEEDS

State will Care for Trunk Highways, But Township Must do Their Share

All weeds growing along the trunk highways in Minnesota are to be cut this year by the state highway department. These growing along state-aid roads are to be cut by the counties in which the roads lie and those growing on township roads must be cut down by the town boards. This new provision of the law was explained to township chairmen at Pennington county gathered at the court house.

Township chairmen of the county were in attendance at the session for the purpose of discussing the weed situation and the enforcement of the state weed law. Township chairmen and mayors of cities and villages are, while in office, local weed inspectors, and are responsible for the enforcement of the weed law.

The state representatives stressed the seriousness of the weed problem in various sections of the state and gave figures to show that farmers are paying thousands of dollars each year for the threshing and transportation of dockage which is mostly weed seed. These losses, together with other losses due to weeds, make the "weed tax" the largest tax the farmers have to pay

The man who believes in himself as a rule believes in his home town also.

Two Local Foursomes Win Over Crookston Golfers

That Thief River Falls golfers are improving their playing was evidenced Sunday afternoon when they chalked up 4 points to Crookston's 2 in a handicap tournament at the local links. Two of the six Thief River Falls foursomes came thru with flying colors, Barnard and Pritchard defeating Rivers and Mitchell 2 to 1, and Curtis and Peterson winning over Braggans and Rheleing in like manner.

In each of the other foursomes, the Crookstonites took all of the three points. Oppegaard and Chesterman vs. K. Olson and Chamie; Hilfer and Stranger vs. F. Barnes and Dahlquist; Dr. Bakke and Dr. Spence vs. Treasurer Sam and Geo. Mosher; and Johnson and Lodian vs. Burkee and H. M. Olsen.

Dr. Bakke was awarded six golf balls for having the lowest score playing the 9 holes, while Barnard and Mostue tied for similar honors among the locals; this to be played off, at some later date.

Following the playing, the Crookstonites were entertained at supper at the Grill Cafe.

A group of Thief River Falls golfers may go to Detroit Lakes to participate in a tournament next Monday.

BEAUTY CONTEST AT NORTH DAKOTA FAIR

Local Girls Invited to Participate—Prize Trip to Hollywood

The North Dakota Fair Association has announced Friday, July 15th as JOY NITE at the State Fair to be held in Grand Forks July 11-16th, inclusive. The feature of the program that evening will be the selection from among contestants entered the Queen of the State Fair. The young lady winning this contest will receive, in addition to that honor a trip to Hollywood, California with all expenses paid, on an alternative the equivalent in cash.

Any young lady living in northeast North Dakota or northwest Minnesota can enter the contest as many from every town, village or county as wish, for their friends may nominate them. By merely filling out the coupon in the boosters mailing list sent to J. D. Fay, Secretary, Grand Forks, North Dakota State Fair, Grand Forks, N. Dak.

However, only one from each town, village and township will be chosen to represent her community at the final contest Friday night, July 15th. The Vote contest will be closed on Tuesday, July 5, and the girl receiving the largest number of votes in each town, village and township will be invited to come to Grand Forks on Friday, July 15th to enter the final contest at the Fair. The winner will then be chosen from among these final contestants and crowned Queen of the State Fair in front of the grandstand that evening. Competent judges will be chosen and the following points will be used in determining the winner: Appearance, carriage, poise, style, pulchritude and personality.

Votes are free and are given as follows:

100 votes will be given to every person, man or woman, who will write the Fair Association at Grand Forks, N. Dak. any or every day telling what they have been doing during the three-day period after Auto Racing Starts.

50 votes will be given to every person who will write the Fair Association at Grand Forks, N. Dak. any or every day telling what part of the Fair program they are interested in, and making such suggestions as they wish.

25 votes will be given every week in the paper.

These votes may then be filled out in ink by the person receiving them and returned to the Fair Association at Grand Forks to be credited to the contestant whose name appears thereon. Votes not filled out in ink by the contestant must be fastened to the ballot when deposited to credit of any contestant.

This contest is open to all young ladies between the ages of 16 and 25 years of age.

All votes will be deposited in a sealed receptacle and opened and counted by Mr. Black, Secretary of the Grand Forks Com'l Club; Mr. R. B. Snyder, cashier of the Metropolitan Bank at Grand Forks; and H. C. Bachelier, Secy of the N. W. Trust Co. of Grand Forks.

T. F. F. MEN TALK ABOUT DAIRYING AT PICNIC

Improved feeding methods, results of better livestock, production of quality cream, and co-operation in marketing were emphasized by the Pennington county picnic of the Northwestern Dairymen's association Saturday. A large and enthusiastic crowd attended. The speakers included Hans Anton and K. L. Lindberg of Thief River Falls, Leonard Hoaake of Halstad, and County Agent J. W. Taylor of Roseau. R. C. Notby of the dairy industrial and cooperative marketing of poultry. The Strathcona association was formed 22 years ago and is re-organizing under the new co-operative laws of Minnesota.

Mr Lindberg announces that creamery associations in Roseau county will hold a joint picnic at Roseau June 28, with John Lund of the Land O'Lakes Creameries, Inc., president, as the principal speaker.

BECOMES MINISTER

Axel Bloom, who—will serve the Augustana Lutheran church in this city, was Sunday ordained as a pastor at the ordination services held at Omaha in connection with the 65th convention of the Swedish Augustana Synod. The class of 32 candidates for the ministry was the largest in the history of the synod and raises the number of pastors to 622. Elmer Dahlgren, who has accepted a call at Lancaster, was also ordained. Rev. Bloom is expected to arrive here this month.

LEARN MUCH ABOUT SOCIAL WELFARE WORK AT MEETING

Mrs. O. Larsen of the Pennington County Child Welfare board, Prof. Jacob Judge Larz Backe, and Attorney Ragnar Quale of this city attended the first annual district meeting of the Child Welfare and Institute of Social Work held at Detroit Lakes Friday. Approximately 200 men and women from all parts of N. W. Minnesota were present to hear interesting addresses by experienced workers. Mrs. Larsen spoke on certain phases of child delinquency. Her appearance of its kind I have attended," declares Mrs. Larsen, who brot back with her many ideas which she will add in the local board's activities.

SCHOOL BUS DRIVERS HIRED BY BOARD FOR NEXT YEAR

Chas. Schwartz and Alfred Pattern will again drive the school busses which go after the younger pupils of the district early in the morning, and bring them home again after school is closed in the afternoon. They were offered contracts at the regular school meeting last week.

Five New Teachers Hired With Five More Required

Five contracts with new teachers were authorized by the school board at its meeting last week, and if these are accepted it will leave only five vacancies still to be filled for next fall. Those who are offered positions are as follows:

Edward Jos. Grand Forks, to succeed Coach L. A. Thom.

Esther Hanson, Grand Forks, history.

Blanche Greenland, Binford, N. D., Latin and mathematics.

Maud F. Nitzer, eighth grade.

Stella M. Jacobson, eighth grade.

Two resignations were acted upon by the board, these being from Miss Ruth Martin, who has secured a contract to teach for two years in Australia, and Miss Margaret Quammen, who has been a contract by Supt. L.-T. Binsley of the South St. Paul schools, and who accepted the last possibility of Miss Quammen. She goes to South St. Paul at an advance of nearly $500 a year over what she received here.

Debts take interest, but they are not even an interesting experience.

CONSTANCE TALMADGE HAS GAY NEW SET-IN "VENUS OF VENICE"

Constance Talmadge comes to the Lyceum theatre Sunday and Monday in "Venus of Venice," a rollicking story in which Constance appears as an irresistible, mischievous little vixen whose life is one of thievery and the pandering of the favors of men.

During late and swimming thru the canals with the utmost abandon when every one expects her to drown, she is rescued the soubriquet the "Water Rat." And it is one of her daredevil escapades that brings her into contact with an American artist in Venice—an acquaintance that is productive of more excitement, more thrills and more joy than she ever has been crowded into her life.

In the leading male role opposite Miss Talmadge is Antonio Moreno appears as the American artist.

Plans Formed for Big Marshall County Fair

With a greater assortment of free attractions and a better assortment of exhibition, arranged for, plans for the 1927 Marshall County fair to be held at Warren on July 4, 5 and 6, are rapidly being completed.

"The 1927 Marshall county fair will be even any exposition that has ever been held in Marshall county, in Northwestern Minnesota and nothing has been left undone to make it worthwhile—for every citizen of the county to attend," says Wm. Osterberg, president of the fair association.

Prize money totaling $1,700 will be awarded to exhibitors, with premiums for almost every classification posted to the biggest exhibit in the 21 years the Marshall county fair has been in existence, said J. N. Grinden, the secretary.

Ralph Blackstone & Holman Flying Circus will headline the free attractions. This will be a thrilling exhibition of acrobatic stunts, band music, horse races, and a gorgeous display of fireworks.

Opening on the morning with a basket picnic dinner, the fair will be arranged for by the Warren post of the American Legion. This will be followed by a program to be given by the Warren band. Friday, July 11-16th, inclusive.

100 votes will be given to every person, man or woman, who will write the Fair Association at Grand Forks, N. Dak. any or every day telling what part of the Fair program they are interested in, and making such suggestions as they wish.

25 votes will be given every week in the paper.

These votes may then be filled out in ink by the person receiving them and returned to the Fair Association at Grand Forks to be credited to the contestant whose name appears thereon. Votes not filled out in ink by the contestant must be fastened to the ballot when deposited to credit of any contestant.

This contest is open to all young ladies between the ages of 16 and 25 years of age.

All votes will be deposited in a sealed receptacle and opened and counted by Mr. Black, Secretary of the Grand Forks Com'l Club; Mr. R. B. Snyder, cashier of the Metropolitan Bank at Grand Forks; and H. C. Bachelier, Secy of the N. W. Trust Co. of Grand Forks.

CITY ENTERTAINS NATIONAL TRONDER CONVENTION

Grand Fourth of July Celebration in Thief River Falls

All-Day Program of Sports, Big Parade, Music Arranged by Eklund Am. Legion Post

Fun For All is Aim of Committee, Announces Chairman W. L. Carlisle

FIREWORKS DISPLAY AND DANCING IN THE EVENING

Tronderlag President to Deliver Address at Fairgrounds in Afternoon

"Come to Thief River Falls to celebrate the Fourth of July" is the invitation extended to everyone by the local American Legion post which has completed arrangements for what promises to be the biggest celebration of its kind ever staged in this city. There will be something doing during the entire day, and entertainment for all is assured by the committees in charge, headed by W. L. Carlisle.

Indications are that people from a wide territory will come to this city next Monday to celebrate the nation's birthday, in recent years local citizens have joined the smaller towns in the territory in their festivities but this year Thief River Falls will entertain.

We are endeavoring to put on a celebration which everyone can enjoy", says Chairman Carlisle. "The committees have worked hard in making the preparations and we feel assured that you will be pleased with the entertainment offered."

Street sports will occupy the forenoon. A large number of business firms and organizations will take part in the huge parade and float contest, commencing at 1:15 p. m. This feature will be in charge of Chief of Police Oscar R. Smith is in charge of the sports and events. Cash prizes will be offered in the various competitions.

The address of the day will be delivered by Rev. Gerhard O. Hilstad, Mantorville, Wis., president of the Tronderlag, at the fairgrounds. Rev. Hilstad comes highly recommended as an entertaining speaker. He is a prominent historian and writer and is said to be an able speak-

A ball game will be played by the Thief River Falls and Erskine teams.

The programs will take place at the fair grounds, where an admission of 25 cents will be charged. It will open at noon and 15, cents for the evening, children being admitted free to both programs. In case of rain the auditorium will be used.

Music by the Thief River Falls municipal band will be furnished thruout the day and evening—the municipal boys bands of Thief River Falls.

The firemen have been practising up for the water fight, and the motorcanoists who plan to enter the canoe race on the Red Lake river. A motor boat race is also scheduled.

The fireworks is going to be especially pretentious, Lamp Lighting Standing at two places—the auditorium and the rink, according to E. N. Rude, in charge.

The detailed program is printed elsewhere in this issue.

HOUSE OF DAVID TO PLAY HERE JULY 7

Soldier Singer Accompanies Team; Locals Lose to Grand Forks Sunday

The House of David baseball team, members of the religious sect with long hair, not even bobbed, will play the Thief River Falls Modern Woodmen nine at the fair grounds Thursday, July 7, at 2:30 p. m. The long-haired baseball players have won the championship in various part of the country. Last week they were in Winnipeg where they defeated the best all-star club there out of three.

With the House of David aggregation comes Soldier Caruso, the one-armed entertainer and singer in all games played by the club. The singer is a native decorated man in the World war and previous to entering the service was a well known singer in the famous Redpath Lyceum bureau. His repertoire includes all Irish numbers. No doubt the fans who hear him at the game have heard him on one of Ernst occasions when he was over, as he has sung over every radio station of any importance in the states.

A feature of the Fourth of July celebration here next Monday will be a ball game between the Thief River Falls and Erskine teams.

Frandine Rongerud and Olsen for a total of 36 hits, the Grand Forks Modern Woodmen team defeated the Thief Rivertes 12 to 6 at East Grand Forks Sunday afternoon.

Kelly was the batting star for Thief River Falls. He drove out a home-run and a triple. Two errors are credited against each team.

FARM STUDY TOUR COMING HERE IN JULY

Three-day Tour Sponsored by Great Northern Starts From Barnesville July 19

FARMS AROUND THIEF —R. FALLS TO BE VISITED

Methods of Controlling Sow Thistle to be Observed; Dan E. Willard in Charge

A farm study tour thru the lower Red River valley will start from Barnesville July 19, conducted by Dan E. Willard, agriculturist for the Great Northern railway. The tour will be made by auto north on the east side of the Red river to the Canadian line, with a return by the west side via Grand Forks.

The tour will occupy three days, Tuesday, Wednesday and Thursday, July 19, 20, and 21. The route will be from Barnesville to Ada, Hendrum, Felton and Ada, to Red Lake Falls and Thief River Falls, then via Stephen and Hallock to Pembina and Neche, North Dakota; thence to Walhalla, Manitoba, returning via Walhalla, Cavalier, Hamilton, Grafton and Grand Forks.

Those who join the tour from Moorhead, Fargo, Casselton, Halstad and other points on the Moorhead-Crookston line, and those from points east of Thief River Falls-Crookston-Ada line, should plan to fall in line as the tour will start from Barnesville at 9:00 a. m. Arrival at Hendrum between Barnesville and Red Lake Falls will be announced in detailed itinerary which will be published in advance and copy of itinerary giving exact route and hours of arrival and farms to be visited will be mailed on request.

To Study Farms

The purpose of the tour is to study farms and farming methods in the territory where now thistle has long been a menace, where successful farmers have learned methods of control whereby their farms are protected and made profitable. The crops of wheat and other grain are grown now than were ever before, it is said.

A group of farms will be visited in the vicinity of Barnesville. Fields which will be seen five herds of cattle, sheep and hogs and the effect of alfalfa and sweet clover and high yielding fields of wheat, flax and other crops.

In western Kittson county another group of farms that have been cleaned of thistle by clean farming methods will be visited. Among the 1000 attending the convention were Rev. Tungseth, John Dahl, Mrs. O. Fossum, Mrs. Ingeborg Bjoland, and Mrs. Andrew Berge of this city and Miss Olga Knudseth and Rev. Berrie of Mentor, Minn. congregation. Rev. George Washington Was Tronder, it is Claimed

It may not be generally known, but it is declared to be an historical fact, that George Washington, the first president of the United States, is a direct descendant from Trond Hamlinson, a ruler of Trondelagen, Norway, some hundreds of years ago.

This claim will undoubtedly be further established at the Tronderlagers convention here this week, when several hundred former residents of Trondelagen gather here in reunion to pay tribute to their forefathers and the land from which they sprung.

A complete family tree proving that Mr. Washington's ancestry can be traced back to Trondelagen has been worked out after years of study by leading historians of the country, including the late Albert Weller, president of the American College and Genealogical Society of Philadelphia. It is explained in detail by Prof. I.-H. Koefod in a recent issue of "Ytterguten," Norwegian weekly published in Canton, S. D.

INDIANS APPROVE RENEWAL OF LEASE

Resort Ass'n Granted 5-Year Renewal of Lease of Red Lake Narrows Tract

Approval of the Red Lake Summer Resorts association's lease of a 162-acre tract at the Red Lake Narrows for another twenty-year period was granted at a meeting of the Red Lake Agency Monday. The original lease expires today and the renewal will be, received from the interior department in Washington, D. C., as soon as routine details are completed.

Approval of the lease carries contemplated improvement of the resort property, on which about half a dozen cottages have already been erected by association members. With highway construction well underway, it is expected that rapid progress will be made during the next few years.

The association, of approximately 20 members, several of whom contemplate building cabins next year.

A local delegation from the resort association will go to Red Lake Monday—Math Dahlquist, president; Olaf Anderson, vice president; Geo. M. Wilson, secretary; F. H. Herrick, treasurer; John Hammond, Alfie Peterson, Dr. J. Bowers, and Mayor W. W. Prichard. All of these whom left here Saturday morning, with Mayor Prichard, Mr. Bowers and Mr. Prichard, who went Monday. The objects of the project were thoroly explained to the Indians.

The Thief River Falls men also visited Saturday and Sunday, they were shown around by Mark Burns, Red Lake Indian farmer.

Visitors at the resort may fish with hook and line, according to state laws and regulations, but a limited out, but no use of nets will be permitted.

War Comedy to be Shown at Lyceum Theatre July 4 and 5

The wartime comedy is an illegitimate type of humorous picture for the present, according to Leslie Lane, manager of West Coast production for First National Pictures. Basing his assumption upon the popularity of such pictures, he explains that popularity by reasoning that sufficient time has elapsed since the unpleasantness of the World war for the wars and to have enabled the world to take countenance of the humorous aspects of the war.

"It seems queer to think that there was ever a humorous side to the war, an episode in its world's history," says Lane, "but there was, and I am in connection with "Lost at the Front," the wartime comedy to be shown at the Lyceum, July 4th and 5th.

JULY 2 IS LAST DAY FOR RINK REINSTATEMENT

The Times has been asked to again call the attention of exercise men to the fact that Saturday, July 2, is the last day in which they can secure reinstatement of their star rink insurance. Full information as to method of procedure can be secured from Peter Jelleo, adjutant of the local Legion post.

Approximately 60,000 war veterans in Minnesota have allowed their insurance to lapse, according to estimates. Veterans interested in reinstatement are invited to come to the court house tomorrow, Friday evening when County Auditor T. F. Anderson and Adjutant Nelson will be there to give assistance in making out applications. Mr. Nelson reports making out five applications Tuesday.

PAVING FINISHED

The paving on Riverside and south Main avenues was completed Tuesday. The new pavement will soon be opened to traffic.

DIST. COURT TO OPEN TUESDAY WITH 26 CASES

Only 16 New Civil Suits on Calendar for Summer Term in Pennington

JUDGE GRINDELAND OF WARREN WILL PRESIDE

Only One Criminal Action Pending and Session Will Likely Be Short

The summer term of Pennington county district court will be a short one, judging by the calendar carefully compiled yesterday by Clerk of Court Adolf Ekland. Only 10 continued and 16 new civil suits and four personal property tax actions are listed for the session, which opens next Tuesday with Judge Andrew Grindeland of Warren presiding. The petit jury is summoned for Wednesday, July 6.

There are no criminal actions scheduled for the term of court, and in fact, no criminal actions are continued from the winter term and only one other criminal case is pending that of Joe Vendeal, charged with violating the prohibition laws, according to the County Attorney H. G. Berve. He is likely to be tried the first week, or early about a week, says Clerk Ekland.

The list of continued cases includes two divorce suits, those of Christina Holloway vs. Edward Holloway and Henry Haugen vs. Hilda Haugen. Other actions are Hans C. Juhl vs. Crookston State Bank et al, in the matter of the estate of Nels A. Nelson, and the Flah Tire Co., vs. Andrew Neve; In the matter of the proceedings to enforce payment of taxes, Albert Westphal vs. Elias L. Rolland; A. J. NUTRITION MEETINGS ARE WELL ATTENDED

Women of County Hear Specialist Discuss Feeding of Children 6 to 16 Yrs.

The third meeting of the local leaders of units in the nutrition project, sponsored by the organization by the agricultural extension division of the university was held at St. Hilaire last Tuesday, and on Thursday and Friday at Bemidji. All units were represented.

Thirteen leaders were present at the Friday meeting in the Commercial club rooms, according to the publicity chairman for that division. It is claimed that "splendid reports" were brought in from the various groups, and that the attendance at group meetings and increased interest. One group reported Dory and instructed 16 individuals other than the group leader in the principles of good nutrition and child feeding.

New songs composed by various leaders were practiced as an opening exercise and in preparation for Achievement Day meet time in October.

At noon lunch was served by several members, after which Miss Ione Hobart of the state university presided with the lesson, "Feeding Needs of the Child From 6 to 10 Years." Methods of cutting children's various vegetables were discussed and the last three quarters of an hour of the meeting was spent making vegetable men of crepe paper and wire so many of interesting and instructing the child in the value of the vegetable and the part they play in building strong healthy bodies.

At the St. Hilaire meeting a picnic lunch was served by the St. Hilaire group.

The fourth and last meeting before Achievement Day will be held August 4 at Bemidji, and August 12 and 13 in Thief River Falls.

An exhibit at the county fair in August is planned, a committee to make arrangements will be named at the meeting in July.

The president and secretary of the various groups will confer with County Agent J. J. McCann regarding plans for Achievement Day.

T. R. F. Golfers Tie With Crookston at Detroit

A delegation of local golfers motored to Detroit Lake Sunday to compete with the clubs of that city and Crookston in an interstate medal play tournament. Detroit Lakes, with a total of 317 strokes, was the victor. Thief River Falls and Crookston tied at 793. The locals lost twice to the Crookston group in contests earlier in the season and that is the results Sunday are quite gratifying.

Representatives of the local club in the tournament are: H. O. Clemenson, W. A. Barnard, W. L. Carlisle, Knox Oleen, Dec. A. Mosier, Ernest Barnes, Wm. E. Dahlquist, and H. G. Maley. Mrs. Carlisle, Mrs. Oleen, Mrs. Dahlquist, Mrs. Barnes, Mrs. F. F. Dolan, and Mrs. Luella Pladwell accompanied the players. The visiting golfers were entertained at a supper by the Detroit Lakes golfers at their club house and report an enjoyable trip.

A local tournament will be played here next Sunday afternoon, the committee reports.

CONFIRMATION SERVICES

The Zion and the Rindahl Lutheran confirmation classes were confirmed and their respective churches Sunday by the pastor, Rev. E. L. Tungseth. The services for this occasion were issued upon Rev. 2, 12: "Be thou faithful unto death, and I will give you the crown of life". The following Young people were confirmed:

Zion—Charles Odmarshall, Varney Evenson, Lester Haraldson, Clarence Odlanth, Violet Jahnsen; Edna Berglstrom, Francis Vignes, Gudrun Hovdick, Cora Stenvold, Arthur Tverlien, Clarence Dahle, Erick Astenson, Edward Prosch and Gladys Gerhardt.

Rindahl—Marverne Hanson, Edna Fire, Thomas Madsen, Axel Axelson, Allen Sarmore, Agnes Flewster Stenberg, Gladys Nakken, Annie Evenson, Alyce Hall, Clifford Johnson and Kenneth Pederson.

DECLAMATORY CONTEST

Ruth Staffie, Argyle, won first place in class A of the declamatory contest for Marshall county schools held at Warren Wednesday of last week, Ardith Jensen, Viking, won second. In class B, first prize went to Rosabelle Hafne, Madium, and second was won by Adella Fonneet, Gryglo. Other participants included Myrna Peterson, Holt; Herman Rude, Thief River Falls; June Wendahl, Newfolden; Helen Grevenier, Viking; Dagny Halvarson, Thief River Falls; and Lillian Sakstad, Newfolden. The annual county play day was also conducted that day.

ALUMNI REUNION

Alumni and former students of the Northwest School representing almost every community will meet at the Northwest School, Crookston, today for the annual summer reunion, according to Dr. Dr. Ward Neville, East Grand Forks, president of the alumni association. The program will follow the picnic dinner and will include addresses by Congressman C. G. Selvig, former superintendent, and Superintendent A. A. Dowell. Marcus Sipht, Strathcona, president of the class of 1917 will preside over the program which will include music by a number of former students. A baseball game between the married men and the single men among the former students, together with other contests will make up the afternoon session. An evening party will conclude the day's activity.

STRANGLER SCARE IN WINNIPEG HURTS PEDDLERS

Peddlers are having slim pickings in Winnipeg since the recent strangling of two women, Public feeling is such that all peddlers are viewed with the deepest suspicion. There are about 1000 peddlers operating in Winnipeg, of which only a part are licensed by law according to Frank Kent, license inspector.

The activities of the so-called "gorilla-men" have so terrorized housewives that they are keeping all doors locked and they refuse to admit strangers on any pretext.

Busy at Modern Woodmen Picnic—Locals Lose Ball Game With Crookston Nine

Several thousand from all parts of northern Minnesota and the Red River valley were present at the Modern Woodmen picnic at Lake Stanwood, Saturday and Sunday, July 2 and 3. A program of baseball, dancing and sports was pulled off each afternoon and evening. Mr. L. L. Carlisle, carnotist, and Alfred Thompson, both of this city, played with the Red Lake Falls nine. A large class was initiated.

Carl Christenson, Goodridge merchant, was the favorite visitor of the Pauline Gooch group sent by the Goodridge organization.

A feature of the sport program was the baseball game between the Thief River Falls and Crookston nines, in which a record attendance was present. The locals lost the game in a close contest with a tally of 5 to 4.

Among local people in attendance during the picnic were Mr. and Mrs. Frank Hagen, Mrs. C. E. Robinson, Mr. and Mrs. H. E. Nelson, Mr. and Mrs. Derrick, Mr. and Mrs. Mitchell, Mr. and Mrs. W. E. Dahlquist, Mr. and Mrs. W. L. Carlisle, Mr. and Mrs. E. F. Zak, Mr. and Mrs. W. E. Baker, and Mr. and Mrs. D. R. Anderson, Myrtle Halvelend, Dorothy Robinson, Edith Novak, Edna Novak, Gladys Eliasson, Lena Anderson, Olive Olson, Mr. and Mrs. George Howe, Mr. and Mrs. Bagley, Mr. and Mrs. F. David Nelson, Mr. and Mrs. Halvorson, Mrs. Beatrice Dahlquist, J. Hoquist, C. W. Nelson, Mr. and Mrs. A. Auringer, George Swenson, Wm. Alexander, Mrs. Alexander, Edith Schoeman, Edna Alexander, Helen and Elizabeth Keating, Miss Olsen, Mr. and Mrs. S. Brandon, Dorothy Peterson, Mr. and Mrs. H. Provencher, Mr. and Mrs. G. L. Biddick.

Busy Week for T. R. Grocery Kitzenball Team

The Thief River Grocery company turned the tables on the Gamble-Robinson team company in a ball game Friday evening, the score being 10 to 9 after seven innings had been played. The opening game the previous week was an 18-13 victory for the Gamble-Robinson team. Another contest is scheduled for tomorrow evening, the games being played at the Eastside ball park.

Following is the lineup Friday:

T. R. F. Grocery		Gamble-Robinson	
F. Brown	c		C. Postal
N. Holkmecht	p		L. Clander
L. Hermenson	1b		A. Clander
W. Warner	2b		C. Herron
G. Mostue	3b		F. Anderson
J. Warner	ss		H. Olson
Carlisle	rf		J. Dern

Holkmecht, Larson, Hermanson, W. and C. Warner, Mostue, Carlisle, Arndt Robinson, A. and C. Herron, and Orrin Ostby metered to Crookston Monday afternoon to play the Crookston Whalers & Carlisle team, the locals losing to the tune of 13 to 14. The score was tied at 10-10 at the close of the eighth inning. Holkmecht and Larson composed the battery for the Thief River group.

A return game will be played July 11.

Mrs. Ostby, Mrs. Holkmecht, Mrs. Chas. Warner, and Mrs. Herman accompanied the players to Crookston.

Last night Thief River Grocery clashed with Lambert's Loafers, the game resulting in a 16-10 victory for the grocers, whose battery consisted of O. Engelstad and H. Baker.

CONCERT WELL RECEIVED

A pleasing program was given by the Windahl family quartet from New Folden at the Trinity Lutheran church last Thursday night. The attendance was small. Testimonials were given by William and Arvold Windahl, and urged the living of a Christian life. In addition to quartet, duet, and vocal solo numbers, there were violin solos. All the performers are students at the Lutheran Bible school. Grand Forks, William being voice instructor also.

SPEAKS AT FARM PICNIC

Rev. S. L. Tallakson of this city delivered the principal address at the 13th annual picnic of the Clover Farmers' club of Emardville township held Saturday at the James Gilbertson farm, three miles southwest of Plummer, a large crowd attended. The Cloverland club is one of the leading farm clubs in Red Lake county and much interest is taken in its activities. Mr. Tallakson emphasized the advantages of rural life and made a special appeal to the young people to stay on the farm, especially at this time. He reviewed history showing that the deterioration of rural life and agriculture has resulted in the downfall of nations. Contentment in one's work was stressed, the speaker declaring that in no other vocation does one come into such close contact with God and his natural laws as in farming.

PLAID GINGHAMS SAID —TO BE IN STYLE AGAIN

Plaid cotton materials are in style again and are appearing on the counters in the gingham section of the cotton goods department, says Marion Weller, local representative of the Pacific Mills, manufacturers. Bright colors are the vogue in plaids.

Plaids are used for the newest dresses for children's clothes. Smaller patterns are to be preferred for children's clothes and women may choose larger patterns which lend becoming colors to the fabric in the best fashion. Plaids make beautiful dresses for misses' and children's wear. A very pleasing effect. A plain colored skirt harmonizes with a plaid waist and the reverse also an all-plaid suit is better taste than a plaid skirt and plain waist. Plaid ginghams will be combined with plain colors in crepe ginghams for the coming season.

If you don't own a MAYTAG it's because you never tried one

TO TRY the Maytag is to want it—and it is no easy matter to own a Maytag that no housewife can afford to do without it." In the Maytag you find an unusual washer, a washer so complete—so full of exclusive features—that washday becomes but an hour of comfortable work, so free from disagreeable details, that you don't mind it a bit.

The Maytag is the washer that does big tubfuls of clothes 8 to 9 minutes, cleans everything—even collars, cuffs and wristbands—without hand-rubbing. It washes even and greasy work-clothes clean as new in 10 minutes.

Water stays hot for an entire washing in the heat-retaining, life-lasting, cast-aluminum tub. The tub has an unusually large capacity and cleans itself in 30 seconds after the washing is done.

Just Do This—Phone the Nearest Maytag Dealer

Use a Maytag next washday without obligation or expense. By the time you have finished washing you will be thoroughly convinced of the Maytag's speed and washability. You will appreciate its many comfort-giving features. Remember, if the Maytag doesn't sell itself, don't keep it.

Valley Sangerfest in Gr. Forks Grand Music Event

"A miracle performance of close harmony, tonal perfection, and exquisite polish", says the Grand Forks Herald in commenting upon the two concerts of the Red River Valley Scandinavian Singers's association at the seventh biennial sangerfest at the Forks auditorium Friday and Saturday. About 100 singers from Fargo, Fertile, Hatton, Mayville, Wimbiger, Devils Lake, Petersburg, and Thief River Falls took part, members of the Fargo Male chorus participating including Dr. Vilstanzl, director; Dan Sletmoe, Bernhard Knudson, Dr. J. N. Nyve, C. C. Gulrud and Mrs. H. Larson, and Edgar Longren. Attendance at the concerts was disappointing.

Dr Vilstanzl, assistant director-in-chief, presided over the grand chorus in the singing of "How are Now" and "Larsko." Excellent accompaniment was furnished by a festival orchestra directed by W. F. Roehle. The tenor solos by Henry B. Houglum, Minneapolis, a brother of Mrs. Vilstanzl, were especially pleasing, according to reports. Other soloists were: O. C. Lyngholm, Grand Forks, and O. C. Brown, Fargo.

Among local citizens who attended in addition to the singers, are Mr. and Mrs. Nels Gullickson, H. Nes and daughters Betsy, Esther, and Hilda, Mrs. Bernhard Knudson, Mrs. Vilhelmet, daughter Liv, and son Alv, Mrs. Ole Roberts, Mr. and Mrs. Julius W. Ophelm, and G. Halvorson.

An elaborate banquet was enjoyed Saturday night.

Henry Hauson, Fargo, was elected president of the association at the business session Saturday. He succeeds C. Stenseth of Fargo. Grand Forks will be the scene of the festival in 1929 and 1930.

MRS. KNUT MOEN

Mrs. Ingeborg Moen, mother of Ole Moen of Thief River Falls, died June 17 at the old homestead in Spruce Valley, near Middle River, where she has lived 71 years. She was 90 years old at the time of her death.

Deceased was born in Valders, Norway, where she married Knut Moen who died three years ago, also at the age of 90. In 1856 the family came to this country, Mr. Moen being employed as a carpenter at East Grand Forks three years before coming to Marshall county to farm. Since 1919 she has lived with her son Ole.

Survivors besides the son here are Andrew, Arthur, Mrs. N. D. Johnson, Mrs. Albert Moen, Mrs. Ingebret Johnson, and Mrs. O. S. Lauseland, the last named residing in Alaska.

Funeral services were held Sunday, June 19, Rev. A. Stortroen officiating, interment being in Greenwood cemetery.

REVIEW ASSESSMENTS

Reviewing of the city's assessment rolls as returned by Assessor Ed Hill was completed by the city council yesterday after a three-day session. No real complaints about assessments are reported and the books will be submitted to the county board of equalization July 18 with practically no changes. All banks and village boards met Monday as boards of review.

Rank Health With Three "Rs" Is Plea

By MARIE K. JOHNSON.

As an elementary subject for children, health should hold equal rank

with the three "Rs" in the curriculum of public schools. Doctors declare that without healthy, sturdy body it is impossible for the child to learn a healthy, happy mind.

Neglect of childhood defects may result in permanent physical impairment later on. Many childhood ills are traceable—directly—to malnutrition.

High school students especially need a variety in foods for at this age their growth is rapid. The protein or "building food" should be abundant for high school boys and girls. When they buy their lunchcons, high school pupils are apt to display a preference for chocolate cakes, cream puffs and candy. An appetizing luncheon put up at home is known to be preferred to the next the boy or girl might obtain at the corner store near the school.

Meat is all right for the school luncheon but it should be put up in tempting form. If sliced thin it is more appetizing in sandwiches than if in thick pieces. Beverages or soup may be carried in thermos bottles so the food value will be strictly washed and dried daily after using.

Milk is recommended for an important place in the boy's or girl's diet because of its proteins, minerals, phosphorous and calcium, necessary for the development of the body and in the case of calcium and phosphorus for the building of bone and teeth. Evaporated milk has come into favor as a health builder for children as well as adults because 60 percent of 60 per cent of the water it is rendered more than twice as rich in food value as ordinary milk and by a process called homogenizing more digestible than bottled market milk.

Crisp lettuce and celery, carefully washed and dried, may be so wrapped in oil paper that they will be fresh and in good condition at lunch time. Lettuce should not be used in sandwiches for wilted lettuce is almost indigestible.

W. C. T. U. Corner

Local winners in the W. C. T. U. essay contest have been announced recently, although the state winners will not be announced until the state convention, which will be held in Minneapolis in August. According to Mrs. Stella Cutsonis of Stewartville, state director of scholarship, the contest the essays written by local pupils were unusually good, and there is no doubt that Thief River Falls will have several state winners. No prizes were given to winners in the local contest, except certificates of award, but cash prizes will be given to the state winners in the state contest.

The writing of the essays was preceded by a study of the effects of alcohol and tobacco on the system, in connection with the regular class work in English and hygiene.

Local winners are as follows, the first named in each group being those who will compete for state honors:

Fourth grade—Harriet Jung, 1st; Nancy Larson, 2nd; Theodore Quale, 3rd.

Fifth grade—Geraldine Hesse, 1st; Esther Klemmenson, 2nd; Willard Kerstad, 3rd.

Sixth grade—Lucille Strupp, 1st; Lucinda Kuecke, 2nd; Dagny Erickson, 3rd.

Seventh grade—Fern Barnett, 1st; Judith Akre, 2nd; Bertram Mosleth, 3rd.

Eighth grade—Linnea Backlund, 1st; Harriet Pyle, 2nd; Kenneth Wheeler, 3rd.

Freshman—Donald Snyder, 1st; Violet Rhodegrand, 2nd; Wendell Seaberg, 3rd.

Sophomore—Otto Stenberg, 1st; Elaine Evenson, 2nd; Douglas Boorom, 3rd.

Junior—Lenore Lieberman, 1st; Gabrielle Underson, 2nd; Chester Myrom, 3rd.

Senior—Marion Reynolds, 1st; Stella Underson, 2nd; Viola Rehm, 3rd.

REAL WORK NECESSARY TO GET A GOOD LAWN

A. L. Larson, seed analyst stationed at the State Department of Agriculture at University Farm, advises the lawn owner to mix his own lawn seed in the proportion of 50 per cent of white clover, 15 to 20 per cent of perennial rye, 20 to 25 per cent of blue grass, and 25 to 30 per cent of red top. Blue grass takes the time to germinating, usually about three weeks, while other seeds sprout quickly and will furnish a green cover for the newly seeded lawn while the blue grass is coming along. Clover enriches the soil and should be worked over until it is plowed under. After the lawn seed has been sown the ground should be raked lightly and then well watered for at least three weeks. Weeds can be controlled by studying their characteristics and acting promptly. Crab grass, which appears during the middle of July, is often very troublesome, but it can be kept out by preventing the development of seeds and by sowing more of the lawn grass mixture and fertilizing.

While most lawns, like Topsy, just grow, Mr. Larson warns that the superior lawn is such because it has been given intelligent care and attention.

ROLFE GIVEN RANK OF CAPTAIN IN SAL. ARMY

In recognition of his excellent record while in charge of the local Salvation Army corps during the last nine months, H. E. Rolfe has been promoted from envoy to captain according to word received this week from the territorial headquarters in Chicago. Captain Rolfe was made an envoy upon coming here last September. He is now a commissioned officer. While in charge of Salvation Army work here, Captain Rolfe has been active through the district which comprises practically the entire region north to the boundary. Much local relief work has been done and a large quantity of clothes was gathered for the Mississippi flood sufferers.

CELEBRATING THE FOURTH

The Fourth of July is an anniversary, though it may seem a long way from the manner in which we indulge in the lighter moods of celebration. But we know that when we celebrate, we are recognizing the natal day of a practical people, in a practical way. The men who framed the Declaration of Independence fared a crisis and they had to deal with it in a practical way. The succeeding years have demonstrated their sanity and foresight.

Love of nation is a comparatively new growth, for nations in the modern sense are a product of the recent centuries. But the love of one's own people, one's community, one's soil, is as old as man. All these are interwoven in modern patriotism, the broadest, the most desirable, the noblest emotion civilized mankind has ever achieved. It is a growing thing, a growth in man, and the world would be infinitely poorer were it to fall or weaken.

Many people are disposed to undervalue symbols, while others exalt them above the things signified. So it is with patriotism, which represents the reverence which every citizen should have for his country. We all have that reverence, and yet there are at times it does not seem to have any vital relation to the life of the people.

Those who recognize the meaning of patriotism, of course, that it includes appreciation of our liberty which we enjoy as individuals under the State and Nation. But there are newer ideas about liberty—if the country does not meet the right of every individual to do as he pleases, but it does mean the right of every citizen to use his own faculties for his own development.

Our liberty has a long history, reaching back through which, going for a thousand years up to the time of the revolution, was a struggle of man to win the liberty of conscience which think of when they celebrate the Fourth.

FARM EQUIPMENT HEADQUARTERS

Again the methods of Pennington county farmers are to be made a subject of study by farmers in other parts of the state. The Great Northern Railway agricultural has selected this county in which to observe how farming will successfully overcome the grow hinkle.

The farmers from distant points find it profitable to come here to learn what successful farmers in this community are doing to make their farming operations pay. It seems that in many instances they could do well to stay at home, after them. Following the example of those who are making good is usually a safe bet.

WHISKERS OUT OF DATE

An official of a prominent farm organization, who recently made a tour of the agricultural regions of the United States, is said to have expressed surprise after returning from a visit to twenty-five states, that he found almost no farmers with long flowing whiskers. This should have been a great surprise to a man who keeps in touch with the farmers of America, but a great many of our people who live in the big cities might find out even more surprising things about our rural communities and this newly discovered whiskerless era.

Whiskers no longer mean whiskers. They mean that city men have not been on farms oft; top left, Alfalfa Olson, Hallock; right, Bridgeman and Severance, Marvel; below, Rice Shaug, Beltrami.

GOODBYE AND GOOD LUCK
Immigration Bulletin

In view of the fact that the late session of the legislature failed to make appropriation to continue the work of the State Immigration Department, the activities of the department will be brought to a close during the coming month and with this issue the Weekly Bulletin will cease to exist.

A movement is on foot, headed by Mr. O. A. Stalberg of Wheaton, to form a semi-official organization to raise the necessary funds to advertise Minnesota farm lands and in the event that this movement proves successful a publication along the lines of the Weekly Bulletin will, in all probability, be established. Those who are interested in the continued growth and development of this state, feel that just at this time when the demand for farm lands seems to be on the increase, an organization of this kind is particularly essential.

We desire at this time to extend our sincere thanks and appreciation to all those who have in any way assisted this department during the past two years in its endeavor to build up and expand the agricultural activities of Minnesota. To the newspapers of the state who have always given freely of their time and space in the furtherance of the cause, to the bankers and realty operators who have received us with open arms and assisted to these go the bulk of the credit for having made it possible for Minnesota to show the greatest record of farm activity of any strictly agricultural state in the Union. Much credit is also due to a highly competent and extremely loyal corps of workers who have cheerfully worked nights, Sundays and holidays during the rush season to keep up with the work. To all of these, and to those who have left the department, we say goodbye and good luck.

If you think your neighbor's grass is greener perhaps it is because he takes better care of it.

Sheep Raising on R. R. Valley Farms

Western yearling ewes make good Minnesota and North Dakota farms. Sheep are in for a great increase in lambs. Pictures show: Top left, Alfalfa Olson, Hallock; right, Bridgeman and Severance, Marvel; below, Rice Shaug, Beltrami.

These pictures show how some of the western yearling ewes are coming on to be fixed in Thief River valley and the kind of permanent improvements that are being made on the farms for the care of sheep.

The new shed is on the Bridgeman and Severson farm near Marvel. It cost about $700 and is 24x60 feet. There are 225 ewes on the farm. Lambing is about one-half completed, the increase saved is about 90%.

This farm shows what sheep will do in the confined growth and development of this state, feel that just at this time when the demand for farm lands seems to be on the increase, an organization of this kind is particularly essential.

We desire at this time to extend our sincere thanks and appreciation to all those who have in any way assisted this department during the past two years in its endeavor to build up and expand the agricultural activities of Minnesota. Selvig Writes Postal Dep't About Resources of Pennington County

Congressman C. G. Selvig of Crookston in his effort to improve the rural mail service in Pennington and eastern Marshall counties has written another letter to the north assistant postmaster general giving information regarding the agricultural areas to be served by the re-organization of the mail service that the postal department is urged to establish.

The letter follows:

Crookston, Minnesota,
June 27, 1927.

Hon. H. H. Billany,
Fourth Assistant Postmaster Gen.
Washington, D. C.

Dear Sir:

With further reference to the proposed reorganization of the mail service in Pennington County, Minnesota, to supplement my letters of June 13 and 24, I beg leave to present additional data concerning the agricultural growth and development of the territory affected.

The following statement of the Highlanding Creamery is taken from certified statement of its manager:

1926 (9 Mos.) $62,103.65 Paid to patrons.

1926 (12 Mos.) $72,809.27 paid to patrons.

"A much larger increase is expected."

The following statement from the manager of the Thief River Valley Cooperative Poultry Association, with headquarters at Thief River Falls, Minnesota, is indicative of the agricultural growth of the area, as approximately $150,000.00 will be marketed through this association is estimated as coming from Pennington County.

Volume of business transacted in 1926:

214,833 dozen eggs, also 897,656.70
214,814 pounds live poultry, value $57,588.77.
1,000 pounds dressed turkey, value $100,128.89.
Miscellaneous value .....$ 8,479.08
Hay sales, value 41,042.00
$318,929.04

"A fair and conservative estimate of poultry produce marketed from Pennington County, Minn. at Thief River Falls, $200,000.00."—Total—including—that—handled on a—total—basis—$518,929.04.

Taken from statement by D. O. Norby, manager, which statement is enclosed.

An overwhelming majority of farmers in the area agricultural area seek modern mail facilities, embodied in the so-called Sexton plan, providing for certain mail routes out of Thief River Falls, and Mavie, and continuing from Thief River Falls over the routes out of Goodridge.

At a well-attended meeting held at Thief River Falls, June 22, which I attended, a large number of the progressive men in this territory personally urged the early favorable consideration of this matter.

Yours very sincerely,
(signed) C. G. Selvig, M. C.

Thief R. Falls Should Install City Scales

To the Public Generally and To the Members of the City Council, of Thief River Falls, Minn.
Gentlemen:

The undersigned Red Lake Ice Company intends to go into the Coal and Feed business here in the city. We are very much in favor of the City installing a City Scale, and requiring all coal sold to be weighed on City Scales. We believe this would be fair to both the fuel dealers and the public generally, who have to buy coal. We have seen City Scales, with a city weighmaster in charge, in other towns, and the result has always been satisfactory, and the scale has been always operated at a slight profit to the city. There would be no tax on the operation of such a scale.

We are writing you this for the purpose of urging you to take steps to have a city scale installed, and making the weighing of coal on the official scale compulsory. We hope that you will take the matter up for consideration, and investigate the merits of the proposition. If you do, we feel that you will come to the conclusion that it will be to the advantage of the coal buyers and dealers, and of the public generally, to all remove all doubt and uncertainty as to weights. We hope that the public generally in the city will support the matter, so that by April 1927 we may have a City Scale in operation here, with the result that all weighing must be done on this scale."

Yours truly,
Red Lake Ice Company,
By A. W. Lund, President.

Home-washing Means
Home-working

There is no farm of home-washing that does not leave you plenty of work to do.

No matter how much mechanical help you may purchase, you know that you have to get away while your machinery does the washing for you. You know, too, that it does only part of the work, leaving most of it for you.

Laundry-Washing Means No Washday!

The laundry takes washday with its work and bother and fatigue, completely out of your hands. Even more than its perfect service, which costs only a few cents a pound, attests to every bit of the actual washing—enables you to go wherever you want, and to do whatever you wish. And no form of home washing—no mechanical appliance—can do as much.

Then there are our semi-finished services that, in addition to the washing, will do a part or all of your ironing—according to your preference. If you are using a laundress, our fully finished laundry service will save the ironing. The laundress, hunch, supplies, soap powder and whatever appliances you may require to provide the finished dress' use.

The best way to handle washday is to get it out of your home. And the only way to do that is to use the Laundry. Phone us today, and get full information about our various services and prices.

LORENZ TELLS ABOUT CITIES SEEN ON TRIP

BICYCLES POPULAR IN EUROPEAN COUNTRIES

Local Pastor Decides to Visit Holy Land and Other Points of Interest There

Following is the second letter to the Times from Rev. E. E. Lorenz of the local Presbyterian church and pastor to the Trinity International convention in Ostend, Belgium, which he describes many points of interest and gives his impressions of Europe for the information of Times readers:

Ostend, Belgium.
June 7, 1927.

Dear Home-folks:

It is impossible to imagine with what reluctance I begin this letter because there is so much to describe that I fear I will so completely lose my inability to do it properly.

I believe I closed my letter a week ago while the ocean was still rolling in the waves. The Carinthia is one of the steadiest boats on the Canard line. Nevertheless, it was quite a sensation to go to bed up on a wave and know that you had quite a long way to fall. Fortunately I was not seasick, but it did give me a headache. Then, too, that lasted for less than twenty-four hours and was very slight, as a matter of fact. Perhaps I ought to add that the many passengers who were so bad about it, were not at the breakfast like ever the ensuing days. Hunch like made me glad. My stomach is all in comotion, so I won't attempt to describe it to them.

Ireland is quite an interesting town. It became so because it was the first land contact with it. We have always been quite more unusual customer of the Emerald Isle, and we found it so. Even as the gangplank was being put down from the steamer to the dock, we were met by a number of beggars. Some were quite ragged, others were dressed in their best clothes. Some were old, others were young. Some were men, others were women. Some were children, others were grandparents. Some were cripples, others were in the best of health. Some were in rags, others were in fine clothes. Some were dirty, others were clean. Some were ugly, others were handsome. Some were fat, others were lean. Some were tall, others were short. Some were bald, others had hair. Some were blind, others had eyes. Some were deaf, others had ears. Some were dumb, others had tongues. Some were lame, others had legs. Some were without arms, others had arms. Some were without hands, others had hands. Some were without fingers, others had fingers. Some were without feet, others had feet. Some were without toes, others had toes. Some were without noses, others had noses. Some were without mouths, others had mouths. Some were without chins, others had chins. Some were without ears, others had ears. Some were without eyes, others had eyes. Some were without eyebrows, others had eyebrows. Some were without eyelashes, others had eyelashes. Some were without foreheads, others had foreheads. Some were without heads, others had heads. Some were without necks, others had necks. Some were without shoulders, others had shoulders. Some were without arms, others had arms. Some were without elbows, others had elbows. Some were without hands, others had hands. Some were without fingers, others had fingers. Some were without nails, others had nails. Some were without backs, others had backs. Some were without stomachs, others had stomachs. Some were without legs, others had legs. Some were without knees, others had knees. Some were without feet, others had feet. Some were without toes, others had toes. Some were without skin, others had skin. Some were without bones, others had bones. Some were without blood, others had blood. Some were without hearts, others had hearts. Some were without souls, others had souls. Some were without anything, others had everything. Some were without nothing, others had something. Some were without everything, others had nothing. Some were without something, others had anything. Some were without anything, others had something. Some were without nothing, others had everything

PREPARING FOR 1927 COUNTY FAIR

Premium List to Be Out Soon; New Department Needs are Announced

Arrangements for the annual county fair, to be held in August, are progressing satisfactorily and officials of the Pennington County Agricultural Society declare that when August 8, 9, and 10 come along everything will be in readiness for the big county event. Many special features have been arranged for the entertainment of visitors, details of which will be announced later.

The revised premium list will be ready for distribution within a few days. The principal change in the list is that in order to avoid the rule of first and second prize winners participating on all livestock, a plan has been worked out by the directors whereby the premiums will be based on the number of head exhibited in each class according to a scale running from $10 for first prize with six entries and $1 for the first prize with one entry.

Officers of the association are: Herbert Fuller, president; Fred Grimestein; first vice president; Fred Beerman, second vice president; C. M. Thronson, treasurer; and J. J. McCann, secretary. Hans Anton, Paul Knaak, Ed. Lambert, H. E. Hunt, and Wm. E. Dahlquist, directors.

Superintendents of the different departments include: Paul Engelstad, livestock; Emil Grabstein, poultry; and Hans Anton, agriculture. Roy Lambert, racing; Fred Beerman, publicity and marking; C. M. Thronson, gate and ticket; Supt. Lee Knaak, education; R. E. Hunt, fish and game; Herbert Fuller, concessions; Mrs. Herbert Fuller, the women's department. The chairman of the various divisions of the women's department are: Mrs. C. H. Hopkins, culinary; Mrs. Fred Daniel Shaw, needle work; Mrs. Beerman—Potter—, canning; Mrs. Thronson, fancy work; Mrs. P. H. Herrick, flowers, and Mrs. R. E. Hunt, children.

The following race program is announced: Thursday, August 4, 2:30 trot, 2:25 pace, $250; 2:12 trot, 2:20 pace, $300; 2:16 trot, 2:25 pace, free for all trotters and pacers, $200. Friday, August 5, 2:20 trot, 2:30 pace, free for all trotters and pacers, $100. Saturday, August 6, an interesting program is assured.

TRUNK HIGHWAY WORK

Bids on the first list of state highway construction projects to be undertaken this year will be opened at the office of the state highway department at 10 a. m., June 28, according to a statement issued by Commissioner C. M. Babcock. The list includes eight projects totaling 73 miles of grading and 46 miles of surfacing and resurfacing, and 13.2 miles of paving includes 1.4 miles on T. H. No. 8 at East Grand Forks.

AT CLUB CAMP

A total of 225 boys and girls with their leaders from Hitterø, Marshall, Norman and Polk counties are in camp at the Red River 4-H club camp here this week at the Ferry Creek tourist park. Clarence Lindquist, county agricultural agent, is in charge of the camp. Miss Ruth Hanson, state club leader, and Miss Ruth Bergh, state boys' club leader, are assisting. A. H. Larson, registrar. The camp committees in charge of the various projects. Games, contests, movies, outdoor cooking, community singing and stunts make up the play part of the camp. Under the direction of Miss Ruth Hanson, state club leader, and other members of the Northwest School camp, a study is made of the dairy calf, poultry, pig, sheep, judging, gardening, citizenship, health and recreation. Similar camps will be held next year at the Hartsville 4-H club camp and the boys of the members who attended this year's camp.

WISCONSIN CO-OPS JOIN MINNESOTANS

Ten Million Dollar Gain by Merger is Hinted by Officials in Minneapolis

At a meeting of $10,000,000 in annual production of the Land O' Lakes Creamery association thru absorption of the marketing division of the Wisconsin Creamery association; and addition of 200 new contract members, officials announced here. They were formed by H. F. Meyer, salesmanager, following the annual meeting of the Wisconsin association Friday, in Chippewa Falls.

"At the meeting, members of the Wisconsin Creamery association voted to dissolve the marketing branch of the business and indicated that they will seek membership on a contract basis in our company," Mr. Meyer said. "This will mean that 25,000,000 more pounds of butter will be shipped into Minneapolis annually, and will bring the total production of the association to 450,000,000 pounds. Wisconsin dairymen have been Minnesotans in all parts of Wisconsin and will become completely with the Minnesota company."

Mr. Meyer said that it would not be necessary to increase the plant or personnel of the Minneapolis to handle the new business.

KEPT MOVING

The following item is taken from the Pierce County Weekly Journal:

"Poor Commissioner Steve Butler is interested in the council Monday evening that municipalities cities were building tickets for their deadening pests by sending money to this city. Mr. Butler was justly indignant as such practice is for his constituents.

"One man got off one of the trains the other night," said Mr. Butler, "He was an architect and was absolutely destitute. He said his home was in Thief River Falls but he had been in Detroit for a year. The Canadian officials had purchased a ticket for him to Thief River Falls; the Thief River Falls authorities bought him a ticket to this city.

"Mr. Butler asked what 'could be done in a matter of this kind. He did not think that 'authorities' exercising the power had a right to send a pauper to this city.

"What did you do with the fellow, Mr. Butler?' asked one of the aldermen.

"'Oh, I bought him a ticket to another city large than Ellendale,' said Mr. Butler, and everyone felt that this was the proper and deserved punishment."

MINNESOTA MOTOR DEATHS DECREASE

Safer Highways, Newspaper Warnings Help Reduce Auto Accidents

Minnesota was one of eleven states in which deaths from motor vehicle accidents decreased in 1926, according to figures compiled by the National Safety Council. The total deaths were 950 in 1925 and 819 in 1926, a decrease of 131—or 13.8 per cent. Only five states, Nevada, New Hampshire, New Mexico, Rhode Island and Wyoming had a larger per cent of decrease. The total deaths for the United States were 16,161 in 1925 and 17,826 in 1926, an increase of 1,665—or 10.3 per cent.

Safer highways, elimination of sharp turns and other hazards, and the marking of dangerous places, both by the State Highway department on trunk highways and by many counties on secondary roads, was an important factor in the reduced mortality. Where it is remembered that the automobile registration in Minnesota increased 105 per cent in 1926 over 1925, the reduction in accidents becomes more noteworthy.

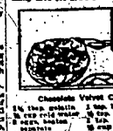
Effective But Simple Dishes Now In Vogue

Something simple yet effective is the housewife's ideal for week-end meals.

During the warm summer weather, when always we are busy with the many things in the preparation of meals, when minutes would seem to save hours, we are prone to make up some recipes. Friends are invited almost daily to come for dinner or supper and the housewife is constantly on the lookout for new ideas for delicious dishes that are not too elaborate. This publication is always glad to receive your favorite recipes, which will be tested in the Herald kitchen and if found worthy will be published for the benefit of other readers. Address your communications to the Herald Recipe Editor, Box 1, Thief River Falls, Minn.



Here is a delicious cream soup made from fresh vegetables or an omelet, a fish dish or ice cream, or a delicious yet refreshing dessert that should find favor in the warm week ahead.

The home manager enjoys her week-ends 100 per cent more when she has a few moments of leisure. And in this connection the following recipes may prove an aid.

Creamy Baked Bromley

1 cup boiled or	1 pint cream
mashed potatoes	1 tablespoon butter
1 cup grated cheese	1 teaspoon salt
1 cup chopped celery	½ teaspoon pepper
2 onions, cut	½ cup buttered
fine	cracker crumbs
½ cup chopped	½ cup whipping
parsley	cream
2 eggs	½ cup milk

Mix beaten egg yolks and cream; add to potatoes, cheese, celery, onions and parsley. Put in double boiler with butter, salt and pepper and heat until the cheese melts. Then add milk, cream and whipped cream. Pour into baking dish, cover with buttered cracker crumbs and bake in slow oven about 1 hour. It may be omitted in last 15 minutes for a crisper crust.

Chocolate Velvet Cream.

1¼ tbs. gelatin
¼ cup cold water
½ cup boiling water
½ cup sugar
2 squares (2 oz.) chocolate
2 cups cream
1 teaspoon vanilla

Mix beaten egg yolks and cream; add to potatoes, cheese, celery, onions and parsley. Put in double boiler with butter, salt and pepper and heat until the cheese melts. Then add milk, cream and whipped cream. Pour into baking dish, cover with buttered cracker crumbs and bake in slow oven about 1 hour. It may be omitted in last 15 minutes for a crisper crust.

Soften gelatin in cold water. Melt chocolate over hot water, add sugar and boiling water and cook until thick, stirring constantly. Cool, add gelatin and when mixture begins to thicken fold in cream whipped stiff and vanilla. Add sugar and pour into cold lady cake. Add cream and pour over cake. Serve with whipped cream.

War on Bankers Cow in Started in Canada

War is being declared on the bovine by the bankers of Canada, according to Dr. Charles F. Curtiss, chief of the dairy division of the United States department of agriculture, who has been in the Northwest in connection with the dairy conference at Fargo. Dr. Curtiss declared that the cow is the best friend the farmer has and that the bankers of Canada are going to make it possible for the farmer to own a cow. He said that the bankers are going to lend money to the farmer on the security of the cow and that the farmer will be given a chance to pay for the cow out of the cream check. Dr. Curtiss declared that the bankers of Canada have found that the cow is the best security the farmer has to offer and that the bankers are willing to lend money on the security of the cow.

W. A. Lindahl, for many years manager of the Farmers Co-operative Creamery, and Conrad Braaten, also of the Farmers Co-operative Creamery, were in the city Monday on their way to Fargo to attend the dairy conference there. Dr. Curtiss addressed the conference Tuesday afternoon.

NEW APPOINTMENT IN RAILWAY MAIL SERVICE

W. E. Morris, an assistant state leader of county agents since 1919, has been appointed district leader in charge of the agricultural extension work in the Red River valley district. The change becomes effective with the beginning of the new fiscal year, July 1. Mr. Morris has always been interested in agriculture. He was county agent in Renville county, Minnesota, from 1913 to 1919.

C. L. McNelly, county agent in Fillmore county, will succeed Mr. Morris as assistant leader of county agents. He will be assigned to the northwestern district, which includes west central Minnesota and the Red River valley counties. For nearly seven years he was county agent in Fillmore county. He became a teacher of agriculture in two Minnesota high schools and for a time was engaged in soil survey work in Polk county. He is a graduate of the Minnesota School and College of Agriculture.

The Selling Smile

The Standard Oil Company (Indiana) needs no slogans about smiling. There is a certain sadness in the picture of a row of people smiling because they have been told to smile—that it's "good business." It seems questionable whether the "selling smile" really sells.

Employees of the Standard Oil Company (Indiana) smile—perhaps more frequently than average individuals—but when they smile it is because they feel like smiling—and for no other reason. Their smiles are spontaneous — happy — friendly — contagious.

It is inevitable that in the lives of 20,000 men and women there are times of misfortune—despondency—illness—death—but there is no secret in smiles survive. On the whole, however, the lives of the employes of the Standard Oil Company (Indiana) are unusually happy and contented.

They have work to do in the world, that is human and helpful—they are interested in it—and they are secure in the knowledge that the rewards of their work will be in proportion to the effort and ability they put into it.

Employes of the Standard Oil Company (Indiana) know that the Company is concerned about their welfare, having given substantial proof of its concern by such measures as the Employes' Stock Purchasing Plans, the Leath Benefit Plan and the Annuity Plan.

Faith in themselves, in the Company of which they are a part, and in the quality and service of the product, gives strength and stability to their lives.

Employes of the Standard Oil Company (Indiana) have found one of life's few unfailing sources of satisfaction—work worthy of the best that is in them—and their attitude that "that's right with the world" is a healthy, wholesome result.

The 20,000 employes of the Standard Oil Company (Indiana) are loyal, contented workers. Their integrity and fine principles are highly adhered to, have inspired their loyalty. Fair treatment and a warm friendly favor brought about the contentment.

This is good business—sane—simple. For in business it is men who count. Discontented workers do half-hearted jobs, and discontent creeps into the product.

The spirit of the employes of the Standard Oil Company (Indiana) is reflected in the products of the Company and in its service to the motoring public. Because every employe works wholeheartedly, the name of the Standard Oil Company (Indiana) is known where they operate it stands for solid things—absolute dependability—uniform products of the highest quality—economy and stability on the part of all employes to render the most helpful possible service to motorists.

The ability of the Standard Oil Company (Indiana) to hold and deserve the confidence of the thirty million people of the Middle West is due to the loyal and efficient service of 20,000 men and women. Loyalty and contentment are priceless ingredients of all Standard Oil Company (Indiana) products.

TO INVESTIGATE HIGH WATER NEAR GRYGLA

The following item appeared in last week's issue of the Bemidji Pioneer:

The matter concerning the right of farmers in the Grygla farming district to change the natural course of water flowing near and endangering their property was brought up at a special meeting of the county commissioners by County Attorney Graham M. Torrance in the court house Saturday afternoon.

The county attorney cited an old law which would protect farmers in the state from diverting water from ditches authorized by the county and held that the farmers of the Grygla district had no right to put the ditches 11 and 12 from excess water, even the they property were damaged.

"Farmers wanting to appeal the law which established farm organizations to prevent actions such as have been reported to have diverted these waters onto the fields in the Red Lake region this spring along ditches 11 and 12 should appeal to the county with the district court, the county attorney advised the commissioners and farmers attending the meeting.

Several of the farmers directly west of the Red Lake narrows have been nearly forced to leave their homes because of a result of a northerly neighbor turning loose water from ditches 11 and 12 in the Grygla section. The men reported to the county attorney at the meeting that it would be necessary for them to vacate their properties if the illegal drainage was not stopped.

An investigation will be started within a week by members of the county board to determine the cause of the high water in the Grygla region. William Johnson county highway engineer, has been appointed drainage engineer to conduct the investigation with James F. Hayes, a member of the county board.

Dairying Growing by Leaps and Bounds in Minnesota

Minnesota dairymen realized $191,-000,000 during 1926 from the sale of dairy products, which is more than half a million dollars over the amount received in 1925, H. P. Hamsher, commissioner of agriculture and dairy and food, announced.

Dairying made the state accounted to $97,373,811 pounds, an increase of 3,000,000 pounds over 1925, when the total was 94,373,811 pounds. The average price of butterfat during 1926 was also higher, 47.2 cents a pound, compared with 44.7 cents in 1925.

"The increase of income is especially gratifying as one of the unfavorable features of the year was the short hay crop," Hamsher said. "Many dairymen were forced to sell cows this summer because of the shortage of feed, but the increase will more than compensate for the loss of cows."

In addition to the cream sold for the making of butter, a heavy year production of other dairy products was recorded in 1926 on the farms, Hamsher said. The figures announced Mr. Hamsher said that Minnesota farmers last year sold 782,291,852 pounds of cream to creameries, producers and other purchasers and consumed with their families 706,547,921 pounds in 1925. In 1926 the sale of milk to manufacturing plants amounted to 691,049,745 pounds.

Noticeable in the showing for manufactured products is the increase in cheese making in Minnesota. At the same time the state has moved rapidly forward in the manufacture of ice cream, condensed and evaporated milk, cream and buttermilk for ship-ment. The growth of dairying in the Red River valley has been especially rapid, he said.

PERHAPS YOU'VE HEARD OF THESE "FOOLERS?"

Have you heard of such April Fool-lishness as—

The man who can't start any night stir in his bedroom but can start Chatter in the morning.

The woman who can't eat butter because she is allergic to cows.

The man who drinks coffee three times a day, smokes incessantly, and tries to work, but thinks he needs a vacation rather badly?

The little boy who wants to be a football hero but still refuses to stick his head in a bucket.

The girl who is always buying cosmetics for that complexion which school girls covet, and still passes by the soda fountain to pick out pleasant National Dairy Council News.

THIRTY-NINE RURAL PUPILS GET DIPLOMAS

All But Nine Attend County Graduation at High School Here Tuesday

DEPARTMENT OFFICIAL STRESSES EDUCATION

Urges Discontinuance of 7-month Terms; 89 Have Perfect Attendance Record

Thirty-nine boys and girls in Pennington county rural schools Tuesday afternoon received their eighth grade diplomas which will admit them into high school, at the county graduation exercises held in the high school auditorium. Approximately 200 persons, pupils, parents, and teachers attended.

An enjoyable program was given, presided over by Geo. M. Gunderson, superintendent of schools. The principal address, "Does Education Pay?" was delivered by C. H. Cwanary of St. Paul, director of rural education in the state department of education, who in a forceful manner impressed the graduates and others upon the importance of getting a good education.

Mr. Cwanary exploited the subject by discussing education from the physical and health standpoint, social, economic and moral.

Regular Attendance Vital

The importance of regular attendance was stressed by the speaker citing courageing terms of only seven months, in Minnesota 41st school districts had seven-month terms. The total enrollment in these schools was 17,000 pupils, whose average attendance was five months, or 100 days. Only 8 per cent of these are graduating from the eighth grade.

The total enrollment in all of Minnesota's rural schools is 190,000, with an average attendance of 125 days, or more than six months. The average attendance in the state is gradually increasing each year.

In 1916 Pennington county had 83 districts with terms of only seven months, and in 1925 the number was up to 87, while in 1926 it had dropped to 85.

The raising of the standard of teachers was also pointed out, Mr. Cwanary stating that 1920 were graduated from the teachers training department in the state, while in the state and 1000 completed courses at the state teachers colleges, thus better providing an ample supply of well trained instructors.

Morals Foundation

"Children should not be kept away from school unless there is a very valid excuse," the speaker said. The foundation of character and of each pupil to his class and to the school was pointed out.

The value of proper habits of living formed while in school was emphasized. Teaching of morals was declared the foundation of education.

The development that is brought about physically, mentally and morally thru organized and supervised play was stressed.

Mr. Gunderson in opening the program explained the new requirements for eighth grade graduation, stating that the 1927 class finished under some standards than any previous group in the country.

In discussing the contributing factors to the success of the graduate, Mr. Gunderson emphasized the pupils' regular attendance and punctuality and hard work, the parent's interest in permitting the child to attend school even thru considerable sacrifice, and the teacher's conscientious efforts in her work.

Urges High School Entrance

The superintendent recommended that the graduates enter high school in the fall, and deplored the agricultural depression which has made it difficult for many farm boys and girls to secure the advantages of advanced training.

Music was furnished by the local boy's band, directed by L. F. Tuleen, and by Ethel Hedquist played a piano solo, Liszt's "Rhapsodique."

Thirty-seven graduates were listed in these columns last week, the additional names being Anna Johnson, district 26, and Thomas Fisher, district 160, both of Thief River Falls. All but nine of the graduates were present to receive their diplomas from Mrs. C. Gunderson, who also issued perfect attendance awards to 89 pupils in the rural schools, 50 of whom were present Tuesday.

Neither Absent Nor Tardy

Following is the list of pupils who have been neither absent nor tardy during the 1926-1927 term:

Marshall County Fair Opens at Warren Monday

Large crowds from all quarters of Marshall county and Northwestern Minnesota will attend the 21st annual Marshall county fair at Warren next Monday, Tuesday and Wednesday, for which final plans are now complete, according to Jacob Jacobson, president, Wm. Forsberg, president of the fair association.

"Nothing has been left undone to make the 21st fair the best in its history in both entertainment and educational advantages," said President Forsberg.

Exhibit buildings are being entirely renovated this week and will be in first class shape to care for the hundreds of attractive exhibits that will compete for the $1,700 in prize money to be offered at the fair.

The boys and girls club department at the 1927 fair is due for Big-ger things this year with club members in all parts of the county working hard to prepare their displays for the fair. The showmanship contest for which two silver loving cups will be offered for both city and beef club contestants will take place before the grandstand Tuesday afternoon, according to the fair program.

Many changes are in the livestock industry in Marshall county will make larger displays of fine well-groomed animals and will be a strong feature. Many entries have already been received and by next week the county is especially fine shape at this

Committee for R. R. Valley Booster Booklet Reports Favorable Response

County Agent J. J. McCann of this city, J. M. Higinbotham, president of the Minnesota Red River Valley Development association, and Peter LaBissoniere of Red Lake Falls Friday visited the different towns in Marshall, Roseau and Kittson counties to interview boosters regarding financial support for a proposed booklet or a series of pamphlets to be published boosting the Red River valley to prospective homeseekers. They report favorable response and the other counties are likely also to support this effort that it may become valuable to its character.

Driveway to Fair Grounds Will be Improved by City

Directors of the county fair association appeared before the city council Tuesday night, asking that the city assist in improving conditions at the entrance of the grounds, make necessary by the changing of the state to the northeast corner of the grounds, immediately at the east end of the old dust stretch purchased a year ago, for which eventually will be the main driveway of the grounds. The request was duly granted, as was also the customary donation of $100 toward the fair.

A delegation, composed of Legion and American Legion officers was present, seeking free use of the auditorium for the Fourth of July celebration. A dance is to be given the evening, a permit for which was also granted, and in case of rain the afternoon program will be staged in the auditorium.

A communication was read by the clerk from the Jacobson Engineering Co., stating that in their opinion a fishway in the new dam was not advisable.

Financial matters occupied the remainder of the time of the council meeting, close to $25,000 being allowed by the aldermen. Oscar Paulson was the only absentee. Included in the above amount was a $182.50 bill for the paving of Main and Riverside avenues. $4,200 for the new water plug was started Saturday. An-

Volunteers to Sell "Hearts" For Prison Relief Work Sat.

Saturday will be Heart Day in Thief River Falls for the Volunteers of America, permission having been given representatives of that organization decided many years ago by General and Mrs. Maud Ballington Booth.

The following well known persons will represent the organization on this occasion: Mrs. H. A. Hrumund, Mrs. T. Reep, Mrs. J. H. Hartleif, Mrs. J. E. McCreedy with Mrs. Wm. Kerstad in charge of "young peoples" work and finances. Headquarters will be maintained in the Commercial club rooms by the auditorium.

Mrs. Booth's many activities and especially her many years of voluntary labor in behalf of the down-and-out from coast to coast, for the Volunteers of America is one of the foremost of all agencies in systematic spiritual work in behalf of men behind prison walls and to look after their aft-times destitute families, such families being looked after by regmental officers of the organization, in whatever state they may live.

The tag day money is at the present time being used for flood relief work. The Volunteers of America have sent workers and have shipped supplies of all kinds to all flooded areas and points where refugees are located.

The local merchants are offering many fine articles for sale, among those who secure the largest amounts for their "hearts," the first an attractive mesh bag given by the Dickinson Mercantile company; second, a bottle of perfume given by the Rexall Drug; third, fountain pen, by J. P. Curtis; fourth, pair of silk hose, by the Variety company store; fifth, two-pound box of candy, by Roy Lambert; and sixth, choice of a pair of shoes by A. Wangensteig & Son. "An extra heart on Saturday" will be lost, in some cases their all that collectors are asked to buy a tag and to give a quarter, dime, or half dollar to this worthy cause.

Wool Growers Ship Carload to Co-operative

The first carload of wool was shipped yesterday by the Thief River Falls Co-operative Poultry association to Wabasha, a number of local farmers having pooled their clippings with the Goodhue county Sheep Growers' association. Loading of the car was started Saturday. Approximately 20,000 pounds, was started Saturday. Another car will be loaded soon, says Manager H. O. Norby.

The wool market is favorable this year, Norby states.

The first thing a man thinks of when he is due for some unfavorable publicity is his dear old mother or wife, and then he wouldn't disgrace for the world. He just doesn't do that he never thinks soon enough.

TRONDERLAGET DRAWS NEARLY 1,000 VISITORS

Nineteenth Annual Convention of National Society is Successful Event

TWO NATION-WIDE PROJECTS LAUNCHED HERE

Dell Rapids and Winnipeg Selected for 1928 Meetings; Officers Re-elected

Trondelaget of America Sunday closed its 19th annual convention, which is declared one of the most enjoyable and success-ful meetings ever held by the organization. More than 500 delegates from Minnesota, North and South Dakota, Montana and Wisconsin were registered during the three days, while it is declared that the total attendance was over 1,000 mark. More than 200 registered at the opening session Friday morning, ideal weather prevailed throughout, and most of the delegates came by automobile.

All details for accommodating the many visitors had been carefully taken in care of by the local committee headed by Dr. P. I. Vistaunet's general chairman. The city streets were gaily decorated, as was the auditorium, where the convention sessions were held, and the Eagles' auditorium, where the convention headquarters, arranged by Edwards, Ellis and Fanebust, ocrations committee. Registration was handled by Miss Borge, committee

Andrew Grendahl was chairman of the housing group which had secured room in private homes for the many who could not be accommodated at the hotels.

L. H. Kelter, president of the Thief River Falls Tronderlag is highly pleased with the outcome, and Rev. P. O. Ristad of Hazlewood, Wray, president of the national "lag," said that arrangements for the convention were exceptionally well carried out by the members of the local Tronderlag, and was started Saturday. Another speaker was Rev. Riv. Ladd.

Renewed Friendship

Many friendships were renewed during the three days, former residents of Marshall, Wray, many old friends whom they had not seen since leaving the state, and their children. Others whose forefathers had come from the Trondheim region became acquainted with many of the descendants of their parents whom they had never met before. A goodly number of young people attended.

A large delegation came from the Sioux Valley, S. Dak., there being ten autoes in the party, carrying more than 50 delegates. Approximately 450 miles on the trip to the convention city.

Dell Rapids, S. Dak., in the Sioux Valley, was chosen as the convention city for next year, I. N. Larson reporting the long list of officers, directors and committees had also been elected, Winnipeg, Manitoba, Edmonton and Devils Lake, N. D., while in Canada, formal bid was made on the floor of the convention by a delegate from Fargo. Arrangements were also made for a special train to Winnipeg next June during the big celebration sponsored by the League of Norsemen of Canada, to which all Norwegians in America have been invited to participate. The two conventions will be held on dates which will permit members to attend both.

Of National Interest

Two projects of nationwide scope were formally launched at the convention here, the "jubilee gift" to the Norway tour in 1930, marking it as the most important celebration ever held by the organization.

Definite arrangements were made for the "jubilee gift" of 100,000 kroner, or $27,000, as a monumental altar in the noted cathedral of Trondheim, Norway, known as "Domkirken" to which all Norwegians in this country will be asked to contribute. A special delegation was passed, which the Tronderlaget presents the Norwegian Cathedral at Trondheim to left an offering on Sunday, July 20, 1930, the "Olaf Fest" for the benefit of the cathedral gift, that all organizations in which Norwegians in this country are interested be asked to support this gift that it may become valued in its character.

The 900th anniversary of the fall of St Olaf, which occurred July 29, 1930, at Stiklestad, Norway, has been set as the date for the big pilgrim-

COUNTY BOARD IS BUSY THIS MONTH

Tax Levy to be Fixed Next Monday; $100,000 Bond Sale

Thursday, July 14

The semi-annual meeting of the Pennington county board of equalization, at the court house commencing next Thursday, the 14th, when bids will be received for the $100,000 bond issue recently authorized. It is expected that there will be a lively bidding.

On July 14 the commissioners will convene as the county board of equalization to pass on the assessment rolls as turned in by the various assessors, after inspection by the boards of review. Most of the assessors turned their books over to Auditor T. P. Anderson last week.

SAN COMMISSIONERS MEET

All members of the Oakland Park Reinforcement commission, accompanied by their wives, attended a meeting here yesterday. A six-o'clock dinner was served at the sanatorium.

Tag Day Volunteers of Am... Brings $175

Thief River Falls hearts and purses ... Friday to help the destitute women and children and other unfortunates in care of the Volunteers of America by contributing the sum of $179 to that worthy cause.

Every one connected with the affair was deeply grateful to all who in any way helped make the day successful.

A statement issued by the organization's representative says: "To the city officials, the newspapers, the merchants who furnished the incentives for the children's efforts as well as to Mrs. Wm. Kerstad's capable leadership, the credit should be given; neither must the public's generosity in patronizing the youthful workers be omitted. From early in the morning until late in the afternoon each of the girls played the merry game of 'competition' for the prizes and the children's efforts as well as the close attention shown by all ages at all games.

Arbell Robinson is expected to occupy the mound for the local nine tonight. Blair of Crookston is also slated for pitching duty. The team is being reinforced for the big contest.

The local Woodmen, defeated the Erskine team in baseball contest during the Fourth of July celebration here, after battling thru 13 innings, a game which evidently will be the most widely excellent entertainment for the fans.

The teams tied 6 to 6 at the close of the sixth inning, and in the seventh a made until H. Olson completed the circuit for the locals in the opening of the 13th. There were some memorable times when Erskine filled the bases in the 10th period and not a man out, but R. Olson pitched airtight ball and fanned the next three batters in succession, struck out 8 to Melquist's 11, but allowed no bases on balls, while Melquist had four.

FOUR SCHOOLS REPRESENTED IN PLAY DAY

Annual Field Meet of Rural Schools Held at Eastside Ball Park Saturday.

CHAMPIONSHIP BANNER IS WON BY DISTRICT NO. 180

Prizes Awarded by Commercial Club; Picnic Enjoyed by Good-sized Crowd

Atho only four rural school districts were represented in the annual Pennington county play day held at the Eastside ball park Saturday, it was a decided success from the standpoint of interest among those in attendance. Nearly 50 pupils participated in the various field events and many parents and others interested were present to cheer their respective teams. Much enthusiasm was displayed and it is only to be regretted that more schools were not represented, as the schools all turned by members of the committee in charge, taking part.

The team of 11 members representing district No. 180, Wylie, including Myrtle Krause, won the championship pennant, finishing with the highest number of points in the various field events, while district 28, Goodridge, was a close second, with district 160, Steed, third place went to district 181, Hazel, while district 21, Rocksbury, fourth was won by district 60, Hazel, taught by Anna Peterson. Last year the pennant was won by district No. 28, taught by Hazel Krause last year also received second honors.

Following are the districts winning the team event contest:

Games:	1st	2nd
Valley ball	180	221
Criss Cross Goal	180	35
Broad Jump	180	35
Girls Relay	181	221
Volley Ball Distance	180	28
Baseball Relay	28	180
25-yard Dash	28	180

Winners in the individual events are announced as follows:

25-yard dash—Lucille Linblom, district No. 180, first; Gertrude Benson, 28, second.

50-yard dash—Preman Allen, 221, first; Selma Klove, 60, second.

Standing broad jump—Preman Allen, 221, first; Norabelle Peterson, 21, second.

Standing broad jump—Lucille Behnke, 180, first; Thelma Torkelson, 221, second.

District No. 180 was declared first in sportsmanship, the team from district 21 being second.

Cash prizes of $3 for first and $2 for second in the 25-yard dash, and $1 first and $.75 for second in the standing broad jump were awarded. A $10 in prize money being donated by the Commercial club of this city, with the list of awards, most of the prizes went to districts 180 and 28, which have been offered positions in the big leagues.

The ball and basel is a sign of divinity—believing in everlastin life. The vegetarian idea is that all God's creatures are to be free from fear they do not eat anything that has had life. A poodly number of salaries, the proceeds of the games and the expenses going to the Pennsylvania colony treasury. Traveling thruout this country and Canada they have been greeted by record crowds.

A feature of the performance to-night will be vocal solos by "Soldier Caruso", the overseas entertainer who sings as at all games.

Arbell Robinson is expected to occupy the mound for the local nine tonight. Blair of Crookston is also slated for pitching duty. The team is being reinforced for the big contest.

E. F. Dolan of this city will leave July 16 to attend a convention of the American Train Dispatchers association at the Atwater Beach Hotel in Lake Michigan, representing the Soo Line system of which he is general chairman.

"Lindy" Baddish When a Boy, Local Man Declare

At least two Thief River Falls citizens are reading the numerous newspaper accounts of the exploits of Colonel Charles Lindbergh with more than average interest.

E. J. McCuna was acutely aware in Morrison county while "Lindy" attended high school in Little Falls and saw him active, and Fred Faust, local traveling salesman, was intimately acquainted with the flier who then rode to school on a bicycle. Both declare that he showed a marked interest in machinery during his boyhood days.

Altho Colonel Lindbergh was known to Little Falls folks as but a few acquaintances when in Little Falls. He did not get acquainted easily, the local men say, being rather bashful.

His unassuming manners in receiving the honors of the civilized world no doubt contributed much to his popularity.

SWEDES TO PICNIC HERE ON JULY 17

Fergus Falls Attorney Principal Speaker for Gathering at Squaw Point

Leonard Erickson, prominent attorney of Fergus Falls, has accepted the invitation to be the principal speaker at a picnic to be held at Thief River Falls on Sunday, July 17 by the interests of American Sons and Daughters of Sweden, Swedes, and friends of Swedish descent from nearby communities will be present. The program which will commence at 2 o'clock in the afternoon will include numbers by a male quartette and the singing of Swedish songs by the audience. Following the program a picnic will be served, each one present on the part of Joseph Trodeau of this city, charged with transporting intoxicating liquor, the court ordered that the bond of $500 be forfeited and a bench warrant be issued for his apprehension. The whereabouts of the defendant is unknown at the present time.

Two divorces were granted Tuesday, Judge Stanton Hollyday of this county district court this month, namely from Mamie Wright from Lewis Wright, Jr., on which tour is to be made into northwestern North Dakota towns and Canada, the party leaving Thief River Falls Thursday, July 14 and 15. The itinerary will be announced later. Also given a divorce from Mathias Eskelson, who had also deserted his wife. Mrs. Eskelson was represented by C. Halvorson.

The case of John H. Cockrell vs. Mrs. Cockrell, which was started in the July term in 1926 by consent, with Judge Stanton Hollyday presiding, was resumed Tuesday, the case being tried before a jury for the first time. The plaintiff asked for $25,000, claiming that the defendant had alienated the affections of his wife. Mary Cockrell. County Attorney Ole Dahl and Attorney Ole Jacobson representing plaintiff, while Lindberg & Lindberg and Hughes & Boughton represented the defendant. Red Lake Falls.

Arthur Lykke of Fairdale, N. Dak., was arrested Friday night by Sheriff Isle at a farm dance in Silverton township, Saturday plead guilty in municipal court to a charge of "drinking liquor at a public dance" and paid a fine of $15.

CONVENTION VISITORS WELL PLEASED

Tronders Impressed With Hospitality Shown and Entertainment Provided

Visitors to the Tronderlag convention here last week were highly pleased with arrangements made by the committees for their accommodation and entertainment. Praise was heard on every hand. They felt that there is genuine hospitality in Thief River Falls and surrounding territory, and with a favorable impression of the city officials, people.

A large number of the delegates and never visited this community before, but take home with them a feeling of a fine city and such splendid farms as they have never before seen.

The sentiment of the convention is aptly expressed in the following resolution unanimously adopted at the closing session:

"Tronderlagsmotet wishes most heartily to thank the Thief River Falls Tronderlag for its initiative in calling the 19th annual convention in their midst. It appreciates the keen hospitality, considerate preparations and attention which this convention so abundantly has enjoyed.

"Tronderlagsmotet also wishes to thank the City of Thief River Falls for the use of its fine Auditorium for the beautiful decorations, and for the hospitality in connection with our convention.

"Likewise we would thank every organization and its individual who has in any way helped make our stay pleasant and interesting. In this connection we would mention the Civic and Commercial Club, Rivers Edge Lodge No. 70, Sons of Norway, for the use of its club rooms and for cooperation, the Daughters of Norway for their accommodations, the Hvam Male chorus, the Symphony Orchestra, Thief River Falls Band, Prof. Tuleen, Mr. Prichard, Jr., Mr. Bernhard Knudsen, Mr. H. H. Kalberg, Miss Margot Ingerson. Dr. P. L. Vistaunet and his City Council, the Commercial Club, Rivers Edge Lodge No. 70, Sons of Norway, for the use of its club rooms and for cooperation, the Daughters of Norway for their accommodations, the Hvam Male chorus, the Symphony Orchestra, Thief River Falls Band, Prof. Tuleen, Mr. Prichard, Jr., Mr. Bernhard Knudsen, Mr. H. Members of the Mohawk club entertained at an informal party at the G. Andrews home Wednesday afternoon of last week complimenting Mrs. Thorlakson who came to Warren for a couple of weeks with her family, for Mrs. Thorlakson was a former resident of the city. Included Misses Millicent Arnold, Gladys Bowers, Madeline Andrews, Lenore Lallaman, Marion Gray, Orpha Gabrielson, and Alice Larson. The hour spent was spended with a farewell gift from her friends.

Johnson—Peterson

Miss Thea Johnson and Herman Peterson, both of Heil, were married in a ceremony at the Zion Lutheran parsonage Saturday, Rev. E. L. Tungseth officiating. The happy young couple has a host of friends who wish them a happy married life.

Birthday Party

In celebration of his 76th birthday, Nels Berggren was surprised at his home Monday evening by a number of his relatives. The hours were spent informally, and at eleven o'clock was served a feature of which was a large pink and white birthday cake. Mr. Berggren was presented with a gift of money as a token of the esteem in which he is held. Present were Mr. and Mrs. Bergeren, Mr. and Mrs. J. Boggs and children, Mr. and Mrs. M. Lesell and children, and Mr. and Mrs. H. Malone and children.

Mildred Griffin Married

Cards have been received by Mr. and Mrs. H. V. Knutson announcing the marriage of Miss Mildred Griffin, daughter of Mrs. Chas. A. Griffin of Gaslly, who was graduated from the Thief River Falls high school in 1922, to Mr. Ditte of Washington, D. C. The wedding took place July 2, in Washington, where they will make their home. Since completing her high school course, Miss Ditte has been a stenographic work in the capital city.

Local Couple Wed Yesterday; On Trip to Yellowstone Park

Miss Myrtle Nelson and Richard J. Jorissaint were united in marriage yesterday, July 6, at high noon at the Zion Lutheran church, Rev. E. L. Tungseth officiating in the presence of Miss Gladys Crawford of International Falls, and Norman J. Nelson, brother of the bride, who is employed by the Jorissaint Falls.

Immediately following the ceremony a wedding dinner was served at the home of the bride's parents, only the immediate relatives and a few friends being present. The room was very charmingly decorated for the occasion, a large wedding cake gracing the center of the table. The couple left by car the same day on a three weeks' honeymoon trip, motoring to Yellowstone National park, expecting to spend some time in the Black Hills, S. Dak. They will make their home in Duluth, on their return.

The bride graduated from the local high school in 1921, since which time she has been employed as bookkeeper and stenographer at Tessum and Jorissaint. She is the daughter of Mr. and Mrs. Anna Nelson, formerly of this city, now living at Seattle, Wash.

The groom is the son of Mr. and Mrs. J. Jorissaint of Thief River Falls, and is employed of the American Legion and saw-mill service in Tessum. On his return from the army he has served in this city, and for the past three years has been a joint-proprietor of the Crown and Jorissaint shop.

A very pretty wedding shower was given for the bride at the K. O. Erickson home last Thursday evening by a number of her friends.

Dancing, sliding, jumping, walking up an unsupported ladder and jumping over obstacles are all included in the routine of astonishing feats on the slender strand of steel. Dainty little Miss LaMarr adds to the thrills with a startling exhibition upside down swinging on a perilously high apparatus. The men in the act supply plenty of comedy with their clowning pranks, eccentric falls and slap-stick stunts.

Coming to Pennington Co. Fair

This shows the versatile Upton-Whiteside Troupe, a feature of the Pennington county fair entertainment August 2-5, in action.

We are living today in a machine-made civilization. The huge steam shovel accomplishes in a few moments what it would take hours of back-breaking toil for the laborer to perform.

The progress of retailing, however, has been no less rapid and the service rendered by the one small Store of the J. C. Penney Company, 25 years ago seems insignificant compared with the service which the present 885 stores are today rendering a nation.

We are proud of our growth which is due, not to our efforts alone, but to the needs of millions of people for the kind of service we give.

May our 885 Stores play their part in the work of Rebuilding with the same high ideals that began in a little country store, a quarter of a century ago.

ICED DRINKS IN THE SUMMER

On a warm and rainy summer day, there is nothing more refreshing to the mind and to the body than an iced drink. Of course, many iced drinks are being used nowadays should be practiced, because if taken in excess or too rapidly, they are liable to be injurious to the stomach. However, when taken in a sensible manner, they are refreshing and beneficial in the extreme. In the manufacture of these drinks, care should be taken to avoid any combination that may be indigestible or hard to assimilate. One drink should be used for lunch preferably mid-morning.

Over 100 members, most of them from farms of eight counties in Northwestern Minnesota enjoyed a day of rest and recreation with valuable education features, when the Red River Valley Potato Growers association registered for the third camp to be held June 29-30, 1927.

Entertainment features were given by various members of the Northwest School faculty and representatives from the agricultural colleges and commercial firms.

AT ALUMNI REUNION

Arnold Askre and Sophie Dreiland of Thief River Falls, Glenn Lindquist of Wylie, and Elnar Loven of Heil, Pennington local people who attended the annual summer reunion of the Northwest School Alumni association at Crookston last Thursday, Sept. A. A. Dowell and Congressman C. G. Selvig were among the speakers. Mr. Selvig, for 17 years representing the school stressed the importance of good farming and asserted that he was convinced the policy of the United States will be to give farming every legislative advantage possible. Miss Dreiland continued to Grand Forks to visit.

Thanks

As the Chairman of the Touring Committee for the local Tenderfeet, I want to take this opportunity to thank all those who so generously and willingly donated the use of their cars last Sunday afternoon to take our visitors to this convention out for a little outing trip.

It surely was nice to see that long string of beautiful cars lined up on the road, and I can assure you that our visitors appreciated it also.

It surely does a fellow good to see the co-operation, community spirit, and good-fellowship that is being shown among our citizens on such occasions.

And I hope that that spirit will continue and grow stronger as time goes on, so that whenever visitors come to our city, on any occasion, they will be treated such that they will go away praising the "Convention City," the "Friendly City of the North"—Thief River Falls.

"Imagine if you can, a group of the cream of 10 to 20 obtainable figures and getting drunk in unison days! you can't if you know anything about these times. They just didn't do it. If this statement were not taken from the column of "Citytite" in the Farmhault Pilot, who has shown decidedly wet leaning, we should take it to be very funny, but that being the source we are forced to the conclusion that the writer let "a very little" cloud whose memory does not go very far back of 1917. We recall very distinctly some young men who did get drunk in those idyllic days, and we have very vividly in mind one young man who took the "Kooley" cure before he reached the age of 21. Then they did do it in those days also, and they venture to say that more of them did it—Northfield Independent.

And, furthermore, the youth of today is not so easily controlled in different other respects either. He is leading many things that was not common some years ago.

IMPROVED ROADS CHEAPEST

Although we spend millions annually for improved roads, only about 1 farm in twelve is located on a hard-surfaced or improved highway. A much larger proportion are near enough to travel improved roads to make considerable use of them, but even one intervening mile of muddy road often makes the use of farm automobiles impossible.

Good roads used to be classed as luxuries but such is no longer the case. When the cost of travel incurred by rough or muddy unimproved roads is considered, together with the wear and tear on tires, paved or hard-surfaced roads are essential and should be built as rapidly as possible. The Department of Agriculture says: "For the average motor vehicle owner over a road there is a certain cost, which is less if the road be improved, beginning, however, the only limit that should be placed on expenditures for road improvement is the amount that can be saved in vehicle operating cost. The county loses more in increased cost of operating vehicles by not improving roads than it does to improve them. In other words, money for improved roads whether it has been or not, and it pays to pay having them than by not having them.

A thin waterproof wearing surface is being placed on existing gravel and macadam roads in farming communities with great success and at moderate cost.

A DIFFICULT POSITION

If all the things that have been written about the private life of Captain Lindbergh are true, he is in a short of being an ideal young man—that is near the ideal as any mortal can be.

In the first place, we are told that he neither smokes nor drinks, which is decidedly to his credit. He is at present unmarried, and engaged, is surely in likewise a studious young man, although there is no record of him having won any academic degrees for scholastic feats.

The attributes of industry, energy and application of his mental powers to the task at hand were essential for Lindbergh's triumph was one of skill as well as endurance.

The young Missouri national guard officer comes from good stock. His grand father was born in Sweden and came to life. Together in the great northwest where people of his race migrated. His father attended the University of Michigan and represented his district in congress ten years while at Little Falls, Minnesota. The boy's mother is a graduate of he University of Michigan and is now living in a Detroit high school.

This young man, who was suddenly thrust into the world's stage, may become the plaything, or he may possess enough sterling stuff to emerge from the crucial stage of his career without being spoiled. The fact he faces now is none worse than the one he successfully passed when he flew across the Atlantic.

Every American is pulling for him and hoping that he will remain poised without "losing his head." If Lindbergh has the poise and the good sense to accept the flatters of chicanery and the crowned heads of Europe to bear the cheers of the common people, to turn down the contract that would make him a cheap barn-stormer, he will show himself to be a most extraordinary young man.

It is rather an uncommon thing for a plain American youth to become, as if by a magic that rivals the fairy tale, the most talked of person in the world. It is a most difficult position to be in. Lindbergh finds himself in, and he has an opportunity to become even a greater hero by holding straight to the line—by exhibiting the same traits of character that enabled him to do the thing experienced aviators said couldn't be done.

TRONDERLAGET DRAWS NEARLY 1,000 VISITORS

age to the Norwegian shrine, and all arrangements therefor was by resolution left to the council of the national Trondering; while every provincial society, or "nygilag" in America got their "feilesraad" is requested to be officially represented. It was Rt. Olaf who introduced Christianity into Norway.

Rev. Riistad reported that $1800 had already been raised by local Trondelags for the Trondjem cathedral, which it is hoped to have completed by 1929. The office has been under construction since the 11th century. The committee in charge of Riistad the $50,000 is headed by Rev. Riistad, John Nernberg, Duluth, secretary, and Andreas Grinde, Chicago, is treasurer.

Officers Re-elected

The convention also favored the Olaf Hyrning memorial idea, and named L. H. Kolberg and Miss Borgot Iverson of this city as a committee to have charge of the raising of $100 for this purpose. Hyrning, a resident of Illinois, was one of the early emigrants from Trondelagen and wrote a comprehensive history of Norwegian-Americans. The memorial will be in the form of a life membership in the Norwegian American Historial association, of which Rev. Riistad is president. All officers were unanimously re-elected Saturday, as recommended by the nominating committee. They are Rev. Riistad, president; Leon O. Hyrn, Minneapolis, vice president; John Nernberg, Duluth, secretary; Andreas Dyan, Baltic, N. D., treasurer, and Dr. O. M. Norlie, Luther College, Decorah, Ia., historian. John Tuastei of Minneapolis was named representative to the Nygilagsraad of Norway, and the council of all Norse "laga" of America. Mr. Tuveth is a member of the executive committee of the Nygilagsraad organized Norwegian National League of Minneapolis. Mr. Riistad was elected president of the First district organization of the Sons of Norway at the convention here about 12 years ago.

The "riseme" was formally opened by President Ristad Friday morning. Invocation was given by Rev. Nickolaisen and a welcome address by Mayor W. W. Prichard, Jr., and Mr. Kolberg, to which Rev. Riistad responded. Welcoming remarks were also made by Bernhard Knudsen, president of the local Sons of Norway lodge; Olav Reiial, and Dreng Bjornaraa.

On Committees

Reports from the general president and secretary occupied the rest of the forenoon, Rev. Riistad suggesting various questions, to be considered at the convention.

The following committees were named Friday morning: Committee on message—I. H. Kolberg and Dr. O. L. Vistaunet, Thief River Falls; O. Spoolis, and M. S. Meranger, Grand Forks.

Resolutions—B. Eliasson, Ramsey, Minn.; Mrs. H. O. Kirkwold, Thief River Falls; I. H. Kolberg, President Riistad, and Rev. Tungseth, Thief River Falls.

Nominations—I. J. Oyen, Crookston; Edward H. Reas, Thief River; Falls; P. A. Hewski, Baltic, S. D.; Anton Johnson, Duluth, and J. Lund, Dresser Junction, Wis.

Auditing—Edward Erickson and P. Fenseth, Thief River Falls.

Reports on the various local Trondelage societies were made as follows:

Minneapolis, Lars Haug, president; Duluth, Anton Johnson, president; Pine county, Mrs. H. O. Nirkwold, Stanhark, secretary; Sioux Valley, Iowa, Mrs. Peterson, Brun. r. 3; Ft. Frank Forks, M. S. Meanger, Northwestern, Grand Forks; Thief River Falls; I. H. Kolberg, President Riistad, Minn.; Grand Island, Chicago, Ill.; Detroit, Mich.; Rev. E. L. Tungseth, Thief River Falls.

The auditorium was newly filled Friday night when the Norwegian comedy, "Ingvald Ystreet" was presented by local talent, directed by J. Berg Hansen. The play was enthusiastically received, as were the other numbers on the program. Music was furnished by a 20-piece orchestra organized and directed by Dr. Vistaunet, who, with the community singing during the convention. The medley of Norwegian melodies, in which P. G. Peterson played "The Chalet Girl's Romance" on a violin solo, was greeted with loud applause.

Local Talent Pleases

Bragg Male chorus, also directed by Dr. Vistaunet, singing familiar Norwegian numbers in an excellent manner, added much to Friday night's program, as well as to other sessions in which it took part. Humorous declamations by Miss Ellen Kolstoe of Plummer were met with roars of laughter. Norse folk melodies on the Hardanger violin by Ole Dahle of Erie, who played throughout the convention, livened up the memories of the

old country" among the delegates. Rev. Riistad spoke briefly about the Trondhjem cathedral and a collection was taken for the jubilee gift, amounting to more than $100. A clever letter from an imaginary Trondez, supposedly in the Black Hills region addressed to Rev. Riistad, was read by Mr. Riistad. Vocal solos by Mrs. Melby were thoroly enjoyed, as were the violin selections by Mr. Cornbergen. Miss Kolston gave another mirth provoking reading. Dr. Vistaunet spoke about the big celebration in Wendjeg next year.

Dr. Riistad, who has served as president of Trondelagst for years, did much to make the meeting interesting and pleasant. He has exceptional ability as a leader and is able to hold an audience or two attention at all times. Altho he came to this country as a boy of 24 years, he masters the English language exceptionally well, as demonstrated in his fourth of July address Monday. Many delegates stayed over to hear their chief speak at the festival Sunday.

Trondelagst was organized at a meeting in Fergus Falls in 1905, called by Rev. Riistad, at which M. Wellan of Glenwood was elected president and Rev. S. Lofthallen of Wanke was named secretary.

GOOD FARMING

After everything has been done that is possible to do toward better farming—agricultural experts there will be farmers who fail, lots as there are failures in other lines of business. Only those who farm intelligently and continually—work, diligently and conserve reasonably can hope to prosper. Those who fail below these standards at best will barely make a living.

The tendency for farmers when prices are low—but it is any other? business—when times are dull—is to the get discouraged and be careless. It is a false sense of economy. It promptly prompts a farmer, when there is an overproduction of what he has for sale, to take less pains and let the yield of the acres decline. Such a course leads to bankruptcy.

Whatever the price may be, the farmer who puts the largest return from his land is the most prosperous. The lower the price, the greater the need for efficiency in production. When prices are high, even mediocre yields are profitable, but obvious inefficient methods in raising livestock will make money.

Therefore the more discouraging the price of farm products is, the greater the necessity for good farming.

There is no panacea to make agriculture prosperous in the face of declining yields and worse in declining production costs. The surest method of cutting production costs is to increase yields from the land and follow the best approved plans for raising livestock. A good farmer regardless of this law can not be helped by anyone.

SLOGANS

Nowhere on earth has the slogan or catch-phrase reached as high a stage of development as in the United States. Here, indeed, the slogan does not play as considerable part in the economic, political and civic life of other peoples as it does of the Americans.

Nazi will tell you the value of the catch-phrase in national advertising campaigns. "Say it with flowers" everybody knows what particular product is referred to in the slogan "Reg'ular fellers for it." "There's always a picture in a little fairy tale" is another and many other similar advertising slogans. Do you know of an automobile, from the cheapest to the most expensive, that is not sold on the singled out by some slogan? To think of one would be difficult as finding a dependable spare car rim.

It is irrefutable that slogans sell where nothing else will, but it would be unjust to the public to say that it takes the catch-phrase at their word.

NOTICE.

Owners, and occupants of lots and acres inside the City of Thief River Falls, are hereby notified that I have hereby ordered and requested to destroy all noxious weeds growing on their premises, not later than July 15th, 1927 and at often thereafter during the season of 1927, as I am required to prevent any weed to go into maturity. And if this will require authorities to go on premises and cut noxious weeds, I will charge the owner expenses to lots, according to law and ordinance.

Dated June 30th, 1927.

ISO-VIS STANDARD OIL COMPANY (INDIANA) SERVICE MOTOR OIL

Motorists everywhere in the Middle West are running up records with Iso-Vis. Thousands of them are writing in surprise and appreciation to the Standard Oil Company (Indiana) to tell the good news of Iso-Vis performance.

One motorist calls Iso-Vis a "peace of mind" motor oil. It *is* a peaceful feeling to know that the motor is perfectly protected by an oil which maintains a practically constant viscosity—that will stay on the job from start to finish—preventing wear and tear in the engine—preventing trouble—making every mile of motoring smooth! Iso-Vis—the constant-viscosity motor oil—gives you that certain knowledge.

Iso-Vis is made in different grades—to meet the requirements of every type of engine. Use the grade recommended for your car. Under normal operating conditions the oil level should be checked every 100 miles. Keep the crankcase at least three-quarters full. If this precaution is taken, a complete draining and flushing of the motor oil *once each 1000 miles* is all that is necessary.

With new cars equipped with effective oil filtering devices, draining *once each 2000 miles or more* is sufficient!

Iso-Vis costs more per quart but motorists have found that it costs less per mile. It lasts longer and wears better! Taxi companies have found that by using Iso-Vis they are able to reduce repair bills and to cut the cost of lubrication.

You'll appreciate the efficiency of Iso-Vis (30c per quart). Try it once — and motoring will hold new pleasures. Iso-Vis "F" for Fords.

Central Livestock Ass'n Making Receipt Records

During the first five months of 1927, the Central Cooperative Commission Association of South St. Paul sold 8,363 cars of livestock for the farmers of Minnesota and the Northwest, which was 31.8 per cent of the total livestock receipts at the South St. Paul Union Stockyards for that period.

This is a considerable gain for the farmers co-operative organization, especially in view of the fact that livestock receipts at South St. Paul during the first five months of this year were 2,410 cars less than for the same period in 1926. The first five months of last year, the Central Co-operative Commission Association handled 27.7 per cent of the total livestock receipts at the South St. Paul market.

This gain for the farmers' livestock marketing organization, said President C. H. Crandall, this week, undoubtedly would continue throughout the remainder of the year. As a result, the Central organization probably will establish a record this year for increase in percentage of all livestock handled at the big South St. Paul market.

TRUNK ROUTES MADE ARTERIAL HIGHWAYS

Designation of several stretches of trunk highway as "arterial highways" has been made anew according to announcement by Commissioner C. M. Babcock. When the new routes are added to those previously designated, the following routes will be protected by "Stop" signs:

T. H. No. 1 from St. Paul to Dalbo.

T. H. No. 1 from St. Paul through Owatonna.

T. H. No. 3 from Minneapolis through Sauk Centre.

T. H. No. 5 through Columbia Heights.

T. H. No. 12 from Minneapolis through Excelsior.

T. H. No. 27 from St. Cloud to Brainerd.

T. H. No. 50 from Minneapolis to Farmington.

Before making the designations, Mr. Babcock communicated with the authorities in the cities and villages affected and received assurances of cooperation in enforcing the stop ordinances.

In addition to the trunk route made arterial highways by state order, many portions of the trunk highway have been made arterial highways, by the municipal authorities. Where the designation is made by the state, the highway department furnishes and erects the "Stop" signs.

The state law names as reasonable speeds:

Fifteen miles in the closely built up or congested portions of municipalities, when approaching a grade crossing, or crossing a highway or on curves where the view is obstructed, when passing a school at recess or when children are going or coming.

Twenty miles in residence districts, or on business streets where there are traffic officers or traffic control devices.

Thirty-five miles in all other places. These are not absolute speed limits, but rather a rule of evidence. If a person is arrested while exceeding higher speed, the burden of proof is on him to show that the speed was reasonable and proper, having due regard to the traffic and the width of the highway, and of any other conditions then existing.

LORENZ COMPARES COUNTRIES VISITED

Makes Interesting Observations on Tour Thru Europe on Way to Holy Land

...Rev. E. H. Lorenz, pastor of the Presbyterian church here and on his way to the Holy Land from the Rotary International convention in Ostend, Belgium, writes about his trip as follows; the letter being written at the Adlon Hotel, Berlin, June 16:

Dear Home-folks:—Dinner in this town is not till eight o'clock so I have better get this letter started before. It is not going to be an easy one to write for in the past week I have had a glimpse of Holland, Germany, Switzerland and New Italy. I probably have covered more ground in the past week than any week of my trip.

The trip to Middleburg, Holland a week ago today was a most interesting one, even though most tiring, due to the fact that the majority of the countless number of auto drivers were taking their cars through the border for the first time this year and therefore they had to go through the red tape of registering their cars at the border. We in our country cannot be too grateful that we are made up of a union of states and not a group of nations.

Styles are Different

It was worth while because I was with a group of interesting people because I was fortunate to meet an old fellow countryman and because of the interesting costumes that the men, women and children wear. The women and girls were white caps, stiff with starch so that one portion of it forms a brim in front like the visor of a cap, ornaments, some of them looked like blinders, others like wings, as ornaments. The dress was in red and black with the waist and skirt in one piece. The shirts looked very similar to our old hoop skirts and we were told that some of the wearers were built as sixteen petticoats to give the correct effect. The men wore baggy, striped, dark and light fitting clothes.

Several points I noticed in riding the train to Cologne, Germany, where is the most remarkable Cathedral I have yet seen. But first I must tell you about the way they farm in Holland and Belgium. The farm approaches (and this description applies to Germany but not to Switzerland) each person who is going to farm must in the diner is given a permit number. If there are enough seats to go round then some one takes a walk for the second sitting, as soon as everyone is seated, the waiter goes around and fastens to the table a small oilcloth mat. Those who want plain coffee are out of luck for it is not customary for that and so you have to still till the last and I have had to go without, a most vicious habit, I say.

Well, as soon as the drinks are completed, the waiter takes the mat away and serves everyone with the dinner, then that's done the waiter changes the plates, and the first one begins serving the second course. When they serve the meat at last the one waiter takes the meat and the second one the potatoes and then they serve the forty or more in the dining car in a most efficient way in less time than we can get a meal in our dining cars. Of course they have nothing but table d'hote meals.

Rebuilt After War

Perhaps I ought to take a little time to compare the different countries for it is most striking how much each differs from the other. Perhaps Holland and Belgium are the most alike and yet they were mostly in the part of Belgium that had been overrun with the war, the houses look new-fresh and now while the red tile roofs of Holland look rather weather worn out.

But the change from Belgium to Germany was most striking for one passes from the red tile roofs to black slate roofs. Further in Germany the houses are built up against each other, and when this is not the case, they are built so another house can stand up right against it. The entrance house that has any window on the sides. But in Germany there is always a space between each house and there is a wall eight feet high extending between the houses. Further the land is not so immaculately cultivated in Germany as it is in Belgium. Switzerland has an architecture all its own. The overhanging roof is the most striking part of it. The cultivation of the land in Switzerland is most remarkable. I saw people mowing grass on hillsides that made one wonder how they could keep from rolling down. In fact one of the most remarkable things of the trip was the sturdiness of the Swedish people. Italy too has an architecture peculiar to itself. Flowers will there be very similar to it. Italy varies exceedingly in the way it cultivates its land. Some of it is most careful, by attended to other parts are almost desolate.

I arrived at Cologne about eight and it is still light enough to get me a chance to get a glimpse of the exterior of the cathedral. Undoubtedly by you have seen pictures of it and I can only say that it is surpassingly beautiful. In the morning I had a few minutes to get into the building—while there was a time on, so I did not get a striking thing to find in it a prominent sign in several languages "Beware of pickpockets." The interior of the building is quite a disappointment but the exterior quite makes up for it.

Could Not Understand

And now I come to the best joke that so far the most humorous incident of my trip. I was desperately in need of some medicated cotton and went in a drug store, but they hadn't the slightest idea what I wanted. And as I never back to the hotel to see if they could tell me the right word for they spoke English there. They understood enough to compare it with my way and realized that what I wanted was diarrhea cotton that could be gotten in all kinds of colors. I did everything in my power to make the man understand that was not what I wanted but he still thought I was crazy to be looking for cotton in a cell and not be satisfied with darning cotton. And so I had to give up the thought of buying any medicated cotton. By that time it was necessary for me to be getting down to the boat that was to take me up the Rhine River. And it needed some change to lip the word who would carry my baggage. Apparently they would not do it at that hotel and got rather impatient. Finally the man I had been talking with said, "I will take you to the shop." I took for granted to a place where I could get change. So I started up the street after him. He went so fast I had to run to keep up. Any shop after shop we passed that was open and so I called to him "We are going where are you going?) He stopped long enough to reply "To the shop" and again he started off at a terrific pace. He had taken me two blocks and as I said, it was time for me to get to the boat so again I shouted to him where he was going. Again the replay was to the shop. Then I asked him what he was to buy. And then he answered "To get the cotton." I could have knocked him down, for we had perhaps several drug stores. And then I made it plain that I wanted some change. "O, that you can get at the hotel" was his answer, but going back to the hotel at a slower pace we passed a shop where there was some brown darning-cotton and he insisted that was what I wanted.

Organization of Valley Taxpayers Unit Will Be Finished in Near Future

Directors of the newly formed Northwestern Minnesota Taxpayers Association will meet soon to select their officers and call meetings in their respective counties for the purpose of organizing local county taxpayers associations to affiliate with the district organization, according to Chas. Quale, director from Pennington county. An effort to organize this county will be made as soon as the district organization is perfected.

Mr. Quale said that there has a county association organized, while Mahnomen taxpayers organized a temporary association, the other day.

The Crookston meeting June 27 was a very successful one, being held under the auspices of the Minnesota Taxpayers Association this year.

Seventy-one counties are now banded together in seven district associations affiliated with the state association. The other six meetings in which Mr. Quale was representative were held in Mankato, Rochester, Worthington, St. Cloud, Litchfield and Moorhead.

The Minnesota Taxpayers Association does not sell a membership as does individual taxpayers' associations, each county is an independent unit and will determine its first duties as necessary, how much it shall be and take care of their own local affairs.

Rainfall Here Totals 2.91 Inches During Last Month

Although there was almost three inches of rainfall last month in Thief River Falls according to Observer O. M. Nygren, yet the official records show that more rain fell in June of 1926 and 1926 than this year. The figures as announced are:

1924,	2.16 inches
1925,	2.37
1926,	4.06
1927,	2.91

The precipitation for the six months this year comes to 12.35 inches, which is believed to be only a little more than the normal precipitation for the first half of the year.

Following a few hot days the first week in July, there will be a return of several unusually cool days extending over the fourth. All crops are growing splendidly and conditions in most places are favorable. Hay crops are heavy and the second cutting is now nearly ready.

128 ARE ENROLLED IN JUNIOR CLUBS

Dairy Calf Club With 37 Members is Most Popular; Enrollment Closed July 1

Enrollment in Pennington county junior clubs closed Friday with 128 boys and girls signed up in the various projects carried on here, according to County Agent C. J. McCann. Much interest is evidenced by the club workers and their parents who are co-operating in making this a banner club year. The baby beef club will be judged before Judge Watts of Crookston, Mr. Quale appearing for the beef and Pat Mahoney & H. O. Chamnis representing defendants.

LOCAL TEAMS PLAYING MORE KITTENBALL GAMES

The Gamble-Robinson company's kittenball team Friday won its second victory over the Thief River Grocery company bunch in a seven-inning game at the Riverside ball park, the score being 3 to 2.

In last week's issue it was stated that "Lambert's Locals" defeated the Thief River Grocery team 12 to 10. It should have been the "Lambert Locals" team.

Next Monday evening the Frank Winslow & Carlisle team from Crookston is coming here to clash with the Thief River Grocery aggregation in a return game.

MANY REINSTATE

About 12 war veterans came to the court house Friday evening to be assisted by Auditor T. P. Anderson and Verner Nelson, in reinstating their insurance policies, under the new insurance plan. The time limit expired at midnight Friday, but a 30 minute rush extended thruout the week. Approximately 1,000 veterans made applications for reinstatement thru the veterans bureau office in Minneapolis since Reinstatement is only for the amount of the insurance taken out by the veteran during his soldier period. A total of about 50 applications were handled here, Mr. Nelson says.

FINED FOR BEING DRUNK

Clarence Erickson, local youth, Saturday pled guilty in municipal court to a charge of drunkenness and paid a fine and costs totaling $14.50. The arrest was made Friday night by Sheriff Ihle at Tindolph park.

Grindeland and Watts Affirmed in Decisions

Decisions have been rendered by the Minnesota supreme court in two appeals from Pennington county district court, as follows:

The Farmers & Merchants State Bank Thief River Falls, Inc., by A. J. Veigel, respondent, vs. Roark, etc., appellant. The defense of an insolvent bank when sued by its receiver cannot set off liability as a surety for the bank upon a depository bond. Affirmed. Quinn, J.

Singer, respondent, vs. Singer, et al defendants. The assignee of the policies owns a claim, who guarantees payment to assignee, may be joined as defendant in an action with the principal debtor. Affirmed. Quinn, J., Dibell, J., Stone, J., dissenting.

The case of Edward Singer vs. Stephen Singer and the Virginia Creamery Co. was on the calendar for trial in February, 1926, and following trial July, 1925, Judge Andrew Grindeland ordered judgment in favor of plaintiff in the sum of $96.70. The creamery company appealed. Boyle & Montagne of Virginia represented defendant, and Thos. Quale of this city appearing for plaintiff.

The bank case was heard before Judge Watts of Crookston, Mr. Quale appearing for the bank and Pat Mahoney & H. O. Chamnis representing defendants.

Rayson, Noper Only Candidates for School Board

Only two candidates for positions on the school board are reported as having filed with the clerk, Mrs. L. D. Lang, and Verner Nelson, the last day expired Tuesday. They are L. M. Rayson and V. C. Noper, both for terms at the annual meeting and election of independent district No. 116 Tuesday, July 19, at which time school districts thruout the state will hold annual meetings and elections.

Smokers of this day prefer Camels

MODERN smokers insist upon value received, and they place Camel first among cigarettes.

Regardless of price, Camel is the popular smoke, because it has the most to offer. Its choicest tobaccos and careful blending have made Camels supreme in an age that demands quality.

All the money in the world could not make a better cigarette than Camel. It is proved itself to the open-mind taste, to the careful smokers of the modern age. Let this cigarette show you how mild and mellow a good cigarette can really be.

Roark Gets Big Grading Contract at Park Rapids

P. W. Roark, Thief River Falls contractor, was awarded the contract for 4.6 miles of grading on trunk highway No. 4, between Park Rapids and Nevis, at $24,219, when bids on a bunch of 16 trunk highway projects were opened at the office of the Minnesota highway department in St. Paul June 24. The Valley Bridge Co., Stephen, was warded the culvert contract for the same project at $2,422. The contract for 1.4 miles paving on No. 8, at East Grand Forks, went to the Hedin Construction Co., Minneapolis, at $33,127, the state to furnish cement. No. 52 will be paved from Fort Snelling to France Avenue at a cost of $156,000. Considering the pavement on No. 2, between Moorhead and Hawley, 19.2 miles, was let to A. F. Johnson, Minneapolis, at $32,207.

Mr. Roark says that work on his job will be started about July 15.—He will employ from 40 to 50 men, including a number from Thief River Falls.

Bids on 22 miles of grading, 28 miles of graveling, a half dozen bridges, and two miles of paving will be opened July 26, announces Commissioner Babcock. The list includes no projects in this region.

Last week saw the pouring of the last concrete on U. S. No. 2 between the Twin Cities and the head of the lakes, another two or three months will see the entire stretch open to traffic. This will be a great boon to thousands of motorists who use this highway, occasionally or frequently. But it will be a greater boon to the man who never use this road, for the St. Paul to Duluth highway and Grade is the most expensive to keep up, and part of the money that is now used on maintenance funds and make this money available for use elsewhere.

HUNDREDS OF TOURISTS PASS THRU FALLS

With Canada celebrating the 60th anniversary of confederation thousands of tourists from Minnesota motored to Winnipeg last week to be among those on hand for the big celebration. Large numbers of Thief River Falls people were on their way—both—Howard many—Wednesday, Wednesday, Wednesday,

Ethel Ward, local salesman for the National Biscuit company, was married Saturday, July 9, to Miss Camelia Carlson of Glendive, the ceremony taking place at the Presbyterian manse in Glendive, Rev. J. J. Eklund officiating. Mr. and Mrs. Ward are enjoying a motor trip to the west coast and other points before returning to Minnesota, coming by way of Thief River Falls where they will make their home at 212 St. Paul avenue north, the N. J. Lund family moving to 600 Horace avenue north.

Bakke-Lindquist

Miss Ella Bakke, daughter of Mr. and Mrs. Gilbert Bakke, who reside five miles north of the city, was married last Sunday, July 10, to Peter Lindquist of Virginia. The ceremony was performed at St. Hilaire, Rev. D. G. Jacobson reading the service in the presence of Miss Lenea Bakke and Miss Jessie Bakke. Following the ceremony, a wedding dinner was served at the home of the bride's parents, to which only the immediate relatives were invited. Following a visit in Minneapolis, the people will make their home at Milaca.

Clausen-Olson

Mrs. Emma Josephine Clausen and Freeman A. Olson of this city were married at the Lutheran Free church parsonage at Morris Saturday afternoon, July 9, Rev. A. Olsen officiating in the presence of Mr. and Mrs. Albert Anderson, brother-in-law and sister of the bride. Immediately following the ceremony which took place at 2 o'clock, the couple left for a brief visit at Willmar, Hoffman and Spicer, returning here last week. They will make their home at 210 Atlantic avenue north. The groom has been employed the past year as bookkeeper at the Larson Furniture store, coming here from his former home at Hoffman. The bride has been employed as cook at the Park hotel.

Nutrition Project

The Clara and De Be' nutrition unit held their third unit meeting Wednesday, June 29, at the Cheerville school house with 12 members present. The opening exercise consisted of an original invitation song by the the unit leaders. Plans for entertaining day were discussed and committees appointed. At the close of the meeting Miss Ruth Nelson and Mrs. Jessie Nelson were served by four of the members.

The Sunday Stitchers report was read the 7th of July at the C. F. Feeney home, eight members present. Quilt Club reading was discussed and plans for achievement day were made. Lunch was served by three of the members.

One of the most interesting and instructive meetings of the nutrition project was held Monday afternoon in the Centennial club rooms when the members of the Knife club were entertained by Mrs. Jessie Nelson and Mrs. J. J. McCann. The "Growth of Children and How to Keep Them Growing" were two of the topics discussed. The prayer Diet From Birth to Old Age was another important subject. After the lesson the posture exercises were given and games played. Plans were also talked over for the "picnic" which the Knife club will put on on Achievement Day in October.

LEGION MEETING JULY 15

Delegates to the Minnesota Legion convention in Hibbing August 8-10 will be elected by the Elmer J. Rystad post at a meeting tomorrow, Friday night. Reports of the Fourth of July celebration will be received and other business taken up, says Adjutant Verner Nelson, who urges all buddies to attend.

MILDRED THOMPSON, HIGH SCHOOL TEACHER, MARRIES

The many friends of Miss Mildred Thompson, first high school teacher director in the new high school, will be interested in the following item from the Mora Times:

The home of Mrs. Caroline Thompson was the scene of a quiet wedding on Wednesday, July 6, when Miss Mildred Thompson became the bride of Ludwig Gelland, A. Standard of Belgium, New York.

Talk included candies, lemon and white peppermint, around the table. Miss Thompson is a graduate of Mora high school where she taught many years previous to her visit.

WCTU Meeting

At the regular meeting of the W. C. T. U. held last Thursday afternoon at the church Tuesday afternoon, Mrs. M. V. Hanson, vice president presided, in the absence of Mrs. J. O. Erdahl. Mrs. T. H. Hanson was also absent and Mrs. E. L. Holland, secretary, was also absent. Mrs. R. O. Erickson read minutes of the meeting held June 28 and Mrs. Wesley read a poem by Miss Gough. Wesley and a piano solo by Miss Pearl Wesley.

Anderson-Averbeck

Miss Amanda T. Anderson, daughter of Mr. and Mrs. A. Anderson who reside northwest of this city, was married Wednesday, July 13, to Alfred H. Averbeck of Mr. and Mrs. T. H. Averbeck of St. Paul. The ceremony took place at the Trinity church, Rev. R. L. Falkenhor officiating in the presence of Mrs. O. Nygaarden, and Halvor Anderson, sister and brother of the bride. The couple departed on a motor trip to Los Angeles, Calif., planning to make their home at Minneapolis on their return.

For Mrs. Beeren

Mrs. A. Beeren of Hillwaten mother of Dr. G. W. Beeren of this city was complimented at an informal party at the F. A. Beeren home yesterday afternoon. Eight ladies were present.

Mrs. John Rustrud entertained a card club at her home Monday afternoon, complimenting Mrs. Beeren.

Mission Picnic

Members from Midsomen, Red Lake Falls, Fosston, Erskine and Thief River Falls have completed a picnic Sunday at the beautiful oak and elm grove on the north shore of Oak Lake, near Erskine. The affair was made a success that it is hoped to make it an annual event. Among local people who attended were: J. C. Conkhite and family, G. H. Friisel and family, Chas. Vacation Bible School

A two week daily vacation Bible school will be conducted in the Swedish Baptist church commencing Thursday, July 14, and continuing until Friday, July 29. There will be no session Saturdays, Sundays, and Mondays. The school opens at 9 a. m. and closes each day at 11:45 a. m. There will be no expense connected with the school and no books to buy, the only book needed is the Bible. It will be strictly indenominational and all children from 6 to 21 years of age are welcome to attend.

The instructors are: Henry Peterson, Julius Bergstrom, and Miss Ellen Lindberg.

NEW PASTOR INSTALLED

Rev. G. P. Rorheim, formerly of Clan William, Man., Canada, was installed in his new Lutheran Free church charge at Newfolden Sunday, July 10. Rev. E. L. Tungseth of this city officiated. In the forenoon services were held at the Middle River church, in the afternoon at Bethesda church, and in the evening a joint service was held at the Newfolden church for Westaker, Folden, and Bethlehem congregations. Rev. Rorheim is a 1922 graduate of Augsburg Seminary, Minneapolis, and comes to Newfolden after a successful term at Clan William.

Penney Stores Celebrate

The Thief River Falls and Crookston J. C. Penney stores met at Central Park, Crookston, Sunday afternoon for an inter-state picnic. Two big picnic spreads, competitive games and contests, and a kittenball match added to the day's enjoyment. Thirty-five employees were in attendance.

To Mr. Grocery Team Again Loses to Crookston

An exhibition game of kittenball was played at the Eastside ball park Tuesday evening between the Thief River Falls Grocery team and the Crookston Canadians, resulting in a victory for the Crookston team by a score of 19 to 7. The locals lost 7 to 6 in the first game played here by the Canadians, and 12 to 1 in the second game played in Crookston.

—that's what home-washing devices do

Even the most costly appliances for "lightening" the burden of washing in the home at best can do only a part of the work. With every form of home washing you are literally "tied to your equipment," for home washday means home workday. Not the laundry does all the work. It takes washday completely out of your home, and at no greater expense leaves you free to use the day in any way you wish.

Let us solve your washday troubles. Phone today, and let us tell you about our various services. Rid yourself forever of the work and worry of home washing.

GONE is the long tiring washday with its many irksome details. In its place is the "Maytag wash-hour"! when big tubfuls of clothes are washed in 3 to 7 minutes—washed spotlessly clean—without hand-rubbing even collars, cuffs or wristbands. Think of the added hours of leisure. Think of the comfort and satisfaction of a washday like this.

Maytag dealers everywhere follow the standardized rule of sending a Maytag to a home to do a week's washing free, and without obligation of any kind. This is the way all Maytag Gyrofoam Washers are sold. The Maytag must sell itself solely upon its performance in the home. It must wash everything to your entire satisfaction. *Must* wash everything quicker, easier and cleaner than other washers. *Must* wash everything—even collars, cuffs and wristbands without hand-rubbing. *Must* prove to you, in your own home, that it is the most helpful home-laundering unit you have ever seen or used.

UNSUNG HEROES

It is a sad commentary on the ways of men that the world holds monuments to military leaders who slaughter thousands, while it permits a hero who offered his life that others might be saved, to suffer from want and suffering and actual hunger.

Attention has recently been called to the case of John H. Kinsinger, living in Huntington county, Indiana, who was one of two privates in the United States army risking their lives in 1900 by permitting themselves to be infected by the yellow fever mosquito. The experiments which followed provided knowledge of the disease which has resulted in the almost complete eradication of the pestilence.

If it were not for heroes of the type of this man, the world would be harassed by many deadly contagious diseases. They have been conquered by the self sacrifice of individuals whose deeds lack the spectacular, but nevertheless are the true forms of heroism.

ABSORBING SUNSHINE

Picnic meals during the summer months are not alone for the restful change for the family, according to food specialists. During approximately four months of the summer most of us have to absorb enough sunshine to last our bodies all the year.

In a different way, but just as important, our bodies need sunshine to grow just as the plants do. It is good for the man at the home, for the man at the doors if he does indoor work. It is particularly good for the youngsters to get this extra period of sunshine and fresh air. The mother knows if she has planned a light, healthful picnic meal, with fruit in the form of salads, or being remodeled by it. Although we are accomplishing the picnic meals, will find that the labor-saving in cooking and dish washing is a pleasant variety for her.

Eat outof-doors, whenever you can. If you cannot go to the park or river, eat in the grassy backyard that can be a picnic ground. Perch suppers where paper plates and paper napkins may be used can be enjoyed as a suitable substitute for a regular out-door picnic by

LORENZ CONTINUES STORY ABOUT TRIP

Visits Home of Forefathers in Germany; Travels Thru Switzerland, and Italy

Times readers may continue their trip thru Europe in another letter written from Rev. E. H. Lorenz, local Presbyterian pastor who writes interestingly about his journey on the way to the Holy Land following attendance at the Baxter International convention in Ostend, Belgium. Following is the second instalment of a series being written by The Times each week:

The ride from Cologne to Coblenz was very uninteresting and I regretted greatly that I had not seen more of Cologne, taken the train to Coblenz and seen the wonderful, part of the Rhine, for some of it is remarkable for its scenery. There are mountains on either side and the cultivation of grape vines goes up to the very top in a most remarkable way. Every inch is used and once in a while there would be a castle, some of them in ruins, others occupied.

The boat arrived at Mainz at nine o'clock evening and I was scheduled to be there two days. The next morning I had the most unusual experience of my pleasant days of being in some church where my Grandfather or his Italians have as a reason. Grandmother were confirmed. Between their labors and eating Due to a mistake on the part of the spaghetti this noon, I thought for a guide I was in a day too soon.

Burdened With Glorious Past

The Cathedral at Mainz was wonderful when I got into it. It was not as impressive as the Cologne; its interior not having the grandeur of the Dusseldorf but taken as a whole it is unquestionably the most beautiful I have yet seen. It is not as large as Cologne but I suppose a High Mass was being conducted, for there were about two organs and many brilliantly dressed priests. But what a choir there was! I never in all my days took an active interest in what was going on, although I sat there absolutely unintelligible. But all the time it was going on people kept coming in and out of the Cathedral, groups of tourists with guides which were explaining things and in steady conversation. The service lasted for an hour and a half.

Last night I spent on a beautiful sleeping car coming down from Mainz to Rome. What the latter city impressed me the fact that they are burdened with so much past! Ancient ruins appear throughout the city. And they are really ancient dating back to the eighth century before Christ. Cook's have a three days' tour of the city. Unfortunately for me the trip this morning consisted of the Roman Forum. It was all very interesting but I did miss getting into the Cathedrals.

I had another interesting experience this morning with a man from Minnesota. The only other train ride that could compare with the one I had today was in the summer of 1918 going from Oklahoma City to Fort Sill.

Baby Grandchild

Merian, the infant grandson of Mr. and Mrs. H. Grindeland died Monday at the age of two months. Funeral services were held Tuesday morning at 10:30 at the home, after which interment was made at Greenwood cemetery.

A. E. KNOX DIES

A. E. Knox, known nationally as a farm development expert and for the past year a diversified farm lecturer for the Minneapolis Tribune in the Northwest, died Sunday at his home in Geneva, Ill., after a brief illness. He was stricken in Crookston while on a lecture tour in the Red River Valley. Mr. Knox addressed meetings in Thief River Falls, Fisherton, and St. Hilaire June 16 and 17.

Who wouldn't trade the magic boots for a TELEPHONE?

The proud possessor of the magic boots of old who could go seven leagues at a stride, would have gladly traded them for a telephone. For rapid long distance service would take him to many towns almost instantly.

And when you call is handled in this faster way, you will be asked to hold the line as you do when calling a person within the city. It will help to speed up your call if you furnish the operator the number of the telephone you are calling. Whether you want to talk with a specified person or with anyone available at the telephone called, use—

Police Chief Has Vacation

A. W. Crown, chief of police, is enjoying a two-week vacation, commencing Monday. His place is being filled by Night Patrolman Wm. Sherdy and D. G. Erickson is relieving nights.

Monday I spent looking at the Art Galleries of Malines and Frankfort for time it was getting on to dark. Malines is a city about which there is practically no guide-book called for me to get the sleeper that night at 1:20 A. M. I could by going to Frankfort get on at 11:00. It might interest you to know that the railroads use the twenty-four hours so that I actually took the train at 23:00. It was a mighty hard time to find what I wanted in Frankfort so that I got there nearly four hours. Apparently there was nothing to see in the evening so I went to a Movie (the latter turned out to be Harold Lloyd's "Freshman". It was entertaining because their movies have not developed the way ours have for every two reels the lights go on and they have to re-thread the film, the way it used to be in the beginning.

But the day closed happily for when I got back to the station I ran into a Rotarian who had been on the Carinthia sailing over.

I think it is worth while describing a European sleeping car. Instead of having the berths run parallel with the car, they are across the car giving a very different sensation than on our trains. They are much more comfortable than are our Pullmans.

Tuesday was a day I shall long remember. My hotel Lucerne faced the lake and Mount Pilatus, making a perfect picture. It was almost startling to find practically level country at Basle with Lucerne only an hours ride away. But we were not on the train long until we began seeing snow capped mountains. The town of Lucerne was attractive not only because of its beautiful surroundings, but because there are so many beautiful hotels and any number of perfect looking tennis courts. Very soon after I got there I went on a two hour ride around the city and its environs, visiting among other places a cheese factory. It has later interesting to know that while all the countries I have been in are largely farming countries, they do not serve butter on the table even in the best of hotels, for all the cream and milk goes into making cheese.

Tunnel 9½ Miles Long

Then in the afternoon I took a ride around the greater portion of Lake Lucerne which is surrounded by mountains and the other lakes. The beauties of the lake and the surrounding mountains are indescribable. It surely is inspiring and uplifting. While I left Lucerne Wednesday morning, I did not leave a more beautiful scenery until noon. As a matter of fact the train took much the same route that we did the afternoon before so that I got a double impression. Just some time during the afternoon we continued going up and down and through mountains. New Year's Day on the train who has traveled considerably in the west of sun-country says that he has never seen a trip like it. We passed through tunnel after tunnel, one of them nine and a half miles long. Fortunately the railroad was electrified so that it was a very clean trip even with the windows open.

At two we arrived at Milan. And before I could see anything I was put in a very bad humor. You of course realize that whenever you travel you have to use the currency of the country in which he visits. It happens therefore that the traveler gets zonked on exchange wherever he goes. I changed five francs for a dollar. In Switzerland, but had fifteen francs left when I got into Italy and when I exchanged it they gave me only the equivalent of $2 in Italian lira so that in that one transaction I lost a whole third due to the fact that the francs were so low. But the very worst deal I have gotten yet, but it gave me a very poor impression of Italy and it has gone down ever since. I think the Italians are the poorest type of people I have met yet. They are noisy, temperamental, even the men kiss each other on both cheeks on frequent occasions, but are ready to fight each other on the drop of a hat. My sister claims the Chinese ship their food in order to indicate the things are edible or not, whether or not they are rotten. Be that as it may, the Italians have a good reason, something like a square inch of spaghetti this noon, I thought for a guide I was in a day too soon.

Bordered With Glorious Past

The Cathedral at Milan was wonderful when I got into it. It was not as impressive as the Cologne; its interior not having the grandeur of the Dusseldorf but taken as a whole it is unquestionably the most beautiful I have yet seen. It is not as large as Cologne but I suppose a High Mass was being conducted, for there were about two organs and many brilliantly dressed priests. But what a choir there was! I never in all my days took an active interest in what was going on, although I sat there absolutely unintelligible. But all the time it was going on people kept coming in and out of the Cathedral, groups of tourists with guides which were explaining things and in steady conversation. The service lasted for an hour and a half.

Last night I spent on a beautiful sleeping car coming down from Mainz to Rome. What the latter city impressed me the fact that they are burdened with so much past! Ancient ruins appear throughout the city. And they are really ancient dating back to the eighth century before Christ. Cook's have a three days' tour of the city. Unfortunately for me the trip this morning consisted of the Roman Forum. It was all very interesting but I did miss getting into the Cathedrals.

I had another interesting experience this morning with a man from Minnesota. The only other train ride that could compare with the one I had today was in the summer of 1918 going from Oklahoma City to Fort Sill.

UNSUNG HEROES

It is a sad commentary on the ways of men that the world builds monuments to military leaders who slaughter thousands, while it permits a hero who offered his life that others might be saved, to suffer from want and suffering and actual hunger.

Attention has recently been called to the case of John E. Kissinger, living in Huntington county, Indiana, who was one of two privates in the United States army risking their lives in 1900 by permitting themselves to be infected by the yellow fever mosquito. The experiments which followed provided knowledge of the disease which has resulted in the almost complete eradication of the disease.

If it were not for heroes of the type of this man, the world would be harassed by many deadly contagious diseases. They have been conquered by the self sacrifice of individuals whose deeds lack the spectacular, but nevertheless are the true forms of heroism.

ABSORBING SUNSHINE

Picnic meals during the summer months are not alone for the resting chance for the family, according to food specialists. During approximately four months of the year most of us have to absorb enough sunshine to last our bodies all thru the year.

In a different way, but just as important, our bodies need sunshine to grow just as the plants do. It is good for the disease, then, to get outdoors—out of doors if he does indoor work. It is particularly good for children to get this extra period of sunshine and fresh air. The mother herself after she has profited a little in the way of... preparing... should... will find this labor-saving... in cooking and dish washing is a pleasant variety for her.

Eat out-of-doors, by all means, wherever you can. If you cannot go to the woods or park perhaps you have a grassy backyard that can be a picnic ground. LORENZ CONTINUES STORY ABOUT TRIP

Visits Home of Forefathers in Germany; Travels Thru Switzerland and Italy

Times readers may continue their trip thru Europe in another communication from Rev. E. H. Lorenz, local Presbyterian pastor who writes interestingly about his journey in the way to the Holy Land following attendance at the Eastern International convention in Ostend, Belgium. Following is the second installment of a series received by The Times last week:

The ride from Cologne to Coblenz was very uninteresting and I regretted greatly that I had not been given a chance to see the wonderful part of the Rhine for some of it is reputed to be the finest scenery. There are mountains on either side and the cultivation of grape vines goes up to the very top in a most remarkable way. There is also a castle on the hills, some of them in ruins, others in repair.

The boat arrived at Mainz at nine that evening and I was scheduled to stay there two days. The next morning I had the most unusual and interesting experience of being in the same church where my Grandfather and Grandmother were confirmed. Due to a mistake on the part of the guide I went to the service at the target of the sermon. Perhaps it was just as well for I could understand that night at 7:30 A. M. I could by going to Frankfort get on at 11:36. It might interest you to know that the railroads use the twenty-four hour system and they have to re-train the... in the beginning.

But the day closed happily for when I got back to the station I ran into a Russian who had been on the Caucasian... with whom I talked for... before we parted I found that he knew... Lorenz... and... Lorenz... Lorenz... Lorenz

Co-op. Ships 3 Kinds of Produce in Carload Lots

Three different kinds of farm produce were loaded on cars here Saturday by the Thief River Valley Cooperative Poultry association, reports Manager H. O. Norby. A second carload of wool for the Minnesota Cooperative Wool Growers association with headquarters at Wabasha was shipped by the farmers of the community, and the second car of live poultry this season was loaded. The usual carload of eggs also went out from here.

The poultry market is strengthening and another car will likely be loaded next week, Mr. Norby says.

Saturday, for the first time, the car of lumber was carried the Lake Region brand management, conspicuously displayed on its sides.

Members of the executive board of the association met at the creamery last Thursday. The session was attended by H. L. Hobson of St. Paul, assistant manager of the Lake Region Egg & Poultry Exchange; Mr. Norby, Chet Swart, E. J. McCann, and Waldie Christensen, Thief River Falls; W. F. Nelson, St. Hilaire; Geo. Olson, Middle River, and A. M. Dunton, Bagley. Routine business was attended to and plans considered for the fall poultry business. A favorable outlook for the turkey crop is reported.

SILVERTON

The Silverton Young Peoples Society will meet on Sunday July 17 at the Butteress home. Miss Nova Huttness and Mrs. Gertie Nordahl will entertain. Everyone will be welcome.

Council Allows Large Bills; Property Owners Ordered to Trim Trees

Nearly $10,000 was allowed by the city council at its regular meeting Tuesday. Mr. Hunsinger perfor be ing for paving and cain construction. The Northern Construction Co., Grand Forks, was given the sum of $6,250.87, subject to the acceptance of the paving by the state highway department, while Engineer W. B. Stevenson, was given the balance of $171.27. The McKenzie Hague Co., was allowed $2,462 on their fourth estimate, while the Jacobson Engineering Co., was given $1,000 on their third monthly payment of $2500. The regular list of monthly bills was also allowed. However, despite the heavy drain on city funds, the report of Clerk, G. G. Pederson, showed a balance the first of the month of $29,247.36 on hand.

Informal complaint having been made to various aldermen about branches of trees over sidewalks being low that they fairly scrape the faces of pedestrians, the council asked the mayor to have police department notify property owners to trim their trees so that they would not be a nuisance, failure to do which will result in the street department doing it and the cost thereof assessed in the property owner.

Many monthly communications were received from the Red Lake-Ice Co., asking for the installation of city similar.

scales and from the McKenzie Hague Co., regarding difficulties they have encountered in the construction of the dam. Both were ordered filed.

Reports of the city treasurer, clerk, city inspector and justice of municipal court were received and ordered filed. Following allowance of a soft drink license to the Rhodegard Co., the council adjourned.

LOCAL CITIZENS IN COLLISION AT TELEPHONE

The following item of interest here appeared in last week's issue of the Red Lake Falls Gazette:

"An accident which may have proved serious occured at 10 o'clock Friday evening about a half mile east of Terrebonne when a Ford touring car occupied by Rev. Thue, Norman of Brooks, collided with a Ford touring car occupied by four young folks of Thief River Falls.

"The Norman car was going east on the highway when it was met by the Thief River car going in the opposite direction. The drivers evidently became blinded by the lights and collision was thought unavoidable.

"It. C. Zeh, Jim Kelly, Lillian Krohn and Alice Erickson, all of Thief River Falls occupied the Ford car. Mr. Zeh. Occupants of the cars were uninjured and the cars received slight damage, the Zeh car suffered a smashed fender, damage to the Norman car was very

Landmarks of the Air

The Standard Oil Company (Indiana) is contributing to American flying in very practical ways. One outstanding contribution is an increasing program of marking air trails by guide marks painted on the roofs of its warehouses.

When the need arises, with the expansion of commercial aviation, these may be illuminated as guides for night flying.

The Air Mail has conclusively disposed of any misgivings about night flying. It has shown that not only is it practical and safe to fly at night when the right facilities are provided, but that there are atmospheric and other advantages in night flying.

It seems particularly appropriate that the Standard Oil Company (Indiana) should provide these landmarks of the air.

For years the signs of this Company have been familiar landmarks on all the highways and the byways of the ten great Middle Western States, and now this service is being extended to the air.

The Standard Oil Company (Indiana) has developed gasoline and motor oil to meet the requirements of every type of automobile and has distributed these products where they could be obtained conveniently throughout the Middle West.

Extending its service to meet the needs of transportation in the air, the technical division of this Company has developed special gasolines and lubricating oils for airplanes. It is now supplying a large part of the gasoline and oil for aviation.

The Standard Oil Company (Indiana) has existed for the purpose of furnishing free maps of the fin states, charting places of interest and beauty, publishing information about them, and giving their exact locations on standard highways.

To paint the way to aviators, by means of airway designation on the roofs of its warehouses, is but an expansion of this service to the air, as well as on the land, the Standard Oil Company (Indiana) will act as a friendly guide.

This Company is always found in the front rank of progress. In the early days it went ahead with the pioneers and helped to chart the uncharted prairies of the Middle West.

Today this organization is going ahead with the pioneers of the air, helping to chart the uncharted skies.

With the expansion of knowledge and scientific skill, the slogan of the Standard Oil Company (Indiana) is being expanded.

The Standard Oil Company (Indiana) is contributing to American flying, having demonstrated its practical advantages in its own organization, because the management of this Company believes that commercial aviation is important to the well-being and prosperity of the thirty million people with whom it serves.

LANDMARK TORN DOWN

One of the oldest landmarks in the city is this week being dismantled. It is the old Kretschmer home on Labrie avenue near the dam. The residence was one of the best in the city when erected, and for many years was often visited on account of the location, being on the high ground just above the dam, from where a splendid view could be obtained of the river above, as well as of the mill site across the water.

The North Star Ladies' quartet from Warren furnished the musical number for the Luther League program in the Augustana Lutheran church Sunday afternoon. They will return in the near future to give a full concert in the church.

Cost of Producing Major Crops Told To Farmers

Farmers of the Red River Valley, as a tour of the new Farm Management route in the vicinity of Crookston under the direction of the department of agriculture, University of Minnesota, July 5 and 6, will learn where a careful check had been kept, cost per acre.

Edward A. Pont of the farm management division at University Farm St. Paul, will be the instructor in farm meetings as follows:

Cost per bushel of producing wheat, 54 cents; this at the December selling price of $1.25 left the farmers an average margin of 41 cents per bushel and brought the average farm per acre hour of $1.13.

Cost per bushel of flax, $1.43. This at the December selling price of $2.50 per bushel, left a net return per bushel of 82 cents and gave a return per man hour of 99 cents.

Cost per unit of sugar beets $6.42. With the December price at $6 per ton, left a margin of 42 cents per ton and gave a return of per man hour of $1.01.

The results of the farm management route will again be explained by Prof. Andrew Boss at the annual Red River Valley Crops and Soils association at the Crookston experiment next Monday, July 18. The business meeting with election of officers will be held in the forenoon, the afternoon to be devoted to a program and inspection of the experiment station. It is likely that a delegation of Pennington county farmers will attend, says J. J. McCann.

Several new experiments have been started this year in addition to many new and interesting varieties of crops, including oats, barley, flax, alfalfa, etc.

CITY GETS WRITEUP IN TOURIST BOOKLET

Excellent Publicity Given Thief River Falls and Red Lake in "Recreation Days"

"Recreation Days" the most complete booklet ever compiled giving information on the playgrounds of Minnesota, resorts, hotels and the attractions of various communities has just been printed according to H. C. Hostling, secretary of the Ten Thousand Lakes Association, under whose auspices the book is appearing. Extensive writeups about Thief River Falls and the Red Lake summer resort appear in the booklet.

In this publication will be found also every village or city in the State with a population of 500 or more and even less provided the community is a resort center. Information is given concerning state parks, golf courses, hotels, resorts, places of historic interest, singing societies, fishing laws, state automobile traffic regulations, tourist camps, railroad excursions as well as transcontinental mileages from important Gateway cities throughout the United States and a complete road log covering the 7,000 miles of state trunk highway.

In its treatment of the playgrounds of the state the same complete information concerning the attractions of Minnesota as a place in which to live. For each community in addition to writing up its playgrounds attractions there is also a writeup concerning the industrial and agricultural activities.

Following is the writeup which appears in Recreation Days for the city of Thief River Falls, Pennington county, population, 3000 miles from the Northwest of the Twin Cities on the Thief and Red Lake Rivers, Northern Railroads. Leading industries: first mills and wood working. On Minnesota Trunk Highway 32 between Red Lake Falls and Warren. Thief River Falls to Warren. Bus to Crookston and Warroad on Lake of the Woods. There were 14 cabins in the tourist camp last Sunday, in which the team match last Sunday, in which the team headed by President J. P. Curtis downed Ed Bjerke of Vice President Clemmie 419 to 533.

In the match against par, President Curtis, familiarly known on the links as "Judge" had one of those days when he was only free clubs, led all comers by a comfortable margin. He took only 39 strokes for the 18 holes and negotiated the 3,400 yards in 1:34. He was six up on par on the home stretch.

The approaching and putting contest was won by Ed Bjerke, who used eight strokes to hole three balls.

Hilton Larson and Wm. E. Pahlquist tied in the blind bogey match held on the previous Sunday.

H. O. Chemnie, W. A. Barnard, and Kerr Olden have announced their intentions of competing in the annual International Birchmont tournament to Bemidji tomorrow, Saturday, and Sunday.

NEW PAVEMENT WILL BE OPENED TO TRAFFIC FRI.

A crew of men has been at work the past week and are running the scrap of dirt from the pavement recently laid on Main and Riverside avenues; preparatory to the opening of the same to public travel. According to W. B. Sewell of the highway department, the street will be open for heavy traffic on Friday, the necessary time having elapsed since the pavement was laid for it to have been properly "cured" and undoubtedly the last street will be subjected to an abnormally increased traffic for a few days while people inspect the same.

CITY TO BE DRESSED UP FOR MINNESOTA A. F. O. E.

Preparations are underway to secure appropriate decorations for the downtown district of the city during the forthcoming Elks convention, Aug. 21, 22 and 23, at which time there will predominate, according to the arrangements now under way, what will be augmented by various Elks symbols and color decorations, while plans are on foot to prevail upon the store co-operate in decorating their store fronts the same as they did two years ago when the state Legion convention was held here.

Pennington Delegation Visits Northwest School

The following item appeared in the July 9 issue of the Crookston Daily Times:

"Pennington county and Red Lake county have been included in today's visitation at the Northwest School. The tour has been made up of five township organizations. Bray, Folk Center, Black River and Sanders; townships of Pennington county and Wyte township of Red Lake county were the districts represented. The visit were the districts represented. The visit were counties are in the western part of the district. Located in the vicinity of the Black River farmers are just on the edge of the sand ridge. Good soil and good crops were said by the members here to be responsible for the favorable conditions existing.

"The farmers present today said that haying has already begun, and promises to be a good crop. Alfalfa is being grown in increasing amounts.

"We are trying to help make Pennington county the home of alfalfa," said Ed Gerhardt, of historic interest, hunting and fishing laws, state some of the men said and announced that the visit had proved a good one. Although the county is boosting sentimental mileages from important Gateway cities throughout the United States and a complete road log covering the 7,000 miles of state trunk highway.

"We want as many as possible to enroll now," Mr. Tuleen says, "so that we can get started before the opening of the school term."

Following is the personnel of the present boys band:

Bb cornet—M. Owen, E. Hiser, O. Hanson, J. Korstad, J. Malone, C. Thuen, W. Craik, P. Assaby, A. Stamm, and C. Berg; Eb clarinets—O. Johnson, K. Craik, and C. Friestad; Eb clarinet—A. Angell; alcaxophone—H. Lane, E. Helliquist. C. Offerdahl, and L. Johnson; C—saxophone—H. Heiderman; Eb saxophones—A. Anderson, H. Nelson, F. Kiewel, and E. Bellamy; bass—Swanborn and W. Nath; drums—W. Froehlich, R. Lonson, and A. Lorentzen.

When the beginners show sufficient skill in handling their instruments they will be transferred to the older juvenile band, while the best players from the latter band will be added to the municipal band.

Mr. Tuleen probably the greatest factor in building up the character, mind, and health of the youth of Thief River Falls.

"Recent surveys show that the increased at the rate of 100 per cent in 10 years, and that 40 per cent of the high schools have bands, and 60 per cent orchestras. There is a real reason for this. The educational machinery in music study plays an instrument has advantages over those who do not. Music makes good students better. It helps build character. It gives the pupil concentration, alertness, alertness, quick and imagination, and a social and cultural asset that cannot be measured in dollars and cents. It also helps his health and morals. Music is a relief to an overtaxed mind by producing.

"We have a problem in finding wholesome recreation for their children. Band and orchestra work furnish an ideal outlet for the energies of the 'gang' which might otherwise find its ways into nearly so healthful. While the child is growing up, the time to imbue him with music.

Verse by President Tells of Joys Hibbing Prepares

Returning to Minneapolis by bus following her Hibbing visit recently in connection with Legion and Auxiliary state convention, August 8-9-10, Mrs. Ethel Bishop, president, was inspired to verse her pleasant reaction and appreciation of the good times folks will have as guests of "The Little Land of America."

Izzy, Pat, and Hubert, Dears!
We are here; We are here!
Hibbing's grand and fine and grand—
The best town in the land!
Our convention is just great.
We're enjoying it first rate;
Say three will have no charm
And the ocean might alarm.
Since we've been to Hibbing town.

At a meeting of the Thief River Falls Unit last week, the following were elected delegates to the Hibbing convention: Mrs. H. A. Provencher, Mrs. Art Auringer, Mrs. Kern Olson, and Mrs. Geo. Nelson.

Mrs. Bishop will head the delegation of Minneapolis women who are making final plans to sail to France to attend the national convention of the American Legion Auxiliary to be conducted in conjunction with the Legion convention in Paris, September 19 to 23. Because of the great number of men and women who will attend, a final plans must be completed to insure.

Mrs. C. G. Hemke, president of the Veeli Kyle unit, Minneapolis, has been the financial interpreter.

The official costume of the Auxiliary members while in Paris will be a cape of Legion blue, with the Auxiliary emblem on the shoulder and tiered in gold colored satteen. In the parade the women will wear these capes over white dresses and white shoes, and blue tam-shanters with the name of their state embroidered on them.

Besides attending the convention, many of the Minnesota women are planning to be members of post conduction tours, which will include Germany, Italy, southern France, England and Holland.

Mrs. Bishop will address the Eighth district meeting of the Legion and Auxiliary in Coleraine Saturday, and has been invited to attend the North Dakota Auxiliary convention in Fargo July 16-20. She will address the convention Monday and Tuesday she is to be a guest at the Distinguished Guests dinner.

Miss Alma Engh and Se'mer Wahlbeck of St. Hilaire were pleasant guests at the home of Mr. and Mrs. P. Mattson.

SECOND JUVENILE BAND IS PROPOSED

Director Tuleen Issues Call for Beginners to Start in New Organization

Thief River Falls already has one fine juvenile band and another will be organized this summer if sufficient interest is shown by the boys and girls of the city, according to announcement this week by L. P. Tuleen who is just rounding out his first year as band director here. There are now more than 30 in the boys band, but it is hoped to increase this number to 50 by the opening of the school year by the organization of a second unit.

Any boy or girl eight years of age or over may join this new band. No previous musical training is necessary, Leo Phillip Zak and Hakon Johnson, Mr. Tuleen, who urges all those who are interested to notify him at once.

"We want as many as possible to enroll now," Mr. Tuleen says, "so that we can get started before the opening of the school term."

Following is the personnel of the present boys band:

Bb cornet—M. Owen, E. Hiser, O. Hanson, J. Korstad, J. Malone, C. Thuen, W. Craik, P. Assaby, A. Stamm, and C. Berg; Eb clarinets—O. Johnson, K. Craik, and C. Friestad; Eb clarinet—A. Game With Long-Whiskered Players is Entertaining

The House of David club and the local enjoyed the baseball game played by the House of David clubsand the local grounds last Thursday evening. The long-haired visitors are all ball players of high caliber, some of them having been drawn from the big leagues, and the outcome was not disappointing, namely a 3 to 10 defeat for the locals. The visitors are a clean, entertaining lot, the comical antics of the vegetarian ball tossers being much their own way through the contest.

The "Soldier Canoe" race was a pleasant feature before the game.

Blair of Red Lake Falls caught for the House of David club and Ray Spooner performed on the mound in good style. Mr. H. Jackson of St. Hilaire also played with the locals, others in the lineup being A. Robbins, Tamberg, Parenteau, Dicken, Kelly, and Dostal. The House of David outfit had a fine batting battery with perfect support in the field.

The only disappointment for some visitors to the game was the fact that only one member of the club had long hair.

PLUMMER MAN HURT IN GR. FORKS PLANE CRASH

Ray Westerman, farmer near Plummer, and Ole Fahlin, Grand Forks airplane pilot, were injured when Fahlin's plane, in which Westerman was a passenger, crashed from a height of 200 feet at the North Dakota State Fair at Grand Forks Monday evening. Westerman's injuries include a broken arm, and a badly torn thigh, but is reported to be improving satisfactorily. Fahlin suffered only a slight bump on the head.

State Livestock Specialist To Judge at Pennington Fair

W. E. Morris of St. Paul, recently appointed livestock specialist with the extension division of the university, has again been secured to judge the dairy cattle and horse exhibits at the Pennington county fair August 2-4. Other judges will be announced next week, says Secretary J. E. Hutchens.

Prospective livestock exhibitors are reminded of the fact that entries for premium money must be made with Secretary McCann not later than July 24, so that outside exhibitors may be accommodated if there is sufficient room in the barns. Local exhibitors, however, will be given preference if entries are made according to the rules. Applications have already been received from half a dozen stockmen who wish to use the barns at the fair here if room can be provided. It is hoped that the barns will be provided fully filled with local stock which has proven to be among the best in the state.

An increased number of sheep and hog entries is also being sought, and special large exhibit of Guernseys and other dairy cattle is assured.

All entries must be on the grounds at noon of the first day, Wednesday, the judging may be started in the afternoon.

ATTEND GRAND FORKS FAIR

A number of Thief River Falls citizens are attending the North Dakota State fair at Grand Forks this week. Yesterday was automobile day with a style revue in the afternoon. Tomorrow night the Queen of the Queen of the State Fair will be crowned with appropriate ceremony. Miss Black, known to many here, represents Grand Forks in the contest. The fair closed with a special program of auto races.

RAYSON NOPER RE-ELECTED TO SCHOOL BOARD

Get All of 47 Votes Cast in Quiet Election Tuesday; No Other Candidates

CURRENT EXPENSES ARE REDUCED NEARLY $6,000

Kept Below Budget Prepared by Supt. Bye at Opening of School Year

L. M. Rayson, chief clerk in the Noper Line offices here, and V. C. Noper, farmer, were elected as members of the board of education of Independent School District No. 15 for a term of three years at the annual meeting and election held in the auditorium Tuesday. They were the only candidates for election whose names appeared on the ballot, and practically every one of the 47 votes cast, indicating the district's satisfaction with their work.

This year's election was a tame affair as compared with last year's, when nearly 1,000 persons turned out to vote.

Mr. Rayson has served on the school board seven years, coming here as appointed to fill the unexpired term of P. O. Skinner, who left the city before the close of the board six years. Mr. Noper was elected three years ago.

Both men are efficient in the manner in which school affairs are handled by the superintendent and board is expressed by school patrons.

No New Business

A brief business session, attended by about 14 persons, preceded balloting. Reading of the annual report of the clerk, Mrs. L. G. Larsen, was dispensed with and the report of Treasurer Sigurdson was approved. No new business was brought up. The tax levy described in the notice of the annual meeting of the organization meeting on August 6. The levy effective this year is $70,000, the rate being 53.8 mills.

Interesting Data

The clerk's report revealed two especially interesting items, that the current expenses for the Thief River Falls schools during the fiscal year just closed is nearly $6,000 less than the budget for the previous year and that expenditures were $3,000 below the budget prepared last fall by Superintendent Herris Bye and approved by the board.

A substantial reduction in the bonded indebtedness of the district and a $5,000 increase in the cash balance are also noted.

The current expenses during the year ending June 30 were $92,000 as compared with a total of $97,000 the preceding year. The 1925-27 budget called for expenditures of $98,183. Supt. Bye being able to estimate the expenses for the year with the exact amount required to keep the educational machinery in motion, giving evidence of close attention to financial administration.

The cash balance in 1926 was $22,450, while the cash this year were the cash balance in 1926 was $22,450, while the cash this year were the cash balance with a balance of $27,885.

The sinking fund was raised to $42,366, the sum of $10,000 being added the last year for the bolter of the board to add $10,000 annually to the sinking fund for the purpose of paying bonds as they become due, which according to present program, will be retired by 1940. The sum of $1,000 in private bonds will be wiped out in 1930.

The sum of $11,120, due in 1928, was paid last year, leaving only $10,000 next year thus making it unnecessary for the state to levy for that purpose this year, thus making possible a substantial saving in interest money. The district's bonded indebtedness after July 1, 1928 will be $230,000, a reduction of $30,000 in two years.

Band to Play Concert in Band Stand Saturday

Another public band concert has been arranged by Director L. P. Tuleen who announces that the municipal band will appear in the evening program Saturday, this week, commencing at 7:30 p. m. It is expected that a large crowd of out of town persons will come to Thief River Falls that evening to hear the local musicians who are practising diligently twice a week to provide worthwhile entertainment.

At a meeting of the municipal band Monday, it was voted to play for each concert each Thursday evening during August.

Lindbergh's ... York to Paris Flight to be Shown

Altho Colonel Chas. Lindberg is not scheduled to personally visit Thief River Falls on his tour of the United States in the interest of aviation, a number of citizens, crowds attending the Pennington county fair August 3-4 will be given the opportunity to see a duplication of his epochal New York to Paris flight as depicted in a fireworks feature arranged by the Northwestern Fireworks company of Duluth. It will be shown here exclusively in the northwest.

An exact replica of the Spirit of St. Louis, outlined in sparkling fireworks, will move across the fair grounds; between points designated as New York and Paris. This is only one of the many interesting features of the grand display of fireworks promised for Wednesday and Thursday nights of the fair program. It will be the biggest offering of its nature ever presented here, the fair management declares. Daylight fireworks will also be shown each day.

COUNTY BOARD SELLS $100 000 FUNDING BONDS

Bought by First National Bank and First Minneapolis Trust Company

INTEREST RATE IS 4½ PER CENT; $100 PREMIUM

Issued Serially to be Paid Up In 15 Years; To Call War-rants Soon

Pennington county funding bonds in the amount of $100,000 were sold to the First National bank of Thief River Falls and the First Minneapolis Trust company at the regular meeting of the county board of commissioners Thursday, when accepted joint bid calls for an interest rate of 4½ per cent, the purchasers to pay a premium of $100 on the issue.

The First National bank was represented by The M. Thronson, vice president, and the Minneapolis firm by Minneapolis, 4 9-4 per cent and $1000 denomination. The Ferris Welsh company, Minneapolis, was also represented but did not enter a final bid.

The meeting was attended by all the commissioners, and Auditor C. P. Anderson, and T. G. Fevenson of Minneapolis, municipal bond specialist for the latter company, who drew up the bonds here at the request of the board to take care of details in connection with the bond sale.

These funding bonds were authorized by the commissioners for the purpose of taking up and paying outstanding floating indebtedness of Pennington county, certificates of indebtedness issued against the road and bridge fund, and for the bonds in the maximum rate set by the commissioners.

The bonds are to be dated July 1, 1927; 100 in number, and in the denomination of $1000 each. The first year payable semi-annually. They will mature serially on July 1 in the years and amounts as follows: $6000 each year from 1928 to 1932, inclusive; $7000 each year from 1933 to 1942, both years inclusive, and $7000 in each of the years 1933 to 1942, both inclusive.

The county furnishes the printed bonds, the approving opinion of Messrs Lancaster, Simpson, Junell & Lancaster of Minneapolis, and the legal blank used in the contract with the purchasers.

Marshall county's bond issue of $250,000 to put the road and bridge fund on a cash basis was recently taken up by the State of Minnesota at the rate of 4½ per cent interest. The county sold similar bonds in the amount of $500,000 at 4½ per cent interest, purchased by a Minneapolis syndicate, while refunding bonds in the amount of $150,000 were sold to the Pembleton school district for 4½ per cent interest with a premium of $1,000.

The county treasurer will call in the warrants which are to be paid off with the proceeds of the bond sale, probably the latter part of August or early September in the banks carrying county funds, which is expected to be about the first of August.
